Financially, most of India's airlines were a miserable failure. Too many more air-operators than were warranted for the country's requirements; too many aeroplanes, far in excess of her present needs; duplication and overlapping of existing routes; paucity of both adequate and additional traffic potentiality; inadequacy of unexplored or untapped new routes, both in India and the neighbouring countries; lack of general prosperity among the travelling public; rigid Government control on fares relating to passengers, air-freight, and postal mail; the specified routes on which to operate on the basis of a licence issued by the Air Transport Licensing Board of the Government of India's Directorate-General of Civil Aviation; and highly prohibitive costs of aviation fuel and oil (in the case of Indian Airlines Corporation the aviation fuel tax alone amounts to over one crore of rupees) were some of the contributing factors, leading to the incurrence of huge losses by Indian civil air transport operators.

Carriage of a major portion of the postal mail, passenger traffic, and air-freight by night air services deprived the day air operators of what was formerly their legitimate due.

Fares at present obtaining in India, even for day services, are among the lowest in the world,

\* Name of aerodrome or location.

## PORTS

**ALLOTMENT under First Five-Year Plan...** major ports: Rs. 43-35 crores; minor: Rs. 2-41 crores.

**Allotment under the Second Plan:** major ports: Rs. 40 crores; minor ports: Rs. 5-33 crores.

There are six major ports in India.

For the rest, the ports declared open under the Ports Act are as follows. The figures in brackets give the number of working ports.

Andhra 13 (6); Orissa 9 (3); Madras 20 (14); Kerala 23 (11); Mysore 23 (10); Bombay 138 (approx. 111); Total 226 (approx. 150).

The following are classed as major ports: Bombay, Calcutta, Cochin, Madras, Kandla and Vishakhapatnam. They are directly under the Central Government. The rest are classed as Minor Ports and are under the administrative control of State Governments.

Technically a Major Port (as defined by the Ports Technical Committee) is one which is capable of taking in ocean-going steamers with a registered tonnage of 4,000 or more and berth them along wharves.

Mr. S. Nanjundiah, officer in charge of Vishakhapatnam Port, who made a special survey of minor ports for the Government of India suggested the following further classification of Minor Ports: Intermediate Ports, Minor Ports and Sub-Ports. Ports which have handled one lakh tons or more of cargo should be Intermediate Ports; ports which have handled cargo of less than one lakh but more than 1,500 tons should be Minor Ports; the remaining ports should be Sub-Ports or Petty Ports.

### INTERMEDIATE PORTS

According to this classification the Intermediate Ports will be as follows:

In Andhra: Kakina, Masulipatnam.  
In Madras: Cuddalore, Nagapattinam, Tuticorin

In Kerala: Kozhikode, Alleppey  
In Bombay: Okha, Broach, Ratnagiri, Bhavnagar, Veraval, Porbunder, Bedi, Nava Jakhli, Mandvi

In Mysore: Karwar.

The Minor Ports will be as follows:—

In Orissa: Chandbali, Puri, Gopalpur.  
In Andhra: Bhimilipatnam.

In Madras: Calingsapatnam, Porto Novo, Panbani, Dhanushkodi.

In Kerala: Quilon, Cannanore, Tellicherry, Badagira, Ponnani, Kasargod

In Mysore: Nalpe, Hunasikatta, Coondapur, Tadi, Ankola, Honavar, Bhatkal, Kunifa, Belikeri

In Bombay: Gogha, Dholera, Kavi, Surat, Bulsar, Bhilmora, Navsari, Dahau, Umergaon, Bassein, Vesawa, Ravadanda, Bankot, Dhabhol, Devghad, Jalghad, Mora, Achra, Vengurla, Vijaydurg, Jaitapur, Malvan, Dwarka, Kodinar, Cambay, Nankana, Rajpuri, Harnai, Dehej, Kalyan, Panvel, Kachanja, Murud, Sada-hivghad, Mahuva, Talaja, Victor, Jaffarabai, Sikha, Salaya, Jodiya, Nawabnagar, Mangrol, Mundra.

### PORT DEVELOPMENT

Among the recommendations of the Nanjundiah report (May 1951), are the following:

1. The existing Minor Ports should be classified into Intermediate, Minor and Sub-Ports. 2. An early decision should be taken about the construction and use of small size steam ships for the coastal trade. 3. Country craft industry must be fostered. Ports should provide facilities for their laying up, repairs, etc. 4. A certain measure of uniformity in Port dues may be brought about.

Among the recommendations of the West Coast Major Port Development Committee (April 1948) are the following: 1. There is an immediate need for a major port in the area covered

by Kathiawad and Kutch. 2. This major port should be at Kandla. 3. The existing ports in Kathiawad should be placed under one Port Commission.\*

Among the recommendations of the same Committee (July 1949) about a major port between Marmugao and Cochin are the following: 1. A deep-sea port for ships of large size and tonnage at all seasons of the year is necessary. 2. The port should be at Malpe. 3. A rail link should be provided from Malpe to the industrialized region centred on Bhadravati in Mysore. 4. The broad-gauge railway linking Malpe and Mangalore should be extended to Malpe.

The Kandla port was expected to be completed by the beginning of 1957.†

Towards the end of 1950, a National Harbour Board was set up in order to advise Government on port development.

The programme for the development of ports undertaken during the First Plan period was estimated to cost Rs. 63-43 crores. A provision of Rs. 45-76 crores was, however, made against which an expenditure of about Rs 31 crores was actually incurred.

A provision of Rs 45-33 has been included in the Second Plan for the entire programme relating to ports. Work will be started including schemes carried forward from the First Plan.

These are, however, expected to cost in all about Rs. 81-7 crores, distributed as follows: The figures are in Rs. crores.

Calcutta .. .. .	19-9
Bombay .. .. .	29-3
Madras .. .. .	9-2
Cochin .. .. .	4-0
Kandla .. .. .	14-0
Minor ports .. .. .	5-3
	81-7

### LIGHTHOUSES

There are 122 lighthouses along a coast of 4,340 miles including the Andaman and Nicobar Islands under the direct charge of the Central Government. In addition, there are "local" lighthouses maintained by the port authorities or the State Governments. The total number of lighthouses exceeds 1,700.\*\*

Under the Constitution, this is a Central responsibility.

Plans for the development and modernisation of lighthouses and provision of means of communication between them are expected to cost about Rs. 750 lakhs. Out of this, a sum of Rs. 80 lakhs was expected to be spent during the first Five-Year Plan, a sum of Rs 400 lakhs was expected to be spent during the second Five-Year Plan, and the balance of Rs 270 lakhs would be left over to be spent after the Second Plan period.

During 1955 new powerful lights were installed at Mangrol and Okha. Eighteen light buoys for the first and second stages of the Kandla Buoyage Scheme were laid in Kandla Approach Channel. Improvements of lights at Puri, False Point, Vakalapudi, Uttan Point and Diu-Head were nearing completion. Preliminary work regarding improvement of existing lights and construction of new lights at Kollhottam, Mandvi, Jegri, Jakhau, Jaffarabad, Methivili, Tolleshwar, Tarapore Point, Gogha and Rajapuri Point had been taken in hand. Plans were in progress for installation of Radio Beacons at False Point, Khanderi Island, Diu-Head and Vengurla Rocks; Radars at Khanderi, Saugor Island and Kandla Port and two "Decca" Navigator Chains one each on the West and East Coasts.

Five new lighthouses with modern equipment were expected to be installed by the Union Lighthouse Department in 1957.

Of these, the new lighthouse at Dolphin's Nose, with a beam intensity of 7,000,000 candles and 40-miles range, would, according to experts, rate as one of the most powerful in the world. The elevation of the light at Dolphin's Nose will be 560 feet above sea-level. Electric power will be supplied by five generators.

The Pentakota lighthouse now under construction will have a range of light of about 10 miles.

The Quilon lighthouse, has a beam intensity of 1,000,000 candles and a range of 15 to 20 miles. The 200,000 candle earlier nineteenth century lighthouse at Quilon has been stepped up to 1,000,000 candles by making use of a new electricity process evolved by the Union Lighthouse Department. By utilising the process, a saving of about Rs. 3 lakhs is expected to be effected.

The other three lighthouses, which were likely to be completed in 1957, were the Perotat Island lighthouse with a beam intensity of 500,000 candles and a range of 15 miles, the Bhatkal lighthouse (beam intensity 1,000,000 candles, range 15 to 20 miles) and the Korlai lighthouse (beam intensity 30,000 candles and range about 10 miles).

The rate of light dues was raised in July 1953 from As. 2 to As. 4 per ton on ships other than sailing ships. There was however no increase in the rate of light dues on sailing ships which remained at Anna 1 per ton.

### BOMBAY

The Port of Bombay is over 75 square miles in extent.

The Bombay Port Trust, which was constituted by Government in 1873, was administered by a Chairman appointed by Government and a Board of 24 Trustees, 10 of whom are nominated by Government, 2 elected by the Bombay Chamber of Commerce, 6 by the Indian Merchants' Chamber, 1 by the Maharashtra Chamber of Commerce, 2 by the Municipal Corporation, 1 by the Millowners' Association, 1 by the Indian National Steamship Owners' Association, Bombay, and 1 by the East India Cotton Association Limited, Bombay.

The entire administration is subject to the provisions of the Bombay Port Trust Act, 1879.

The main channel, which is approximately 14 miles in width, has silted recently and is at present under survey. The controlling depth may be considered as 27 feet, until the survey has been completed when this depth will be revised, as necessary.

Anchorage in the harbour with a depth of upto 31 feet below chart datum can be obtained.

The mean range of tide is 13-9 feet. Mean range at springs is 11-5 feet.

**Passenger Facilities.**—Trans-oceanic passenger traffic is mostly dealt with at the Ballard Pier Station. Coastal and Harbour Passenger traffic is dealt with at the New Ferry Wharf.

The total number of overseas passengers embarking and disembarking at Bombay in 1955-56 was 155,132 while the number of passengers carried by the coastal services was 778,578.

**Wet Docks.**—There are three wet docks, the main features of which are as follows:—

Number of Berths (excluding Harbour Walls).

Prince's Dock ..	12
Victoria Dock ..	13
Alexandra Dock ..	17

\* Both the recommendations have now been put through.

† Now almost completed.

\*\* Three lighthouses completed in 1957 are: Red Beacon, Kalwan, Chachhi.

The three Docks together have a water area of 104½ acres and about 4½ lineal miles of quayage; extensive open storage and shed and warehouse accommodation for the reception and storage of goods, exists.

**Dry Docks.**—The dimensions of the two Dry Docks are as follows:—

Dry Docks	Length—(1) Caisson in Inner Groove, (2) Caisson in Outer Groove.	Width at entrance.	Normal minimum depth of water over sill.
Moreweather Dock.	(1) 500'-0" (2) 525'-0"	65'-0" ..	22'-0" ..
Hughes Dock.	1000'-0" (divisible into two compartments of varying lengths)	100'-0"	33'-0"

Besides the wet docks described above, there are along the harbour front a number of 'bundars' or open wharves and basins where the traffic carried by sailing vessels is handled. These bundars, which provide an aggregate quayage of 41,000 lineal feet, are equipped with cranes and other facilities for loading, unloading and storing cargo. Coastal traffic constitutes a considerable proportion of the trade of the port and nearly a million and a half tons of cargo are handled annually at the bundars. The extensive **TIMBER PONDS** at Sewri, covering an area of over 60 acres, form an important feature of the bundars.

**Ballard Pier.**—Is a 1,500 ft. extension of the harbour wall on the west side of the Alexandra Dock entrance lock and is the arrival and departure berth for the foreign mail steamers and other large passenger liners. The station building comprises three platforms for tourist and other trains, a handsome concourse with waiting and refreshment rooms and a spacious baggage and customs hall.

**The Depots.**—The more important depots are:

**Grain Depot,** containing over a million square feet of shed accommodation and about 90,000 square feet of plinth area, is designed primarily for the storage of grain and seeds in bags.

**Cotton Depot,** is one of the largest and most up-to-date Depots of its kind in existence, and

covers an area of 432,500 square yards of reclaimed land on which the Port Trust has erected 178 fireproof ferro-concrete godowns equipped with sprinkler protection, 16 open sheds on pilthas and 225 open pilthas.

It has 16 covered platforms and 4 open pilthas for Railway reception and despatch, and a Railway Yard with 8 miles of track. There are within the Depot a Fire Brigade Salvage Corps Station, Dispensary, Canteen, Grain Shop and other facilities for the Trade.

**Manganese Ore Depot,** provides open storage accommodation of about 70,000 sq. yds. in 32 plots each fully equipped with Railway Sidings. The Depot has a weighbridge.

There are also special depots for coal, charcoal, iron, timber and other building materials, etc. several of which not only have railway facilities but also wharf fronts.

In addition, there are several large warehouses and godowns in the vicinity of the docks available for renting out for storage of grain, tobacco and other trade purposes, the largest of these godowns is the **RYAN GRAIN MARKET** providing storage accommodation of 225,000 sq. feet.

#### Port Trust Railway

The Port maintains its own railway system which handles more than 59 per cent of the railborne goods traffic of Bombay. Its yearly traffic to and from the trunk railways amounts to 3,573,000 tons, and its local station-to-station traffic is over 409,600 tons. The principal commodities carried are cotton, grain and seeds, oil-cake, manganese ore, sugar, kerosene and other bulk oils, coal, charcoal and china clay.

Though only 7.755 miles in actual length, it comprises over 134 miles of main lines and sidings all directly linked with the inter-railway exchange yard at Wadala, the various storage depots and the docks and wharves.

#### REVENUE AND EXPENDITURE FOR THE YEAR 1955-56

Revenue .. Rs	9,50,98,767	Total of general and pilotage accounts only.
Expenditure .. ..	6,88,76,788	

Statistics showing the number of vessels (exclusive of ferry steamers) which entered the docks and went alongside Harbour Walls or Pier Pan Oil Pier during the period 1951-52 to 1955-56 are given in the next column:

Year	Number	Net registered Tonnage
1951-52 ..	2,466	8,181,236
1952-53 ..	2,561	8,446,538
1953-54 ..	2,663	8,720,375
1954-55 ..	2,534	8,875,811
1955-56 ..	2,528	9,342,179

#### Board of Trustees (1955-57)

**Nominated by Government:** Chairman, L. T. Gholap, I.C.S., K. D. Billimoria, I.P., A. V. Venkateswaran, M. N. Chakravarti, M. Ganapati, P. K. Nayak, I.C.S., Dr. Nagendra Singh, I.C.S., Brig. E. A. Rodrigues, Commodore B. S. Soman, I.N., Dinkar Desai, H. N. Trivedi.

**Elected by the Bombay Chamber of Commerce:** S. M. Scott, E. A. Jenkins.

**Elected by the Indian Merchants' Chamber, Bombay:** B. D. Somani, Devji Rattansey, Ambalal Khlachand, Gordhandas Jadavji, Mathradas Haridas, C. H. Bhambhani.

**Elected by the East India Cotton Association Ltd., Bombay:** Madanmohan R. Ruia.

**Elected by the Indian National Steamship Owners' Association, Bombay:** H. M. Desai.

**Elected by the Maharashtra Chamber of Commerce, Bombay:** K. V. Apte.

**Elected by the Municipal Corporation of Greater Bombay:** Dr. S. G. Patel, Dabhyabhai V. Patel.

**Elected by the Millowners' Association, Bombay:** Sir Vithal Chandavarkar

#### PRINCIPAL OFFICERS

**Secretary,** E. H. Simoes.

**Chief Accountant,** I. B. Das Gupta.

**Chief Engineer,** S. B. Dalal.

**Deputy Chief Engineer,** K. G. Sarma.

**Docks Manager,** V. Vaz.

**Railway Manager,** J. N. Adagga.

**Deputy Conservator,** R. C. Vint.

**Harbour Master,** W. E. Brown.

**Estate Manager,** N. D. Baria.

**Controller of Stores,** P. V. Thadani.

**Chief Medical Officer,** Dr. N. V. Nene.

**Chief Labour Officer,** Batuk H. Mehta.

**Legal Adviser,** S. D. Nariman.

#### STATISTICS SHOWING CARGO HANDLED AT THE DOCKS AND BUNDERS DURING THE PERIOD 1951-52 to 1955-56

Year	Imports	Exports	Total
	Tons	Tons	Tons
1951-52 .. .. .	5,807,000	1,673,000	7,480,000
1952-53 .. .. .	4,963,000	1,943,000	6,938,000
1953-54 .. .. .	4,775,000	1,951,000	6,727,000
1954-55 .. .. .	5,030,000	1,964,000	7,584,000
1955-56 .. .. .	6,707,000	3,599,000	10,306,000

#### CALCUTTA

The Port of Calcutta is situated on the left bank of the River Hooghly which is formed by the uniting of the three off-takes from the parent river Ganges. The port is about 80 miles from the mouth of the river and 126 miles from

the Western Channel Light Vessel at Sandheads. The Port is administered by a Port Commission with jurisdiction under the Calcutta Port Act from Budge Budge to Konnagar.

The chief exports from Calcutta are coal, tea, jute, gunnies, bone and bone-meal, skins, hemp,

iron and steel manufactures, lac oil other than petroleum, scrap, ores, pig iron, hides and mica. The principal imports are salt, foodgrains and flour, machinery, petroleum, iron and steel, metals other than iron and steel, lubricating oil, cement, rubber, chemical products, soda, sugar, timber, tobacco, paint, varnish, etc.

**STATISTICS SHOWING CARGO HANDLED BY CALCUTTA, THE NUMBER OF PASSENGERS EMBARKED AND DISEMBARKED AND THE RECEIPTS AND EXPENDITURE, DURING THE PERIOD 1953-54 to 1955-56 :**

Year	Imports Tonnage	Exports Tonnage	Total Tonnage	Passengers Embarked	Passengers Disembarked	Revenue Income Rs. in lakhs	Expenditure Rs. in lakhs
1953-54	2,723,062	5,336,037	8,059,099	15,710	16,299	818	900
1954-55	3,240,436	4,573,377	7,813,813	11,854	11,673	883	922
1955-56	3,449,062	4,621,673	8,070,735	18,523	18,638	907	934

The largest vessel to enter the Port was 16,736 tons gross tonnage but speaking generally the ideal ship for the Port is a ship of under 650 feet in length, broad in beam and loading to a maximum of about 26 feet.

**Berths and Anchorages.**—Anchorages are available at Sagar Roads, Haldia, Kulp Diamond Harbour, Royapur, Udharia, Buj Buj and Garden Reach of which Royapur, Udharia, Buj Buj and Garden Reach are available only for deep laden vessels outward bound or in emergency. The other anchorages are used by ships on passage to and from the Port.

In the port ships lie to moorings when in the stream or alongside jetties with cables forward and aft. The largest man-of-war so far accepted in the Port has been 10,000 tons cruiser class and one berth is available for this class of ship.

**Accommodation (Kidderpore Docks).**—These consist of Nos. 1 and 2 Docks and Turning Basin. Dock No. 1 is 2,700 feet in length by 600 feet wide, with a depth of 30 feet of water and has twelve berths serving single-storey cargo sheds. Dock No. 2 has a length of 4,500 feet by 400 feet and also provides a depth of 30 feet of water. It has eight general berths serving single and double storeyed sheds and six coal berths including two mechanical loading berths while another one is being fitted with a mechanical coal loading plant.

**King George's Dock.**—This Dock comprises a lock entrance 700 feet long by 90 feet wide, four general cargo berths, one berth being converted into a heavy-lift yard berth with one 200 ton crane, one berth being converted into a semi-mechanical one berth and one berth used as an oil cum-laying up berth. Provision has been made in the Five Year plans for the construction of three additional general cargo berths, one by converting the existing oil berth at 'B' berth and two more at 'D' and 'H' berths and also for the conversion of existing 'C' berth into an oil cum-laying up berth.

**Dry Docks.**—Five dry docks, owned by the Port Commissioners, are available for the use of shipping, three in Kidderpore Docks and two in King George's Dock.

**Jetties.**—The Garden Reach Jetties consist of a coaling jetty for ships up to 400 feet in length and three jetties for ships up to 600 feet. One jetty which was burnt down by fire in 1951 is being restored with the provision of a single storeyed shed. The transit sheds are double storeyed. Calcutta jetties are situated on the riverside below Howrah Bridge. There are nine jetties with a total length of 4,735 feet, but only five of them viz. Nos. 2, 3, 7, 8 and 9 are available for ocean-going steamers.

**Wharves.**—Petroleum Wharves at Budge Budge are situated some 14 miles below the entrances to the docks.

**Warehouses.**—The Commissioners provide extensive warehouse accommodation consisting of two Tea Warehouses with extension having a storage area of 416,000 sq. ft., a grain and seeds depot at Kantapukur comprising 37 sheds with a storage area of about 1,053,168 sq. ft., two sheds at Jhijherapal with a storage area of 70,200 sq. ft., A and B Sheds at Kidderpore, and the Fairlie, Clive, Canning and Strand Warehouses situated close to the Calcutta Jetties with

a total floor area of about 292,200 sq. ft. Provision has been made for the construction of another six-storeyed warehouse for tea at Lybman Depot with 600,000 sq. ft. of covered accommodation.

**Coal.** There are at present six coaling berths at Kidderpore Dock No. 2 and one at Garden Reach Jetty.

**Overall Capacity of Port.**—Calcutta with the existing facilities has handled a sea-borne traffic of nearly 11 million tons a year without congestion or delay.

The total number of cargo boats licensed in the Port is 6,968, of which about 2,106 are steel lighters with a carrying capacity of about 130,825 tons.

**The Port Trust Railway.**—Communication between the various points in the Docks and Jetties including all the Commissioners' warehouses is maintained by the Commissioners' Railway which has 205 miles of permanent way and connects with the two main railway systems serving Calcutta. Goods can therefore be railed from any point on the Commissioners' premises to any part of India.

#### Commissioners

R. K. Mitra, I.C.S., *Chairman*; D. P. Anand, Capt. T. B. Bose, I.N.; A. Mitra, I.C.S.; B. C. Mallik, S. Sarangapany; B. K. Sen, Brig. K. S. Moghe; Dr. S. B. Dutt; J. N. Mukherjee, S. C. Gupta; A. N. Laha; A. Rajagopalan, Lal Chand Kanol, Matadin Khanan, W. R. B. Sample, N. Steinhilber, P. L. Sarangi, Biswanath Mukherjee, Jitendriya Bhowmick, I. N. Wankawala, Kall Mukherjee, A. C. Banerjee.

#### ADMINISTRATIVE STAFF

**Secretary.**—P. C. Mitter; **Traffic Manager.**—L. M. Hogan; **Chief Accountant.**—T. Eastment; **Chief Engineer.**—T. M. Mukherjee, B.Sc. (Hons) (Lond), M.I.E.E., A.M.I.E. (Ind), A.C.E.I., D.I.C.; **Controller of Stores.**—S. C. Das; **Chief Mechanical Engineer.**—P. C. Basu; **Deputy Conservator.**—Comdr. C. J. Mohan, I.N. (Retd.); **Harbour Master.**—E. H. Racey; **Port Pilotage Officer.**—B. D. Rossetto; **(Offg.) River Surveyor.**—T. M. Ashton; **Medical Officer.**—Dr. G. L. Vaidyan, M.B.B.S., F.R.C.S. (Ed.), D.L.O. (Lond), D.O.M.S. (Lond), F.R.F.P. & S. (Glasgow); **River Consulting Engineers and London Agents.**—Messrs. Rendel Palmer & Tritton.

#### COCHIN

The Port of Cochin, one of the six major ports of India is a natural harbour lying on the direct route to Australia and the Far East from Europe. It is open for deep-water traffic in the worst monsoons and provides a splendid anchorage at all times of the year. Any ship passing through the Suez Canal can enter the port even in the roughest weather.

The Port consists of an extensive area of sheltered backwaters behind an opening, 440 yards wide.

The Cochin Harbour Railway is connected with the Broad Gauge system of the Southern Railway. A metre gauge railway connecting Cochin with Quilon in the south is under construction.

The part of the railway line connecting Cochin and Kottayam is now open to traffic.

The entrance channel of the harbour is 450 ft. wide and about 4 miles long, buoyed on both sides according to regulations. The activities of the port are mainly centred in Willington Island which has been reclaimed from the backwaters by dredged soil from the inner channels.

Inside the harbour there are thirteen stream berths, one coal berth, four wharf berths and two tanker berths. Of the thirteen stream berths, one is a swinging berth capable of accommodating vessels upto 600 ft overall in length and 28 ft draft. Twelve are fore and aft berths in the Mattancherry channel. The tanker berths are in the Ennakulam channel which are provided with dolphins and connecting jetty and pipe line to the Ennakulam shore to facilitate the pumping of oil direct from vessels to the oil installations at Ennakulam.

At the north end of Willington Island, there is another berth known as the Boat Train Pier, consisting of tender and mooring dolphins, connected to shore by reinforced concrete jetties. This berth was originally meant for passenger ships. Work is on hand to convert this into an oil berth to enable the supply of bunker oil from the oil installation on Willington Island to vessels lying at the wharf berths through pipe lines.

The deep water wharf which is 2,200 ft. long can accommodate at a time 4 vessels of 450 ft. in length. A reinforced concrete frontage 1,900 ft. long and 35 ft. wide has been constructed thus eliminating the use of fender pontoons between the ship and the wharf.

A new deep water wharf on the eastern side of Willington Island, facing the Ennakulam Channel, to accommodate 4 vessels at a time with transit sheds, warehouses, bond and metre gauge railway sidings, cranes, offices, etc. is under construction. The work on the construction of a second coal berth on the western side of Willington Island facing the Mattancherry channel will be commenced very shortly.

The principal imports are foodgrains, mineral oils, coal, cashewnuts, hardware, metals, chemicals and provisions.

The principal exports are coir and coir products, tea, rubber, cashew kernels, ginger, pepper and spices.

Statistics showing the growth of the Port from 1951-52 to 1955-56.

Year	Imports	Exports	Total
	Tons	Tons	Tons
1951-52	1,262,638	318,209	1,580,847
1952-53	1,224,851	326,443	1,551,294
1953-54	1,233,501	323,681	1,557,182
1954-55	1,197,956	353,663	1,551,619
1955-56	1,220,836	387,851	1,608,687

The total number of passengers embarked and disembarked in 1955-56 was 861. Receipts and Expenditure in the same period were Rs. 76.75 lakhs and Rs. 67.65 lakhs.

The administration of the Port is in the hands of an Administrative officer working directly under the Ministry of Transport of the Government of India. He is assisted by an Advisory Committee consisting of the representatives of the Government of India, the Government of the State of Kerala, and the local Chambers of Commerce and Municipalities.

**Administrative Officer.**—M. S. Venkataraman, B.A.; **Chief Engineer.**—C. V. Venkateswaran, B.E.; **Deputy Conservator.**—B. M. Cholkar; **Harbour Master.**—M. V. K. Menon; **Traffic Manager.**—Topen Bhose, B.A.; **Chief Accountant.**—A. N. Aiyaswami, M.A.; **Secretary & Statistical Officer.**—J. Cyril Raj, M.A.; **Senior Medical Officer.**—Dr. V. K. Menon, M.B.B.S.; **Port Health Officer.**—Dr. K. Bhaskaran, M.B.B.S., D.F.H.

### KANDLA

The major port of Kandla now under construction consists of the following important units:—

An Oil Berth capable of taking Oil Tankers of about 16,000 tons deadweight capacity alongside it with two pipe lines 18" x 12" laid from the Oil Berth to the Oil Installations over a distance of 6 miles, for carrying black and white oils respectively.

A tidal basin 500' x 300' for lighters and sailing vessels with a provision of heavy lift gantry crane capable of lifting 60 ton lifts with two mooring berths opposite to it. The lighter wharf has alongside it 7 electric level luffing cranes of 3 tons, 6 tons and 10 tons capacity. There are spacious transit sheds and open stacking areas, on both the lighter and sailing vessel wharves.

A Floating Dock Berth with provision for mooring alongside it an R.C.C. Floating Dry Dock, with the necessary workshop facilities for repairing small crafts like tugs, dredgers, lighters etc.

Two passenger Landing Stages for passenger ferries with necessary facilities for passengers to move by railway trains from a railway station near the landing stages.

A Cargo Jetty 2,700' long with a provision for four 600' long deep water steamers with a draft up to 31' to come alongside it and for 21 electric level luffing cranes, on the quay, of 3 tons, 6 tons and 10 tons capacity.

Three large transit sheds each 450' x 140' with large open stacking areas around them and electrical lifts, chutes and other mobile mechanical handling equipment. Transit sheds are both road and railway served.

Four double storied warehouses each 500' x 120' with electrical lifts, chutes and other mobile mechanical handling equipment. Warehouses are connected to the transit sheds by wide bridges to enable the cargo to be removed in trolleys from the transit sheds to warehouses and vice versa with convenience. Warehouses are also both road and railway served.

Except for items 5, 6 and 7 which represent the cargo jetty group, other works are complete and under operations.

Mr. Jagjiwan Ram, Minister for Railways inaugurated on March 3, 1957, two cargo jetty berths at Kandla to usher in the final phase of the Rs. 14.1 crore major port project on the West Coast. The remaining two berths, when ready, will mark the completion of the harbour works at Kandla.

Kandla port, the first major port to be constructed since independence, will serve a hinterland of 275,000 square miles with a population of 45 millions.

The main items of harbour works at Kandla have already been pressed into service. The oil jetty was completed in November 1955; the bunker (lighter basin) was opened for traffic on June 29, 1955, the passenger berth catering for the launch traffic between Navakhli and Kandla was declared open on October 1, 1956 and the floating dock berth completed in December 1956.

Estimated cost of the project: About Rs. 14 crores. Amount so far spent on this project: Rs. 10.7 crores.

Large open stacking areas with necessary railway sidings and extensive lands for industries, workshops, etc. will soon become available.

The initial traffic of the port on completion of the works is likely to be 1,000,000 tons of cargo annually, of which 500,000 tons will be oils. The present tonnage that could be handled is 700,000 tons.

The traffic at the Port of Kandla during the year 1955-56 is as under:—

(a) Total imports during the year ..	205,390 tons.
(b) Total exports during the year ..	102,512 tons.
(c) No. of passengers embarked and disembarked ..	138,535 persons.
(d) The total volume of the trade during the year ..	307,902 tons.
(e) The total income of the year ..	Rs. 19,91,188-10-3.
(f) The total expenditure during the year ..	Rs. 9,35,811-10-6.

The Major Port of Kandla and the Kandla Port Project are under the administrative control of the Government of India in the Ministry of Transport. The Development Commissioner, Kandla is the head of these Organizations. He is assisted by a Port Advisory Committee consisting of four non-official and three official members, to advise him on all matters relating to the Port and the Port construction.

**Principal Officers.**—**Development Commissioner.** P. N. Saxena; **Financial Adviser & Chief Accounts Officer.** V. N. Singh; **Superintending Engineer (Harbour).** M. Ramabrahmam; **Superintending Engineer (General).** R. R. Sukhrani; **Deputy Conservator.** Capt. D. V. Singh; **Traffic Manager.** R. Srinivasan; **Secretary.** G. C. N Kapoor.

### MADRAS

The Madras Harbour is an artificial one formed by two arms projecting from a low, sandy coast.

The affairs of the Port are administered by a Board of Trustees which function under the Madras Port Trust Act. The Chairman is the Chief Executive Officer of the Board.

The Port is about 3/5 mile square (excluding boat basin, etc.) with an area of approximately 200 acres. Width at entrance 400 ft.; depth of water at entrance at high water 37 ft. and at low water 34 ft. Practically the whole of the enclosed harbour has a depth of 30 ft. at I.S.L.W. There are no navigational difficulties and the Port is approached direct from the open sea.

There is accommodation for 18 vessels inside the harbour, 9 at Moorings and 9 at Quays. The depth at moorings ranges from 28 ft. to 31 ft. 6 in. and at quays from 26 ft. to 30 ft. Pilotage is compulsory.

The Income and Expenditure for the year 1955-56 were Rs. 1,78,00,733 and Rs. 1,35,30,521 respectively.

Number of passengers embarked 27,524, and of number disembarked 33,264.

The chief imports are coal and coke, foodgrains, mineral oils, metals, timber, textiles, machinery, hardware, hides and skins, paper including old newspapers, dyeing and tanning substances, chemical manures, sugar, asphalt, chemicals, cotton, etc.

Ores, piecegoods, hides and skins (raw and tanned), onions, raw tobacco, twist and yarn, mica, etc. form the principal exports.

The export of groundnut oil is also an important item and three oil tanks have been erected for storing the oil.

Statistics showing the growth of the Port from 1950-51 to 1955-56.

Year	Imports	Exports	Total
	Tons	Tons	Tons
1950-51 ..	1,925,152	248,976	2,174,128
1951-52 ..	1,854,682	300,138	2,154,820
1952-53 ..	1,869,082	335,685	2,204,767
1953-54 ..	1,641,315	494,610	2,135,935
1954-55 ..	1,716,301	485,069	2,201,370
1955-56 ..	1,833,874	627,737	2,461,611

**Trustees of the Port: Appointed by Government.**—G. Venkateswara Ayyar, I.C.S., Chairman; A. C. Whitcher, Collector of Customs; T. A. Joseph, General Manager, Southern Railway; T. K. Palanisappam, I.A.S., Director of Industries and Commerce; D. Balasundaram, I.A.S., Commissioner, Corporation of Madras; T. Berry, Principal Officer, Mercantile Marine Department, Madras; The G.O.C., Madras Area; N. Vijayarangam and C. Govindarajula, Representatives of Labour.

**Elected by Commercial Bodies, etc.**—(Representing Corporation of Madras): P. N. Lakshminipathy; (Representing Madras Chamber of Commerce, Madras): P. Haddfield and J. R. Galloway; (Representing Southern India Chamber of Commerce): P. Maruthal Pillai, A. Nagappa Chettiar, B. N. Patel, Laldoss Govindoss and K. R. Sundaram Aiyer; (Representing the Andhra Chamber of Commerce): J. V. Somayajulu and Ch. Ramabrahmam; (Representing the Indian National Steamship Owners' Association, Bombay): M. M. Syed Mohamed.

### Administration

**Principal Officers.**—**Chief Engineer.**—K. N. Srinivasan, B.E., A.M.I.E.; **Deputy Chief Engineer.**—V. S. Ananthanarayanan; **Mechanical Engineer.**—P. C. Martin; **Electrical Engineer.**—V. R. Srinivasan; **Deputy Port Conservator.**—W. E. Vangeyzel; **Chief Accountant and Financial Adviser.**—K. Rangaswamy, M.A.; **Harbour Master.**—V. V. Seshadri; **Traffic Manager.**—V. A. Jaywant, B.A.; **Medical Officer.**—Dr. T. S. Subramaniam, M.B.B.S., F.R.F.P.S., D.T.M., D.T.H.; **Secretary.**—T. K. Parameswaran Nambiar, B.A.

### VISHAKAPATNAM

Vishakapatnam Harbour was created in order to supply an outlet for a large area of fertile country adjacent to the east coast of India, and for Madhya Pradesh with considerable mineral resources and no alternative access to the outside world. In 1933, the harbour was first opened for ocean-going vessels, and ships drawing up to 28 ft. 6 in. and having a length up to 560 ft. can now enter and leave the harbour at all times of the year. Under favourable states of tide, however, ships drawing 30 ft. can enter or leave the harbour by prior arrangements.

The harbour now provides the following facilities:

The inner harbour consists of a turning basin, four quay berths each 500 feet long and equipped with portal electric cranes, transit sheds, and railway lines, both behind and on the quay-side of the transit sheds and three concrete jetty and wharf berths for coal and oil. Besides, there are four mooring berths which are served by a fleet of lighters owned and operated by the port authorities and shallow

water channels with timber jetties for lightering work. The quay berths No. 1 and 2 are specially equipped and reserved for the expeditious handling of manganese and iron ore: on an average, approximately 3,000 tons are loaded in a day.

A 1,200 ft. long quay berth, capable of accommodating two oil tankers simultaneously, has been constructed to provide the necessary Port and Harbour facilities for the Caltex Oil Refinery at Vishakapatnam which is expected to go into full operation by the middle of 1957.

A Dry Dock 366 ft. by 60 ft. with a depth of 14 ft. below low water has been in use at the Port for the docking of vessels, but ordinarily only small craft not exceeding 300 ft. in length can be docked.

The Port has a Floating Crane capable of dealing with heavy lifts up to 50-ton capacity.

#### Income and Expenditure of the Port for the year

1955-56.		
	Receipts.	Expenditure.
	Rs.	Rs.
Port Fund ..	81,81,457	65,84,557
Pilotage Fund ..	1,65,995	1,22,799

Statistics showing total imports and exports handled during the five years from 1951-52 to 1955-56.

Year	Imports	Exports	Total
	Tons	Tons	Tons
1951-52 ..	290,085	936,627	1,226,712
1952-53 ..	152,554	1,047,741	1,200,295
1953-54 ..	185,824	1,205,015	1,390,839
1954-55 ..	239,510	795,725	1,035,235
1955-56 ..	228,406	1,094,648	1,323,054

The Port is administered by the Government of India, Ministry of Transport, New Delhi.

**Principal Officers.**—Port Administrative Officer and Port Conservator.—S. Nanjundiah, Vishakapatnam; Deputy Port Conservator and Harbour Master.—E. H. Glassup; Superintendent, Traffic.—V. P. Somayajulu; Superintendent, Mechanical.—A. W. De Lima.

## Broach Port

The following are figures for the year 1955-56  
—Number of passengers embarked and dis-  
embarked. Nil

Imports : 27,365 tons Exports : 10,499 tons.

Total income : Rs. 12,249-11-0 (Customs  
import duty Rs. 36-12; Landing and wharfage  
fee Rs. 103-14-6; Port dues Rs. 7,593-1-6,  
Customs and other recoveries Rs. 4,035-0-0,  
Light dues Rs. 421-0-0; Miscellaneous Rs. 60-0-0).

Total expenditure. Rs. 13,000 (Pay and  
allowances Rs. 10,000; Overtime allowances  
Rs. 2,800; Travelling allowance Rs. 200)

## MANGALORE PORT

Lat : 12° 51' 40" North; Long : 74° 49' 55"  
East.

Authority : Port Trust Board, Mangalore

Accommodation : Open roadstead Steamers  
anchor in 4 to 6 fathoms due west of entrance  
and are loaded and discharged by lighters.  
Approximately 50 lighters suitable for landing  
and shipping cargo with average capacity of 35  
tons each. Bar opposite Railway Bridge. Depth  
on bar : 7-9 ft. Low water Spring Tide; at quay  
7 feet L.W.O.S. Dry-Dock for Port Trust Craft  
110 feet by 30 feet depth on sill 4 ft. One ton  
crane, one 2 tons crane and one 5 tons crane.  
Craneage fee Rs. 1-2-0 per ton. No bunkers, and  
only minor repairs on shore.

Light House and Signal Station opposite Bar

One Steam Tug and one Motor Launch avail-  
able for towage on hire

Revenue & Expenditure : The particulars of  
Revenue receipts and expenditure of funds  
administered by the Mangalore Port Trust Board  
during the year 1955-56 were as follows :

Receipts Expendi-  
ture.  
Rs. Rs.

1. Mangalore Port Trust		
Fund	2,93,845	2,51,828
2. Mangalore Port Fund	1,36,091	1,29,386
3. Mangalore Pilotage		
Fund	2,103	2,277

Passengers embarked and disembarked : 7,152  
passengers embarked and 6,935 passengers dis-  
embarked during the year.

## Tonnage of Trade handled :

- (i) Imports : The Imports during the year  
amounted to 82,053 (approx.) tons  
(ii) Exports : The Exports during the year  
amounted to 2,01,834 (approx.) tons  
(iii) The total approximate weight of cargo  
handled at the Port during the year  
1955-56 was 2,83,887 tons

Names of officials : Chairman, M. G. Raja Ram,  
I.A.S., Vice-Chairman, V. S. Kudva; Port  
Officer and Secretary, M. L. Advani

# RAILWAYS

**T**HE total route mileage of all the railways in India on March 31, 1956 was 34,735.60. The total electrified route mileage was 244.24.

The total route mileage is made up of the following:

Govt. railways worked by Govt.—34,182 17.

Some railways are company-managed. The total route mileage of these railways on March 31, 1956 was 553.43 miles.

The total capital at charge on March 31, 1956 was Rs. 975.50 crores. On other than Government railways the capital at charge was Rs. 40.75 crores.

There are three kinds of gauge, broad (5 ft. 6 in.), metre (3 ft. 3½ in.) and narrow (2 ft. 6 in.). There is also a light gauge usually laid on the mountains (2 ft.). An example of this last is the Darjeeling-Himalayan.

The total route mileage by gauge was as follows:

Broad gauge: 10,142 10

Metre gauge: 15,305 04

Narrow gauge: 3,288 16

The fares (pies per mile) on March 31, 1957 were as follows:—

Air conditioned	..	{	1—300 (miles)	34
			301 and over	32
Second class	..	{	1—150 (miles)	18
			151—300 "	16
			301 and over	15

\* For under 50 miles .. .. . 5

## ZONAL ADMINISTRATION

The entire Government railway system is now grouped into seven administrations: the Southern Railway, the Western Railway, the Central Railway, the Northern Railway, the Eastern Railway, the South-Eastern Railway and the North-Eastern Railway.

The headquarters of the Southern Railway are at Madras, of the Western Railway at Bombay, of the Central Railway also at Bombay, of the Northern Railway at Delhi, of the Eastern Railway at Calcutta, of the South-Eastern Railway also at Calcutta and of the North-Eastern at Gorakhpur.

The non-Government railways are:

Ahmadpur-Katwa, Arrah-Sasaram Light (Shahabad, Bihar), Bankura-Damodar River (West Bengal), Bokhtarpur-Bihar Light (Patna), Bandwan-Katwa, Dehri-Rohas Light (Shahabad, Bihar), Futwa-Islampur, Howrah-Amra Light, Howrah-Sheakhala Light, Jagadhri Light, Kalyani-Falta, Shahdara-Saharanpur Light (Delhi).

The highest administrative authority for the railways is the Railway Board.

The Indian Railway Conference Association, New Delhi, is a sort of clearing house for all railways.

The railways are now organized on a Divisional basis.

There are a number of Committees which have been associated with the Railway Administration: Standing Finance Committee, Central Advisory Council, Railway Rates Tribunal, Indian Railway Fuel Committee.

There are also a number of standardization Committees such as for bridges, structure, track, signalling and inter-locking, building, locomotive, carriage and wagon, electrical, specifications.

There are also Railway Users' Consultative Committees at the zonal, regional and national level.

There are Railway Service Commissions in Bombay, Calcutta, Allahabad and Madras.

There is a training college for railway officers and staff at Baroda.

\* Presented on 19th March, 1957 to ask for a vote on account to defray the working expenses of the Railways for the succeeding five months. The estimates were based on the then existing level of fares and freights, and were subject to revision on the basis of the recommendations of the Railway Freight Structure Enquiry Committee. The Railway Minister said that the recommendations would be implemented when the final budget was introduced.

For details about the final budget see under 'Late Particulars'.

**ITEMS FROM REVIEW OF 1955-56**

Punctuality: Percentage of trains not losing time on the broad gauge was: all trains 77.99 (1954-55: 79.91); mail 70.84 (1954-55: 73.25); mixed 85.33 (1954-55: 84.71); Suburban trains 84.66 (1954-55: 84.54); passenger 74.65 (1954-55: 77.89).

On the metre gauge the position was: all trains 74.70 (1954-55: 77.80); mail 60.36 (1954-55: 63.85); mixed 74.33 (1954-55: 77.62); suburban 74.70 (1954-55: 85.59); passenger 71.54 (1954-55: 74.59).

Coal mined during 1955-56 was 38.46 million tons, the total quantity carried by rail was 35.34 million tons. The coal consumed by the railways was 12,314,735 tons.

During the year 435,694 claims for compensation were settled, while the number of claims that remained unsettled at the end of the year was 73,162. The average time taken to settle a claim was 51 days as against 61 in 1954-55. The number and value of the claims paid respectively was 46,595 and Rs. 67,01,574.

Number of ticketless travellers detected 6,902,114; amount of excess fare and penalty paid and realized Rs. 1,40,29,656.

Mileage of lines opened: 132.18; of lines under construction: 581.75; of lines closed: nil.

The new locomotives ordered during the year totalled 860 (broad gauge 245, metre gauge 609, narrow gauge 6).

The total number of locomotives placed on line was 668 (broad gauge 437, metre gauge 221, narrow gauge 10).

Out of the 245 broad gauge locomotives, orders for 230 locomotives were placed with Chittaranjan, three were ordered from Japan and 12 from the U.K.

Out of the 609 metre gauge orders, 170 were placed with TELCO and 439 abroad.

Orders for six narrow gauge steam locomotives were placed in Japan.

As regards coaching stock, besides utilizing all the available carriage building capacity in railway workshops orders were placed with manufacturers for 506 broad gauge and 250 metre gauge vehicles.

The number of coaching vehicles placed on lines was 449 broad gauge, 744 metre gauge and 48 narrow gauge.

Of these 283 broad gauge, 491 metre gauge and 48 narrow gauge were manufactured in the various railway workshops, 166 broad gauge were manufactured at Hindustan Aircraft Ltd., and 46 broad gauge and 253 metre gauge were imported.

The number of goods wagons ordered were 20,722 broad gauge and 14,446 metre gauge. Of these indigenous manufacture were 10,182 broad gauge and 6,460 metre gauge, foreign, 10,540 broad gauge and 8,386 metre gauge.

The number placed on line were broad gauge 10,518 and metre gauge 9,632. Of the broad gauge, indigenous manufacture were 9,389 and foreign 1,129. Of the metre gauge, indigenous manufacture were 6,056 and foreign 3,576.

The Chittaranjan works turned out 129 WG locomotives during 1955-56; the monthly output of boilers was 10. The cost of a locomotive was about Rs. 498 lakhs.

TELCO's output approximated to the target of 50 locomotives.

On 31st March 1956, the percentage of over-age stock to stock on line was as follows: locomotives: broad gauge 33.2; metre 25.8; narrow 33.7. Coaching stock in terms of units: broad gauge 32.8; metre 32.7; narrow 53.1. Wagon in terms of units: broad gauge 18.0; metre 21.2; narrow 51.6.

In absolute numbers the figures for locomotives were as follows: Broad gauge: on line 5,790; over-age 1,920. Metre gauge: on line 2,906; over-age 765. Narrow gauge: on line 416; over-age 140.

The figures for coaching stock were as follows: Broad gauge: on line 11,812; over-age 3,817. Metre gauge: on line 9,816; over-age 3,210. Narrow gauge: on line 1,393; over-age 740.

The figures for wagons were as follows: Broad gauge: on line 168,330; over-age 30,354. Metre gauge: on line 67,291; over-age 14,270. Narrow gauge: on line 5,435; over-age 2,806.

Percentage of steam locomotives awaiting repairs in workshops: broad gauge 5.28, metre gauge 6.72; in sheds and transportation shops: broad gauge 11.5, metre gauge 8.75.

About stores and equipment: total value of stores and equipment ordered Rs. 2,19,28.75 lakhs; the total payment made during the year Rs. 1,26.28 lakhs.

Of the payments made, direct imports were worth Rs 15.18.07 lakhs, imported material purchased in India Rs 17.44.75 lakhs, of Indian manufacture or origin Rs 93,61.99 lakhs or 74.16 per cent of the total.

The value of total purchases of khadi was Rs. 31,49,517. Total quantity in yards was 13,98,792. The number of pieces such as napkins, towels, etc., was 296,749.

The purchase of stores from cottage and small-scale industries was valued at Rs 3,18,95,831.

Twenty-two cases of theft of stores and other valuable material amounting to Rs 1,03,622 were reported. Twenty-one of these were reported to the police. Culprits were caught in three cases and the recovery of material amounted to Rs 8,198.

The total number of man-days lost as a result of strikes was as follows: legal 10,746; illegal 227,218.

### FIRST FIVE-YEAR PLAN

The target set and the total spent during the First Five-Year Plan is given below:

	Rs. crores	
	Targets	1951-56 Expenditure
Rolling stock and machinery ..	207.96	242.08
Track and Bridges ..	70.47	68.03
Other structural engineering works (Perambur Coach Factory, Chittaranjan, collieries, port, etc) ..	69.99	68.10
New lines, dismantling, electrification ..	34.18	33.35
Passenger amenities ..	15.00	13.34
Miscellaneous items ..	2.40	1.17
	400.00	423.73

The rolling stock acquired during the plan came to 1,586 locomotives, 61,254 wagons, 4,758 coaches. In spite of the large procurement the proportion of over-aged locomotives and wagons was higher at the end than at the beginning of the plan on the broad gauge, though it was lower on the metre gauge. In the position of the coaches there was however, an improvement.

Track renewal was in arrears to the extent of 7,000 miles for rails and 7,000 miles for sleepers.

Dismantled lines with a total mileage of 429.87 were restored and new lines with a total mileage of 379.98 opened for traffic. In addition about 453 miles of new lines were under construction. About 16 miles of narrow gauge lines were converted into metre gauge, and the conversion of 52 miles of metre into broad gauge was in progress.

Electrification of the Howrah-Burdwan main line and of the Tarakeswar branch was also started during the period. The Ganga Bridge project was also taken in hand at a cost of Rs. 16.20 crores and is expected to be completed and open for traffic in 1959.

The most important project completed during the Plan was the Chittaranjan Locomotive Works which during the period produced 341 locomotives. The Integral Coach Factory at Perambur the construction of which was taken in hand in July 1953 at a cost of Rs. 7.35 crores went into production in 1955-56 and had turned out 12 coaches during that year.\*

The drive towards self-sufficiency which was one of the main objectives of the Plan had a great measure of success. In that indigenous production increased from 3,707 wagons, 673 coaches and 27 locomotives in 1951-52 to 14,314 wagons, 1,221 coaches and 179 locomotives in 1955-56. A start had also been made with the development of indigenous capacity for manufacturing electrical multiple unit coaching stock by placing such orders with an Indian firm †.

As a result of certain measures taken there has also been a general improvement in operational efficiency. On the broad gauge, for instance, number of tons originating increased from 70.70 millions in 1950-51 to 87 in 1955-56, wagon miles per day from 38.7 to 46.3, engine miles per engine day from 107 to 111, net ton miles per wagon day from 434 to 541, percentage of engine under repair (fell) from 18.95 to 16.8, number of wagons per goods train (rose) from 47 to 49, net weight in tons per goods train from 479 to 528, train miles per running track mile per day fell from 17.0 to 11.7.

Traffic receipts rose from about Rs. 247 crores in 1950-51 to Rs. 316 crores in 1955-56. Ordinary working expenses rose from about Rs. 165 crores to about Rs. 212.95 crores. The dividend on capital rose from about Rs. 321 crores in 1950-51 to over 36 crores in 1955-56, reflecting the increase in the capital at charge from Rs. 827 crores to Rs. 969 crores. The depreciation reserve fund fell from Rs. 121 crores to Rs. 103½ crores. The Railway Reserve Fund rose from Rs. 11.1 crores to Rs. 46.9 crores.

Of the Rs. 423.73 crores spent on the First Plan, Rs. 284 crores were provided by the railways from their own resources, which was Rs. 36 crores short of the original figure of Rs. 320 crores planned to be found for them.

\* On April 12, 1957, the Factory turned out the 100th coach.

† It is expected that at the end of the Second Plan the Railways would be self-sufficient in locomotives and wagons.

## ROADS

**T**HE position of extra-municipal roads metalled and unmetalled as on March 31, 1951 (latest available) was as follows (in miles) :—

Metalled				Unmetalled	Total
Bituminous	Concrete	Water-bound macadam	Total surfaced		
14,396	1,467	86,065	101,928	145,491	247,419

The mileage of the national highways is 12,000. The four great trunk roads are 5,000 miles long.

The four great trunk roads, stretching diagonally across the country form the framework with which most of the important subsidiary roads are linked. The most famous is the ancient marching route—known as the Grand Trunk Road—which stretches right across the northern part of the country from Delhi to Calcutta; the other three connect Calcutta with Madras, Madras with Bombay and Bombay with Delhi, and the four of them together account for about 5,000 out of the 101,928 miles of surfaced roads in the country.

The national roads are not "all weather" roads according to modern standards. The Madras-Calcutta Road in particular is far from being bridged throughout its entire length.

As regards subsidiary roads, the best and most numerous are in South India. The worst served regions are Rajasthan and parts of the Punjab on the one hand, and Orissa and West Bengal on the other, the former owing to its aridity and sparse population, and the latter because of the numerous unbridged and mostly unbridgeable waterways which traverse it. In addition there are numerous other parts of the country, such as the lower Himalayas, which suffer from a dearth of communications owing to difficult terrain.

Besides surfaced roads, there is a very large mileage of "kutchra" roads amounting to approximately 114,491 miles, some of which are good for motor traffic during the dry weather.

The road mileage per 100,000 persons is 69, and per square mile 0.22.

The department in the Central Government which deals with the overall direction of the roads plan and co-ordination of State planning is the Roads Organisation under the Ministry of Transport. The chief official is the Roads Adviser who is also Joint Secretary to the Ministry of Transport.

The Roads Organisation gives technical advice and arranges for the allocation of Central Road Fund reserves among the States.

### DEVELOPMENT COMMITTEE

The Road Development Committee of 1928 recommended the creation of a Road Development Fund out of a two-anna share per gallon of the proceeds of the import and excise duties on motor spirit, whose unexpended balances should not lapse at the end of the financial year. The share was later raised to two and a half annas per gallon.

The resolution dealing with the disposal of the Road Development Account at present in force in India was passed by the Indian Parliament in 1950. It says that the special tax on petrol introduced in 1929 shall continue to be levied for road development, the proceeds of which, after retaining a reserve of 20 per cent for administration, research and special grants-in-aid, shall be allocated for expenditure in the different States in the ratio of the petrol consumption in the various areas. These sums may be spent on the construction, reconstruction or

substantial improvement of roads and bridges including the cost of preparation of road schemes—but not for ordinary road upkeep or maintenance—on interest and amortization charges on road loans sanctioned hitherto by the Government of India and also on administration of State Boards of Communications and establishment connected with the control of motor transport.

Up to the end of March 1955 total receipts in the Central Road Fund since its inception were about Rs. 53½ crores and those in the Central Road Fund Reserve since its inception were about Rs. 10 crores.

On the administrative side roads except for the small mileage of National Highways described later are a State subject and may be divided into two main classes, State Roads under the Public Works Department and Local Roads in charge of local bodies.

India's road system is grossly inadequate for the country's needs and a comparison with other advanced countries will show how great is the leeway that has to be made.

For example, the road mileages per 100 square miles of area are 209 in the United Kingdom, 237 in France, 111 in the U.S.A., 95 in Germany, 89 in Italy and 70 in Ceylon. India's road mileage for the same area is 22, representing less than one-ninth of the U.K. and one-third of Ceylon.

### NAGPUR PLAN

The Central Road Fund could at best, increase the annual road expenditure by roughly 15 per cent. Following persistent representations from the Indian Roads and Transport Development Association of Bombay, the need for an extensive programme of road development was accepted by the Government of India in 1943.

In December 1943 the Chief Engineers of the various States met in conference at Nagpur and evolved a road plan based on the minimum needs of the country. Adopting as their objective the very modest proposition that no village in a well-developed agricultural area should remain more than 5 miles from a metalled road, the Chief Engineers recommended the increase of Indian Union's road mileage to 331,000 of which 123,000 miles would be metalled.

The net increase in road mileage under this Plan, now known as the Nagpur Plan works out at 50 per cent.

While the Government of India as well as the State Governments endorsed these recommendations in general terms, there was no general acceptance of a time-limit for the implementation of the plan.

However, five-year programmes for commencement from April 1947 and representing varying proportions of the Nagpur scheme were prepared by the States for their respective areas as part of their post-war reconstruction programmes.

These Programmes, exclusive of National Highways were estimated to cost nearly Rs. 120 crores over a five-year period, and were intended

to embrace the construction or improvement of 80,000 miles of roads as under:

#### State & District Roads.

Mileage improvement	..	..	33,393
Mileage, new construction	..	..	17,509

#### Village Roads.

New construction & improvement	..	..	30,093
--------------------------------	----	----	--------

Progress in the implementation of this post-war reconstruction Plan was however most disappointing. Owing first to shortage of material and later of funds Uttar Pradesh, the Punjab, Orissa and many other States had to abandon large portions of their plans.

### NATIONAL HIGHWAYS

The Central Government, as part of their contribution towards post-war development accepted liability for the construction and maintenance of the National Highways with effect from 1st April 1947.

Over 12,000 miles of highways are now being maintained by the Central Government and when some more are completed the length of the highway system will be 13,500 miles.

The post-war plan for the development of National Highways was originally estimated to cost Rs. 36 crores but was reduced to Rs. 23½ crores subsequently. Although financed by the Centre, the actual execution of the work is carried out through the State P.W.Ds.

Out of about 1,080 miles of missing links in the National Highway system under construction a major part has been completed by now.

In the First Five-Year Plan which started in April 1951, road development was allotted a sum of Rs. 156 crores inclusive of Rs. 25 crores from the Central Road Development Fund. This included Rs. 27 crores on National Highways, Rs. 4 crores for inter-State roads, and Rs. 10 crores for miscellaneous centrally aided roads making a total expenditure of Rs. 41 crores on behalf of the Government of India. Of the remainder the share of the former Part A States was about 64 per cent, that of Part B States nearly 28 per cent, and that of Part C States 8 per cent.

The target in regard to National Highways for the first Plan was the construction of 640 miles of new roads and the improvement of 2,500 miles of the existing system, besides the construction of 40 important bridges. The State Governments during the same period proposed to construct or improve roughly 21,000 miles of roads and 100 large bridges.

These targets have actually been exceeded in execution. Rough estimates show that 10,000 miles of new metalled roads and 20,000 miles of unmetalled roads have been constructed during the 5 years ending March 1956, and that 14,000 miles of roads, inclusive of 4,400 miles of National Highways have been improved.

The Central Government has now decided to build a road on the west coast and meet the entire expenditure of Rs. 5.5 crores. The road will run from Panvel to Sawantwadi and from Kunita into Kerala State. The road will be 640 miles long and will be throughout fully bridged and asphalted.

**Progress of Development Expenditure on Roads in the First Five-Year Plan.**  
(In lakhs of rupees)

The total expenditure on road development during the First Five Year Plan amounted to Rs. 162 crores. Details are shown in the table below.

Authority	1951-52 Actuals	1952-53 Actuals	1953-54 Actuals	1954-55 Revised Estimate	1955-56 Budget	Total 1951-56	Plan Allotment 1951-56 including adjustments

<b>Grand Total</b> .. ..	1,833.9	2,376.1	3,001.5	4,013.8*	5,001.6	16,226.9	..

In 1954-55 the expenditure on roads, it is estimated, amounted to Rs. 60 crores made up of Rs. 40 crores on construction works and Rs. 20 crores on road maintenance. As against this, the Governments at the Centre and in the States realized in the year a revenue of Rs. 67 crores from motor transport, as under :-

	Revenue, approx. 1954-55 (Rs. in Crores)
<b>Central Revenues.</b>	
Motor Spirit Duties .. ..	30.20
Tyre Excise Duties .. ..	5.50
Vehicle Parts Imports Duties .. ..	8.88
	<b>44.58</b>
<b>State Revenue.</b>	
Vehicle Taxes and Petrol Sales Taxes .. ..	22.68
	<b>67.26</b>

In the Second Five-Year Plan commencing from April 1956, the allocation for road development is Rs. 244 crores in addition to the amount of Rs. 25 crores accruing in the Central Road Fund. The allocation from central revenues is Rs. 82 crores and that from State budgets Rs. 162 crores.

Construction of 600 miles of missing links and diversions on National Highways, 60 major bridges, improvement of 1,700 miles and widening of 3,750 miles of existing roads are some of the works proposed in the Central Government's portion.

Allocations from the States sector will be utilised for the construction of 19,000 miles of metalled roads besides improvement of portions of the existing road system and formation of a slightly larger mileage of unmetalled roads than in the First Five-Year Plan.

#### MOTOR VEHICLES

The number of motor vehicles in use in India in March 1955 was 377,690. In terms of the population of the country, this represents 87 vehicles per lakh of inhabitants. Corresponding figures for some of the other countries are: Ceylon, 811; Egypt, 435; Spain, 661; Great Britain, 6,995 and France, 5,452. These figures show how inadequate is the volume of motor transport in India.

The 377,690 vehicles operating in India in March 1955 were distributed among the various States as shown in the table on the next page.

\* Before the re-organization in Nov. 1956.

## INLAND WATER-WAYS

**I**N pre-railway days inland navigation played an important role in the transport system of the country. The decline began with the construction of railways in 1855. While the railways received every assistance the water transport was allowed to languish.

Part of the reason for the decline was that large volumes of water were drained off for irrigation thus helping to depress the level of the water. This happened more particularly on the Ganga.

Inland water transport has remained essentially within the sphere of State control. To some extent this is inevitable. Short distance waterway cannot be usefully controlled by a Central authority.

But the position of water-ways traversing more than one State or connecting economically important regions with major ports appears to be different. The State Governments may not have the necessary resources for development. Whether inland water transport can compete with other quicker modes of transport is doubtful. But there are regions where as in Assam, for example, the economy depends to a great extent on water transport. There are also areas where water transport can help relieve congestion.

It has come to be recognised that the most rational way to deal with a river is to treat it as a unit from the source to the mouth irrespective of administrative boundaries. Also the utilisation of the water resources of a river should, as far as possible, be on a multi-purpose basis.

Some canals constructed for irrigation included provision for navigation.

The present constitution, therefore, provides for the control of the Central Government on navigation on inter-State rivers and national water-ways. Besides, the Central Water and Power Commission has assisted in the co-ordinated multi-purpose development of the water resources of the country.

The Inland Steam Vessels Act of 1947 was amended in 1951 so that now there is compulsory registration of all inland steam vessels.

Government set up the Ganga-Brahmaputra Water Transport Board in 1952 which co-ordinates and stimulates the navigational activities of the States of U.P., Bihar, West Bengal and Assam.

The whole problem of the development of inland water transport is now under examination by an Inter-Departmental Study Group.

Looking back on the state of navigation on the main rivers about a hundred years ago, it is noticed that large steamers plied on the Brahmaputra upto Dibrugarh; on the Ganga as far as Gurmukteshwar, over 700 miles above Patna; and Kanpur, *en route*, presented the appearance of a large port; on the Yamuna as far as Agra; and on the Ghagra, only 30 years ago, a regular service was maintained upto Ayodhya, 200 miles upstream of its confluence with the River Ganga.

Today long stretches of rivers formerly navigable have become shallow and are not used for navigation. Navigation can be restored only by deepening the channel or by using craft specially designed for shallow waters.

### PRESENT POSITION

At present steamers ply regularly on the Brahmaputra river upto Dibrugarh but on the Ganga as far as Patna only with feeder services upto Buxar on the Ganga and Barhaj on the Ghagra.

There are other parts of the country where canal navigation is still active. In Andhra and Madras States for instance, the Godavari Canals, including the Dummugudan Canal, the Kistna Canals, the Buckingham Canal, the Kurool-Cudappah Canal, and the Vedaranyam Canals are important highways for water-borne traffic.

Kerala has the West Coast Canals.

The Godavari and Kistna Delta canals in Andhra are indeed an important means of transport in that region and afford a cheap and ready mode of access to all markets.

The Buckingham Canal in Madras has played an important part in the trade of the country traversed by it, and in particular during the last war when the traffic was heavy it afforded appreciable relief to the railways.

On the west coast in Kerala the backwaters form the chief means of communication and transport.

In Orissa, too, there are some 200 miles of navigable canals in use.

Then there are the important water-ways of West Bengal, comprising besides the delta river system, also the canals around Calcutta.

The records of imports and exports into and from Calcutta show the extent to which the largest seaport in India depends upon its waterway communications. Post-partition figures show that 12 per cent of the trade of the port arrives and leaves by water-ways.

As by far the greater proportion of the water-borne traffic of the country is carried by the unorganised country-boats, reliable figures are not available as to the total ton-miles of traffic thus moved.

It has been estimated, however, that this would amount to only about one per cent of the total railway traffic of the country.

The approximate length of navigable water-ways at present in India is as follows:—Uttar Pradesh, 745 miles; Bihar, 715 miles; West Bengal, 777 miles; Assam, 920 miles; Orissa, 287 miles; Madras and Andhra, 1,700 miles; Total, 5,144 miles.

The above mileages are approximate and take into account only the main water-ways navigable by steamers and large country-boats. They do not include the numerous tidal creeks on the coasts which are not connected to an inland water-ways system.

Out of 5,144 miles of navigable water-ways 1,762 miles are navigated by steamers, details of which are given below:—

	Miles
River Ganga—Patna to Lalghola (Border)	315
Patna to Buxar (Feeder service)	100
River Ghagra—Confluence Ganga, Ghagra to Barhaj	97
River Hooghly Calcutta to Sundarbans (Border)	150
River Brahmaputra—Dibrugarh to Dhubri (Border)	400
(Feeder services on tributaries)	375
(Feeder service in Surma Valley)	85
River Bhagirathi—Calcutta to Ganga River (during rains only)	180
River Brahmaputra—Dibrugarh to Sadiya (during rains only)	60
Total .. ..	1,762

### FUTURE

1. **Uttar Pradesh:** (a) Revival of navigation of the Ganga river, Patna-Buxar-Allahabad. (b) Revival of navigation on the Ghagra river upto Bahram Ghat.

2. **Bihar:** (a) Navigation on the Kosi river is included in the programme of the Kosi Dam Project. (b) Development of navigation on the Ganduk river. (c) Development of navigation on the Son river, feasible with the construction of the Rihand Dam.

3. **West Bengal:** (a) The construction of a navigation canal from Durgapur to the Hooghly river to connect the coal-fields in West Bengal and Bihar with the port of Calcutta, is included in the programme of the Damodar Valley Project. (b) Reuscitation of the Bhagirathi route affording a direct and much shorter navigation connection from the port of Calcutta to Bihar and U.P.

Work on (a) is in progress.

4. **Orissa:** (a) Reuscitation of the Orissa coast canal to restore the connection between the Hooghly and Dhamra rivers. (b) The Mahanadi Valley Project provides for the navigation on the Mahanadi river upto Hirakud dam, about 300 miles from the sea.

5. **Assam:** The various tributaries of the Brahmaputra offer considerable scope for development of navigation.

6. **Madhya Pradesh:** (a) Provision for navigation of the Narmada river is aimed at in the investigations in progress on the Narmada Valley projects. (b) Conditions are favourable to obtain a navigation link between the east and west coasts via the Narmada river and the Jhilt-Son rivers or Bearma-Yamuna rivers.

It is feared, however, that the cost of this may be enormous.

7. **Bombay:** The construction of dams on the Narmada and Tapi rivers will provide navigational facilities on these rivers. The Kakrapar dam will help provide navigation in the surrounding area.

8. **Andhra:** Development of the Kistna, and Godavari rivers could also provide navigational facilities.

A priority list has been drawn up in accordance with which it is proposed to develop navigation. In the first stage it is proposed to extend navigation on the Ganga river above Patna as far as Allahabad.

An Inland Water Transport expert, Mr. J. J. Surie of Holland who visited India, inspected the waterways of the Ganga, Ghagra and Brahmaputra rivers, suggested a shallow-cr. ft push two pilot projects comprising a fleet of two 250 B.H.P. tugs and eight 100-ton barges. On the basis of his recommendations, further surveys were undertaken at the instance of the Ganga-Brahmaputra Water Transport Board by the Central Water and Power Commission on the Ganga and Ghagra rivers. He also prepared the designs. Orders for the craft have been placed and on their procurement the project will be started. The cost of the craft is about Rs. 20 lakhs. This is being met out of a special grant given by the Government of India.

Mr. Surie had also recommended two other projects viz., a project for the development of shallow draught navigation with smaller craft on the feeder rivers of the Brahmaputra and of a diesel operated ferry vessel on the Brahmaputra. These have been included in the scheme of financial assistance agreed to by the Planning Commission during the Second Five-Year Plan period.

Surveys are now in progress for drawing up specifications of the craft required for the Assam feeder river project. The specifications for the diesel ferry vessel across the Brahmaputra have been finalised.

In addition to these two projects, it is proposed to execute development works to the extent of Rs. 150.22 lakhs in the Ganga-Brahmaputra region as a part of the Second Plan. These include dredging of important waterways, provision of aids to navigation such as radio telephony and automatic beacons, and the development of inland port facilities at selected places such as Gauhati, Pandu, Dhubri, Karimganj, Patna and Manihari.

Survey work at Pandu is finished. A scheme has been prepared for building a modern port there for inland craft. The scheme is likely to be implemented in stages.

Arrangements are also being made to provide automatic beacons on the Sundarbans during 1957.

The Ganga-Brahmaputra Water Transport Board has to meet a recurring expenditure of about Rs. 50 lakhs during the five-year period.

For South India, the following schemes have been selected for investigation and provision as shown against each has been made in the Second Five-Year Plan:—

Development of the Buckingham Canal including the linking up of the canal with the Madras Harbour .. ..	Rs. 115 lakhs
Development of West Coast Canals .. ..	Rs. 43 lakhs
Investigations relating to the first project are in progress.	

\* Includes Andhra.

## OVERSEAS COMMUNICATIONS SERVICE

Allotment under the First Five-Year Plan . . . Rs. one crore.

Allotment under the Second Five-Year Plan . . . Rs. 2 crores.

**O**VERSEAS Communications Service is a State activity working directly under the Ministry of Communications on commercial lines, with the Head Office at Bombay. Its functions are provision, operation and development of all facilities for communication between India and the outside world.

The chief administrative head of the Service is the Director General, Overseas Communications Service.

The Service has two main branches, viz. Traffic and Engineering. The Traffic branch is under the control of the Dy. Director General (Traffic) and the engineering branch is under the control of the Chief Engineer.

The Overseas Communications Service has four gateway centres for handling international communications. The Bombay Centre has its transmitting station at Kfirke, receiving station at Dhond and the Central Traffic Office at Bombay. The transmitting and receiving stations as well as the Central Traffic Office are inter-linked by wired wireless circuits.

Calcutta centre has its transmitting and receiving stations at Halishahar and Hatikanda about 30 and 36 miles respectively from the main Traffic Office at Dalhousie Square, Calcutta.

Delhi Centre is still worked on a temporary basis but it will have soon its main transmitting station at Kalkaji and receiving station at Chhattarpur connected to the Traffic Office at Connaught Circus, New Delhi.

Madras is a cable station but it will soon have a radio centre with its transmitting station at Korattur and receiving station at Paduaelur connected to the Central Traffic Office in the General Post Office buildings, Madras.

The following radio services are now operated by India:—

	Date of Inauguration
1. India-United Kingdom Wireless Telegraph Service .. .. .	23-7-27
2. India-United Kingdom Radio-Telephone Service .. .. .	1-5-33
3. India-Australia Wireless Telegraph Service .. .. .	14-1-42
4. India-China Wireless Telegraph Service .. .. .	25-2-42
5. India-United States of America Wireless Telegraph Service (via Mackay) .. .. .	15-8-44
6. Delhi-London Wireless Telegraph Service .. .. .	20-8-44
7. India-United Kingdom Radio-Photo Service .. .. .	20-1-48
8. India-United States Radio-Photo Service .. .. .	29-4-48
9. India-Afghanistan Wireless Telegraph Service .. .. .	12-1-50
10. India-Japan Wireless Telegraph Service .. .. .	17-8-50
11. India-Indonesia Radio-Telephone Service .. .. .	2-10-50
12. India-Indonesia Wireless Telegraph Service .. .. .	1-2-51
13. India-Thailand Wireless Telegraph Service .. .. .	15-3-51
14. India-Russia Wireless Telegraph Service .. .. .	18-6-51
15. India-Egypt Radio-Telephone Service .. .. .	2-7-51
16. India-United States of America Wireless Telegraph Service (via RCA) .. .. .	2-7-51
17. India-Iran Radio-Telephone Service .. .. .	1-3-52

	Date of Inauguration
18. India-Japan Radio-Telephone Service .. .. .	14-8-52
19. Calcutta-London Wireless Telegraph Service .. .. .	12-3-53
20. India-East Africa Radio-Telephone Service .. .. .	18-8-53
21. India-Hongkong Radio-Telephone Service .. .. .	23-12-53
22. India-Switzerland Radio-Telephone Service .. .. .	1-3-54
23. India-Bahrain Radio-Telephone Service .. .. .	15-5-54
24. India-Malaya Radio-Telephone Service .. .. .	16-6-54
25. India-Aden Radio-Telephone Service .. .. .	15-10-54
26. India-Saigon Wireless Telegraph Service .. .. .	18-10-54
27. India-China Radio-Photo Service .. .. .	19-10-54
28. Delhi-Peking Wireless Telegraph Service .. .. .	3-1-55
29. India-China Radio-Telephone Service .. .. .	2-3-55
30. Delhi-London Radio-Photo Service .. .. .	2-3-55
31. India-Burma Radio-Telephone Service .. .. .	24-3-55
32. India-Russia Radio-Telephone Service .. .. .	4-6-55
33. India-Russia Radio-Photo Service .. .. .	8-6-55
34. India-Poland Wireless Telegraph Service .. .. .	21-6-55
35. India-Poland Radio-Telephone Service .. .. .	22-6-55
36. India-Yugoslavia Wireless Telegraph Service .. .. .	30-6-55
37. India-Burma Wireless Telegraph Service .. .. .	15-8-55
38. Calcutta-London Radio-Telephone Service .. .. .	30-12-55
39. Calcutta-Saigon Radio-Telephone Service .. .. .	12-1-56
40. India-Japan Radio-Photo Service .. .. .	25-1-56
41. India-Iran Wireless Telegraph Service .. .. .	16-2-56
42. India-Australia Radio-Telephone Service .. .. .	19-7-56
43. India-Hanoi Wireless Telegraph Service .. .. .	2-9-56
44. India-France Wireless Telegraph Service .. .. .	25-10-56
45. India-France Radio-Telephone Service .. .. .	25-10-56
46. Delhi-London Radio-Telephone Service .. .. .	26-10-56

### DIRECT RADIO-TELEGRAPH SERVICES

The following links are in operation :

(a) Bombay-London; (b) Delhi-London; (c) Bombay-Shanghai; (d) Bombay-New York; (e) Bombay-Melbourne; (f) Bombay-Tokyo; (g) Delhi-Moscow; (h) Bombay-Kabul; (i) Bombay-Djakarta; (j) Bombay-Bangkok; (k) Calcutta-London; (l) Bombay-Saigon; (m) Delhi-Peking; (n) Bombay-Warsaw; (o) Bombay-Belgrade; (p) Calcutta-Rangoon; (q) Bombay-Tehran; (r) Bombay-Hanoi; (s) Delhi-Paris

### DIRECT RADIO-TELEPHONE SERVICES

India today operates twenty direct services :

(a) Bombay-London; through London calls are extended to the following countries: Australia, Barbados, Bahrain, Belgium, Bermuda,

Canada, Cuba, Czechoslovakia, Denmark, Finland, France, Gibraltar, Hungary, Iceland, Israel, Italy, Luxembourg, Mexico, Netherlands, Northern Rhodesia, Norway, Saar, Spain, South Africa, Eire, South Rhodesia, South-West Africa, Sweden, U.S.A., Vatican City, East and West Germany, Brazil, Argentina and Austria.

This service is also available to the following ships at sea via London:—

**British Registered:**—Queen Elizabeth, Queen Mary, Caronia, Queen of Bermuda, Mauretania, Saxonia, Ivernia, Empress of Britain, Nevada, Reina Del Mar, Pretoria Castle, Oxfordshire and Corinthia.

**U.S.A. Registered:**—America, Constitution, United States and Independence.

**Dutch Registered:**—Nieuw Amsterdam, Rijndam, Onlof-Jord and Maasdam.

**Greek Registered:**—Olympia Ellr.

**Panamanian Registered:**—Eastriver.

**Israeli Registered:**—Israel and Zion.

(b) Bombay-Djakarta; (c) Bombay-Calro; (d) Bombay-Teloran; (e) Bombay-Tokyo; (f) Bombay-Nairobi; (g) Bombay-Hongkong; (h) Bombay-Berne; (i) Bombay-Bahrain; (j) Bombay-Singapore; (k) Bombay-Aden; (l) Bombay-Shanghai; (m) Bombay-Rangoon; (n) Bombay-Moscow; (o) Bombay-Warsaw; (p) Bombay-Belgrade; (q) Calcutta-Saigon; (r) Calcutta-Sydney; (s) Delhi-Paris; (t) Delhi-London; Delhi-Jedda.

These Radiophone facilities are also used for inter-continental interviews, discussions and programme material for purposes of re-broadcast both in India and abroad.

### OVERSEAS RADIO-PHOTO SERVICE

This service enables signalling by radio a manuscript, photograph, drawing—in fact anything that is in black and white on paper and reproduction as a photo replica of the original.

The following circuits are now in operation:

(a) Bombay-London, is also extended to: Australia, South Africa, Canada, Egypt, Finland, Norway, Sweden, Belgium, Portugal, Greece, Denmark, Germany, Italy.

(b) Bombay-New York, and via New York to San Francisco. The service is regularly used by the business interests for the exchange of balance sheets, specifications and drawings of machinery, etc.

(c) Bombay-Shanghai .. .. . 19-10-54  
(d) Delhi-London .. .. . 2-3-55  
(e) Bombay-Moscow .. .. . 8-6-55  
(f) Bombay-Tokyo .. .. . 25-1-56

### OVERSEAS SUBMARINE CABLE SERVICE

The cable chains are:—

(a) Bombay—Aden—Alexandria—Malta—Gibraltar—London.

(b) Bombay—Aden—Mombassa—Zanzibar—Seychelles.

(c) Madras—Penang—Singapore—East Asia.

### MULTI-ADDRESS BROADCASTS

Overseas Communications Service handles news transmissions on behalf of the Government of India to consular posts abroad. The transmissions from New Delhi are picked up by the following consular posts in Asia, Europe, Australia and America: Khatmandu, Rangoon, Singapore, Djakarta, Bagdad, Teheran, Ankara, Paris, Cairo, London, Brussels, Rome, Bern, Prague, Moscow, The Hague, Bonn, Tokyo, Canberra, Peking, and Nairobi.

The transmissions from Bombay are picked up by Buenos Aires and Rio De Janeiro.

Transmissions are also made on behalf of certain Press Agencies to different areas.

### FIVE-YEAR PLANS

The First Five-Year Plan allocated one crore of rupees for development.

The plan covered modernising and expanding the existing Bombay and Delhi radio centres and opening similar centres at Calcutta and Madras.

The Second Five-Year Plan has, with an allocation of two crores of rupees, the following long range objectives in view :—

(1) to provide expanding facilities of direct communications with more foreign centres commensurate with the growing needs of the country;

(2) to provide improved grade and standard of service—greater mechanisation and improved modern techniques;

(3) to provide more powerful service for Multi-Address Broadcasts for Government and Press; and

(4) to provide leased channels to private agencies and teleprinter-call service to big business houses and for the press.

### BUDGETS

The revenue for the year 1956-57 was estimated at 159.58 lakhs.

The profit of the O.C.S. for the year 1955-56 was 43.39 lakhs, i.e., 30.54 per cent of Government capital.

The table below shows the revised estimates for 1955-56 and the budget estimates for 1956-57 on the expense side.

	Revised Estimate 1955-56	Budget Estimate 1956-57
	Rs.	Rs.
Pay of officers .. .. .	5,08,000	5,77,000
Pay of establishments .. .. .	16,87,000	20,07,000
Allowances, honoraria .. .. .	17,40,000	17,60,000
Other charges .. .. .	11,06,000	12,15,000
Interests and depreciation—		
Interest on capital (Charged) .. .. .	5,18,000	6,50,000
Depreciation (Voted) .. .. .	11,00,000	13,34,000
Payments to other (Government Departments, etc.) .. .. .	34,48,000	35,70,000
Charges in England .. .. .	87,000	68,000
<b>Total .. .. .</b>	<b>1,02,84,000</b>	<b>1,11,77,000</b>
<b>Capital Budget .. .. .</b>	<b>10,00,000</b>	<b>37,00,000</b>

## BROADCASTING

BROADCASTING in India began as a private venture in 1927, in Bombay and Calcutta. In 1930, the Government of India were approached to take over the concern as private resources were found to be inadequate. At first, it was the department of Industries and Labour that looked after the new function of entertaining. Subsequently, the Home department took over the responsibility and under the new regime, a special Ministry for Information and Broadcasting was created to look after the growing work.

Its head is the Director-General, All-India Radio, whose office is located in Broadcasting House, Parliament Street, New Delhi.

Other officers at headquarters are: Chief Engineer, Deputy Directors-General, Deputy Chief Engineer, Director of Programmes, Director of Programme Planning, Director of Listener Research, Deputy Director of Administration and Assistant Directors of Administration.

The stations transmit for about five to ten hours a day.

This is generally split up into three transmissions, morning, afternoon and evening.

Programmes are planned by Station Directors with the assistance of the Programme Executives and Programme Assistants. Details are worked out well in advance of their schedule dates and are published in the journals of All-India Radio.

Programmes are broadcast in 16 major Indian languages and in English.

**Broadcasting House.**—Probably the largest centre of broadcasting activity in the East, Broadcasting House, New Delhi, was completed in 1943. Architecturally, it is one of Delhi's newest and most striking sights. It represents from the point of view of equipment, the latest practice in radio engineering.

With its air-conditioned studios, each with an individual acoustic pattern to suit every variety of sound reproduction, its control room—a model of scientific efficiency—its dramatic control panels and effects and echo rooms it constitutes a landmark in every sense of the word in the history of Indian broadcasting.

**Research and Maintenance Departments.**—These two departments are located in New Delhi.

The Research Department deals with all technical problems, concerning reception and transmission. Special studies are undertaken on ionospheric data and forecasting transmission conditions, field strengths of short and medium wave stations, atmospheric noise levels prevalent in various parts of India, studio and recording characteristics and development of cheap receivers.

The Department also maintains a field station at Todapur near Delhi where the frequencies of All-India Radio Stations are constantly checked.

The Maintenance Department handles problems which arise in the upkeep and day-to-day operation of the engineering equipment used by All-India Radio in addition to maintaining Central Stores Depot.

**Radio Journals.**—A.I.R. publishes programme journals in English (Indian Listener), Urdu (Awaz), Hindi (Sarang), Bengali (Betar Jagat), Tamil (Vanoli), Gujarati (Nabhovani) and Telugu (Vani).

The 'Indian Listener' is a weekly, and the rest are fortnightly.

**Monitoring.**—The Monitoring Service (Simla) keeps a round-the-clock watch on transmissions from all the main broadcasting systems of the world, monitors news and commentaries and selected talks transmitted from those stations in English, in Indian languages and in some foreign languages, from 30 different countries.

**Listener Research.**—The primary purpose of Listener Research is to determine the listening habits and programme preferences of radio listeners by ascertaining from time to time their reactions to items broadcast.

This information is necessary for planning programmes calculated to have the maximum listening appeal.

Although Listener Research in this country is still in its infancy, a good deal of information on the listening audience and on trends of listening has already been collected and more light is constantly being shed on this absorbing subject.

For this purpose, contact with listeners is maintained through their letters, press reactions, field surveys and questionnaire studies of listeners' preferences and reactions to programme broadcast.

By utilising all recognised methods of assessing listener reactions, AIR is trying its best to provide programmes suited to the needs of its listening audience.

**Advisory Committees.**—Established at the broadcasting centres in consultation with the State Governments, keep the Director-General, All-India Radio, in touch with local public opinion in programme construction and advise him on such matters.

### BROADCAST PROGRAMMES

**Women's Programmes.**—These are in the regional language and are broadcast from almost all the stations. They consist of music, features and talks.

**Children's Programmes.**—Wherever possible the children are divided into two or three age groups. The programme is conducted or commented by an elderly character known to the children. Another elderly person usually a woman is used to assist the comper.

These are generally broadcast twice a week.

Fables, stories from classics and musical items, form the content of the programmes, and listeners are encouraged to participate.

The programmes are conducted from all the stations, the time varying from 30 minutes to an hour.

In the rural broadcasts there is a children's day once a week.

**School Broadcasts.**—The school broadcasts are meant to supplement the regular curriculum of the school.

The students are divided into two or three age groups, and the talks, dialogues, features or musical items are in the mother-tongue, English, Hindi or Sanskrit.

History, geography and general science are the subjects generally covered.

The hours vary from station to station.

There are Educational Committees to advise the Station Director in the composition of the programme for the academic term, and these are announced in pamphlets for each term.

Occasionally students from a particular class are taken to the radio station to give a performance.

The idea is that students should listen to the broadcasts while at school in the company of their teachers.\*\*

**Industrial Broadcasts.**—Stations in such industrial towns like Bombay, Calcutta, Lucknow, Madras, Ahmedabad put out suitable programmes in the language of the local working class.

The programme contains dialogues, features and news reviews, all relating to workers and their organisations.

For recreation devotional music and popular songs are used.

Labour Welfare Centres are encouraged to participate in the programme.

**Rural Broadcasts.**—While the provision of programmes is a Central responsibility, the supply of listening sets to the rural population is the responsibility of State Governments.

The composition of such programmes is arranged in consultation with the local agricultural and allied departments.

Supplementary or spare time occupations are suggested, and information is given on items like improved seed, new implements, sowing, crop and cattle pests and their remedies, and market rates of current agricultural produce.

Weather bulletins during the monsoon are a regular feature of the composite programme.

The Union Government has put into operation a scheme for popularising community listening by subsidising State Governments for the purchase of receiving sets. The goal is to provide each village with a population of 1,000 or above, with at least one set.

The subsidy is 50 per cent of the cost of sets and its immediate acceptance is reflected in the rapid rise in the number of community receiving sets.

Before the scheme was introduced, there were (March 1954) about 6,000 sets in rural areas all over India. In October 1956 their number was estimated at well over 20,000. The distribution of these sets is given in the table below.

As part of the scheme, Government has standardised the community receiver set with the help of the radio industry and the Indian Standards Institution. It has been possible to produce such sets for Rs 120 each and with larger bulk orders the price may go down still further.

Community Listening Sets Oct. 1956

School Licences	State†	Community Licences
594	Andhra	1,614
39	Assam*	188
1,043	Bihar	1,042
778	Bombay	1,333
38	Saurashtra	294
27	Kutch	35
295	Central Circle	1,304
125	Delhi*	58
443	Hyderabad	507
1,180	Madras	2,958
89	Mysore	465
249	Travancore	343
38	Coorg	25
170	Orissa*	278
1,048	Punjab	2,604
307	Rajasthan	84
969	Uttar Pradesh*	4,935
399	West Bengal	1,289
7,829		19,460

Note : Assam includes Manipur, Tripura and NEFA. The Central Circle includes Madhya Pradesh, Vindhya Pradesh areas. Punjab includes PEPSU, Bilaspur, Kashmir and Himachal Pradesh areas. Rajasthan includes Madhya Bharat, Ajmer and Bhopal areas.

\* These States are unaffected by the reorganization of States in Nov. 1956.

\*\* The number of school licences are given in the table below.

## PILOT UNESCO PROJECT

All-India Radio conducted a unique experiment in Bombay with the co-operation of many institutions and expert knowledge from the various departments. The project is financed by UNESCO to the tune of \$19,000 (about Rs 80,000).

Inspired by the success achieved in Canada in 1941 by the Canadian Broadcasting Corporation in joint conjunction with the Agricultural and Adult Education Associations, UNESCO came forward to try this scheme in India.

The project covered Community Project Areas in Kolhapur, Karjat, Mandangad, Ahmednagar, Nasik, Poona, Satara and Thana, comprising in all 150 listening centres.

A series of 20 programmes of 45 minutes each was broadcast from Poona and relayed on Bombay B. As the entire area happens to be Marathi speaking, the programme was in Marathi and contained dramatised stories, panel discussions, talks and interviews, recorded or live programme by members of forums, and five minutes summary of the consequences of the discussion held by the forum.

Participation by the members of the forums was an ingredient of programme. The programme items were designed to stimulate a lively controversy among the listeners without raising controversial issues of a political nature.

A tentative report has been submitted to UNESCO.

**Hindi Lessons.** For popularising Hindi in non-Hindi-speaking regions, All-India Radio devotes 15 minutes a day, five days per week, to impart instruction through the regional languages. These lessons planned on the classroom model, by the direct method, are helpful to those who want to learn Hindi by themselves without going to any school or having to attend any classes. The planning of these lessons is entirely different from the way in which the BBC for instance 'teaches English by radio'.

**National Programmes.**—There has been a distinct improvement in the National programmes of music for 90 minutes on Saturday nights from Delhi. In the first place, they are not held every Saturday night; the frequency is now once a fortnight. There is an additional National programme between 10 and 11-30 a.m. from Delhi, on Sundays to enable the artists to present morning melodies. Then, again, every station in the AIR link, is not forced to relay this programme. The stations may or may not relay either the one or the other item. In addition, each station is allowed to arrange such programmes as can be broadcast on a national scale and the other stations are allowed to join the hook up.

All these facilities afford much variety and alternative listening.

**All India Talks.**—Wednesdays at 8-30 p.m. is the time for national talks - again originating from Delhi, relayed by all stations. The transmissions are not satisfactory and the hook-up loses its full impact. With the help of tape-recorders provided for each station, it will now be possible to re-broadcast such talks at suitable hours for the many stations so that the listeners will derive the full benefit of the talks.

**Film Music.**—All-India Radio broadcasts regularly, though in a limited way, songs that have been popular on the screen. There was some misunderstanding between the Indian Motion Pictures Producers' Association and All-India Radio but now the difficulties are solved. There are broadcasting stations outside India which direct to Indian audiences regular programmes comprising mainly film-songs.

All-India Radio has now individual agreements with about a hundred producers about their film-songs for broadcasting. There are screening committees which make the selection.

**Prasar Geet & Sugam Sangit.**—In order to provide all stations with standardised light and popular music, All-India Radio organised its own units in different regions for the production of songs. A processing plant capable of produc-

ing many discs for its own use in the first instance and for selling them to outside agencies on the lines of the BBC's Transcription Service, has been set up by All-India Radio.

Songs produced for regular broadcasting by Units of AIR numbered 1,981 till the end of December 1955. Of these 98 were processed by the Transcription plant.

**Improvement of Programmes.**—In addition to the regular grant for broadcasting made by Parliament, a lump sum is provided every year, to be spent at the discretion of the Minister. It is generally utilised in making certain direct appointments of expert staff without having to go through the Union Public Service Commission. For 1954-55 and 1955-56, such grant amounted to Rs 6 lakhs and Rs. 10 lakhs respectively.

**Competitions.**—In its ceaseless effort to find new talent, All-India Radio holds many competitions every year. They are for music, light and classical, vocal and instrumental, northern and southern (Karnatak) styles. The first round of these is held station-wise and the All-India round takes place in Delhi.

The competition for plays is language-wise. There are two main classes: one open to general public and the other restricted to college students.

Prizes in cash are awarded to the first three numbers. Judging from the number of entries in each variety, the competitions are quite popular and the effort is generally successful.

**Patel Lectures.**—This is an annual feature. The first series of lectures was given by Mr. C. Rajagopalachari in 1955 on the good administrator. The second series was delivered by Dr. K. S. Krishnan in 1956.

## NEWS SERVICES

The News Services Division now broadcasts 72 bulletins in 27 Indian and foreign languages. Twenty-eight of these bulletins in 11 languages are broadcast in the External Services while 44 bulletins in 16 languages are broadcast in the Home Services, the total transmission time being 14 hours and 28 minutes.

All the news bulletins are prepared in the News Service Division and broadcast from the transmitters at Delhi set apart for news.

Each regional station relays the bulletins suitable for its listening areas.

**News Reels.**—Radio news reels of 10 mts. each on the line of the BBC's radio news reels, have been introduced from Delhi in English and Hindi as a weekly event in the first instance.

**Regional News.** Centralised news from Delhi does not meet the requirements of the listeners adequately. In an effort to broadcast only news of All-India importance from Delhi, items of local interest are dropped. The State legislatures and other local institutions require to be covered for news. Some of the larger stations, capitals of States, now devote ten minutes a day for covering regional news in languages other than English. The timings however are late in the afternoon.

A few minutes are set apart at each station for local announcements. This period accommodates news of purely local interest.

The languages used in the Home Services are: Assamese, Bengali, English, Gujarati, Hindi, Kanarese, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Tamil, Tulu, Urdu, Konkani and about 20 other dialects.

That the External Services serve a useful purpose can be seen from the fact that nearly 10,000 copies of *India Calling* (English) are distributed among listeners.

Sixteen languages are used in these broadcasts and the daily time taken by them is (in mts.):—Arabic 90; Burmese 55; Chinese 75; English 380; French 45; Indonesian 45; Persian 75; Portuguese 30; Pushto 60; Swahili 35; Tibetan 30.

† Before the reorganisation in November 1956.

Among the Indian languages are: Gujarati 55; Hindi 145; Konkani 30; Tamil 60.

Thus daily 20 hrs. and 10 mts. are required for these broadcasts, arranged at times suitable to the region to which they are directed, keeping the Indian population there in touch with the mother country.

In relation to time these broadcasts are composed of 25 per cent news, 33 Indian music, 3 Western music, 12 talks-discussions, 3 drama, 3 programme publicity, 21 Koran and other religious items.

#### AIR STATIONS

At present (1957 February) there are 30 broadcasting stations.

#### LIST OF ALL-INDIA RADIO STATIONS

	Wavelengths & Frequencies in M.	Kcs per second

On March 31, 1957, the first of 14 transmitters to be made available by Australia was set up in New Delhi. It was a 10 kw short wave transmitter. It was expected that a second transmitter would be set up in Gauhati on April 21, 1957.

\* Also on short wave. Medium wave remains unchanged throughout, but short wave varies according to the season and the part of the day.

† Only short wave for the time being.

#### LICENCES

Broadcast receiver licences are issued at all head and sub-post offices at a fee of fifteen rupees per year, and cover the use of receiving sets throughout India.

Broadcast Receiver Licences are issued to Municipalities or other public bodies for the reproduction of broadcast programmes in public places by the Postmaster-General of the State.

A licence issued for this purpose covers the use of one or many wireless receivers and any number of loud-speakers at one place only but does not cover any wiring outside the premises of the licensee.

A separate Broadcast Receiver Licence is, however, necessary in the case of clubs, institutions, messes, etc., for reproducing broadcast programmes at dances, concerts, bazaars, etc., to which the public are admitted.

Types of radio licences, the authorities issuing such licences and the fee payable in each case respectively.

(1) Commercial Broadcast Receiver Licence; P.M.G. of the Circle; Rs. 50; (2) Possession Licence for dealers and non-dealers; P.M.G. of the Circle; Rs. 15; (3) Demonstration Licence; P.M.G. of the Circle; Rs. 15; (4) Community Broadcast Receiver, P.M.G. of the Circle; Rs. 10; (5) Broadcast Receiver Licence (Domestic); Post Offices; Rs. 15; (6) Broadcast Receiver Licence for schools; Post Offices; Rs. 3; (7) Broadcast Receiver Licence for institutions for the blind; Post Offices; Rs. 3; (8) Broadcast Receiver Licence for crystal sets; Post Offices; Rs. 3.

#### (Major Items of Expenditure All-India Radio) (1951-1956)

	1951-52	1952-53	Actuals 1953-54	1954-55	Estimates 1955-56	1956-57

Broadcasting Stations .. .. .	12,600	12,100	14,322	11,870	19,075	21,112
High Power Transmitters .. .. .	700	700	750	876	781	784
News Division .. .. .	1,700	1,800	1,927	1,605	1,976	2,119
External Services .. .. .	1,400	1,300	1,252	1,318	1,305	1,545

#### DEVELOPMENT PLAN

The broadcasting network of All-India Radio includes 80 radio stations. The expansion which has taken place during the First Plan ensures that each language has been provided with at least one transmitting station and that fairly effective coverage is available to almost all the regions. The aim during the Second Plan is to extend the services now available for all the languages to as wide an area as it is at present possible to reach. For areas in which terrain conditions are difficult short-wave transmitters are to be installed. To meet the growing demand for countrywide listening of national broadcasts, a 100 kw short-wave transmitter and a 100 kw medium-wave transmitter will be set up at Delhi and 50 kw short-wave transmitters will be provided at Calcutta, Bombay and Madras. External services will also be expanded. To promote rural

listening, community receivers are to be located in villages with a population of 1,000 and above. About 72,000 sets of this type are expected to be installed during the period of the Second Plan.

#### Lines of Development.

Installation of three 100 kw s.w. transmitters at Bombay, Delhi and Madras.

On the s.w. Bombay, Calcutta and Madras are to have a 50 kw transmitter each, and Delhi will have three of 100 kw each.

Amrit, Bhopal, Gauhati, Hyderabad, Simla are to be provided with a 10 kw transmitter each. It is also possible Aurangabad will be revived and given a 10 kw transmitter.

Three medium wave transmitters, two of 20 kw for Bombay and Calcutta, and one of 50 kw for Trichy are to be installed.

The growth of domestic broadcast receiver licences at the end of each year is given below:

Year	Licences	Year	Licences	Year	Licences
1938	64,480	1944	193,585	1950	507,324
1939	92,772	1945	202,829	1951	635,026
1940	119,417	1946	232,308	1952	694,560*
1941	147,121	1947	247,100	1953	769,505*
1942	165,675	1948	286,046	1954	835,246
1943	176,061	1949	360,278	1955	890,671
				1956	900,202

\* A mistake in calculation was noticed by Director-General, All-India Radio and the figures were corrected in a press-note as 473,759 and 587,109 for 1952 and 1953 respectively. In subsequent years, this correction does not seem to have been effected. The figures therefore are 'official'.

It may be explained that licences expire in December and delay on the part of licence holders shows a fall in January. But the figures thereafter steadily rise.

The following table shows the number and the value of radio sets imported into India over a number of years:—

Year	Number	Value in Rs. lakhs
1940-41 ..	38,855	35.32
1941-42 ..	52,416	41.73
1942-43 ..	18,939	32.10
1943-44 ..	5,384	6.53
1944-45 ..	895	1.51
1945-46 ..	5,982	7.04
1946-47 ..	107,114	169.58
1947-48 ..	192,172	288.40
1948-49 ..	42,202	76.59
1949-50 ..	43,355	71.66
1950-51 ..	16,012	25.44
1951-52 ..	29,121	52.61
1952-53 ..	19,286	36.09
1953-54 ..	13,042	23.45
1954-55 ..	4,515	11.20

#### RADIO SETS ASSEMBLED IN INDIA 1950-56

The following table shows the trend of production —

Year	Sets
1950 .. .. .	44,000
1951 .. .. .	82,788
1952 .. .. .	71,496
1953 .. .. .	56,268
1954 .. .. .	56,404
1955 .. .. .	80,100
1956 (Sept end) ..	102,081

Television will be provided from Bombay and Delhi by 1960. Bombay because of its concentrated listening population, and Delhi because it is the capital.

Permanent receiving centres will soon be provided at Ahmedabad, Calcutta, Cuttack, Dharwar, Gauhati, Jammu, Rajkot and Simla, although priority will be decided on regional requirements.

For studio concerts and special programmes in the presence of large invited audiences, special facilities are to be provided at Bombay and Delhi.

Following Delhi's example of using F.M. for transmission from studio to transmitters, in addition to the usual telephone wires, the establishment of an F.M. centre for Bombay is planned to improve the quality of transmission and reception.

†† A one-unit auxiliary studio was opened in Chandigarh on April 9, 1957 linked to Jullundur.

## THE PRESS

THE only authoritative survey of the press was made by the Press Commission in 1953.

The following figures about the circulation of daily papers in the various languages as on Jan. 1, 1953, are given in the report of the Press Commission. The second column shows the number of dailies, and the third the circulation in lakhs:—

	Number	Circulation in lakhs
English .. ..	41	6.97
Hindi .. ..	76	3.79
Assamese .. ..	1	0.03
Bengali .. ..	7	2.40
Gujarati .. ..	23	1.87
Kannada .. ..	25	0.72
Malayalam .. ..	21	1.96
Marathi .. ..	26	1.91
Oriya .. ..	3	0.43
Punjabi .. ..	9	0.23
Tamil .. ..	12	1.68
Telugu .. ..	6	0.98
Urdu .. ..	70	2.13
Minor Indian languages ..	9	0.15
Chinese .. ..	1	0.005
Total ..	330	25.255

### State-wise

The following table shows the number of dailies State wise (as on Jan. 1, 1953) according to the Press Commission report:—

State (before reorganization)	English	Indian Language	Total
Assam .. ..	1	1	2
Bihar .. ..	2	7	9
Bombay .. ..	8	61	69
Madhya Pradesh ..	2	9	11
Madras .. ..	4	21	25
Orissa .. ..	1	3	4
Punjab .. ..	1	20	21
Uttar Pradesh ..	6	43	49
West Bengal .. ..	4	22	26
Hyderabad .. ..	4	13	17
Madhya Bharat ..	2	9	11
Mysore .. ..	2	23	25
PEPSU .. ..	2	2	4
Rajasthan .. ..	6	6	12
Saurashtra .. ..	3	3	6
Travancore-Cochin ..	19	19	38
Ajmer .. ..	6	6	12
Bhopal .. ..	3	3	6
Delhi .. ..	6	13	19
Kutch .. ..	3	3	6
Manipur .. ..	2	2	4

Of the total, about 90 are published in the four major cities of Bombay, Calcutta, Delhi and Madras.

The following table gives a language-wise distribution of periodicals in January 1954 according to a Government source

	Weeklies	Monthlies	Other Periodicals
Assamese .. ..	12	5	20
Bengali .. ..	11	142	96
Gujarati .. ..	80	167	34
Hindi .. ..	273	249	79
Kannada .. ..	63	62	7
Malayalam .. ..	34	47	19
Marathi .. ..	95	127	31
Oriya .. ..	16	27	33
Tamil .. ..	79	148	14
Telugu .. ..	72	82	18
Urdu .. ..	164	125	19
English .. ..	138	33	304
Other languages ..	27	30	105
Total ..	1,189	1,645	788

\* The total number of bi-weeklies and tri-weeklies was 51, fortnightlies 379, quarterlies 383.

\* It is proposed to repeal this Act.

The following is a list of some English dailies with the names of the editors:

*Amrita Bazar Patrika*, Tushar Kanti Ghosh: Calcutta and Allahabad.  
*Assam Tribune*, L. N. Phookan: Gauhati.  
*Bombay Chronicle*, D. C. Patole: Bombay.  
*Bombay Sentinel*, D. C. Patole: Bombay.  
*Deccan Chronicle*, K. R. Pattabhiram (Mg. Ed.): Secunderabad.  
*Deccan Herald*, Pothan Joseph: Bangalore.  
*Eastern Times*, J. B. Patnaik: Cuttack.  
*Evening News of India*, Frank Moraes: Bombay.  
*Free Press Bulletin*, A. Hariharan (Mg. Editor): Bombay.  
*Free Press Journal*, A. Hariharan (Ag. Editor): Bombay.  
*Hindu*, Kasturi Srinivasan (Managing Editor): Madras.  
*Hindustan Standard*, Sudhanshukumar Basu: Calcutta.  
*Hindustan Times*, Devadas Gandhi (Mg. Ed.): New Delhi.  
*Itarada*, A. D. Mani: Nagpur.  
*Indian Express*, Ramanath Goenka (Mg. Ed.): Madras, Bombay, Delhi.  
*Indian Nation*, Dr. Sachin Sen: Patna.  
*Leader*, R. N. Zutshi: Allahabad.  
*Mail*, Allan Taylor: Madras.  
*Nagpur Times*, W. G. Sheorey: Nagpur.  
*National Herald*, M. Chalapathi Rau: Lucknow.  
*Pioneer*, S. N. Ghosh: Lucknow.  
*Searchlight*, M. S. M. Sharma: Patna.  
*Statesman*, G. A. Johnson: Calcutta and New Delhi.  
*Times of India*, Frank Moraes: Bombay and New Delhi.  
*Tribune*, J. Natarajan: Ambala.

### PRESS LAWS

In general the laws which affect the Press in India today are Press and Registration of Books Act, 1867; the Indian Copyright Act No. 111 of 1914; the Indian Official Secrets Act No. XIX of 1923; Sections 124-A, 153-A, 171-G, 255, 292, 293, 294-A, 295-A, 489-A, 490 502 and 505 of the Indian Penal Code; Sections 99-A-99-G and 108 of the Criminal Procedure Code; Sections 81, 84 and 87 of the Indian Evidence Act No. I of 1872; Sections 19 and 181-A of the Sea Customs Act No. VIII of 1878; Sections 5 and 7 of the Land Customs Act No. XIX of 1924; Sections 19, 20, 26, 27-A-27-I of the Indian Post Office Act No. VI of 1898; Section 5 of the Indian Telegraph Act No. XIII of 1885; Sections 40, 52 and 53(1)(b) of the Patents and Designs Act No. II of 1911; the Police (Incitement to Disaffection) Act, 1922; Section 69 of the Trade Marks Act No. V of 1940, the Press (Special Powers) Act No. XXXIX of 1947; the Contempt of Courts Act, 1952 (Act XXXII of 1952); Article 19 (1) (a) and (g) and Clause (2) and (6) of the same Article of the Constitution of India. The amendment to Article 19 (1) (a) reads: "Nothing in Sub-clause (A) of Clause 1 (the Citizen's Right to Freedom of Speech and Expression) shall affect the operation of any existing law or prevent the State from making any law in so far as such law imposes reasonable restrictions on the exercise of the right conferred by the said sub-clause in the interest of the security of the State, friendly relations with foreign States, public order, decency, morality, or in relation to contempt of court, defamation or incitement to an offence (This amendment is retrospective in operation); the Tax on Newspapers (Sales and Advertisements) Repeal Act No. XXVIII of 1951; the Press (Objectionable Matter) Act No. LVI of 1951 as amended by Act 13 of 1954; 8.7 of the Collection of Statistics Act (XXXII of 1953); the Press and Registration of Books (Amendment) Act No. 55 of 1955.

The Delivery of Books (Public Libraries) Act 27 of 1954.

The Drugs and Magic Remedies (Objectionable Advertisements) Act 21 of 1954. This Act controls the advertisement of drugs in certain cases and prohibits the advertisement for certain purposes of remedies alleged to possess magic qualities.

The Criminal Procedure Amendment Act contains a section (198B) which empowers the Government to prosecute a newspaper for defamation of public servants.

The Working Journalists (Industrial Disputes) Act (No. 1 of 1955). The Act extends the provisions of the Industrial Disputes Act, 1947 to working journalists.

The Parliamentary Proceedings (Protection of Publication) Act (No. 24 of 1950). It protects the publication of a substantially true report of any proceedings of either house of Parliament.

Section 11 of the Prize Competitions Act (Act 42 of 1955) contains rules regarding printing and publishing tickets, coupons, etc. in connection with prize competitions.

The Working Journalists (Conditions of Service and Miscellaneous Provisions) Act (Act 45 of 1955) regulates conditions of service of working journalists (See below).

The Punjab Special Powers (Press) Act was passed on 5th September 1955. It empowers the authorities to control the irresponsible activities of the press indulging in and fostering communal disharmony, dissemination of 'violent' news and pernicious propaganda of a communal nature.

The Young Persons (Harmful Publications) Act No. 93 of 1956.

The Delivery of Books (Public Libraries) Amendment Act No. 99 of 1956.

A Bill was introduced in the Rajya Sabha on 1st Oct., 1955 to amend and consolidate the law relating to copyright. This Bill was considered by the Joint Committee.

A rolling trophy of the value of Rs. 4,000 and a cash prize of Rs. 500 were instituted in Oct. 1954 for the best political piece in journalism in any year.

Press Council Bill No. XII of 1956 was published on July 31, 1956. The Bill seeks to establish a Press Council for the purpose of preserving the liberty of the press and of improving the standards of newspapers in India.

A Bill (No. XIII of 1956) for regulation of the prices charged for the newspapers in relation to their pages and of matters connected therewith for the purpose of preventing unfair competition among newspapers so that newspapers may have fuller opportunities of freedom of expression, was also published in the Gazette on July 31, 1956.

### FINANCIAL STATISTICS

The Press Commission Report gives the following particulars about investment according to ownership. The figures (for 1951) are in Rs. lakhs:

Public Ltd. Cos.: 2.14; Private Ltd. Cos.: 7.53; Partnerships: 13; Individuals: 16; Trusts: 83; Others: 2.

[The number of concerns for which information is available is as follows:

Public Ltd. Cos.: 32; Private Ltd. Cos.: 27; Partnerships: 12; Individuals: 25; Trusts: 11; Others: 3.]

The Press Commission Report gives the following estimated figures about the financial statistics of the daily press for 1951. The figures are in Rs. lakhs:

Proprietary capital invested .. ..	7.00
Loans .. ..	5.00
Value of fixed assets .. ..	6.00
Value of newspaper stocks .. ..	3.50
Annual expenditure on materials .. ..	4.50
Salaries, Wages of staff for the year ..	4.00
Salaries of editorial staff for the year ..	85
Circulation revenue for the year .. ..	6.00
Advertisement revenue for the year ..	5.00

The total number of concerns returning profits was 47, of those returning a percentage of net profits of more than 10 was 28, of more than five and less than 10 was 6, of five and less than five was 13.

The profit and loss position in 1951 according to ownership was as follows (Rs. in lakhs) :

Nature of Concern	No. of units returning profits	Amount of profit in Rs. lakhs	Percentage of total circulation	No. of units returning losses	Amount of loss in Rs. lakhs	Percentage of total circulation
Public Ltd. Co. ..	11	8.75	64	21	5.81	38
Private Ltd. Co. ..	12	17.97	53	15	15.28	47
Partnership ..	12	3.13	85	5	2.98	15
Individuals ..	16	1.75	55	19	3.64	45
Trusts and Societies ..	1	3.99	66	4	1.47	34
Others ..	1	.01	18	4	.51	82
Total ..	59	35.60	58	68	29.65	42

A break-down of the costs of production for 1951 of English and language papers is given below. The number of English papers taken into account is 9, with a total circulation of 4,02,000 and the number of language papers 21, with a total circulation of 4,22,000.

	English Papers		Language Papers	
	Rs. thousands	Per cent of total	Rs. thousands	Per cent of total
Services ..	32.39	10	11.47	6
Editorial ..	33.21	10	13.77	7
Materials ..	1,05.43	32	90.68	45
Composing, Printing ..	57.55	18	30.98	15
Distribution ..	29.02	9	18.50	9
Management ..	24.49	9	10.59	5
Overheads ..	25.83	8	16.44	8
Depreciation ..	12.37	4	9.78	5
Total ..	3,24.20	100	2,02.10	100

The average revenue per copy per annum in 1951 in Rs. was as follows :

English .. 47; Hindi: 14; Bengali: 14; Gujarati: 26; Kannada: 13; Malayalam: 5; Marathi: 11; Tamil: 14; Telugu: 13; Urdu: 16.

The gross advertisement revenue for 1951 was as follows. The second column gives the figures for 15 English papers with a total circulation of 5,45,000. The third column gives the figures for 18 Indian language papers with a total circulation of 5,57,000.

	English Rs. thousands	Language papers Rs. thousands
Gross advertisement revenue	2,65.23	87.23

#### INDIAN NEWS AGENCIES

The following list is not exhaustive :

Press Trust of India (P.T.I.),

#### INFORMATION SERVICES

##### Indian Information Service

Indian Government publicity work is carried out chiefly through the following units of the Ministry of Information and Broadcasting :

1. All-India Radio, 2. Press Information Bureau, 3. Publications Division, 4. Films Division, 5. Directorate of Advertising and Visual Publicity, 6. Research and Reference Division, 7. Five-Year Plan Publicity including Field Publicity Unit.

Officers of the Bureau are attached to Central Ministries for publicity purposes.

There are regional offices of the Bureau in Bombay, Calcutta, Madras, Bangalore, Ernakulam, Lucknow and Jullundur.

There is also a Defence Wing for publicity for the Armed Forces.

The Bureau's news, feature and reference services are provided in the following languages: English, Hindi, Urdu, Gujarathi, Marathi, Tamil, Bengali, Telugu, Malayalam, Assamese, Oriya, Punjabi and Kannada.

Photographs and ebond blocks are also issued to the press.

##### British Information Services

('Eastern House', Man Singh Road, New Delhi).  
Director: J. T. Hughes.

Deputy Director: A. C. Hall.

Editor-in-Chief: G. d'Arnaud Taylor.

Regional Information Officer: S. E. D. Barff.

Librarian and Head of Research and Reference,  
H. A. Hollingbery.

Bombay Office: (Mercantile Bank Building,  
Mahatma Gandhi Road).

Regional Information Officer: J. C. E. Hyde.

Information Officer: T. J. Sigworth.

Calcutta Office: (1, Harrington Street).

Regional Information Officer: K. C. F. Davies.

Madras Office: (6, Armenian Street).

Regional Information Officer: J. A. Borron.

Press Photo Bureau: 374, Pycrofts Road, Royapetia, Madras 11.

**PRESS COMMISSION REPORT**

The appointment of the Commission was announced in a communique issued by the Government of India on September, 23, 1952.

The members of the Commission were: the late G. S. Rajadhyaksha (Chairman), Dr. C. P. Ramaswami Aiyar, late Acharya Narendran Deva, Dr. Zakir Hussain, Dr. V. K. R. V. Rao, P. H. Patwardhan, T. N. Singh, Jalpal Singh, J. Natarajan, A. R. Bhat, M. Chalapati Rao.

Mr. A. D. Mani took the place of Mr. Natarajan in March 1953.

The Commission held its first meeting in New Delhi on October 11 and October 12, 1952. It submitted its report to the Government of India on July 17, 1954 (signed on July 14).

The following are some of the more important findings of the report (generally speaking, the findings apply to conditions which prevailed in 1951 or 1952):

The daily press in India comprises more than 330 newspapers with a total circulation of nearly 26 lakhs.

Capital invested in the newspaper industry is estimated at about Rs. 7 crores and capital raised in the form of loans is about Rs. 5 crores.

The annual revenue of the daily press is about Rs. 11 crores of which Rs. 5 crores come from advertisements.

The salaries and wages paid in the industry is over Rs. 4 crores of which about Rs. 85 lakhs go to journalists.

The number of newspapers in the country should be greatly increased and more newspapers should come up in the district towns.

A minimum price should be fixed at which papers of a particular size can be sold.

The price-page schedule should prescribe not only the maximum number of pages that could be sold at a particular price, but also the minimum number that must be offered.

The quantum of advertisement in a week's issue of a newspaper should not exceed 40 per cent of the total area.

The publication of newspapers and periodicals should be made a Central responsibility.

To ensure that the schedule is not circumvented by indirect means of price-cutting provisions should be made:

(1) Narrowing down the range of commission that should be paid to news agents, say, between 25 and 33 1/3 per cent.

(2) Banning the publication of entry forms for prize competitions in newspapers and periodicals, which is considered an unjournalistic activity.

Every paper should be constituted as a separate unit so that its profits and losses are definitely ascertainable and both the proprietor and the employees know where they stand.

In the case of multiple editions, each unit should be separated from the others in the matter of accounts. Where a chain consists of a number of groups, each group should be separated from the other.

A strict code of advertising which all members would be compelled to follow and which would be binding also on the associations of advertising agencies and advertisers should be adopted.

The Act for the regulation of the press as an industry should include a section which makes it an offence, punishable with fine or with imprisonment, the issue of fraudulent advertisements for publication.

The appointment of a Press Registrar for the country for the compilation of facts and figures relating to the industry is commended. It should be made incumbent on each newspaper and periodical to file certain returns with the Registrar.

The Registrar should bring out an annual report on the working of the press on its organisational side, including working conditions in the industry, and concentration of ownership.

The present demand for newsprint is estimated at 60,000 tons a year.

A State Trading Corporation entrusted with a monopoly of imports, should also take over the entire output of the Indian mills on a fair basis, and sell it, along with imported newsprint, at equated prices.

**NEWS AGENCIES**

However objective a news agency strives to be, there are certain drawbacks which arise from a monopoly and which could be obviated only by a competitive service available freely to all users. In the public interest steps should be taken to see that there is more than one news agency functioning efficiently.

News agencies should not be State-owned or State-controlled, and any assistance from the State should have no strings attached, and the State should not have any voice in the control of the agency either editorially or administratively.

In the interests of greater efficiency and smoother operation, certain changes may be brought about in the management of the news agencies.

In the case of P.T.I., a public corporation should be set up, based on the existing organisation but controlled by a board of trustees whose chairman would be appointed by the Chief Justice of India.

In the case of U.P.I. the management is to be by a board of trustees. In both cases, the board should include a trustee to represent the employees.

**GOVERNMENT ADVERTISEMENTS**

The Government should place advertisements having reference to the following considerations: (1) circulation of the paper and the rates charged by that paper; and (2) readership designed to be reached for the purpose of the particular advertisement.

The Government should assess the rates not with reference to the total circulation of the paper but with reference to the circulation in the area which they intend to reach.

The Government would be justified in claiming special consideration in respect of the rates charged.

There should be a telescopic rate subject to an overall ceiling, which should be treated as the maximum.

The Government should take the lead in breaking up the practice of charging combined rates for multiple unit publications.

The liberty and freedom to place advertisements wherever one likes, cannot be conceded to the Government which is a trustee of public funds.

Advertisements cannot be claimed as a matter of right.

### NEWSPAPER CONTROL

The newspaper is essentially a public utility and whatever may be the precise form of ownership, the exercise of ownership rights may have to be subject to some measures of restraint and regulation.

In connection with instances where the policy of a paper is dictated by the proprietors to suit their personal interests, there should be a periodical publication in the paper of a complete statement of the names of the proprietors and responsible executives on the newspaper, so that the public could judge the extent to which the views expressed in the paper may have to be rejected as being possibly biased.

Exercise, by the individual owner, of the right of control does carry with it the very real danger of misuse of the press for personal or purely commercial purposes. The remedy lies in the diffusion of effective control, or diffusion of ownership among a large number of persons.

One method of providing diffusion of control without making any change in the ownership of the paper would be to transfer the management to a public trust.

Voluntary agreements of owners to limit their own sovereignty in the public interest should be welcomed.

The lack of effective control by those who share the ownership would be avoided if shares are gradually distributed among the employees who function in the undertaking itself and are in constant touch with all its activities.

There already exists, in the Indian newspaper industry, a considerable degree of concentration, and there is a danger that this tendency might further develop in the future. It would not be desirable, in the interest of freedom of choice, that this tendency should be accentuated.

### EDITOR'S STATUS

There has been a general decline in the status and independence of the editor.

When a proprietor chooses his editor, he should also delegate to him a measure of individual authority which would enable him to carry out the policy and to resist any attempt to divert the policy in anti-social directions.

The appointment of an editor should invariably be attended with the execution of a contract of employment or letter of appointment laying down the general policy of the paper in as precise terms as possible. The contract should also make a provision for the determination of editorial policy on such matters as have not been covered specifically by the contract and for the settlement of any differences arising therefrom.

If a difference of opinion arises on a question of policy within the general statement of policy embodied in the contract of appointment and such difference is considered by either party to be so vital as to necessitate severance of employment, the liability for damages and the extent thereof, up to the limit specified in the contract, should be determined by some outside authority.

In the matter of presentation of news, there should be no question of favouring a particular policy or trimming the news to suit that policy, and it should be the responsibility of the editor to decide finally what items of news should go

in a paper, and the owner should not be in a position to order a blacking out of any item of news unless, of course, its publication would offend against the law.

The period of notice in the case of editors should not be less than three months during the first three years of service and not less than six months thereafter.

In addition, the editor, should be entitled to compensation for involuntary unemployment, the measure of such compensation, if any, being determined by an independent authority.

### WORKING JOURNALIST

On appointment the working journalist should receive either a letter of appointment or a contract as the employee may prefer. It should specify the period of notice for the termination of service.

The minimum periods of notice are in the case of minor journalists such as joint editors, assistant editor, leader writers, news editors and chief sub-editors, two months for service not exceeding three years, three months where the service exceeds three years but not five years, and four months where the service is more than five years.

Similarly, in the case of other working journalists the notice period suggested is one month for service not exceeding two years, two months where it exceeds two years but not five years, three months where it is more than five years but less than ten years and four months in the case of people with longer service.

The minimum wage that is recommended is as follows:

In Class III centres, consisting of towns with a population of less than 100,000, the basic wage of Rs. 125 is to be supplemented by a dearness or cost of living allowance of Rs. 25 making a total of Rs. 150.

In Class II centres, with a population of over 100,000 but less than 700,000, the dearness allowance is to be Rs. 50 making a total of Rs. 175.

In Class I-B centres, having a population of over 700,000, the basic wage of Rs. 125 is to be supplemented by a dearness allowance of Rs. 50 and a city allowance of Rs. 25 making a total of Rs. 200.

In Class I-A metropolitan centres, Bombay, Calcutta, Madras and Delhi the basic wage and dearness allowance will remain unaltered but the city allowance will be Rs. 50 making a total of Rs. 225.

If there is a substantial rise in the cost of living the dearness allowance should be increased to the appropriate extent.

A scheme which combines provision for a provident fund and a gratuity is the best way of providing retirement benefits.

The employee should contribute 1/12th of his emoluments and the employer should contribute an equal amount towards a provident fund created under the Employees' Provident Fund Act (XIX of 1952).

The amount thus accumulated for a period of three years should be utilised for purchasing a single premium policy of life assurance which would ensure some provision for the employee's family in the case of his sudden death.

On the termination of service by retirement, resignation, death or for any reason other than misconduct, gratuity should be paid to a working journalist who has put in continuous service for three years or more on the basis of 15 days' pay for every year of service, or part thereof in excess of six months, calculated on the average emoluments during the last year of service.

The gross profits of a newspaper should be ascertained in the normal way.

After making provision for payment of taxes, for depreciation at the rates allowable under the Income-Tax Act and after a return on the

invested capital at the rate of four per cent or half per cent more than the bank rate whichever is higher, the balance should be divided into three equal parts, one of which should be available for the payment of bonus. An equal amount should be reserved for ploughing back into the industry and as a provision for meeting future losses. The balance should be available for distribution to shareholders.

### WORKING CONDITIONS

The total number of holidays for newspapers should not exceed ten in number, to be distributed according to local requirements.

Journalists must have casual leave, in addition, for 15 days in a year, and earned leave for one month for every 11 months of service.

Further, they should be entitled to sick leave at the rate of 20 days per every year of completed service, on half salary, with option to convert it into half the period on full salary.

The provisions regarding notice period, bonus, minimum wages, leave, provident fund and gratuity should be embodied in the legislation proposed for the regulation of the newspaper industry.

These recommendations should apply to employees of daily, bi-weekly and tri-weekly newspapers and also to employees of news agencies in the first instance.

There should be no disparity in respect of minimum wage between employees of English newspapers and those of Indian language papers.

Other matters such as classification of employees, hours of work, shift working, suspension or dismissal for misconduct, etc., are to be dealt with under standing orders when the new legislation governing industrial relations comes into force.

Working journalists may find it necessary to organise themselves as trade unions under the Indian Trade Union Act of 1926.

Such unions should, however, keep themselves aloof from any political bodies or movements in the country.

The definition of the word "employee" in the proposed legislation should be wide enough to include within its purview the working journalists as well as employees on the managerial side, or alternatively a provision may be inserted in the proposed Newspaper and Periodicals Act making the new industrial relations legislation applicable to newspaper employees.

### PRESS COUNCIL

An All-India Press Council should be set up by statute. Its objects among others, will be:—

(1) To safeguard the freedom of the press and help the press to maintain its independence.

(2) By censuring objectionable types of journalistic conduct, and by all other possible means, to build up a code in accordance with the highest professional standards.

(3) To study developments in the press which may tend towards concentration or monopoly and, if necessary, to suggest remedies therefor.

(4) To publish reports, at least once a year, recording its work and reviewing the performance of the press, its development, and the factors affecting them.

(5) To improve the methods of recruitment, education and training for the profession, by the creation of suitable agencies for the purpose such as a Press Institute.

The Press Council should have 25 members excluding the chairman who should be a person who is or has been a Judge of a High Court and should be nominated by the Chief Justice of India.

Out of these, 13 or more should be working journalists, and the others should be drawn from newspaper proprietors, universities, literary bodies, etc.

A cess of Rs. 10 per ton should be levied on the consumption of newsprint and expenditure on the Council and its ancillaries be met from the funds thus collected.

### PRESS LAWS

The principal changes brought about by the Constitution (first amendment) Act of 1951 were to permit legislative restrictions of a reasonable character (1) on incitement to offence, (2) in the interest of the security of the State, and (3) in the interest of friendly relations with foreign States.

The Commission are unanimous that the first is necessary.

Four members would prefer that the second should be replaced by a reference to "prevention of disorder".

The majority of the Commission are in favour of retention of the words "in the interests of friendly relations with foreign States".

Press Objectable Matter Act: The Act should hold the editor also responsible along with the publisher and the keeper of the press.

The majority feel that the continuance of the Act after February 1950 would depend upon the performance of the press during the next two years and on the extent to which the Press Council is able to exercise a restraining influence on the erring section of the press.

Section 124A: This section is *ultra vires* of the Constitution even under the amended Article 19 (2) and opposed to the concept of the freedom of the press. The section should therefore be repealed.

Expressions which incite persons to alter, by violence, the system of Government with or without foreign aid should, however be punishable, and this may be done by the insertion of a new Section 121B.

Section 153-A: The possibility of this section being held void does exist even after the amendment of Article 19 (2) and it should be placed outside the possibility of a challenge by restricting its operations to those cases where there is intention to cause disturbance of public peace or knowledge of likelihood of violence ensuing.

An explanation may be added to this section to the effect that it does not amount to an offence under this section to advocate a change in the social or economic order provided that such advocacy is not intended or likely to lead to disorder or to the commission of offences.

Section 295-A: Even if this may be protected by the words "public order and morality" in Article 19 (2) of the Constitution it should be brought indisputably within the provisions of the Constitution by limiting its operations to those cases where there is intention to cause violence or knowledge of likelihood of violence ensuing.

Section 99A and 99B: These should be amended suitably in the light of the changes suggested above.

Section 144: The Commission support the view of the Press Law Inquiry Committee that it was not the intention of the framers of the code that this section should be applied to the press.

The Commission consider it desirable that both Parliament and State legislatures should define by legislation, as contemplated in Articles 105 and 194 of the Constitution, the precise powers, privileges and immunities they possess in regard to contempt and the procedure for enforcing them.

They recommend that exception 4 to Section 499 of the Indian Penal Code be amended by inserting the words "or of Parliament or State

legislature" to give effect to the principle that publication of a substantially correct report of the proceedings in a legislature is privileged on the same principle as an accurate report of the proceedings in a court of justice is privileged, and that the advantage of publicity to the community at large outweighs any private injury resulting from the publication.

The Commission do not approve of the suggestion that when a public servant is defamed, that should constitute a cognizable offence.

To meet the possibility that there may be cases where serious allegations are made the Commission suggest that a third proviso may be added to Section 198 of the Criminal Procedure Code to the effect that where a public servant has been aggrieved by allegations the magistrate with jurisdiction may take cognizance of the offence upon a complaint made in writing by some other public servant to whom the aggrieved person is subordinate.

The Commission is unanimous in recommending an amendment to the law of defamation on the lines of the English Defamation Act of 1952 which gives protection to a person in respect of unintentional defamation.

### WORKING JOURNALISTS ACT

The Minister for Information and Broadcasting announced on December 22, 1954 that Government accepted the following recommendations of the Press Commission:

1. Institution of a Press Council,
2. Maintenance of separate accounts of each unit of a chain of newspapers,
3. Institution of an Advertising Council to enforce a code of advertising,
4. Manufacture of printing machinery in India,
5. The principle of extending to working journalists the provision of the Industrial Disputes Act,
6. The appointment of an accreditation committee at the Centre and the States to advise on accreditation,
7. Periodical publication in every newspaper of a complete statement of proprietors and responsible executives—appropriate action would be taken on this.

Mr M. L. Bhardwaj has been appointed Registrar of Newspapers of India.

Journalists were brought within the purview of the Industrial Disputes Act by an Ordinance which came into force in March 1955.

The Working Journalists (Conditions of Service) and Miscellaneous Provisions Act, 1955 received the President's assent on 20th December 1955. The Act is meant to regulate certain conditions of service of working journalists and other persons employed in newspaper establishments. The Act extends to the whole of India except Jammu and Kashmir.

Some of the more important provisions are summarized below in non-legal language:

Newspaper may include any class of periodical containing public news or comments on public news as may from time to time be notified by the Central Government.

'Working journalist' is one whose principal avocation is that of a journalist. It includes editor, leader-writer, news-editor, sub-editor, feature-writer, copy-taster, reporter, correspondent, cartoonist, news-photographer, proof-reader. It excludes persons employed in managerial, administrative or supervisory capacity.

The provisions of the Industrial Disputes Act, 1947 will apply to working journalists as they apply to workmen except that the period of notice, in relation to retrenchment should be six months in the case of an editor and three months in the case of any other working journalist.

Any working journalist who has had three years' service before or after the commencement of the Act, and his services are terminated for any reason whatsoever (except disciplinary action) or he retires on reaching the age of superannuation or voluntarily resigns—should be paid without prejudice to rights or benefits accruing from the Industrial Disputes Act gratuity equivalent to fifteen days' average pay for every completed year of service or part in excess of six months.

In the case of newspaper offices employing not more than six working journalists the gratuity will be less: three days' average pay for every year of service for those with service which does not exceed five years; five days' average pay for service which does not exceed ten years; seven days' average pay if the service exceeds ten years.

No working journalist should be made to work more than 144 hours during any period of four consecutive weeks exclusive of the time for meals.

He should have a day's rest in a week, which should include the period 10 P.M. to 6 A.M.

He should have earned leave on full wages for a period not less than one-eleventh of the period spent on duty, and leave on medical certificate on half wages for not less than one-eighth of the period of service.

In exercise of the powers vested in it by the Act, the Government of India has constituted a Wage Board\* for Working Journalists under the Chairmanship of Mr. B. V. Dikshit. Besides the Chairman, the Board consists of six members, three representing the employees and three the working journalists. The six members are G. Narasimham, A. R. Bhatt, K. P. Kesava Menon, R. Venkataraman, C. Raghavani and G. N. Acharya. The function of the Board is to inquire into the wage structure of Indian journalists and fix the scale of remuneration.

The Board has its headquarters at Bombay.

In fixing the wages the Board should take note of cost of living, the prevalent rates of wages for comparable employments, circumstances relating to the newspaper industry in different regions and other relevant circumstances. The Board may fix wages for time-work and for piece work. The decision of the Board will take effect at the time specified, or if no time is specified on the day the decision is published in the gazette.

The decision of the Board is binding on all employers, and the wages paid to the working journalists shall not be less than those specified.

The Government may in consultation with the Board fix interim wages which would be binding on employers.

The Employees Provident Fund Act will apply to every newspaper establishment employing twenty or more persons.

The Industrial Employment (Standing Orders) Act 1946, has been made applicable to working journalists.

If, in general, an employee has a contract with more favourable terms these terms will prevail.

An offence under this Act is not cognizable and a complaint must be made within six months of the commission of the offence complained of.

The Central Government can make rules on gratuity, hours of work, holidays, earned leave, leave on medical certificate, casual leave, or any other leave admissible, the procedure to be followed by the Wage Board.

The rules will be laid before both Houses of Parliament.

\* The Board signed the report carrying their decisions in Bombay on 24th April 1957. It was sent to the Government of India in two or three days after it was signed.

5. CALCUTTA—BANGKOK—SINGAPORE—DJAKARTA (with connections at Bangkok to MANILA and TOKYO (East Bound—Wednesdays)).
6. NEW DELHI—BANGKOK—SINGAPORE—DJAKARTA (with connections at Bangkok to TOKYO and SYDNEY (East Bound—Fridays)).

In addition, K.L.M. operates daily west bound flights from Karachi. Numerous through-connections also available at Amsterdam to several cities in Europe, Africa, North, Central and South America and the Caribbean.

#### SCANDINAVIAN AIRLINES SYSTEM

Agents: United Liner Agencies of India (Private) Ltd.

Mookerjee House, 17, Brabourne Road, Calcutta; Kaiser-I-Hind Building, Ballard Estate, Bombay-1, Second Line Beach, Madras-1.

The Company operates three routes through India.

STOCKHOLM—COPENHAGEN—FRANKFURT—ZURICH—ROME—ABADAN—KARACHI—CALCUTTA—BANGKOK—MANILA—TOKYO.

The Company's round the world service, twice a week, is as follows:—

CALCUTTA—KARACHI—ABADAN—ROME—ZURICH—FRANKFURT—COPENHAGEN—STOCKHOLM—COPENHAGEN—ANCHORAGE—TOKYO—MANILA—BANGKOK—CALCUTTA.

#### TRANS WORLD AIRLINES

Booking Office: Taj Mahal Hotel, Bombay.

Administrative Office: "Adelphi", 3, Queen's Road, Bombay.

T.W.A. Routes: Ceylon—India—Middle East—Europe—U.S.A. via Ireland or through the Iberian connections to U.K. and GERMANY. Extension from Ceylon through Bangkok to Manila.

# ELECTRIC POWER DEVELOPMENT

(By courtesy of the Central Water and Power Commission, Power Wing).

**T**HE aggregate generating capacity of the country has grown as follows (kW):—

1900 .. .. .	1,130
1905 .. .. .	11,750
1910 .. .. .	31,847
1915 .. .. .	107,286
1920 .. .. .	130,009
1925 .. .. .	327,152
1930 .. .. .	577,140
1935 .. .. .	859,402
1940 .. .. .	1,181,528
1945 .. .. .	1,249,454
1950 .. .. .	1,712,515
1951 .. .. .	1,835,426
1952 .. .. .	2,061,755
1953 .. .. .	2,305,190
1954 .. .. .	2,494,996
1955 .. .. .	2,694,817

The total installed capacity at the end of 1955 was 2,694,817 kW, of which 939,483 kW was water power and 1,755,414 kW thermal.

The per capita consumption of electric power in India is ridiculously low. In 1955 it was 19.65 kW hours as against 3,536 in Canada, 2,400 in Sweden, 2,290 in the U.S.A., 2,024 in Norway and 16,188 in Switzerland (1953). The latest estimates place the hydro-electric power potential of India at 35 million kW, but less than one million kW has been tapped so far.

The production and sale of electric power from 1948 to 1955 was as follows (in million kWh):

	Generated	Sold
1948 .. .. .	4,580	3,720
1949 .. .. .	4,910	4,000
1950 .. .. .	5,110	4,160
1951 .. .. .	5,860	4,790
1952 .. .. .	6,120	5,000
1953 .. .. .	6,700	5,600
1954 .. .. .	7,520	6,250
1955 .. .. .	8,592	7,111

An analysis of electric power consumption in million kWh is given below. The figure in brackets shows the percentage:

	1954	1955
Domestic or Residential light and small power ..	760 (12.1)	850.426 (12.0)
Commercial light and small power ..	445 (7.1)	514.423 (7.2)
Industrial Power ..	4,075 (65.2)	4,697.789 (66.0)
Traction ..	380 (6.1)	408.302 (5.7)
Public lighting ..	95 (1.5)	105.631 (1.5)
Irrigation ..	230 (3.7)	254.803 (3.6)
Water Works ..	265 (4.3)	284.637 (4.0)
<b>TOTAL .. .. .</b>	<b>6,250</b>	<b>7,111.011 (100.0)</b>

The following statement shows the number of electrified towns and villages at the end of 1955:

Population	Number of towns	Number with electric supply	Percentage of towns with electric supply to total
Over 100,000 .. .. .	73	73	100.0
50,000 to 100,000 .. .. .	111	111	100.0
20,000 to 50,000 .. .. .	401	340	84.79
10,000 to 20,000 .. .. .	856	6,456	1.15
5,000 to 10,000 .. .. .	3,101		
Below 5,000 .. .. .	556,565	6,980	1.24
<b>TOTAL .. .. .</b>	<b>561,107</b>	<b>6,980</b>	<b>1.24</b>

It may be pointed out that in 1955 six large cities—Bombay, Calcutta, Ahmedabad, Kanpur, Madras and Delhi accounted for 44 per cent of the country's installed capacity and 52 per cent of the generated energy.

Out of the 560,000 villages in India only about 3,000 are provided with electric power.

The total number of consumers at the end of 1955 was 2,508,580 (domestic 1,929,432; Commercial 430,123; Industrial 99,317; Public Lighting 3,802; Irrigation 46,628).

The State-wise analysis for 1955 is as follows:

State (existing before reorganization in Nov. 1956).	No. of stations	Installed capacity (kW)	Energy generated (mln. kWh)	Energy sold (mln. kWh)	Capacity in Industrial Plants (kW)	Capacity in railway plants (kW) (a)	Annual per capita consumption (kW)
Andhra .. .. .	18	60,208	125.650	106.612	(b)	(b)	5.20
Assam .. .. .	9	4,743	9.771	7.871		2.154	0.82
Bihar .. .. .	31	202,978	440.322	209.230	285,703	10,596	6.69
Bombay .. .. .	137	618,708	2554.995	2231.583	63,589	5,516	62.06
Madras .. .. .	10	256,587	1019.663	808.802	22,451	1,306	22.15
Madhya Pradesh .. .. .	36	83,680	230.803	185.205	18,567	124	8.71
Orissa .. .. .	21	10,853	16.515	11.417	10,792	36	0.70
Punjab .. .. .	32	119,804	322.842	190.189	7,174	9,175	8.10
Uttar Pradesh .. .. .	68	286,139	651.538	512.082	21,948	13,110	61.56
West Bengal .. .. .	28	548,863	1638.665	1530.479	130,993		3.69
Kashmir .. .. .	8	12,875	26.226	16.274		15	3.24
Hyderabad .. .. .	12	32,959	67.818	60.540	54,962		4.21
Madhya Bharat .. .. .	32	31,333	43.287	33.526	13,558		5.79
PEPSU .. .. .	12	6,763	3.252	20.246	11,275	85	3.25
Rajasthan .. .. .	36	37,483	69.899	49.714	19,324	198	13.68
Saurashtra .. .. .	32	28,638	68.190	56.594	22,555	82	27.38
Travancore-Cochin .. .. .	7	90,139	343.003	254.125	1,823		61.14
Mysore .. .. .	4	178,283	717.686	554.862	6,266		108.81
Delhi .. .. .	4	55,191	214.886	189.765	10,799		2.60
Others (Centrally administered)	31	19,530	27.640	21.865	3,941	2,150	
<b>TOTAL .. .. .</b>	<b>568</b>	<b>2,694,817</b>	<b>8592.461</b>	<b>7111.011</b>	<b>723,510</b>	<b>45,209</b>	<b>10.35</b>

(a) Figures are for 1953. (b) Included in Madras.

\* Figures for 1954.

## INSTALLED CAPACITY

Some individual industries have power stations of their own. The numbers of installations and the installed capacity are as follows (end of 1955):

	No.	Capacity (kW)
Aluminium (Primary) ..	4	16,766
Aluminium (Secondary) ..	6	225
Cement (Primary) ..	25	82,417
Cement (Secondary) ..	24	3,602
Chemicals .. .. .	34	19,870
Collieries .. .. .	157	59,582
Copper (Primary) ..	1	9,250
Copper (Secondary) ..	1	
Cotton Textiles ..	336	112,108
Fertilisers .. .. .	3	80,000
Gold .. .. .	1	2,900
Iron & Steel (Primary) ..	19	172,000
Iron & Steel (Secondary) ..	10	300
Jute .. .. .	82	38,267
Paper .. .. .	21	78,468
Silk .. .. .	29	1,466
Soap .. .. .	13	1,049
Sugar .. .. .	98	44,565
Tanneries .. .. .	9	286
Wool .. .. .	16	4,420
<b>TOTAL .. .. .</b>	<b>884</b>	<b>723,510</b>

† Does not take into account the figures for railways.

The generating capacity by ownership is as follows:

	1953	1954	1955
State owned (Public Sector) Companies ..	1,108,774	1,210,489	1,517,476
Private Sector ..	1,196,416	1,284,507	1,177,841
<b>TOTAL .. .. .</b>	<b>2,305,190</b>	<b>2,494,996</b>	<b>2,694,817</b>

The number of installations at the end of 1955 was distributed as follows:

	Number
Government and Electricity Boards ..	219
Municipalities .. .. .	17
Power Corporations .. .. .	1
Companies .. .. .	199
<b>TOTAL .. .. .</b>	<b>436</b>

Tentative information about installed capacity in kW for 1955 is given below :—

State (existing before reorganization in Nov. 1956).	Steam	Hydro	Oil	Total
Andhra .. .. .	23,750	34,000	11,518	69,268
Assam .. .. .	622	550	3,571	4,743
Bihar .. .. .	185,085	4,000	13,893	202,978
Bombay .. .. .	288,210	279,926	50,572	618,708
Madhya Pradesh .. .. .	76,527	..	7,153	83,680
Madras .. .. .	89,000	165,150	2,437	256,587

Saurashtra .. .. .	12,000	..	16,638	28,638
Travancore-Cochin .. .. .	..	85,500	4,630	90,139
Delhi .. .. .	52,400	..	2,791	55,191
Others (Centrally administered) .. .. .	9,912	376	9,242	19,530
<b>TOTAL .. .. .</b>	<b>1,546,805</b>	<b>939,483</b>	<b>208,620</b>	<b>2,694,817</b>

### FIRST FIVE-YEAR PLAN

About 344 power development schemes including schemes under employment opportunities in the public sector were included in the first Five-Year Plan.

The expenditure on Irrigation and Power projects in the Plan were likely to be of the order of Rs. 646 crores against the total provision of Rs. 677 crores.

The addition to the installed capacity in

public utility undertakings at the end of the First Plan would be about 1.01 million kW. When all the projects in the first Plan are completed, the additions would be about 2.3 million kW.

### POWER PROJECTS

Statistical information about four major multi-purpose projects under the Central Government are given below (power in thousand kilowatts).

Name	Date of completion	Installed capacity	Firm power
Nangal (Punjab) : Ganguwal .. .. .	1955	96 + 48	72 + 48
Nangal : Kotla .. .. .	1956		
Bhakra .. .. .	1961		
Damodar (Bihar, W. Bengal) :			
Bokaro thermal .. .. .	1953	150	—
Maithon .. .. .	1957	60	—
Panchet Hill .. .. .	1958	40	—
Tilaiya .. .. .	1953	4	—
Damodar (total) .. .. .	—	254	174
Hirakud (Orissa) :			
Power House No. 1 .. .. .	1957	123	85
Chambal (Gandhisagar) (Rajasthan, Madhya Pradesh) .. .. .	1961	92	69

In the Tungabhadra Project (Andhra, Mysore) the Dam Power House was completed in December 1956, and the Hampi Power House was expected to be completed by April 1957. Total installed capacity will be 63,000 kW.

The Koyna Project (Bombay) Power House will have four units of 80,000 kW each. The project is expected to be completed in 1961-62.

The Rihand Project (U.P.) will have a power house with five units of 50,000 kW each. The project is expected to be completed in June 1961.

The Chambal Project Stage I (Rajasthan, Madhya Pradesh) will generate 75,000 kW of power and is expected to be completed in 1962.

The Nagarjunasagar Project (Andhra) will generate at 60 per cent load factor 75,000 kW.

The Central Government have enacted legislation, The Electricity (Supply) Act, 1948, with a view to bringing about proper rationalisation of the industry and to assist in the rapid electrification of the country.

The Act provides for the formation of Provincial Electricity Boards in the States which will take control of generation of electricity by all the licensees.

Madhya Pradesh, Delhi, W. Bengal, Kerala and Bombay States have set up such Boards.

It also provides for the creation of a Central Electricity Authority for exercising a close scrutiny of the work of the Provincial Boards and to advise them on all major power development schemes that may be taken up by the Boards from time to time.

This body was set up in 1950.

It is required to evolve a sound national policy, and co-ordinate the activities of the appropriate planning agencies.

It is to act as arbitrator in disputes between a State Government or a State Electricity Board and the licensees.

It has to carry out investigations and collect data about all sides of production and distribution of power.

The State Electricity Boards are required to rationalize supply and distribution, prepare and carry out new schemes, acquire existing stations and equipment, give bulk supplies of power to existing licensees, designate wherever necessary existing stations as controlled stations and direct licensees to achieve the maximum economy and efficiency in the operation of their undertakings.

# CHURCHES IN INDIA

## CATHOLIC CHURCH

India is divided into Dioceses and Prefectures Apostolic, which are grouped in 16 Ecclesiastical Provinces or Archdioceses, as follows:—Archdiocese of: 1. Agra with the Dioceses of Ajmer, Allahabad, Indore, Jhansi, Lucknow, Meerut and the Prefecture Apostolic of Gorakhpur; 2. Bangalore with the Dioceses of Bellary, Mangalore, Mysore, Ootacamund; 3. Bombay with the Dioceses of Ahmedabad, Belgaum, Poona; 4. Calcutta with the Dioceses of Dibrugarh, Jalpaiguri, Krishnagar, Patna, Shillong and the Prefectures Apostolic of Bhagalpur, Haong, Malda, and Sikkim; 5. Changanacherry (Syro-Malabar) with the Dioceses of Kottayam and Palai; 6. Delhi and Simla with the Prefectures Apostolic of Jammu-Kashmir and Jullundur; 7. Ernakulam (Syro-Malabar) with the Dioceses of Kothamangalam, Tellicherry and Trichur; 8. Goa and Damaun; 9. Hyderabad with Dioceses of Guntur, Nellore, Vijayawada, Visakhapatnam and Warangal; 10. Madras-Mylapore with the Dioceses of Coimbatore and Vellore; 11. Madurai with the Dioceses of Tiruchirappalli and Tuticorin; 12. Nagpur with the Dioceses of Amravati, Jabalpur, and Raigarh-Ambikapur; 13. Pondicherry and Cuddalore with the Dioceses of Kumbakonam, Salem, and Tanjore; 14. Ranchi with the Dioceses of Cuttack and Sambalpur; 15. Trivandrum (Syro-Malankara) with the Diocese of Tiruvalla; 16. Verapoly with the Dioceses of Alleppey, Calicut, Cochlin, Kottar, Quilon, Trivandrum (Latin), and Vijayapuram.

In all there are 16 Archdioceses (Metropolitan Sees), 48 Dioceses (Suffragan Sees) and 7 Prefectures Apostolic. At the head of an Ecclesiastical Province or Archdiocese there is an Archbishop; at the head of a Diocese there is a Bishop; and at the head of a Prefecture Apostolic there is a Prefect Apostolic.

The names of some more missions are given below:

**THE NATIONAL MISSIONARY SOCIETY OF INDIA,** Royapettah, Madras. (Bharat Christya Sevak Samaj.)

**HOME MISSIONARY SOCIETY OF INDIA,** 22, Stephens Road, Fraser Town, Bangalore 5.

**INDIA INDUSTRIAL MISSION,** Coimbatore, Calcutta 2.

**METHODIST CHURCH IN SOUTHERN ASIA,** 22, Cantonment Road, Lucknow.

## SALVATION ARMY

The work of the Salvation Army in India and Ceylon was commenced in 1882 by the late Commissioner Booth-Tucker and was for many years under his control, with Headquarters in India. For some time now, the areas occupied have been divided for administrative purposes into 6 Territories, each under a Territorial Commander; and one smaller Command. The headquarters for Pakistan are at Lahore.

**North-Eastern Territory,** with Headquarters at Calcutta.

**Western Territory,** with Headquarters at Bombay.

**Madras and Telugu Territory,** with Headquarters at Madras.

**Southern Territory,** with Headquarters at Trivandrum, in Kerala.

**Ceylon Territory,** with Headquarters at Colombo.

**Burma Command,** with Headquarters at Rangoon.

The Audit and Editorial office is at Poona.

The Commanders are directly responsible to the International Headquarters in London.

**North-Eastern Territory.**—The area in this Territory is the Salvation Army work in the Punjab (India), Uttar Pradesh, Orissa, Bengal and Assam.

Evangelistic work, especially among the "depressed classes", is extensively carried on in all these areas.

Medical work is carried on in two Hospitals, one of which is in Dhariwal, Punjab and the other in Moradabad, Uttar Pradesh; and also in several dispensaries.

There are boarding and day schools, a men's Industrial Home in Calcutta, a Young Women's Hostel, and orphanages for both girls and boys.

Village centres at which the S. A. works

Officers and Employees.. .. 1,851

Social Institutions .. .. 746

Boarding and day schools .. .. 7

Boarding and day schools .. .. 14

**Territorial Headquarters:** 37, Dharamtala Street, Calcutta 13.

**Territorial Commander:**—Colonel Joseph Dayha.

**Madras and Telugu Territory.**—Embraces Madras City the Central and Northern districts, of Madras, Andhra Pradesh and Madhya Pradesh. 365 fully commissioned officers and 255 workers are fully occupied in evangelical, educational and village uplift work carried on in just over 400 villages, a high school with hostels for boys and girls, a Training Institute for men and women selected for officership; agricultural settlement of 2,500 men, women and children—many work at Chirra's, the others on the land. A Leprosy Hospital, General Hospital, a Social Services Department where wastepaper sorting, etc. is carried on, and a Women's and Children's Home in Madras complete the list of institutions where work is going forward.

**Territorial Headquarters:**—The Salvation Army, 1C, Ritherdon Road, P.O. Box 453, Vepery, Madras 7.

**Territorial Commander:**—Colonel Muriel Booth-Tucker.

**General Secretary:**—Brigadier P. Bhushanam.

**Southern India Territory.**—The Territorial Headquarters is in Trivandrum in Kerala State.

In 1,148 Corps and Centres of work, the majority of officers labour among the village populations. The Army has a membership in South India of 95,557.

This territory is divided for administrative purposes into 15 divisions and Districts, 6 among the Tamil-speaking people and 9 among those who speak Malayalam.

The Catherine Booth Hospital at Nagercoil, is now a fully equipped, modern institution of many departments, dealing with all types of medical and surgical cases. The Hospital is equipped with X-Ray, radium, iron lung and excellent nursing facilities. Branch Hospitals carry the service to some of the most remote regions. 159,584 patients were treated during 1956 in the Catherine Booth Hospital and

its several Branches and 2,222 major operations and 8,844 minor operations were performed. The Evangeline Booth Leprosy Hospital at Puthencruz in north Travancore, accommodates 167 patients. These institutions carry on work in accordance with the highest traditions of Christian service.

Workers in the Territory consist of 1,076 Officers, 384 employees. There are, 334 Officered Corps and 104 Societies, 34 primary day schools, 2 Boarding Schools, 1 Middle School, 1 High School, 1 Training Garrison, 620 Outposts, 1 Women's Industry and 1 Men's Industry.

**Territorial Headquarters** :—Kowdiyar, Trivandrum 3.

**Territorial Commander** :—Lieut.-Commissioner Ivar Palmer.

**Chief Secretary** :—Colonel Frederick W. Harvey.

**Western India Territory** :—This territory comprises Corps 280; Outposts 759; Social Institutions 8, Day Schools 84, Boarding Schools 2; Training Colleges 2.

Besides the evangelical operations there are in this Territory, two large Hospitals, the Emery Hospital at Anand, and the Evangeline Booth Hospital at Ahmednagar and a number of Dispensaries. Patients treated at both Hospitals during 1956 were—Out-patients 18,256, In-patients 6,542; Major Operations performed 1,389, Minor Operations performed 4,242. Both Hospitals are well-equipped and have a Nurses' Training School attached.

Social work in Bombay includes the King George V Memorial Infirmary, and Lady Dhuabai Jehangir Home for Destitutes, Industrial and Rescue Home for Women at Matunga and King Edward Industrial Home for Men at Byculla. A well-equipped Red Shield House, is situated on Merewether Road, Fort, Bombay. Accommodation for visitors to Bombay may be secured there.

**Territorial Headquarters** :—P.O. Box 4510, Morland Road, Byculla, Bombay 8.

**Territorial Commander** :—Lt. Commissioner Theo. H. Holbrook.

**Chief Secretary** :—Lieut.-Colonel D. A. Sanjiv.

## NATIONAL CHRISTIAN COUNCIL OF INDIA

Chiefly to help to co-ordinate the activities of the Regional Councils and to assist them to co-operate with each other where such co-operation is desirable.

**President** :—The Most Rev. A. N. Mukerji, 51, Chowringhee Road, Calcutta-16.

**Vice-Presidents** :—Dr. D. G. Moses, Hislop College, Nagpur and Rt. Rev. J. E. L. Newbigin, C.S.I., Tallakulam P.O., Madhurai Dist., S. India.

**Treasurer** :—J. S. S. Salelu, Central Bank of India, Bombay 1.

**Secretaries** :—E. C. Bhatta, M.A., Ph.D.; The Rev. J. W. Sadig, M.A., B.D.; Kornia Jacob, M.A., M.Ed.; the Rev. W. Scopus, M.A.; Dr. D. F. Elbright; the Rev. J. G. P. Naumann; R. M. Chetishig, M.A.

**Address** :—The National Christian Council, The Christian Council Lodge, Nagpur 1 (Bombay State).

## SCHEDULED CASTES, TRIBES AND BACKWARD CLASSES

For population of Scheduled Castes and Scheduled Tribes see under Population.

These classes include 779 Scheduled Castes, 245 Scheduled Tribes and 198 nomadic tribes besides a number of unspecified groups.

The Scheduled Tribes live in remote forest regions, chiefly in Bombay, Madhya Pradesh, Bihar, Orissa, West Bengal and Assam.

From the point of view of the existing production the Tribal area in Assam can be divided into three distinct categories. These are: (1) an area of about 2,000 square miles with a population of 60,000 which is self-sufficient or has even surplus production; (2) an area of 3,700 square miles with a population of 100,000 which has average production; and (3) the balance of about 34,000 square miles with a population of 538,000 which is a deficit area.

The new Constitution provides for special safeguards for the Scheduled Castes, Scheduled Tribes and Backward Classes.

The President has defined by means of an order who the Scheduled Castes and Tribes are.

For the Scheduled Castes the safeguards take the form, broadly speaking, of reservation of seats in the lower Houses of the legislature and of vacancies in Government services. For the Scheduled Tribes there is a sort of autonomy in parts of Assam, Tribal Councils to watch their interests in some States, while in other States Ministers have been appointed to take charge of Tribal affairs. There are also special grants to be used exclusively for uplift work.

All these special provisions may come up for review by a Commission appointed by the President at any time within ten years after the commencement of the new Constitution. Meanwhile there is an official with the Central Government who is to report to the President from time to time on the working of these provisions.

As regards Backward Classes a Commission was appointed to enquire into their condition.

The Commission consisted of:

Kakasaheb Kalelkar (Chairman), N. S. Kajolikar, (Bombay), Bheeka Bhai, (Rajasthan), Shivalal Singh Chaurasia (U.P.), Rajeshwar Patel, (Bihar), Abdul Quaiyum Ansari, M.L.A. (Bihar), P. G. Shah (Bombay), Harappa (Mysore), Atma Singh Namdhari, (West Bengal), Arunanshu Dey (West Bengal: member-secretary).

The functions of the Commission were to determine the criteria on the basis of which any

particular section can be described as socially or educationally backward, to prepare a list of such Backward Classes for the whole of India, to examine the condition and difficulties of such classes and make specific recommendations (including financial) for their removal.

The Commission listed 2,390 different classes comprising more than 11 crores of people as socially and educationally backward. The Home Minister in commenting on this stated that this reduced the investigation to an absurdity when the bulk of the country's millions could be counted as coming within the category of backward classes. The criteria fixed by the commission were neither clear-cut nor reliable.

With regard to the recommendation for the reservation of seats in Central and State services, a substantial minority in the Commission itself was opposed to such reservation. Yet another recommendation was that 70 per cent of the seats in technical and technological institutions of higher learning should be reserved for backward classes.

Total expenditure on welfare of the Scheduled Tribes and Areas for 1955-56 : Rs. 7.86 crores.

Total expenditure on the welfare of Scheduled Castes : Rs. 4.43 crores.

For the welfare of ex-Criminal Tribes : Rs. 55.02 lakhs.

For the welfare of backward classes : Rs. 85.64 lakhs.

The figures for 1955-56 are of estimated expenditure.

Associations, organizations generally recognized as representative of Scheduled Castes are:

All India Harijan Sevaka Sangh (Kingway, Delhi).

Harijan Ashram, Allahabad.

Indian Conference of Social Work, Bombay.

Bharatiya Depressed Classes League (13 Windsor Place, New Delhi).

The Central Government has sought the assistance of three non-official organizations—Harijan Sevaka Sangh, Bharatiya Depressed Classes League, Scheduled Castes Federation—to conduct an anti-untouchability campaign throughout the country.

The Central Government made available Rs. 50 lakhs from the 1953-54 budget allocation to the three organizations, and also to individual States for the eradication of untouchability through approved non-official bodies. All these funds are to be used solely for propaganda against untouchability.

The organizations to whom grants are made are required to raise voluntary contributions at least to the extent of 20 per cent of the amount allotted to them.

The Untouchability (Offences) Act came into force on June 1, 1955.

It makes the practice of untouchability and enforcement of any disability arising therefrom a cognizable offence punishable with imprisonment or fine or both.

It is meant to apply to the whole of India except Jammu and Kashmir and to all communities and not Hindus alone.

### LEGISLATION IN FORCE

Below is a list of legislative measures in force in States (before re-organization) for removing social disabilities among Hindus:

**Bihar**: The Bihar Harijan (Removal of Civil Disabilities) Act, 1949, and the Amendment Act, 1951.

**Bombay**: The Bombay Harijan (Removal of Civil Disabilities) Act, 1947; The Bombay Harijan Temple Entry Act, 1947.

**Madhya Pradesh**: The C.P. and Berar Scheduled Castes (Removal of Civil Disabilities) Act, 1947; The C.P. and Berar Temple Entry Authorization Act, 1947.

**Madras**: The Removal of Civil Disabilities Act, 1938; The Madras Temple Entry Authorization Act, and the Amending Act, 1949.

**Orissa**: The Orissa (Removal of Civil Disabilities) Act, 1946—not cognizable; The Orissa Temple Entry Authorization Act, 1948.

**Punjab**: The East Punjab (Removal of Religious and Social Disabilities) Act, 1947.

**Uttar Pradesh**: The U.P. (Removal of Social Disabilities) Act, 1947—not cognizable.

**West Bengal**: The West Bengal Hindu (Social Disabilities Removal Act), 1948.

**Hyderabad**<sup>1</sup>: The Hyderabad Harijan Temple Entry Regulation No. LV of 1358F (1948-49); The Harijan (Removal of Social Disabilities) Regulation No. LVI of 1358F (1948-49).

**Madhya Bharat**<sup>2</sup>: Harijan Disabilities (Removal) Act, 1949, and the Amendment Act, 1950.

**Mysore**: The Removal of Disabilities Act, 1943; the Amendment Act of 1948 and 1949; The Mysore Temple Entry Authorization Act, 1948, and Amendment Act, 1949.

**Saurashtra**<sup>3</sup>: The Removal of Social Disabilities Ordinance, 1948.

**Kerala**: The Travancore-Cochin Temple Entry (Removal of Disabilities) Act, 1950; The United State of Travancore and Cochin (Removal of Social Disabilities) Act, 1950.

<sup>1</sup> Now partly in Andhra, Bombay, Mysore.

<sup>2</sup> Now in M.P.

<sup>3</sup> Now in Bombay.

**Ajmer**<sup>4</sup>: The U.P. (Removal of Social Disabilities) Act, 1947, extended to the State—not cognizable.

**Bhopal**<sup>5</sup>: The U.P. (Removal of Social Disabilities) Act, 1947, extended to the State in June 1951—not cognizable.

**Bilaspur**<sup>6</sup>: The U.P. (Removal of Social Disabilities) Act, 1947, extended to the State in June 1951—not cognizable.

**Coorg**<sup>7</sup>: The Coorg Scheduled Castes (Removal of Civil and Social Disabilities) Act, 1949; The Coorg Temple Entry Authorization Act, 1949—not cognizable.

**Delhi**: The Bombay Harijan (Removal of Social Disabilities) Act, 1947, extended to the State.

**Himachal Pradesh**: The U.P. (Removal of Social Disabilities) Act, 1947, extended to the State in May 1951—not cognizable.

**Kutch**<sup>8</sup>: The Bombay Harijan (Removal of Social Disabilities) Act, 1947, extended to the State in May 1951.

**Tripura**: The West Bengal Hindu (Social Disabilities Removal) Act, 1948, extended to the State in May 1951.

**Vindhya Pradesh**<sup>9</sup>: The U.P. (Removal of Social Disabilities) Act, 1947 extended to the State—not cognizable.

Such of the above Acts as are not shown as 'not cognizable' are cognizable

### SAFEGUARDS

The Constitution of India has laid down certain safeguards for Scheduled Castes, Scheduled Tribes and Backward Classes, the weaker sections of the people.

In a chapter on Fundamental Rights, under Articles 15, 16 and 17, it has been stated that the State shall not discriminate between any citizens on ground of religion, race, caste, sex or place of birth. This does not prevent the State, however, from framing rules for the reservation of seats in the legislature or of appointments in the public services in favour of any class which is not adequately represented.

Similarly, under Article 19, the right to freedom is circumscribed by authorizing the State to place reasonable restrictions for the protection of the interests of Scheduled Tribes.

Under the directive principles of policy, under part 4, Article 46 of the Constitution, it is said that the State should promote the educational, economic and political interests of the weaker section of the people and in particular the Scheduled Castes and Scheduled Tribes and protect them from social injustice and all forms of exploitation.

Under Article 17 untouchability is abolished and its practice in any form forbidden.

Article 25 empowers the State to throw open Hindu religious institutions of a public character.

Article 29 provides that no citizen can be denied admission into any educational institution maintained by the State or aided by it on grounds of religion, race, caste or language.

It has been laid down under Article 164, that in the States of Bihar, Madhya Pradesh and Orissa, there should be a Minister in charge of Tribal Welfare who may, in addition, be in charge of the welfare of Scheduled Castes and Scheduled Tribes or any other work of allied nature.

There were in 1955 about 36 persons belonging to the Scheduled Castes or Tribes or Backward Classes among Ministers, Deputy Ministers and Parliamentary Secretaries in the various Governments in India.

The VIII and VIIIth Schedules of the Constitution under Article 244 also provide for the administration and control of Schedule areas and Scheduled Tribes and of Tribal areas in Assam by providing Tribe Advisory Councils for Tribal areas.

For the promotion of the welfare of Scheduled Tribes and Schedule areas, provision has been made under Article 275 for grants-in-aid to be paid out of the Consolidated Fund of India for such schemes of development as may be undertaken by the States with the approval of the Government of India for raising the administration of the Schedule areas of the State to the same level as that of the other areas of the State.

Special provision for grants-in-aid has been made in the case of Assam.

Tribes Advisory Councils have been set up in Bihar, Madhya Pradesh, Madras, Punjab, Rajasthan, Bombay, Andhra, W. Bengal and Orissa.

In the Tribal areas in Assam, District or Regional Councils have to be set up for each autonomous region. Three-fourths of the members have to be elected on a basis of adult franchise.

There are special departments to look after the welfare of Scheduled Castes and Tribes and Backward classes in nearly every State.

### REPRESENTATION IN LEGISLATURES

Seats are reserved in the Lok Sabha under Articles 330 and 332 for Scheduled Castes and for Scheduled Tribes including the Tribal areas and autonomous districts of Assam.

The number of seats reserved in any State bears the same proportion to the total number of seats allotted to that State in the Lok Sabha as the population of Scheduled Castes and Scheduled Tribes in the State or the part of the State bears to the total population of the State.

Similarly in the Legislative Assembly of every State seats are reserved.

The reservation of seats in the Lok Sabha and Legislative Assemblies will cease to have effect on the expiration of a period of ten years from the commencement of the Constitution.

The representation of the Anglo-Indian community in the Lok Sabha and in the Legislative Assemblies of the States by nomination will also cease after ten years.

Under these provisions 72 seats in the Lok Sabha and 478 in the States Legislatures have been reserved for the Scheduled Castes, and 26 seats in the Lok Sabha and 192 in the State Legislatures for the Tribes.

The Delimitation Commission's proposals in this respect are as follows:

In the Lok Sabha, S.C. 70, S.T. 27. And in the State Legislatures, S.C. 486, S.T. 189.

The claims of members of Scheduled Castes and Scheduled Tribes should be taken into consideration according to Article 335 in the making of appointments to services and posts in connection with the affairs of the Union or of a State consistently with the maintenance of the efficiency of the administration.

The following States have a certain percentage of jobs reserved for Scheduled Castes and Tribes, the percentage having some relation to the population. In the brackets is shown whether the reservation is for Castes or Tribes or both:

Andhra (C and T), Assam (T), Bihar (C and T), Bombay (C and T), Madras (C and T), Punjab (C and T), Mysore (C and T), Rajasthan (C and T), Kerala (C and T).

In order to investigate all matters regarding these safeguards for Scheduled Castes, Scheduled Tribes, Backward Classes and Anglo-Indians,

provision has been made in the Constitution under Article 338 for the appointment of a special officer for Scheduled Castes and Scheduled Tribes who is required to report to the President upon the working of these safeguards at such intervals as the President may direct and the President will cause all such reports to be laid before each House of Parliament.

Articles 339 and 340 provide for the appointment of a Commission by the President any time within the expiration of ten years from the commencement of the Constitution to report on the administration of Schedule areas and the welfare of Scheduled Tribes.

Now for the purpose of preparing a list of Scheduled Castes and Scheduled Tribes it has been laid down under Articles 339, 341 and 342 that the President, in consultation with the Governor or Rajpramukh of the State, by public notification should specify the castes, races or tribes to be deemed as Scheduled Castes and specify the Scheduled Tribes to be deemed as Scheduled Tribes.

Parliament alone may, by law, include or exclude from this list Scheduled Tribes and Scheduled Castes. The notification of such lists by the President cannot be varied by any subsequent notifications.

This was done through the following orders: The Constitution (Scheduled Castes) Order, 1950; the Constitution (Scheduled Castes) (Part C States) Order, 1951; the Constitution (Scheduled Tribes) Order, 1950; the Constitution (Scheduled Tribes) (Part C States) Order, 1951.

A note may also be added on the results of the general elections of 1952.\*

Of the 98 seats allotted to the Scheduled Castes and Tribes in the Lok Sabha the Congress won 74 seats, the Scheduled Castes Federation 2, the Communists 2, the Akali Party 2, and the Socialist Party (now P.S.P.) 3, in the first general elections. Fifteen others were elected either through local parties or as independents.

In the States Assemblies of the 670 total seats for the Scheduled Castes and Tribes the Congress won 461 seats, the Socialists 19, K.M.P.P. 15, Communists 19, Scheduled Castes Federation 14, Akalis 8. The rest of the seats were won by local parties and independents.

### REPORT FOR 1955†

The particulars about the cases under the various Social Disabilities Acts in force in the States are as follows (1955): Challenged: 297; Compromised: 18; Convicted: 143; Acquitted: 40; Pending: 136.

In the information given above the figures for Bihar are incomplete.

In the I.C.S. and I.A.S. there were on the 1st of January 1955, 17 Scheduled Castes and one Scheduled Tribes officers against a total of 1,125. In the I.P.S. there were seven Scheduled Castes and three Scheduled Tribes officials as against a total of 648.

The figures for the total number of employees of the Scheduled Castes and Tribes in the service of the Government of India are not available.

The following table shows the number of persons belonging to the Scheduled Castes and Tribes in the States for which figures are available. The figures relate to those in permanent employment. The first column under each Class shows the total number and the second the number belonging to the Scheduled Castes and Tribes: The figures are as on 1st January 1955.

State Before Reorganization	Class I		Class II Gazetted		Class II Non-Gazetted		Class III		Class IV	
Assam*	45	5	126	13	204	62	2,954	1,039	1,119	160

\* Information incomplete.

N.S. Information not supplied.

† For the results of the 1957 elections see under 'General Elections.'

\* Now in M.P.

\* Now in H.P.

† Upto end of November.

\* Now in Mysore.

\* Now in Rajasthan.

\* Now in Bombay.

**Note:** In Assam information about Class I employees relates only to Scheduled Tribes. In Orissa information about Class II non-Gazetted relates only to Scheduled Tribes, and information about Class IV employees relates only to Scheduled Castes. In all these cases information about the other special class was not furnished.

The funds allocated for scholarships in 1955-56 for Post-Matriculation were as follows: Scheduled Castes, Rs. 62.75 lakhs; Scheduled Tribes, Rs. 13.75 lakhs, other Backward Classes, Rs. 73.50 lakhs, Total Rs. 150 lakhs.

The number of scholarships granted were as follows: Scheduled Castes 16,400; Scheduled Tribes 3,100; Other Backward Classes 11,000.

In addition 12 scholarships were awarded for study abroad.

In the following States education is free: Andhra, Madras, Bombay, Punjab, U.P., Kashmir, Mysore, Andamans, part of Madhya Pradesh.

The expenditure estimated to be incurred on welfare schemes for Scheduled Castes, and for Scheduled Tribes and on Scheduled Areas during 1955-56 was as follows (Pre-reorganization States).

(In Rs.)

	Scheduled Tribes and Tribal Areas.	Scheduled Castes.
Andhra ..	30,40,147	3,30,870
Assam ..	2,78,06,043	4,00,000

† Pre-reorganization.

\* Including Rs. 2 crores paid under Article 275(1) of the Constitution.

Non-official organizations to whom grants were made were:

In the matter of Scheduled Castes: All India Harijan Sevak Sangh; Bharatiya Depressed Classes League; Harijan Ashram, Allahabad; Indian Conference of Social Work, Bombay.

During the period of the First Plan 1951-56, the grant made to the Sangh was Rs. 2,10,000; to the League Rs. 2,25,000; to the Ashram Rs. 1,22,000. The figure for the grant made to the Conference of Social Work is not available.

In the matter of the ex-criminal tribes, the non-official organizations to whom grants were

made are (the amount is indicated in brackets against the names):

Vimukt Jati Sevak Sangh, Delhi (Rs. 1,09,000); Akhil Gujarat Samata Vaghari Parishad, Ahmedabad (Rs. 24,000).

In the matter of the Backward Classes, the non-official organizations to whom grants were made are (the amount is indicated in brackets against the names):

All India Red Cross Society (Rs. 1,45,000); Bhartiya Adimjati Sevak Sangh (Rs. 1,02,000); All India Backward Classes Federation (Rs. 2,000).

## LAWS OF 1955

**DURING 1955, Parliament passed 57 Acts and three Constitution Amendment Acts. Out of these 57 Acts some do not make any substantial changes in law. The date in the bracket is the date on which the corresponding bill received the assent of the President**

1. The Constitution (Third Amendment) Act, (February 22, 1955).

This Act amends the Seventh Schedule by substituting a new entry in place of entry 33 of List II. It places four classes of essential commodities in that entry. This is done with a view to enabling Parliament to legislate in respect of essential goods.

2. The Working Journalists (Industrial Disputes) Act, Act No. 1 of 1955, (March 12, 1955).

Working Journalists did not come within the scope of the Industrial Disputes Act. The Press Commission had recommended that working Journalists should be entitled to the benefits of the procedure for the investigation and settlement of disputes envisaged in that Act. This Act achieves that object by extending the provisions of the Industrial Disputes Act to working Journalists.

3. The Imports and Exports (Control) Amendment Act, Act No. 2 of 1955, (March 16, 1955).

4. The Andhra Appropriation Act, Act No. 3 of 1955, (March 16, 1955).

5. The Andhra Appropriation (Vote on Account) Act, Act No. 4 of 1955, (March 16, 1955).

6. The Appropriation (Railway) Act, Act No. 5 of 1955, (March 19, 1955).

7. The Appropriation (Railway) No. 2 Act, Act No. 6 of 1955, (March 19, 1955).

8. The Appropriation Act, Act No. 7 of 1955, (March 19, 1955).

9. The Appropriation (Vote on Account) Act No. 8 of 1955, (March 19, 1955).

10. The Salaries and Allowances of Members of Parliament (Amendment) Act, Act No. 9 of 1955, (March 29, 1955).

The Act provides for the issue of first class passes to and drawal of first class fare by members of Parliament with effect from 1st April 1955.

11. The Essential Commodities Act, Act No. 10 of 1955, (April 1, 1955)

This Act provides for the control of the production, supply and distribution of and trade and commerce in certain commodities. To a large extent this Act follows the provisions contained in the Essential Supplies (Temporary Powers) Act 1946 but the penalty clause has been simplified.

12. The Drugs (Amendment) Act, Act No. 10 of 1955, (April 15, 1955).

This Act enlarges the definition of the term "drug" in the Drugs Act 1940 with a view to including chemical contraceptives and insecticides. It has also enhanced the penalty for the contravention of the provisions of the Act.

13. The Dentists (Amendment) Act, Act No. 12 of 1955, (April 15, 1955).

14. The Finance Commission (Miscellaneous Provisions) Amendment Act, Act No. 13 of 1955, (April 22, 1955).

15. The Constitution (Fourth Amendment) Act, (April 27, 1955).

This Act amends articles 31, 31-A and 305 of and the Ninth Schedule to the Constitution.

Section (2) of the Act amends article 31. It re-states more precisely the State's power of compulsory acquisition and requisition of private property and distinguishes it from cases where the operation of regulatory or prohibitory laws of the State results in "deprivation of property".

This amendment was necessitated by the decisions of the Supreme Court of India in two important cases.

Section (3) extends the scope of Article 31-A in order to cover categories of essential welfare legislation. This was necessary, because, judicial decisions interpreting articles 14, 19 and 31 raised serious difficulties in the way of the Union and States putting through important social welfare legislation. Legislation covered by this section is legislation with respect to (1) the taking over of the management of any piece of property by the State for a limited period, (2) the amalgamation of two or more corporations, (3) the extinguishment or modification of any rights of managing agents, secretaries, etc., (4) the acquisition by the State of any estate or of any rights therein or the extinguishment or modification of any such rights, (5) the extinguishment or modification of any rights accruing by virtue of any agreement, lease or licence for the purpose of searching for, or winning any mineral or mineral oil, etc. Legislation with respect to such matters is not to be deemed to be void on the ground that it is inconsistent with or takes away or abridges any of the rights conferred by Articles 14, 19 or 31.

Section 5 amends the Ninth Schedule to the Constitution by adding 7 more entries.

16. The Appropriation (No. 2) Act, Act No. 14 of 1955, (April 27, 1955)

17. The Finance Act, Act No. 15 of 1955, (April 27, 1955).

18. The Medicinal and Toilet Preparations (Excise Duties) Act, Act No. 16 of 1955, (April 27, 1955).

19. The Indian Railways (Amendment) Act, Act No. 17 of 1955, (May 3, 1955).

20. The Insurance (Amendment) Act, Act No. 18 of 1955, (May 3, 1955).

21. The Commander-in-Chief (Change in Designation) Act, Act No. 19 of 1955, (May 8, 1955).

Under clause (2) of Article 53 of the Constitution of India, the Supreme Command of the Defence Forces of the Union vests in the President. In keeping with this provision it is decided to discontinue the practice of referring to the Services Chiefs of the Army, Navy and Air Force as Commander-in-Chief. They are now designated as the Chief of the Army Staff, the Chief of the Naval Staff and the Chief of the Air Staff respectively.

22. The Hyderabad Export Duties (Validation) Act, Act No. 20 of 1955, (May 6, 1955)

This Act validates the levy and collection of certain duties on export of goods from the State of Hyderabad. Doubts were raised with respect to the validity of the levy and collection of such duties. This Act removes all these doubts.

23. The Sea Customs (Amendment) Act, Act No. 21 of 1955, (May 7, 1955).

24. The Untouchability (Offences) Act, Act No. 22 of 1955, (May 8, 1955).

This Act prescribes punishment for the practice of untouchability, for the enforcement of any disability arising therefrom and for matters connected therewith.

Section 3 lays down the punishment for enforcing religious disabilities. The punishment shall be imprisonment which may extend to six months or fine which may extend to five hundred rupees, or both.

Section 4 lays down punishment for enforcing social disabilities.

Section 5 lays down punishment for refusing to admit persons to hospitals, etc.

Section 6 lays down punishment for refusing to sell goods or render services on the ground of untouchability.

Section 7 provides punishment for other offences arising out of "untouchability".

Section 8 empowers the Government to cancel or suspend licences of persons convicted of an offence under Section 6.

Section 9 empowers the Government to resume or suspend grants made by Government in case the trustee or manager of a place of public worship is convicted of any offence under this Act.

Section 11 provides for enhanced penalty on subsequent conviction.

Section 14 lays down rules if offences are committed by companies.

Section 15 provides that offences under this Act will be cognizable and compoundable. Altogether 21 Acts mentioned in the Schedule, are repealed by Section 17.

25. The Hindu Marriage Act, Act No. 25 of 1955, (May 18, 1955).

This Act is the first instalment of the Hindu Code. It amends and modifies the law relating to marriages among Hindus. This Act has extra-territorial application. The term Hindu includes persons who are Buddhists, Jains or Sikhs and also legitimate and illegitimate children whose parents are Hindus, Buddhists, Sikhs or Jains by religion.

This Act will not apply to members of any Scheduled Tribes unless the Central Government by notification otherwise directs.

The Act lays down definitions of "sapindas" and "degrees of prohibited relationship". The Act overrides any text, rule or interpretation of Hindu law or any Custom or Usage as part of that law or any other law in force.

Section 5 lays down conditions for a Hindu Marriage. Monogamy has become the rule. The age of the bridegroom and the bride must not be less than 18 and 15 years respectively. Marriage between persons who are sapindas or who are related within prohibited degrees of relationship is not legal, unless authorised by custom or usage.

Section 6 lays down the list of guardians for marriage.

Section 7 lays down the ceremonies essential for a Hindu marriage.

Section 8 empowers the State Government to make provision for registration of marriages.

Section 9 lays down rules regarding restitution of conjugal rights.

Section 10 lays down rules for judicial separation. The grounds for judicial separation are (1) desertion for two years, (2) cruelty, (3) virulent form of leprosy for one year, (4) venereal disease, (5) unsoundness of mind, (6) sexual intercourse with any person other than his or her spouse.

Section 11 lays down rules regarding void marriages.

Section 12 lays down rules regarding voidable marriages.

The grounds are (1) impotency, (2) lunacy, (3) consent obtained by fraud, (4) pregnancy from some person other than the petitioner.

Section 13 lays down grounds for divorce. They are —

(1) Living in adultery, (2) conversion to another religion, (3) incurable unsoundness of mind for three years, (4) virulent and incurable form of leprosy for three years, (5) Venereal disease in a communicable form for three years, (6) renunciation of the world, (7) not heard of for a period of seven years, (8) failure to resume cohabitation for a place of two years after the passing of a decree for judicial separation, (9) failure to comply with a decree for restitution of conjugal rights, etc.

Sections 14 and 15 lay down other rules regarding divorce. Section 10 lays down that children born of marriages which are subsequently declared void and voidable will be legitimate.

Section 17 provides punishment for bigamy.

Sections 18 to 29 lay down rules regarding allied matters such as court to which the petition is to be made for divorce, the procedure, the custody of children, provision for alimony, etc. Section 30 repeats certain Central and State enactments.

26. The State Bank of India Act, Act No. 23 of 1955, (May 8, 1955).

This Act aims at the extension of banking facilities on a large scale, more particularly in the rural and semi-urban areas. A State Bank of India is constituted for that purpose. The Act transfers to it the undertakings of the Imperial Bank of India.

This Act makes suitable provisions relating to the acquisition of the undertaking of the Imperial Bank of India, the taking over of its business and staff, the payment of compensation to shareholders, the setting up of an appropriate machinery for the governance of the State Bank of India, the business which the Bank may or may not transact.

The Reserve Bank is to hold a minimum shareholding of 55 per cent in the paid-up capital of the Bank. Thus the control of the Government on the State Bank is assured.

The Act makes suitable amendments in the Reserve Bank of India Act, 1934 and the Banking Companies Act, 1949.

27. The Reserve Bank of India (Amendment) Act, Act No. 24 of 1955, (May 8, 1955).

This Act provides for the setting up of a National Agricultural Credit (Long-term Operation) Fund by the Reserve Bank. This fund will be utilised exclusively for the making of loans and advances to State Governments for subscribing to the share capital of Co-operative Credit Societies for making of medium long-term loans to State co-operative banks for agricultural purposes and for making long-term loans and advances to Central Land Mortgage Banks. It also provides for the creation of a second fund called the National Agricultural Credit (Stabilisation) Fund for somewhat similar purpose.

28. The Code of Criminal Procedure (Amendment) Act, Act No. 26 of 1955, (August 10, 1955).

This Act makes far-reaching changes in the criminal procedure code with a view to bringing it up to modern requirements. The following are some of the important changes effected by the Code: (1) It simplifies procedure to the utmost extent, and aims at avoiding all possible delays and speeding up trials regarding less serious offences. It extends the Summons Procedure for the trial of offences of a less serious nature, and enlarges the powers of Magistrate to impose higher sentence of fine, (2) The Magistrates are authorised to hold trials at any place within their jurisdiction with a view to making people feel that Courts are their Courts, (3) The Courts are authorised to try witnesses summarily for the offence of perjury, (4) the procedure in warrant cases is simplified, (5) Revisions to High Courts will now be purely on points of law, (6) abolition of the system of assessors and increase in the number of jury-men, (7) the amount that a Magistrate may award as maintenance to a deserted wife has been increased, (8) the accused is being given the liberty to offer himself as a witness on his own behalf if he so desires. The failure of the accused to do so shall not be adversely commented upon by the prosecution, (9) special provision is made for investigation into charges and defamatory allegations made against public servants, (10) Section 145 is amended with a view to enabling a Magistrate, in case of disputes relating to immoveable properties, to attach the property, to appoint receivers, if necessary, and to direct the parties to resort to a Civil Court for the

determination of their rights, (11) qualification for appointment as honorary Magistrates are laid down, (12) as a step towards effecting the separation of the judiciary from the executive, provision is made for appeals against convictions by Magistrates of the second and third class, to lie to the Court of Sessions instead of the District Magistrate, (13) Procedure in summons cases is also simplified, (14) In certain cases, *de novo* trial is not necessary, even if the Magistrate trying the case is transferred, (15) The accused is to be supplied with a copy of the findings and sentence free of cost immediately after the delivery of the judgment, (16) Summary procedure is provided for punishment for non-attendance by a witness in obedience to summons, (17) Offences of defamation against the President, Vice-President, the Governor, etc. are made cognizable in a case instituted upon a complaint made by the Public Prosecutor.

29. The Indian Tariff (Amendment) Act, Act No. 27 of 1955, (August 23, 1955).

30. The Industrial and State Financial Corporations (Amendment) Act, Act No. 28 of 1955, (Sept. 10, 1955).

31. The Industrial Disputes (Appellate Tribunal) Amendment Act, Act No. 29 of 1955, (Sept. 12, 1955). This Act makes special provision for the disposal of certain proceedings by the Chairman or a member of an Industrial Tribunal. It also empowers the Chairman to transfer the proceedings to any one of the Industrial Tribunals.

32. The Abducted Persons (Recovery and Restoration) (Continuance) Act, Act No. 30 of 1953, (Sept. 17, 1955).

33. The Indian Coinage (Amendment) Act, Act No. 31 of 1953, (Sept. 17, 1955). This Act makes provision for the introduction of a decimal system of subsidiary coinage.

34. The Prisoners (Attendance in Courts) Act, Act No. 32 of 1955, (Sept. 20, 1955).

35. The State Bank of India (Amendment) Act, Act No. 33 of 1955, (Sept. 21, 1955).

36. The Delhi Joint Water and Sewage Board (Amendment) Act, Act No. 34 of 1955, (Sept. 24, 1955).

37. The Land Customs (Amendment) Act, Act No. 35 of 1955, (Sept. 24, 1955).

38. The Durgah Khawaja Saheb Act, Act No. 36 of 1955, (October 14, 1955).

39. The Negotiable Instruments (Amendment) Act, Act No. 37 of 1955, (October 15, 1955).

40. The Appropriation (No. 3) Act, Act No. 38 of 1955, (October 15, 1955).

41. The Spirituous Preparations (Inter-State Trade and Commerce) Control Act, Act No. 39 of 1955, (October 15, 1955).

This Act makes provision for the imposition in the public interest of certain restrictions on inter-State trade and commerce in spirituous, medicinal and other preparations.

42. The Chartered Accountants (Amendment) Act, Act No. 40 of 1955, (October 21, 1955).

43. The Industrial Disputes (Banking Companies) Decision Act, Act No. 41 of 1955, (October 21, 1955).

44. The Prize Competition Act, Act No. 42 of 1955, (October 22, 1955).

This Act provides for the control and regulation of prize competition. This Act prohibits prize competitions where the prize offered exceeds one thousand rupees a month.

45. The Indian Stamp (Amendment) Act, Act No. 43 of 1955, (December 16, 1955).

This Act provides for the levy of a uniform stamp duty in all States at low rates and for the levy of a stamp duty on a policy of group insurance for which no provision existed.

46. The Abolition of Whipping Act, (Act No. 44 of 1955), (December 12, 1955).

This Act provides for the abolition of whipping as a punishment by repealing the Whipping Act 1909. It further amends the Code of Criminal Procedure 1898.

47. The Working Journalists (Conditions of Service) and Miscellaneous Provisions Act, Act No. 45 of 1955, (December 20, 1955).

The Press Commission which was constituted by the Government to inquire, among other things, into the conditions of employment of working journalists, made certain recommendations for the improvement and regulations of such service conditions by means of legislation. These recommendations covered minimum period of notice, gratuity, provident fund, settlement of industrial disputes, leave with pay, hours of work and minimum wages. All these aspects are covered in this Act, except the determination of minimum wages which has been left to a board to be constituted for this purpose and which is called a Wage Board.

This Act also extends the application of the following Acts to newspaper employees: (1) The Industrial Disputes Act (XIV of 1947), (2) The Industrial Employment (Standing orders) Act XX of 1948, (3) The Employees' Provident Funds Act (XIX of 1952).

48. The Appropriation (No. 4) Act, Act No. 46 of 1955, (December 20, 1955).

49. The Appropriation (No. 5) Act, Act No. 47 of 1955, (December, 1955).

50. The Indian Tariff (Third Amendment) Act, Act No. 49 of 1955, (December 24, 1955).

51. The Indian Tariff (Third Amendment) Act, Act No. 49 of 1955, (December 24, 1955).

52. The Prevention of Corruptions (Amendment) Act, Act No. 50 of 1955, (Dec 24 1955).

53. The Railways Stores (Unlawful possession) Act, Act No. 51 of 1955, (December 24, 1955).

54. The Prevention of Disqualification (Parliament and Part C States Legislature) Amendment Act, Act No. 52 of 1955, (December 24, 1955).

55. The Constitution (Fifth Amendment) Act, (December 24, 1955)

This Act amends article 3 of the Constitution with a view to enabling the President of India to prescribe a time-limit within which the States concerned should convey to the President their views on the Bill regarding the reorganisation of States submitted to them for their opinion.

56. The Delhi (Control of Buildings Operation) Act, Act No. 53 of 1955, (December 28, 1955).

57. The Insurance (Second Amendment) Act, Act No. 54 of 1955, (December 29, 1955).

58. The Press and Registration of Books (Amendment) Act, Act No. 55 of 1955.

59. The Manipur (Courts) Act, Act No. 56 of 1955, (December 30, 1955).

60. The Citizenship Act, Act No. 57 of 1955, (December 30, 1955).

Articles 5 to 9 of the Constitution of India determine who are Indian citizens at the commencement of the Constitution. The Constitution does not, however, make any provision with respect to the acquisition of citizenship after its commencement or the termination of citizenship or other matters relating to citizenship. This Act provides for the acquisition of citizenship under certain circumstances. It also formally recognises Commonwealth citizenship and empowers the Central Government to extend on reciprocal basis such rights of an Indian citizen as may be agreed upon to the citizens of other Commonwealth countries and the Republic of Ireland.

The Act makes provision for the acquisition of citizenship, (1) by birth, (2) by descent, (3) by registration, (4) by naturalization and, (5) by incorporation of territory. It also provides for the termination of citizenship, for the renunciation of citizenship, and for the deprivation of citizenship under certain circumstances.

# STATES REORGANIZATION COMMISSION

The States Reorganisation Commission was appointed on December 29, 1953, by a Government of India resolution to examine "the whole question of the reorganisation of the States of the Indian Union objectively and dispassionately so that the welfare of the people of each constituent unit, as well as of the nation as a whole, is promoted."

The Commission was headed by Mr. Fazl Ali, formerly a Judge of the Supreme Court and later, the Governor of Orissa, Pandit Hriday Nath Kunzru, the well-known Liberal M.P., and Sardar Panikkar, formerly Indian Ambassador in Egypt. Mr. P. C. Choudhri, I.C.S., was Secretary.

The report was signed on Sept. 30, 1955 and presented to the Government the same day. It runs into 267 printed pages.

There are two minutes of dissent, one by the Chairman and the other by Sardar Panikkar.

## MAIN RECOMMENDATIONS

A summary of the recommendations is given below :

There should be 16 States, namely.

Madras, Kerala, Karnatak, Hyderabad (shorn of its Kannada and Marathi-speaking areas), Andhra, Bombay (the existing State enlarged to include Saurashtra, Kutch and the Marathwada areas of Hyderabad), Vidarbha (consisting of the eight Marathi-speaking Districts of the existing Madhya Pradesh), Madhya Pradesh (consisting of the Hindi-speaking Districts of the existing Madhya Pradesh, Bhopal, Vindhya Pradesh and Madhya Bharat with capital at Jabalpur), Rajasthan, Punjab (consisting of the existing Punjab, Himachal Pradesh and Pepsu), Uttar Pradesh, Bihar, West Bengal, Orissa, Assam (consisting of the existing State of Assam and Tripura), and Jammu and Kashmir.

There should be three Centrally-administered Territories : Delhi, Manipur, Andaman and Nicobar Islands.

The prospective units, their areas and populations will be as follows :—

States	Area (In sq. miles)	Population (In millions)
Madras .. ..	50,170	30.0
Kerala .. ..	14,980	13.6
Karnatak* ..	72,730	19.0
Hyderabad ..	45,300	11.3
Andhra .. ..	64,950	20.9
Bombay .. ..	151,360	40.2
Vidarbha .. ..	36,880	7.6
Madhya Pradesh ..	171,200	26.1
Rajasthan .. ..	132,300	16.0
Punjab .. ..	58,140	17.2
Uttar Pradesh ..	113,410	63.2
Bihar* .. ..	66,520	38.5
West Bengal* ..	34,590	26.5
Assam .. ..	89,040	9.7
Orissa .. ..	60,140	14.6
Jammu and Kashmir	92,780	4.4

## TERRITORIES

Delhi .. ..	578	1,744,072†
Manipur .. ..	8,628	577,635†
Andamans & Nicobars	3,215	30,971†

\* Approximate figures.

† Actual numbers.

The North-East Frontier Agency should continue to be administered as before by the Central Government.

The future of Pondicherry should be decided by the Centre.

Hyderabad (the residuary State, Telangana) could join Andhra State if the former State's legislature favours this course by a two-thirds majority after the 1961 elections.

The existing constitutional disparities between Part 'A' and Part 'B' States should be removed. All Part 'C' States should be abolished.

In respect of Himachal Pradesh, Kutch and Tripura the Central Government should retain supervisory power for a specified period to maintain their present rate of development.

District boundaries might be rationalized later.

To minimize friction, there should be educational safeguards for minorities.

Development boards should be created for backward areas.

There should be an all-India industrial location policy.

To cement the unity of India and to combat parochial cement, a second Central Hindi-medium University, apart from Osmania, should be set up in the south.

Hindi should be developed, while English should be retained.

There should be all-India cadres for the engineering, forestry, medical and health services, and 50 per cent of all new entrants into the all-India services should be from outside the State. A third of the High Court Judges should also be persons from outside the State.

There should be Common Public Service Commissions for more than one State.

The institution of Rajpramukhs should be abolished.

In his minute of dissent on Himachal Pradesh, the Chairman Mr. Fazl Ali puts forward the view that Himachal Pradesh should continue as a separate unit under the Central Government.

Sardar Panikkar's minute of dissent makes a plea for the partition of Uttar Pradesh into two States.

## GUIDING PRINCIPLES

The principles in the light of which the recommendations have been made can be summarized as follows :

The removal of tensions so that the Union can function effectively.

The primacy of the national interest over that of the administrative units.

Linguistic homogeneity, administrative convenience, economic viability, successful working of the national plan.

Administrative units should not assume a form which might foster regional, communal or other narrower loyalties in any section of the armed forces of India.

The concept of communal or historic homelands is firmly rejected.

The theory of 'one language one State' is also repudiated. On the other hand where the balance of economic, political and administrative considerations permitted the establishment of bilingual States is recommended (Bombay, Punjab, Assam).

In strategic areas where effective or direct Central control is necessary the administrative structure should be governed by considerations of national security.

About border States, a certain burden relating to security arrangements has to be borne by the State. Therefore a border State has to be well-administered, stable and in command of adequate resources. This points to the need for large and potentially rich States in this area.

## SUMMARY WITH DETAILS

The principles we have had in mind may be enumerated as follows :

- (i) preservation and strengthening of the unity and security of India ;
- (ii) linguistic and cultural homogeneity ;
- (iii) financial, economic and administrative considerations ; and
- (iv) successful working of the national plan.

It would be well to take note of the unsettling consequences of reorganisation.

Changes in the existing set-up resulting in the breaking up of old ties and the creation of new associations must involve, at least during the transitory phase a large scale dislocation of the administrative machinery, no less than of the life of the people. As the J. V. P. Committee has pointed out whatever the origin of the existing units, and however artificial they might have been, a century or so of political administrative and, to some extent, economic unity in each of the existing State areas, has produced a certain stability and a certain tradition. Any change would naturally have an upsetting effect.

To begin with parliamentary legislation in terms of Articles 3 and 4 of the Constitution, in order to give effect to any scheme of re-organisation, must itself entail a great deal of effort and time. If one were to judge by existing tensions, the proceedings in State Assemblies, preceding parliamentary legislation, may be protracted and may give rise to strong feelings. Reorganisation of States on a rational basis may also necessitate a number of constitutional amendments which will add considerably to the burden of piloting legislation concerning re-organisation proposals.

The problems of transition will, by no means be over with the passage of enabling legislation. In the first instance, there is the difficult question of the unification of the laws in force in the areas which might be grouped together. The laws extant in the existing administrative units, including those governing such vital matters as land tenure, agrarian reforms and prohibition, are not the same even in the geographically contiguous States. There has been no uniform attempt in the recent past, when mergers have taken place to apply straightaway the laws and regulations of one predominant area to the whole State. Some States have had to depart from this principle because of the prevalence of social and economic conditions in those areas justifying disparity in laws. In some States old laws are still operative because of the delay in completing the process of unification of laws.

The initial phase of transition during which two or more sets of laws are applicable in one State cannot, however, last for any length of time. Apart from *prima facie* objections on general grounds and the administrative inconvenience which it will involve, lack of uniformity in the applications of tax laws will make budgeting difficult, and the lack of uniformity in so far as it involves discrimination without justification may even prove to be bad in law. For these reasons every reorganised State will have to undertake, in the initial years, a laborious and exhaustive review of its existing legislation.

The process of disintegration and re-integration of the existing administrative units must also entail serious dislocation of the administration. It involves a difficult process of integrating the service personnel belonging to one State with the personnel of another State ; retrenchment of surplus and unsuitable personnel, if necessary ; introduction of unified pay scales ; refixation of cadres ; re-determination of relative seniority in the different services, etc. It may also be necessary in consequence of reorganisation to devote attention in the initial years to the basic structure of the administration in some of the States,

that is to say, the system of district administration, the number of districts and other administrative units and sub-units.

In the case of the Part B and Part C States this administrative integration has proved to be a complex problem. In spite of the fact that the utmost importance was attached at the highest level to the early completion of this process there are some States where it is still to be completed. In the light of this experience it cannot be anticipated that the transition will be easy.

In the case of Andhra it was possible, to some extent to hasten separation. But for various reasons (such as that *inter se* seniority was not disturbed, that surplus staff was retained by the residuary State, and that no great changes in the number or the constitution of the districts were involved). Andhra cannot be regarded as a good precedent. Moreover, the Andhra administration has itself had to face such difficulties as the dispersal of its offices, absence of duplicate records, and lack of experienced staff. It cannot, on the whole, be anticipated that reorganised administrative machinery will start functioning smoothly in the new States within a short period.

This must be regarded as the indirect cost of change; to the extent that revision of salaries after reorganisation becomes inevitable (and such a revision, it must be remembered, can only be upwards), there will also be a direct recurring cost. It is not possible or necessary to attempt a forecast of this cost except to indicate broadly the magnitude of the problem. One estimate which has been made on certain assumptions is that the lump sum provisions which will be needed in order to introduce uniform scales of pay may run into ten or eleven crores per annum. Without necessarily accepting this estimate, it may be assumed that one of the consequences of reorganisation will be the intensification of the existing demands for salary revision to such an extent as to render an increase in State Governments' expenditure unavoidable.

Whether there is or there is not a case for salary revision is not a question on which it is necessary for this Commission to express an opinion. In the event of a revision being ultimately decided upon the State Governments may be able to meet the extra cost involved in the introduction of uniform scales of pay by retrenchment and administrative rationalisation to some extent, but too much reliance cannot be placed on these possibilities in the initial years after reorganisation. In the light of the experience of the working of some of the Part B States, a reduction in the number of districts and other administrative units or large-scale retrenchment, even if justified on administrative grounds, would appear to be a remote possibility. Retrenchment and rationalisation will have to be spread, in all probability, over a number of years; the extra cost of salary revisions will, therefore, be fairly heavy.

One other major consequence of reorganisation will probably be the upsetting of the work of the Delimitation Commission. Much of the work of the delimitation of constituencies will have to be done all over again, and major amendments will clearly be needed in the Representation of the People Act, 1950.

This discussion is not, and cannot be, exhaustive. It does not take into account for example, what may be called the human factor, which should be a relevant consideration in breaking up old associations and alignments, or the fact that the service personnel allotted to a State may be inadequately equipped to deal with the needs of that State. There will also be many other minor difficulties with which the new States may be faced. The division of assets and liabilities has never proved to be easy. What are known as unique institutions, that is to say, institutions which serve the needs of the State as a whole, may not be equitably divided on partition; arrangements may have to be made to duplicate them or to ensure that they serve the separated units. Separation of records would involve a process of sifting, collating and large-scale copying. Some changes in the judicial organisation of the States will also be necessary, and considerable volume of accounts work will be created at a

time when the Comptroller and Auditor-General is planning an experiment in the separation of accounts and audit, which will itself add greatly to the responsibility of State Governments.

The integration of princely States involved administrative changes in an area of about 360,000 square miles inhabited by about 59 million people—not counting the major and minor units the boundaries of which were not changed. Impressive as the scale and swiftness of these changes were, it can now be seen in retrospect that the process of rationalising the administrative system in these areas has been spread over seven or eight years and, as has been stated already, it is still not complete. If the reorganisation of States at the present time is to be on a comparable scale, the effects of the change are bound to be considerable.

A preliminary but essential consideration to bear in mind, therefore, is that no change should be made unless it is a distinct improvement in the existing position and unless the advantages which result from it, in terms of the promotion of "the welfare of the people of each constituent unit, as well as the nation as a whole"—the objectives set before the Commission by the Government of India—are such as to compensate for the heavy burden on the administrative and financial resources of the country which reorganisation of the existing units must entail. The reorganisation of States has to be regarded as a means to an end and not an end in itself; that being the case, it is quite legitimate to consider whether there is on the whole a balance of advantage in any change.

## UNITY AND SECURITY

The first essential objective of any scheme of reorganisation must be the unity and security of India. Any movement which may tend to impair the unity of the country must ultimately affect the welfare of all sections of the Indian people. Any measure of reorganisation which is likely to create tensions and disharmony must weaken the sense of unity among the people of India and should not, therefore, be countenanced.

While it is generally agreed that the unity of India must be regarded as the prime factor in re-adjusting territories, there has been considerable difference of opinion as to how this objective is to be realised. Basically, the difference of approach arises from the measure of emphasis put on the relative suitability in the conditions prevailing in the country of federal and unitary concepts, not merely as the basic postulates underlying the constitutional structure of India, but as embracing concepts covering the political as well as the social and cultural life of the people. The problem is essentially one of determining how far the free play of provincial sentiment deriving from a consciousness of cultural and linguistic distinctiveness is a factor making for unity or disunity.

One view is that :

- it will be unrealistic to disregard the patent fact that there are in India distinct cultural units; the unity of the country, therefore, should not be sought in terms of an imposed external unity but a fundamental unity recognising diversity of language, culture and tradition of the Indian people;
- the strength of the Indian Union must be the strength which it derives from its constituent units; and
- since the unity and strength within the constituent units is a condition precedent to a healthy feeling of unity at the national level, any attempt to eliminate tensions and contradictions and to make units more homogeneous and internally cohesive is bound to strengthen the unity of the whole nation.

The other view is that :

- in the past India did not achieve a real measure of political unification or develop into a living body, social or political, constituting an integrated whole; if, therefore, we have to create a united India,

it must be based on a new concept of unity which cannot be achieved by reaffirmation or re-annunciation of old values such as religion, community, culture and language, which operate more to separate than to unite;

- regional consciousness never contributed to India's oneness in the past. In fact, it is inherent in narrower loyalties whether based on communal, provincial or linguistic considerations, that they ally themselves with centrifugal forces and become instruments of inter-state discord and other disruptive trends. The idea of sub-nations or nationalities which must foment resistance to the growth of national unity, is implicit in the demand for a reorganisation of States or a rectification of their boundaries, on the basis of exclusive factors such as linguistic and cultural homogeneity; and
- if, therefore, the unity of India has to develop into a dynamic concept capable of welding the nation together, it must transcend community and language and recognise the entire nation as one integrated unit.

In the Chapter dealing with the implications of the linguistic principle we have examined at some length the question of finding an equilibrium between the regional sentiment and the national spirit. Here we shall briefly indicate the basic considerations which should govern our approach to the problem :

- an essential feature of our social fabric is undoubtedly a wide variation in our life within the framework of a broadly united culture. This, however, does not mean that diversity is a pre-requisite of unity or that over-emphasis on diversity will not hamper the growth of the national sentiment;
- in a vast country like ours, governed by a federal Constitution, centrifugal forces are not an unnatural phenomenon, but what is important is not that they should be eliminated, but that such forces must not be allowed to impede the achievement of our national unity; and
- the strength of the nation is undoubtedly the sum total of the combined strength of the people of the component States. But while the building of contented units, strong enough to bear their share of the burden, is an important objective. It is no less necessary that the links between the units and the nation should be equally strong so that under the stress of regional loyalties, the Union does not fall apart.

It follows that, while internal adjustments at State level are to be desired, it is imperative to ensure that these do not lead to maladjustments at the inter-state and national level. From the point of view of national unity, therefore, reorganisation has to aim at a two-fold objective :

- firm discouragement of disruptive sentiments such as provincialism or linguistic fanaticism; and
- consistent with national solidarity, provision of full scope for the unhampered growth of the genius of each group of people.

This requires that we must build the administrative and political structure of the country on the basic concept of the primacy of the nation, conceding to lesser units an autonomous existence and an intrinsic life and purpose of their own, but only within the harmoniously integrated organism of Indian nationhood.

## LINGUISTIC STATES

The question that has caused the greatest controversy is the position to be accorded to language in the reorganisation of the States of the Indian Union. One of the major facts of India's political evolution during the last hundred years has been the growth of our regional languages. They have during this period developed into rich and powerful vehicles of expression

creating a sense of unity among the peoples speaking them. In view of the fact that these languages are spoken in well-defined areas, often with a historic background, the demand for the unification of such areas to form separate States has gathered momentum and has, in some cases, assumed the form of an immediate political programme.

The Resolution appointing this Commission makes a specific reference to the importance of language.

The advocates of a rigid and uniform application of the linguistic principle advance important arguments in support of their claim which may be briefly stated and examined here.

The constituent States in a federal republic must each possess a minimum degree of homogeneity to ensure the emotional response which is necessary for the working of democratic institutions. The States of the Indian Union can achieve this internal cohesiveness only if they are constituted on a unilingual basis, because language, being the vehicle for the communion of thought and feeling, provides the most effective single bond for uniting the people.

In a democracy such as we have in India, based on universal adult franchise, the political and administrative work of a State has of necessity to be conducted in the regional language. A multiplicity of such languages would lead to weakness and inefficiency in administration and rivalry and jealousy in politics. Already in some of the States a large percentage of members in the legislature know only one language.

The success of a welfare state depends essentially on broad-based popular support, which cannot be secured if the processes of government are not brought home to the people. If the Legislature of a State is not to develop into a babel of tongues, it must conduct its work in one language, the language of the people. The various devices adopted in multilingual States to meet the communicational needs of the people have led only to a dissipation of energy and national resources.

Educational activity can be stimulated only by giving the regional languages their due place. If the educated few are not to be isolated from the masses, the education of the people must necessarily be through the medium of the mother-tongue.

In multilingual States political leadership and administrative authority remain the monopoly of the dominant language groups, and linguistic minorities are denied an effective voice in the governance of their States.

Similarly, in multilingual States welfare activity as well as development plans are unequally and unfairly distributed, the areas inhabited by the dominant language groups develop at the expense of other areas.

Conflict and discord are inherent in administrations in which diverse elements are forcibly held together. Now that the people of India have to shape their own destinies, consciousness of the lack of a community of interests between different language groups tends to become deeper and deeper with the progressive realisation of their divergent economic and other needs.

Different linguistic groups are not interspersed in the multilingual States. Far from this being so, there is, generally speaking, a clearcut integration of different regions on the basis of linguistic homogeneity. The argument, therefore, that different linguistic groups in these areas are living together in close amity is unreal.

The political atmosphere, vitiated by linguistic differences, has now permeated into the administrative structure as a whole. Important administrative posts tend to become the monopoly of the members of dominant language groups.

A majority of the States in the Indian Republic are already predominantly unilingual. The States of West Bengal, Orissa, Bihar, the U.P., Rajasthan, Madhya Bharat, Saurashtra, Mysore and Travancore-Cochin are all either

completely unilingual or could be made so with only minor adjustments of boundaries. The creation of Andhra as a new unilingual State has left residuary Madras mainly a Tamil State. In these circumstances, the apprehension that the linguistic redistribution of the remaining multilingual States will create new problems or constitute a threat to national unity seems to have little justification.

Linguistic redistribution of provinces has been an integral part of the Indian national movement. Having sponsored the linguistic principle for nearly forty years, it is impossible for the leaders of political thought now to reverse the current.

The national movement which achieved India's independence was built up by harnessing the forces of regionalism. It is only when the Congress was reorganised on the basis of language units that it was able to develop into a national movement. True development of national unity will be possible, only if we are able to utilise genuine loyalties which have grown up around historic areas united by a common language.

Finally, it is contended that the urge for linguistic States has now gone deep down into the minds of the masses and a refusal to create such States would lead to a widespread sense of frustration which might have very grave consequences.

#### THE CASE AGAINST

There are also weighty considerations which have been urged against accepting language as the determining principle in the creation of States. The more important of these may now be stated.

The idea of a federating unit, organised as the political expression of a single language group, would inevitably encourage exclusivism. It may even tend to blur, if not to obliterate, the feeling of national unity, by the emphasis it places on local culture, language and history. The self-image that any such language group creates is necessarily one of superiority as compared to others, and this will inevitably be reflected in its educational and cultural institutions. In fact, experience everywhere has shown that States based on languages are intolerant, aggressive and expansionist in character. Already a sense of irredentism is noticeable in the existing unilingual States of India, which claim neighbouring territories on the basis of language statistics.

If the different States pursue policies of their own without regard to the interests of the nation as a whole, there will be no co-ordination and unity of purpose in education. In fact, this tendency might lead to education itself being used as a vehicle of regional particularism and revivalism, resulting in inter-state conflicts and the weakening of the national tie.

Already in the schools of some of the States, songs exalting the regional idea have been introduced into text books. History books taught in lower classes have disclosed a marked tendency to exaggerate the past achievements of the dominant linguistic groups.

Grievances and a sense of frustration in the political and economic field are not the inevitable or necessary features of multilingual States. Even after a State is reconstituted on a linguistic basis, there is no reason to suppose that all areas will receive equal attention and that there will not develop an equally strong sense of frustration and neglect in areas which feel that their claims are not receiving adequate attention.

Planning on a national scale also cuts across linguistic affiliations. Economic development should obviously proceed on such considerations as the capital-income ratio, the more remunerative projects being preferred to the less remunerative ones, the employment possibilities of various projects, the requirements of river valley projects, the optimum utilisation of natural resources, etc.

The formation of linguistic States would not only not accelerate but may retard the pace of planned economic development of the country,

for local sentiment may resent the utilisation of the resources of one area for the benefit of another. Besides any large-scale reorganisation of States may result in the diversion of national energies into unproductive channels.

#### IMPORTANCE OF LANGUAGE

It is obviously an advantage that constituent units of a federation should have a minimum measure of internal cohesion. Common language may also make for administrative convenience and for a proper understanding of Governmental measures by the people. Indeed, in a democracy the people can legitimately claim and the Government have a duty to ensure that the administration is conducted in a language which the people can understand.

The essential point to remember, however, is that if we pursue it as an abstract proposition we are apt to lose a sense of perspective and proportion.

It has to be realised that the political unity of India is a recent achievement. It has not only to be watered and nourished, but protected against hailstorms and gales and against unfriendly climates.

There has been a tendency during the last few years during which the new Constitution has been in force to lay more and more emphasis on the autonomy of the States.

It has to be remembered that linguistic and other group loyalties have deep roots in the soil and history of India. Indian nationalism, on the other hand, has still to develop into a positive concept. In these circumstances further emphasis on narrow loyalties by equating linguistic regions with political and administrative frontiers, must diminish the broader sense of the unity of the country.

Undue emphasis on the linguistic principle is likely to impede the rapid development of new areas brought under cultivation and the rehabilitation of displaced persons. The State Governments will naturally view with concern, and take measures to stop, the settlement in newly colonised areas of people belonging to different language groups.

Finally, there are certain aspects of the claim for linguistic units, the implications of which should be carefully analysed and understood. The most important of these is the doctrine of an area claiming to be the "home land" of all the people speaking a particular language. Its implication is that a Bengali, an Andhra or a Malayali, wherever he is settled, has his home land in Bengal, Andhra or Kerala; that he has a loyalty to that home land, overriding the loyalty to the area of his domicile; and that in the same way, the homeland State has claims on him wherever he may be.

The home land concept must also deepen majority and minority consciousness and thereby aggravate the minority problem. In a number of States discriminatory practices against people from other units seem to exist even at the present time. The "home land" doctrine, if encouraged is bound to accentuate these trends.

#### COMPOSITE STATES

In States having more than one developed language, there has been no marked tendency in the past to develop a sense of loyalty to the state. There was never any noticeable Madras sentiment when the State was a composite one. On the other hand, such loyalties as did develop within the area were based on languages. The same holds true about Bombay and Madhya Pradesh.

The idea that the creation of multilingual States will weaken the loyalty to language groups does not, therefore, seem to be justified. There is, however, one difference between composite and linguistic States. Undoubtedly, the maintenance of multilingual units will prevent the utilisation of the machinery of the state for furthering programmes of linguistic exclusiveness, and in favourable conditions may lead

to tolerance and adjustment, especially if the importance which is now attached to economic development diverts attention from less important questions.

A composite state in which languages are integrated territorially may have another value. A composite state which makes adequate provision for the protection of culture and the encouragement of local languages would help to prevent the growth of anti-national trends.

### CONCLUSION

We now summarise our final views on the role of language as a factor bearing on the reorganisation of States. After a full consideration of the problem in all its aspects, we have come to the conclusion that it is neither possible nor desirable to reorganise States on the basis of the single test of either language or culture, but that a balanced approach to the whole problem is necessary in the interests of our national unity.

Such a balanced approach would appear to be :

- (a) to recognise linguistic homogeneity as an important factor conducive to administrative convenience and efficiency but not to consider it as an exclusive and binding principle, overriding all other considerations, administrative, financial or political;
- (b) to ensure that communicational, educational and cultural needs of different language groups, whether resident in predominantly unilingual or composite administrative units are adequately met;
- (c) where satisfactory conditions exist, and the balance of economic, political and administrative considerations favour composite States, to continue them with the necessary safeguards to ensure that all sections enjoy equal rights and opportunities;
- (d) to repudiate the "home land" concept, which negates one of the fundamental principles of the Indian Constitution, namely equal opportunities and equal rights for all citizens throughout the length and breadth of the Union;
- (e) to reject the theory of "one language one state", which is neither justified on grounds of linguistic homogeneity, because there can be more than one State speaking the same language without offending the linguistic principle, nor practicable, since different language groups, including the vast Hindi-speaking population of the Indian Union, cannot always be consolidated to form distinct linguistic units, and
- (f) finally, to the extent that the realisation of unilingualism at state level would tend to breed a particularist feeling, to counter-balance that feeling by positive measures calculated to give a deeper content to Indian nationalism; to promote greater inter-play of different regional cultures, and inter-state co-operation and accord; and to reinforce the links between the Centre and the State in order to secure a greater co-ordinated working of national policies and programmes.

We have noticed that in many cases the cultural argument has been pressed into service with very little justification. In fact, there was hardly a political note struck before us which did not carry a cultural under-tone.

It is obvious that the impact of the administrative activity at the state level on the citizen's life cannot possibly be so comprehensive as to have any direct bearing on cultural life in the wider sense.

Even in this restricted sense, claims based on cultural homogeneity should normally stand the following two-fold test:

- (a) the people claiming a distinctive culture must constitute a recognisable group; that is to say, it should include a number of persons sufficient by themselves to claim, conserve and develop stable traditions or the characteristics of their cultures; and

- (b) such cultural individuality should be capable of being expressed in terms of a defined and sizable geographical entity.

A point to remember is that it is neither practicable nor desirable to impede social or cultural evolution which results from increasing opportunities for social and political intercourse. Secondly, cultural isolation or cultural conflict are inconsistent with the traditions of this country. Indian culture, as is well-known, itself represents the synthesis of different religions and diverse modes of thought. Thirdly, the Constitution provides suitable safeguards for the protection of the cultural rights of the minorities of India.

In these circumstances, we are disinclined to attach too much importance to cultural distinctiveness as a factor independent of the linguistic needs of the people.

### FINANCIAL VIABILITY

In some of the memoranda which have been received by us, attempts have been made to link financial viability with concepts like *per capita* national income and *per capita* State income. It is safer, however, to confine ourselves to a consideration of the revenue and expenditure of the various units.

Financial viability has two aspects : the short-term aspect is the ability of the State to balance its budget over a period of time, not necessarily within each single financial year; the long-term aspect is the capacity of the State to increase its economic resources in such a way that it is possible for it to balance its budget at a higher level of development, unless it chooses, on grounds of economic policy, to have a deficit budget.

As far as possible, units should be self-supporting. A transfer of financial resources from the Centre to the States may be unavoidable, but such transfers should normally be utilised for development purposes and not for meeting the ordinary obligations of a State on revenue account.

It seems to us that a unit to be regarded as financially self-supporting should be able to meet the following broad tests :

- (i) on the average, and over a reasonably short period, a State's revenue and expenditure should be in balance—unless a deficit is deliberately being planned as a part of wider economic policy for the country as a whole; this balanced budget standard is to be attained after providing in full for servicing the State's public debt, including all the loans obtained from the Centre;
- (ii) consistently with (i), the State should be able to afford such increases as are necessary in the expenditure on productive and nation-building services which are legitimately within the State sphere, e.g., the extension of community projects. No all-India standards can, of course, be prescribed, but it should be possible for each State to set apart progressively more and more funds for development purposes; and
- (iii) no State should be dependent on the Centre to such an extent as to cause any embarrassment either to itself or to the Centre.

It is no doubt true that all the States of the Indian Union are now dependent in varying degrees on central aid for development expenditure. However, we must not lose sight of the fact that excessive dependence on the Centre detracts from the federal principle, since a real division of political power is not possible without an adequate separation of financial powers and resources.

### DEVELOPMENT PLANS

The Resolution of the Government of India appointing this Commission states that changes which interfere with the successful prosecution of the national plan will be harmful to the national interest.

India's development plan may increasingly take the shape of a centrally-directed effort to locate and implement projects which are intended to give the highest return within the shortest periods, the benefits accruing to the country as a whole and not merely to any particular areas or regions in it. If the maximum advantage is to be derived from any such development plan or plans, the central planning authority must operate under minimum restrictions in its choice of methods and investments, and parochial tendencies within the Union should be discouraged.

Considerations which we might bear in mind in the light of what has been stated in the preceding paragraphs are:

- (a) no change should be made otherwise than for clear and compelling reasons;
- (b) the permanent advantages and possible recurring economies which can result from the scheme of reorganisation should be such as to compensate for the dislocation; and
- (c) the administrative consequences of reorganisation should be clearly thought-out and suitable machinery should be devised in order to minimise the time required to deal with them.

It seems desirable that, where in the interests of the orderly implementation of a project, certain financial or administrative measures have to be taken, such as those relating to soil conservation, settlement of newly-reclaimed land or the levy of betterment charges, etc., the Central Government should have the power to ensure that the States co-operate in achieving the desired objectives.

### REGIONAL PLANNING

One of the suggestions made to us has been that it would be an advantage if administrative units could be made to conform to natural economic regions.

This appears to be an attractive proposition, but there are practical difficulties in the way of its implementation.

The unified control of river valleys for purposes of development is, for example, desirable.

A detailed examination has however revealed the difficulties of this problem. The number of instances in which headworks are situated on or near the borders of existing States is so large, that multiple control of irrigation and power projects cannot be rejected in principle.

The theory that every State should have access to the headworks of river-valley projects which benefit it, or be able to control the catchment area of the river or rivers in question, is also one which cannot be wholly accepted.

It is clear to us that where territorial adjustments intended to secure access to head-works or unified control over river valley projects do not come into conflict with other important considerations, it will be a clear advantage to make provision for them.

A suggestion which may be investigated is that areas which are grouped round important cities and towns or other centres of activity, nodal regions in other words, should be distinguished; and that new States should, if possible, be created so as to conform to a division of the country on these lines.

The claims which have been made in favour of the theory of nodal regions are that economic activity centres round a few important places, the flow of trade and commodities is a function of distances from such central points. It could be argued then that the flow of goods and services within each such natural region would be free; that the centre and its out-lying area could develop in a complementary and co-ordinated manner; and that regional economic planning as a rule would be facilitated.

The concept of a nodal region is, however, still very vague; and it rests on insecure data. In this country at any rate, it is impossible at this stage to distinguish such regions.

An alternative concept of an economic region is to regard it, not as a nodal region, but as an area in which the *per capita* national income is not greatly above or greatly below the national average. This is a comprehensive concept and is intended to be one. It includes other criteria which have been suggested, like a well-balanced pattern of occupational distribution; the maintenance of a proper balance between agricultural and industry; the avoidance of wide disparities in population densities, land utilisation and food production; and the availability of unoccupied land to the reorganised units.

From an economic and planning point of view, this is an attractive ideal because this will ensure that no single administrative division in the country will be too rich or too poor.

The revenue and expenditure of the States in such a scheme of reorganisation may in due course become more nearly comparable than is now the case; and something like a national standard in public expenditure may ultimately emerge. The need for the transfer of resources from one administrative division to another will also be very largely eliminated at the same time; and the advantages of this in a federation, in which the units will otherwise be engaged in making claims and counter-claims regarding the distribution of revenue resources, can hardly be exaggerated.

There are great difficulties in translating the concept. However, it would be desirable, where this does not come into conflict with other important principles, to bear in mind the need for avoiding wide disparities in natural endowments and resources between the various States.

### SMALLER V.S. LARGER STATES

It would be relevant also to discuss at this stage the question whether the reorganised units should be big or small.

Briefly summarised, the arguments in favour of small States are that in such States the administration will be more accessible to the people; and that there will be a livelier sense of local needs and appreciation of local problems on the part of the Government. Further, in such matters as public co-operation in community project areas, availability of voluntary labour for public purposes and the attitude of the people to economic development generally, the small State has an advantage. A closer link between the electorate and its representatives may help to bring about a real unity of outlook and community of interest between the people and those charged with their governance.

It may be doubted in the first place whether except in the Swiss Cantons, it has been possible to realise the ideal of direct democracy anywhere. As regards the appreciation of local needs, the machinery of planning is intended to serve this purpose; and it is extremely unlikely that a small State will be able to finance on its own projects which, as matters stand at present, have no chance of being considered at the national level.

The question of public co-operation, assuming that it can be organised on a big scale for the purposes of the plan would no doubt be important. But even here, there is no evidence that only a small State can succeed in enlisting such co-operation or that a large State will necessarily fail to do so.

When it is remembered that too many small States necessarily add to the burden of unproductive expenditure and that the view can be held that expenditure on social services cannot be regarded as more important than basic productive investment like river valley and power development schemes, which a large State will be in a much better position to undertake, the case for small states cannot be regarded as impressive.

The case for sizeable administrative units is based partly on a rebuttal of the claim in favour of small States and partly on other independent grounds. A sizeable State should normally be financially more stable and more able to conform

to the broad requirements of financial and economic policies, as they may be formulated from time to time for the country as a whole. A further point in favour of larger units is that only the creation of relatively larger States will lead to appreciable economy in the unproductive expenditure on administration, which the country so clearly needs at the present stage.

There are other factors such as economic and social conditions within the different areas; political consciousness, tempers and traditions of the people; and the political acumen and the sense of public service of the leaders in different areas, which set the pace of progress and administrative efficiency.

With the expansion of the requirements of organised social communities, modern States inevitably tend to grow bigger and it is difficult to reverse the process. In the existing conditions in this country as determined by territory and population, the ideal of self-government for very small units can, therefore, possibly be realised only at the level of local institutions.

### SOME OTHER FACTORS

The wishes of the people, to the extent they are objectively ascertainable and do not come into conflict with larger national interests, should be an important consideration in roadjusting the territories of the States.

But none can concede the principle of self-determination without subjecting it to certain limitations.

It has to be considered how far a unit which, on financial, administrative or other grounds is incapable of survival, can be sustained purely on the ground that the majority of the people are disinclined to a disturbance of the 'status quo'.

If the principle of self-determination were to govern the internal reorganisation of States, there will be no limit to the possible demands for separate States.

It has been urged in some memoranda that a common historical tradition fosters a sense of kinship and oneness and that common history, therefore, should be regarded as a factor relevant to the reorganisation of States.

But in redrawing the political map of India, the question before us is, should the guidance come from the local or regional history or from the cardinal lessons of the history of the whole of India? More often than not, every disputed area admits of more than one irreconcilable claim based on history, and obviously, the facts of the existing situation are much more important than the fact that in previous times the area concerned had a different administrative attachment.

Over-emphasis on the historical factor is likely to lead to the growth of a sense of rivalry, exclusiveness and narrowness in different regions. While, therefore, we have been alive to the value of historical connections and links we have not been disposed to attach undue importance to arguments based on them.

Geographical contiguity of units is undoubtedly essential for administrative convenience. In some of the memoranda special emphasis has been laid on physiography and it has been argued that States should ordinarily be marked off by natural boundaries like mountains, rivers and water sheds.

But the actual demarcation of territories on that basis is very difficult. In these conditions, apart from geographical compactness, physical geography can at best be a factor entitled only to secondary consideration.

Administrative considerations, linguistic homogeneity, geographical compactness, alignment of communications ensuring easy accessibility from one area to another and the elimination of multiplicity of jurisdictions in areas, which administratively and economically constitute integrated units, are some of the objectives which have to be borne in mind.

The problems of reorganisation vary from region to region. It has to be kept in mind that the inter-play for centuries of historical, linguistic, geographical, economic and other factors has produced peculiar patterns in different regions. Each case, therefore, has its own background. Besides, the problems of reorganisation are so complex that it would be unrealistic to determine any case by a single test alone. We have, accordingly, examined each case on its own merits and in its own context and arrived at conclusions after taking into consideration the totality of circumstances and on an overall assessment of the solutions proposed.

The Indian Union should have primary constituent units having equal status and a uniform relationship with the Centre, except where, for any strategic security or other compelling reasons, it is not practicable to integrate any small area with the territories of a full-fledged unit. If the States of the Union are to be treated on a footing of equality and if the status of the present Part A States is accepted as the standard, then the Part B and Part C States must disappear. Such a step would be justified on its own merits.

If the States of the Union are to enjoy a uniform status, it is necessary that each State should be inherently capable of survival as a viable administrative unit. It should have the resources, financial, administrative and technical, to maintain itself as a modern State. It should normally be able to establish and maintain institutions to educate, train and equip its people for its administrative, technical and professional requirements. And finally, it should be able not only to meet the day-to-day needs of the administration but also to expand its social services and other development activities.

### PART B AND C STATES

The problem of abolishing the distinction between Part B States and Part A States would not present any serious difficulty. There are three factors, apart from certain minor transitional provisions of the Constitution, which distinguish the Part B States from Part A States:

- Certain agreements in consequence of their financial integration;
- The general control vested in the Government of India by Article 371; and
- The institution of the Rajpramukh.

Of these, the agreements mentioned in (a), to the extent they are still operative, can be suitably adjusted. The Constitution provides for a review of these agreements at the end of five years and a revision is now due.

So far as Article 371 is concerned, with the establishment of properly constituted legislatures in Part B States, the exercise of Central control over these States has been gradually falling into desuetude. Even in the past, Article 371 operated in actual practice only as a constitutional sanction behind informal advice given by the Government of India.

The position and the role of the Rajpramukhs in Part B States are more or less the same as those of the Governors of Part A States, both being constitutional heads.

The institution, however, has a political aspect and large sections of public opinion view its continuance with disfavour on the ground that it ill accords with the essentially democratic framework of the country.

In the first place, we feel that the constitutional head of a State should not, generally speaking, be a resident of that State.

In view of the past associations of the Rajpramukhs with the territories of which they were hereditary rulers, it is doubtful if they can effectively discharge the essential functions of the constitutional head of a State. Besides, apart from its undemocratic character, the institution of Rajpramukh tends to maintain, even where it does not create, loyalties which, in our opinion, are undesirable. Public opinion all over the country seems to favour the merger of these States in the adjoining units as the best means of eliminating the present anomaly.

## CENTRAL AID

There is a great deal to be said in favour of the amalgamation of Part C States with adjoining States. Only one, namely, Coorg, has been in a position to carry on so far a reasonable system of administration without Central assistance. The increase in the cost of general administration, which has taken place, is already very considerable and if the progress of the First Plan is an index of the level of administrative efficiency, the Part C States have, generally speaking, fared rather poorly.

The administrative services in the Part C States have not been and are not likely to be properly manned, the main reason being that service in these States offers inadequate opportunities.

One other reason why a merger may be desirable is that the Part C States, being in most cases unplanned enclaves, continue to have close economic links with the surrounding area.

The democratic experiment in these States, wherever it has been tried, has proved to be more costly than was expected or intended and this extra cost has not been justified by increased administrative efficiency or rapid economic and social progress.

Political institutions as well as political consciousness have been of a relatively recent origin in most of the Part C States. The choice of leadership, therefore, is necessarily limited. Besides, the smaller the forum for political activity the greater the interplay of personal ambitions and jealousies. On the administrative side, they give rise to all kinds of anomalies and difficult situations and the size of these units is such that it does not even admit the enforcement of the salutary convention that district officers should not normally serve in their home towns.

It would be only fair to the people of those States which were placed under the Centre for the specific purpose of their economic development, if the Centre does not divest itself of responsibility for their development, until a stage has been reached when they could be left entirely to the care of the State Governments concerned.

This would necessitate the retention by the Central Government of some kind of supervisory power over State Governments in respect of the development of the economically backward areas constituting some of the existing Part C States. The areas over which the Central Government's supervision may be desirable, in our opinion, are: (a) Himachal Pradesh; (b) Kutch; and (c) Tripura.

The Government of India might make special allotments for the development of these areas and also exercise under the proposed arrangements, control over the disbursement of these allotments for specified purposes. The Government of India might also constitute in consultation with the Governments of the States concerned development boards consisting of officials and non-officials to look after the economic and social development of these areas.

As for the other areas, e.g., Bhopal and Ajmer, we trust that the State Governments will take appropriate steps to ensure that the present pace of economic development in these areas is maintained.

It is desirable that the laws of the larger States should be extended to the merged units with due regard to the special needs of the people of these units. The objective should be that the wholesale application of new laws in all the territories of the merged States does not follow as a matter of course, and old laws may be continued, to the extent that a disparity in the application of laws is desirable in the interests of the merged units, or is based on good grounds which justify such differentiation in law.

Taking all the facts into consideration, we recommend that the component units of the Indian Union be classified into two categories:

- (a) "States" forming primary constituent units of the Indian Union having a constitutional relationship with the Centre on a federal basis. These units should cover virtually the entire country.

- (b) "Territories" which, for vital strategic or other considerations, cannot be joined to any of the States and are, therefore, centrally-administered.

These "territories" should be represented in the Union legislature, but there should be no division of responsibility in respect of them. Democracy in these areas should take the form of the people being associated with the administration in an advisory rather than a directive capacity.

## MADRAS

We take up first the States in the south where the demand for the redistribution of state territories is of long standing.

This State is linguistically homogeneous except mainly for two districts, namely, Malabar and South Kanara, in a distant and outlying corner, which are not Tamil-speaking.

The main claim advanced on behalf of Madras is for the addition of the Tamil-speaking areas of Travancore-Cochin. This claim rests mainly on linguistic considerations and grounds of geographical contiguity and relates to nine taluks, namely, Thovala, Agastheeswaram, Kalkulam, Vilavancode and Neyyattinkara in Trivandrum district, Devikulam and Peermade in Kottayam district, Shenkotta in Quilon district and Chittur in Trichur district.

In our scheme of reorganisation, we have adopted the district as the basic unit for making territorial readjustments. This is because we feel that districts have developed an organic and administrative unity and an economic life of their own, and any adjustments below the district level, therefore, should normally be avoided. If any such adjustments are considered necessary, they should be made only by mutual agreement. We have departed from this rule only when, for ensuring geographical contiguity or for some other important administrative or economic considerations, detachment of part of a district has become imperative.

The demand for Tamil-speaking taluks has a history behind it and has assumed a form that prejudices the political and administrative stability of this area. We have, therefore, considered it necessary to examine the Tamil claims to these taluks and to make recommendations about their future.

In the four southern taluks, namely, Agastheeswaram, Thovala, Kalkulam and Vilavancode, situated in what is known as Nanjil Nad, the percentage of Tamil-speaking people is above 70. The wishes of the people of this area have been clearly expressed and there is no particular reason why these wishes should not be respected.

The Shenkotta taluk is partly an enclave in Tirunelveli district of Madras State and the percentage of Tamil-speaking people in this taluk is about 93. Physically and geographically it belongs to Tirunelveli district in which it should now merge.

The Devikulam and Peermade taluks stand on a somewhat different footing. These are hilly areas which, for various economic and other reasons, are of great importance to the State of Travancore-Cochin. The percentage of Tamil-speaking people in the Devikulam and Peermade taluks is 72 and 44 respectively. It has, however, been stated before us that this fairly large Tamil population of these two taluks is accounted for, in part, by a floating corps of labourers employed by plantations in this area. Recent figures for the Peermade and Devikulam taluks show that the Tamil migrant population constitutes 30 per cent and 46 per cent leaving behind 14 per cent and about 26 per cent, as the non-floating Tamil-speaking population in the two taluks respectively.

Considering their area, which is about twelve per cent of the whole area of Travancore-Cochin State, Devikulam and Peermade taluks have a comparatively meagre population and with the progress of development should be able to

relieve some of the burden on the heavily congested littoral areas of the State. The economic importance of this locality will be discussed later, but it may be appropriate to mention here some of the natural advantages of this area, containing the high range of the Anamalais and some of the highest peaks south of the Himalayas. It is the source of the most important river of the State, the Periyar, as also of other rivers. Apart from the question of impounding the headwaters of the rivers, it is necessary to adopt measures to afford protection to the rice fields in the valley bottoms, and to promote the special economy of the high range relating to forests, plantations and hydro-electricity; these cannot be effectively undertaken if the State is deprived of this area.

The Tamil side of the case is that, although much of the population of Devikulam and Peermade may have been originally migrant, it now constitutes a majority and that in the 1954 elections, the Travancore Tamil Nad Congress won both the seats to the Assembly from this area. It is important, however, to note that the Travancore Tamil Nad Congress itself recognises the special interests of the Travancore-Cochin Government in this area and is prepared to exclude from the areas sought to be transferred to Tamil Nad, the Pallivasal pakuthy of the Devikulam taluk, where the hydro-electric works are located and the Peruvanthadu pakuthy of Peermade taluk, which includes the township of Mundakayam and the rubber estate.

This concedes, in effect, a part of the claim of the Government of Travancore-Cochin to these two taluks. As we have observed earlier, we do not regard the linguistic principle as the sole criterion for territorial re-adjustments, particularly in the areas where the majority commanded by a language group is only marginal. It may also be recalled that, on the basis of the evidence tendered before it, the Dar Commission had come to the conclusion that it would not be proper to describe any area as unilingual unless the majority of one language spoken in that area was at least 70 per cent, and that any area below that should be considered as bilingual or multilingual as the case may be. We are generally in agreement with this view, but in our opinion, the mere fact that a certain language group has a substantial majority in a certain area should not be the sole deciding factor.

Neyyattinkara is a predominantly Malayalam-speaking taluk (86 per cent). As regards Chittur, it was claimed that the Tamil-speaking population was 95 per cent; the re-sorting, on the other hand, has shown that the Malayalam percentage of the taluk is 50.8. There seems to be no particular reason for separating these taluks. A portion of Chittur is now an enclave in Madras State, but if a Kerala State is constituted on the lines indicated in the next Chapter, this can be conveniently attached to Malabar which will form part of Kerala.

The non-Tamil areas of Madras are the two districts of Malabar and South Kanara and the Kannada-speaking areas on the borders of Mysore, specially the Kollegal taluk of Coimbatore district. The Madras Government has not raised any objection to the separation of the two districts; as far as the Kollegal taluk is concerned, Madras had agreed earlier to its transfer to the prospective Karnataka State, but subsequently, on reconsideration, has proposed that only a northern portion, which is contiguous to the existing Mysore State, should be transferred. We have considered very carefully the arguments in favour of breaking up this taluk, but find on the whole that they are unconvincing. The entire taluk, according to our proposals, will cease to be a part of Madras.

Madras State thus constituted will have a population of about 30 millions, covering an area of about 50,170 sq. miles, a compact and integrated territory and will form one of the important units of the Indian Union with a history of stable administration. Neither its administration nor its plans of economic development will be affected.

## KERALA

The formation of Kerala follows as a corollary to the proposals made in the Chapter on Madras. Here also territorial adjustments have to be made around an existing homogeneous unit. The present Travancore-Cochin State is a predominantly unilingual State. Even with the Tamil-speaking taluks of the South, the Malayalam percentage is 88.3 which is higher than that of the main languages of most other States. In three of its four districts, Quilon, Trichur and Kottayam, the Malayalam-speaking population is as high as 94 per cent.

The main addition to the State will be the contiguous district of Malabar. Physically and culturally, Malabar district is somewhat isolated from the rest of the Madras State.

Fort Cochin, which is administratively part of Malabar, will automatically go to Kerala.

The other areas to which claims have been advanced on behalf of Kerala are the districts of South Kanara and Nilgiris, Coorg and the Anaimdive and Laccadive Islands.

There is little justification for the Kerala claim to the whole of the South Kanara district. The Dar Commission had included only the Kasaragod taluk of South Kanara in the geographically contiguous area in which the Malayalam language is largely spoken. As a result of the resorting of census ships, the language figures for this taluk are now available. According to these figures, the Malayalam-speaking percentage is about 72. Though Kannadiga opinion in South Kanara concedes the claim of Kerala up to the Chaudhagiri river administratively it will be more expedient to join the whole taluk to Kerala than to break it up purely on linguistic grounds.

The Kerala claim to Coorg is untenable on grounds which we shall discuss later. The Laccadive Islands already form part of the Malabar district. In our opinion, the Anaimdive group should also form part of the prospective Kerala State. It was an accident that the Anaimdive ever came to be attached to South Kanara. It would be desirable and convenient, if the future Kerala State were administratively in charge of all the islands, including the Anaimdive group.

The prospective Kerala State will thus consist of the existing State of Travancore-Cochin less the five Tamil taluks of Thovalai, Agastheswaram, Kalkulam, Vilavancode and Shenkottai plus Malabar district which includes the Fort Cochin area, the Kasaragod taluk of South Kanara district and the Anaimdive Islands. The State thus constituted will have an area of about 14,980 square miles and a population of about 13.6 millions. It will be linguistically homogeneous, about 94 per cent of its population will be Malayalam-speaking and the State will be geographically compact. It will be well-served from the point of view of communications.

There have been some suggestions that, considering its size, the density of its population, which is the highest in India, and the menacing problem of unemployment it would be best for the whole of the Kerala area to be united with Madras to form a South Indian State. A further argument in favour of this proposal is that Travancore-Cochin, deprived of its Tamil taluks and yoked with economically backward Malabar, would not constitute a viable unit.

The proposal is attractive from many points of view, but neither the Malayalam-speaking people nor the Tamilians have welcomed it. As it is frankly said to be in the interests of Kerala, one can understand the reluctance of the Tamilians to be associated with a little more than 13 million Malayalees who not only speak a different language but (except for the population of the district of Malabar) have never been united with them before. Opinion in Travancore-Cochin itself irrespective of party affiliations is, also generally, against this proposal.

Yet another proposal made before us was for the formation of a West Coast Pradesh consisting of the whole coastal area from Gokarnam in the North Kanara district to Cape Comorin. The proposal is only an ambitious variant of the plan for the formation of Kerala. It rests, however, on weak foundations in that there can be little justification for adding the whole of South Kanara and a portion of North Kanara to Kerala on the ground of so-called common economic interests.

We have considered very carefully the arguments which have been or can be advanced against the formation of the proposed Kerala State from the financial and economic point of view. We shall first deal with Malabar, Malabar, it has been argued, is an under-developed district. The gap between revenue and expenditure in this area is already very large, but is bound to become larger, as the level of economic development is brought up to that of the rest of Kerala. The land revenue system which prevails in Malabar is, moreover, different from that of the existing Travancore-Cochin State, where the tax is or will soon be levied at a flat rate. It has been further contended that if this concession of a flat rate of tax were extended to Malabar, the financial deficit will be increased. When Malabar's deficit in food supplies is taken into account and when allowance is made for the facts that tenancy laws in this district are different from the rest of Kerala, and that a further round of integration of services on account of the merger of Malabar will involve a great deal of time and labour, and perhaps also much additional expenditure, the transfer of Malabar to the proposed Kerala State, it is argued, will be inadvisable on financial as well as administrative grounds.

*Prima facie*, these arguments are not without substance. But a detailed examination indicates that there is less in these objections than may at first be thought. The financial deficit of the Malabar district, for example, seems to have been exaggerated. The Madras Government has tried to estimate this deficit during the three years ended March, 1953, and has arrived at the conclusion that the gap between revenue and expenditure cannot be in excess of Rs. 55 lakhs on an average.

There is also reason to believe that Malabar's revenue will improve to some extent in the near future, for the existing State of Madras has since introduced an agricultural income tax the yield of which in this district will have to be taken into consideration. Malabar's prospective financial position cannot, therefore, be described as unsatisfactory.

It has been claimed that South Travancore or Nanjil Nad is the main rice-producing area in the State, and that the food deficit of the prospective Kerala State will be greatly increased, if this area is separated. When the substantial contribution from the Tamil taluks, and particularly from Thovalai, Devikulam and Peermade, to the revenues of the existing State of Travancore-Cochin (largely because of the agricultural income-tax) is also taken into account, the argument that the transfer of these Tamil taluks might impair the economy of the State would appear to be reinforced.

Here again, there are reasons to believe that the financial position or economy of the Kerala State will not be adversely affected. Under the arrangements which have been proposed, the fairly heavy revenue from Devikulam and Peermade will be retained by the prospective Kerala State; and the rice production in Neyyattinkara taluk will belong to the State. Incidentally, arguments based on the assumption that Nanjil Nad is the granary of Travancore-Cochin State seem to lack substance. Estimates of food production in Nanjil Nad vary considerably. But even if the most liberal estimates, namely, those of the Travancore-Cochin Government were accepted, Nanjil Nad will not be self-sufficient in food. The result is that neither the existing State of Travancore-Cochin nor the prospective Kerala State will actually be losing a food surplus area if Nanjil Nad is transferred to Madras.

The power potential which is available in Devikulam and Peermade taluks will continue to be utilised by Travancore-Cochin or Kerala according to our proposals. Besides, no material changes in the Devikulam colonisation scheme of the present Travancore-Cochin Government will be necessary.

An important development is that food administration has now ceased to be the responsibility of the State Government. The effect of this is to relieve the revenue budget of the existing Travancore-Cochin State of a considerable burden (from 1943 to 1954 the total cost of subsidies has been estimated at a little less than Rs. 17 crores, of which a little more than Rs. 8 crores was met by the State). Another fact which is relevant to the present discussion is that pay-scales in Travancore-Cochin have recently been raised. This meets to some extent the objection that pay-scales in Travancore-Cochin and Madras vary so greatly that readjustment of boundaries in this area is bound to create problems. Reference has also been made already to the importance of agricultural income-tax which, has now become leviable in Malabar district. The net result of these recent developments is that the financial picture is no longer as gloomy as it was generally believed to be. Any argument therefore, which assumed that the financial position of the future Kerala State will necessarily be worse than that of the existing State of Travancore-Cochin does not appear to be valid.

## KARNATAKA

The next area to be considered is what may be called Karnataka.

It has been generally recognised that, in the provincial distribution under the British, the Kannadigas suffered most, with their area split up into four units in three of which they were at the tail end and reduced to the position of ineffective minorities. The All India Congress Committee in 1927, the All-Parties Conference in 1928 and the Indian Statutory Commission in 1930 all recognised the legitimacy of the claim of the Kannadigas to unification. The Dar Commission also expressed the view that the Kannadigas would prosper and be able to manage their affairs much better under their own Government, if such a Government were possible.

There was no disagreement until recently about the territorial limits of the proposed Karnataka State.

The differences relate principally to two matters, namely, the financial prospects of the Karnataka State and the desirability of integrating, in the proposed Karnataka State, the State of Mysore which claims to have a distinct administrative and cultural tradition. It is no longer assumed, as it was, for instance, assumed in the Nalin Committee's Report, that the Karnataka areas outside Mysore will be financially self-sufficient or that they will have a surplus of revenue over expenditure. In fact, a committee appointed by the Mysore Government known as the Fact-Finding Committee has arrived at the conclusion that the position is quite the contrary. Since the Karnataka areas outside Mysore are regarded as undeveloped, and are likely to have a financial deficit, there has grown up in the last two or three years opposition to the unification of Mysore with other Karnataka areas.

This latter view is of such recent origin, and the opinion of its sponsors is still so tentative, that this cannot, perhaps, be taken as a considered solution put forward by the Kannadigas generally. So far as we have been able to assess public opinion in Karnataka, there is a growing opposition to the proposal that two States should be created. While the general consensus of opinion outside Mysore prefers one united State, two, even within Mysore, the majority seem to value the advantages of unification above any temporary dislocation or inconvenience which may result from it.

It has been suggested to us that the basic reason why two States have sometimes been demanded instead of one is either political or religious apprehension or perhaps a combination of both. It has been estimated that Lingayats or Vokkaligas constitute about 35 to 40 per cent of the population in the Kannada areas outside Mysore at present. The other important section of the Kannadigas, namely the Vakkaligas, similarly constitute a little less than 20 per cent of the population of Mysore. In the united Karnataka, it has been estimated that a little more than 20 per cent of the population may be Lingayats, between 13 and 14 per cent Vakkaligas, and about 17 to 18 per cent Harijans. It is clear that no one community will, therefore, be dominant, and any one section can be reduced to the status of a minority, if other groups combine against it.

In the perspective of the political and economic development of the Karnataka State which we have in view, the importance of narrow communal jealousies should not be exaggerated.

The deficits of Bombay and Hyderabad Karnataka will be sizable. Indeed, our calculations suggest that they may be somewhat in excess of Rs 1 crore, this deficit being largely explained, as in the case of Bellary, by the cost of servicing the capital outlay on the Tungabhadra project. These should be appreciable savings in overhead costs, however, which can be set off against this deficit and against the cost of revising Mysore scales of pay.

Rail communication in northern Karnataka is now unsatisfactory. It is, however, unsatisfactory also in the Malnad area of the existing Mysore State; and in view of the scale on which railway expansion is now planned, it is hoped that northern Karnataka will soon become more easily accessible from Bangalore than it is at the present time.

The assumption which has sometimes been made that the Karnataka areas outside Mysore are particularly backward seems to us to be quite unwarranted. Bombay Karnataka in particular has enjoyed for a sufficiently long time the benefits of a progressive administration which has provided in this area educational facilities up to the University stage, cheap and adequate transport services run by one of the more important road transport corporations in the country and other amenities for the population. The extra cost, if any, of uniform standards of expenditure on the social services cannot, therefore, in our opinion, be very great.

For these reasons, we recommend that one Karnataka State should be formed. This state should, in our opinion, comprise the following areas:

- the present Mysore State, excluding the following portions of the Bellary district as now constituted, namely, the Siruguppa taluk, the Bellary taluk, the Hospet taluk and a small area of the Mallapuram sub-taluk in which the dam and headworks of the Tungabhadra project are situated (details of the area to be transferred from the Mallapuram sub-taluk will have to be determined by the Government of India, in consultation with the State governments concerned);
  - the four Kannada-speaking districts of the Southern division of Bombay, namely, Belgaum except for Chandgad taluk, Bijapur, Dharwar and North Kanara;
  - the districts of Raichur and Gulbarga;
  - the South Kanara district except the Kasaragod taluk;
  - the Kollegal taluk of the Coimbatore district of Madras; and
  - Coorg.
6. The territorial limits of Karnataka, as thus proposed, broadly cover the Kannada-speaking areas, but in the case of one or two small units, linguistic considerations have been subordinated to other compelling reasons.

One such area is Kolar district, which has a Telugu majority of fifty-four per cent, and a Kannada-speaking population of barely twenty-one per cent. It has intimate ties with Mysore which are of such long standing that they cannot easily be ignored. The major industry in this district is gold-mining. This has been fostered and built up by the Mysore Government, which has a direct interest in the continued existence and prosperity of this industry. The industry for its part gets the benefit of cheap hydro-electric power from Mysore. Other facilities have also been provided by the Mysore Government. The mining town itself has attracted a considerable number of immigrants from the adjoining areas, mostly Tamilians, with the result that Tamil is the largest language group in K.G.F. city today. The district is also much nearer to Bangalore than it is to Kurnool or Hyderabad. In case it is included in Andhra, it will be in the south-western corner of that State and will necessarily be somewhat remote from the main centres of Andhra. Taking into account all these factors as also the fact that the Telugu majority in this district is not large, we feel that it should remain where it is.

#### BELLARY DISTRICT

After very serious consideration we have decided to recommend the exclusion of a portion of the present Bellary district along the course of the Tungabhadra from Karnataka and its transfer to the Andhra State. We are aware that this is not in accord with the findings of an eminent judge like Shri Justice Misra and also with the decision taken by the Government of India in 1953.

It seems to us that Shri Justice Misra was mainly guided by what he described as "linguistic gravity" although he took other considerations also into account. On the other hand, we have to be guided by certain principles which can be generally applied. The retention of Kolar district in the Karnataka State and the addition of the major part of Belgaum district to it will, in our opinion, be more advantageous to the new State than the continuance in it of the eastern portion of the Bellary district.

The arguments which have been advanced in favour of maintaining the *status quo* with regard to Bellary are almost similar to those advanced for separating the Kolar district from and not including parts of the Belgaum district in the future Karnataka State. What has weighed with us in arriving at the conclusion to which we have referred is the cumulative effect of three main considerations, namely, administrative convenience, economic links and the importance of the Tungabhadra project to the Rayalaseema districts of Andhra.

There seems to be a great deal of force in the contention put forward on behalf of the Andhra Government that in view of the communication and other links of Bellary with the rest of Rayalaseema and the dependence of Bellary town on the existing Andhra State rather than Mysore in the matter of trade and commerce, these taluks have a much closer relation with the Andhra State than with Mysore. Bellary was administered as a part of the composite state of Madras for more than one hundred and fifty years, during which it developed into a sort of unofficial capital for the entire Rayalaseema area. The sudden snapping of old associations has resulted in a great deal of hardship to the people of this town. Firstly, there is the fact that many important offices serving the Andhra area were located in this town and the transfer of these offices has naturally affected many of the residents of the town who depended for their livelihood on them. There is also the consideration that the district, and the town of Bellary in particular, had and still continue to have a considerable volume of trade with the Andhra area. Again, Bellary town continues to be connected with all the district headquarters of the Rayalaseema area by rail and road, and it is nearer to Kurnool than to Bangalore.

It has been represented to us that after the creation of the Andhra State, the Tungabhadra Project Board, which was set up in terms of Section 66 of the Andhra State Act, could not function satisfactorily. If the area, as proposed by us, is transferred to Andhra, the chances of friction with regard to the Tungabhadra project will be minimised to a very considerable extent.

It will be somewhat unsatisfactory if the Andhra Government has, even after the redistribution of States, no access to the headworks of a project in which it is vitally interested. It may be recalled that the project was originally intended in so far as it relates to the southern side, for the benefit of Rayalaseema as an insurance against recurrent famines in that area.

The ayacut of the low level canal on the southern side of this project, already sanctioned, will have to be brought under cultivation as soon as possible; and it has been represented that immigration from the existing Andhra State into the eastern portion of Bellary district, as it is now constituted, is both necessary and desirable for this purpose. If we take into account the ayacut which is likely to be benefited by the proposed high level canal, the case for Andhra is considerably reinforced.

When Shri Justice Misra originally reported, Mysore had to be given a new district town of sufficient importance from which Bellary, which was transferred to it could be administered. This latter argument is not valid to the same extent today, because it is no longer a restricted redistribution which is being considered, but a large scale redistribution; and Karnataka will be able to make satisfactory arrangements for carrying on the district administration, even if Bellary town is taken away.

Coorg has retained its separate administration owing to what the Indian Statutory Commission has described as "historic causes". The affiliations of this State are predominantly with Karnataka. Kannada-speaking people form the largest linguistic group in the State accounting for 85 per cent of its population; Coorgi or Kodagu, which is spoken by about 29 per cent of its people is akin to Kannada and is regarded by some authorities as a dialect of Kannada. Culturally, Coorg has had more links with the east, which is mainly Karnataka country, than with the west and the south, and geographically the whole of Coorg forms part of Malnad which belongs essentially to Karnataka.

While the case for integration of Coorg in the proposed Karnataka State appears to us to be indisputable, we wish to take note of the claim to a distinct individuality which the people of this minor administration have put forward. We suggest that a concession should be made to this sentiment by demarcating it as a separate district of the prospective Karnataka State.

#### BELGAUM

The Chandgad taluk of Belgaum district is predominantly Marathi-speaking and it has been established as a result of the resorting of Census slips that the Marathi majority in the taluk is as high as 92.4 per cent.

As regards the remaining ten taluks of Belgaum district, it has been claimed that two of them, Khanapur and Belgaum (including Belgaum town), as well as portions of Chikodi taluk, have closer affiliations with the Marathi-speaking districts of Bombay. The Marathi majorities in Khanapur and Belgaum taluks are slight, being 58.9 and 51.4 per cent respectively. Six out of the remaining seven taluks are predominantly Kannada-speaking, and in the seventh, namely, Chikodi, the Kannadigas constitute the largest single language group. All the taluks of Belgaum district have economic relations with both the Marathi as well as the Kannada speaking areas. Belgaum town is the centre of the transit trade in this area, which is chiefly in cotton and oil seeds. Neither Belgaum town nor the other disputed areas, however, have any particularly

marked economic affiliations with the Marathi-speaking districts of Bombay. There is no case, therefore, for detaching either Khanapur or Belgaum or portions of Chikodi from the rest of the Belgaum district.

It has been argued that Belgaum town has an absolute Marathi majority and that due consideration should be given to this factor. Separate mother-tongue figures for this town were not compiled during the last Census. Even if it is admitted that this town has now a Marathi majority, the future both of the taluk as well as of the town should, more properly, be decided on administrative grounds. If as many as nine out of the eleven talukas go to Karnataka (Chandragad going to Bombay and Belgaum being disputed), then, on administrative grounds, Belgaum town, which is the district headquarters, along with the Belgaum taluk, should also go to Karnataka.

We have recommended earlier that Bellary town, along with the Bellary taluk, should go to Andhra, although the town according to Shri Justice Mitter's report did not have a predominantly Andhra complexion; our recommendation in respect of the Belgaum town follows the same principles.

In the Kollegal taluk of the Coimbatore district about 77 per cent of the people are Kannada-speaking. For the reasons already explained the whole of the taluk should, in our opinion, form part of the Karnataka State.

### ECONOMY

Karnataka with the territorial limits which have been indicated so far will have linguistic and cultural homogeneity and geographical integrity.

The proposed Karnataka State will have its own major port, for Malpe in South Kanara has already been selected as a possible site on the recommendations of the West Coast Major Ports Development Committee (1950) and preliminary examination of this project has been taken in hand.

The prospective financial position of Karnataka as a whole discloses a deficit of the order of one and a half crores of rupees. Karnataka, no doubt, will have to bear the fairly heavy burden of servicing the public debt on account of the Tungabhadra and other projects; and as the Upper Krishna, Bhima and Ghataprabha (second stage) projects are taken in hand in the next few years, the burden of the liability on account of interest charges is bound to increase.

From a broader point of view, the formation of Karnataka may go some way towards solving the problem of the development of Malnad. The fact that practically the whole of Malnad will belong in future to one State is not an insignificant gain, and it may be expected that co-ordinated planning for these hilly areas will be easier.

Northern Karnataka is now on the eve of large-scale and rapid economic development. The Tungabhadra, Upper Krishna, Bhima, Ghataprabha and Malaprabha projects, when they have been completed, will convert a parched and dry area into one of the best irrigated agricultural regions in the country. The increased production of food and other commodities, after irrigation has been extended, will meet the needs of Mysore, which in years of scarcity suffers from a serious deficiency of food supplies.

The agricultural, mineral, water and forest resources of Karnataka are considerable. We have no doubt that whichever way one may look at the problem, a united Karnataka will be found to have the essential unity of a culturally homogeneous and balanced economic region; and to a considerable extent, this unity is even independent of the ties of a common language.

The Karnataka State so constituted will have a population of about 10 millions and an area of about 72,730 square miles, possessing large forest wealth and a good soil. Also there will be no serious dislocation because the existing Mysore

State provides an administrative machinery, a capital and a High Court and all the other appurtenances of a modern government.

### HYDERABAD

Further reorganisation of States in the south is dependent in a large measure on the future of Hyderabad. Hyderabad is a State with a population of 18.7 millions of which 47.8 per cent speak Telugu, 24.3 per cent Marathi, 11.6 per cent Urdu, 10.5 per cent Kannada and 5.3 per cent other languages. In the preceding Chapter we have already recommended the transfer of the two districts of Hyderabad, namely, Raichur and Gulbarga, to the proposed Karnataka State.

There has been a general demand, with popular support behind it, that the State should be disintegrated on the basis of linguistic and cultural affinity. This demand does not rest merely on linguistic grounds.

It has been argued that States like Bombay, Madras and Madhya Pradesh, though heterogeneous in character, have achieved a fair measure of progress and have acquired considerable experience in the working of the democratic form of government. In the case of Hyderabad, however, it is contended that the State has long been an artificial political unit and that the progress of the people who have remained backward cannot be accelerated unless its three component regions are attached to more advanced units. This step is also said to be necessary for the liquidation of the undemocratic tradition which, it is stated, is still deep-rooted in this state.

On the other hand, it has been argued before us that for more than six hundred years, from the time of the Bahmani kings, the area has been an integrated unit with common geo-political features, and that the State represents in miniature a real cultural synthesis and an intermingling of Indian people and should, therefore, be preserved as a model for other areas to imitate. A further argument for the maintenance of the *status quo* is that Hyderabad, if permitted to exist as a unit, could become a centre of north Indian culture and become the carrier of Hindi to the south.

It is important to bear in mind that the three areas of Hyderabad known as Telangana, Karnataka and Marathwada were substantially united only under the authority of the Asaf Jahi dynasty. This unity was not based on a free association of the people, but rested on the weak foundation of personal rule. With the democratisation of the State, this super-imposed and superficial unity has already broken down in effect.

Public sentiment, both within and without the State, is overwhelming and insistent on the need for the disintegration of the State. Only a negligible minority favours the maintenance of the *status quo*.

Not only is the opposition to the disintegration of the State confined to minor sections, but the arguments on which this opposition is based also do not bear scrutiny. We are not impressed by the claim that during the last two hundred years a specific Deccani culture has developed in the whole area. Outside the city of Hyderabad, and to a lesser degree Aurangabad, Bidar and Gulbarga there is little that could be called a common culture.

Geographically, Hyderabad is divided into two distinct regions, the Deccan lavas region and the remaining region—the Deccan region corresponding more or less with Marathwada. The demographic features are also so different that a casual observer proceeding from Aurangabad to Warangal may see the differences between the people not merely in their language but also in their clothing, special customs, manners, etc.

As for the utility of the State for the propagation of Hindi in the South, it is true that with the background of Urdu education Hindi can easily be made popular in Hyderabad. The obvious suggestion, however, is not only that Hindi should replace Urdu as the medium of instruction

in the Osmania University, but that the former Government's policy of instruction through Urdu in the primary and middle schools should be continued (now, of course, through Hindi) throughout the State. It is most unlikely that a majority of the Telugu-speaking members of the existing legislature will agree to use in the middle and secondary schools any language except Telugu. Likewise, in Marathwada education in anything but Marathi will not be tolerated.

Thus, it will be seen that the plea for the continuation of Hyderabad rests on weak foundations. Continuance of the existing structure will also keep a number of important reorganisation problems unsolved and thereby impede the stabilisation of the proposed units in the South.

There is one point which will have to be considered in consequence of a change in the present character of the State, namely, the position of the Urdu-speaking people of the twin cities of Hyderabad and Secunderabad who constitute 45.4 per cent of the population. The remedy that some people have suggested that of making the cities a centrally-administered area does not appear to be feasible. Other measures will, therefore, have to be adopted to give adequate protection to the linguistic, cultural and other interests of the large Urdu-speaking people in the twin cities. These measures should, in our opinion, include the recognition of the special position of Urdu in the educational institutions and in the administration. Steps will also have to be taken to ensure that the Urdu-speaking people are not discriminated against in the matter of recruitment to services.

### VISHALANDHRA

The next question which we have to consider is the future of the Telugu-speaking areas of the existing State of Hyderabad, with particular reference to the demand for the creation of Vishalandhra.

The advantages of a larger Andhra State including Telangana are that it will bring into existence a State of about 32 millions with a considerable hinterland, with large water and power resources, adequate mineral wealth and valuable raw materials. This will also solve the difficult and vexing problem of finding a permanent capital for Andhra, for the twin cities of Hyderabad and Secunderabad are very well-suited to be the capital of Vishalandhra.

Another advantage of the formation of Vishalandhra will be that the development of the Krishna and Godavari rivers will thereby be brought under unified control. Since Telangana, as part of Vishalandhra, will benefit both directly and indirectly from this development, there is a great deal to be said for its amalgamation with the Andhra State.

The economic affiliations of Telangana with the existing Andhra State, are also not unimportant. Telangana has in years of scarcity a sizable deficit in food supplies. The existing Andhra State, however, has normally a surplus which Telangana may be able to use. The existing State of Andhra has likewise no coal, but will be able to get its supplies from Singareni. Telangana will also be able to save a great deal of expenditure on general administration, in case it is not established as a separate unit.

The creation of Vishalandhra is an ideal to which numerous individuals and public bodies, both in Andhra and Telangana, have been passionately attached over a long period of time, and unless there are strong reasons to the contrary, this sentiment is entitled to consideration.

The case for Vishalandhra thus rests on arguments which are impressive. The considerations which have been urged in favour of a separate Telangana State are, however, not such as may be lightly brushed aside.

The existing Andhra State has faced a financial problem of some magnitude ever since it was created; and in comparison with Telangana, the existing Andhra State has a low *per capita* revenue. Telangana, on the other hand, is much less likely to be faced with financial embarrassment.

The much higher incidence of land revenue in Telangana and an excise revenue of the order of Rs. 5 crores per annum principally explain this difference. Whatever the explanation may be, some Telangana leaders seem to fear that the result of unification will be to exchange some settled sources of revenue, out of which development schemes may be financed, for financial uncertainty similar to that with which Andhra is now faced. Telangana claims to be progressive and from an administrative point of view, unification, it is contended, is not likely to confer any benefits on this area.

When plans for future development are taken into account, Telangana fears that the claims of this area may not receive adequate consideration in Vishalandhra. The Nandikonda and Kusthupuram (Godavari) projects are, for example, among the most important which Telangana or the country as a whole has undertaken. Irrigation in the coastal deltas of these two great rivers is, however, also being planned. Telangana, therefore, does not wish to lose its present independent rights in relation to the utilisation of the waters of the Krishna and the Godavari.

One of the principal causes of opposition to Vishalandhra also seems to be the apprehension felt by the educationally backward people of Telangana that they may be swamped and exploited by the more advanced people of the coastal area. In the Telangana districts outside the city of Hyderabad education is woefully backward. The result is that a lower qualification than in Andhra is accepted for public services. The real fear of the people of Telangana is that if they join Andhra they will be unequally placed in relation to the people of Andhra.

Telangana, it has further been urged, can be a stable and viable unit considered by itself. The revenue receipts of this area on current account have been estimated at about Rs 17 crores, and although the financing of the Krishna and Godavari projects will impose a recurring burden on the new State by way of interest charges, the probable deficit, if any, is unlikely to be large.

### TELANGANA

The advantages of the formation of Vishalandhra are obvious. The desirability of bringing the Krishna and Godavari river basins under unified control, the trade affiliations between Telangana and Andhra and the suitability of Hyderabad as the capital for the entire region are in brief the arguments in favour of the bigger unit.

It seems to us, therefore, that there is much to be said for the formation of the larger State and that nothing should be done to impede the realisation of this goal.

At the same time, we have to take note of the important fact that, while opinion in Andhra is overwhelmingly in favour of the larger unit, public opinion in Telangana has still to crystallise itself. Important leaders of public opinion in Andhra themselves seem to appreciate that the unification of Telangana with Andhra, though desirable, should be based on a voluntary and willing association of the people and that it is primarily for the people of Telangana to take a decision about their future.

We understand that the leaders of the existing Andhra State may be prepared to provide adequate safeguards to protect the interests of Telangana in the event of its integration in Vishalandhra. These safeguards may take the form of a guarantee (presumably on the lines of Sri Baugh Pact between Rayalaseema and coastal Andhra) of opportunities for employment for Telangana in the public services of the new State at least to the extent of one-third, that is to say, roughly in the proportion of population, and an assurance that particular attention will be paid to the development plans of this area.

We have carefully gone into the details of the arrangements which may be made on these lines. It seems to us, however, that neither guarantees on the lines of the Sri Baugh Pact nor Constitutional devices, such as "Scottish devolution" in

the United Kingdom, will prove workable or meet the requirements of Telangana during the period of transition. Anything short of supervision by the Central Government over the measures intended to meet the special needs of Telangana will be found ineffective, and we are not disposed to suggest any such arrangement in regard to Telangana.

A further point to be borne in mind is that the State of Andhra was brought into existence only recently and has still not got over the stress of transition. It has, for example, still to formulate a policy on land reforms and the problems arising from the partition from the composite State of Madras have, by no means, been tackled fully yet. Integration of Telangana with Andhra at this stage is, therefore, likely to create administrative difficulties both for Andhra and Telangana.

After taking all these factors into consideration, we have come to the conclusion that it will be in the interests of Andhra as well as Telangana if, for the present, the Telangana area is constituted into a separate State, which may be known as the Hyderabad State, with provision for its unification with Andhra after the general elections likely to be held in or about 1961, if by a two-thirds majority the legislature of the residuary Hyderabad State expresses itself in favour of such unification.

The advantage of this arrangement will be that, while the objective of the unification of the Andhras will neither be blurred nor impeded during a period of five or six years, the two governments may have stabilised their administrative machinery, and it possible, also reviewed their land revenue systems, etc., the object in view being the attainment of uniformity. The intervening period may incidentally provide an opportunity for allaying apprehensions and achieving the consensus of opinion necessary for a real union between the two States.

If, however, our hopes for the development of the environment and conditions congenial to the unification of the two areas do not materialise and if public sentiment in Telangana crystallises itself against the unification of the two States, Telangana will have to continue as a separate unit.

The State of Hyderabad (as we would prefer to call this unit), to be constituted for the time being, should consist of the following districts, namely, Mahbubnagar, Nalgonda, Warangal including Khammam, Karimnagar, Adilabad, Nizamabad, Hyderabad, Medak and Bidar and the Mumagad enclave in Nalgonda district belonging to the Krishna district of the existing Andhra State.

The Sironcha tehsil of Chanda district, which has been claimed for Vishalandhra and which is geographically contiguous to Telangana, has not been included in the Hyderabad State. The Telugu-speaking percentage in this tehsil is only about 51.2. The Andhra case, therefore, rests in part on the fact that about eighty years ago this tehsil was administratively part of the Upper Godavari district. We have found no strong grounds in this case for disturbing the *status quo*.

The entire district of Bidar has been included in Hyderabad State on the same principles. This is a multi-lingual district, in which Marathi, Kannada, Urdu and Telugu are spoken respectively by 39, 28, 16 and 15 per cent of the population. Administratively, Bidar has very close links with Hyderabad and even Telangana at the present time. The major river which runs through the district, namely, the Manjira, is utilised, for example, in the Medak district. The railway system links the Marathi-speaking taluks of the district very easily with Hyderabad, and the national highways provides a direct connection between the Kannada-speaking taluks and this city. The undoubted Kannada areas are also somewhat remote from Bangalore and Mysore; and the north-western strip, which is Marathi-speaking, is likewise far removed from Bombay. Consistently with our general view that districts should not be broken up, except when compelling

reasons for doing so exist, we have recommended that Bidar should not be disintegrated merely in order that linguistic claims in the north-west or in the south may be respected.

The Hyderabad State with the boundaries which we have indicated will be a compact and well-knit unit with an area of about 45,300 sq. miles and a population of about 11.3 millions.

### ANDHRA

The boundaries of the existing Andhra State will be determined in the light of what has been said in the preceding pages.

It is only necessary to deal with two or three minor matters, namely, the rectification of the Andhra-Orissa and Andhra-Madras borders and the adjustment of the Andhra-Karnataka border, with particular reference to the claims of the Andhra State in all these areas.

We deal later on with the Andhra-Orissa border. Here, it is only necessary to indicate that no changes are being proposed.

The boundary of the Andhra State in the south has already been the subject-matter of discussion, and the Prime Minister's statement in Parliament, dated March 25, 1953, made it clear that a boundary commission would in due course demarcate the southern and south-western boundaries of the Andhra State. The Andhra Government has also conceded in the memorandum presented to us that the claims of the Tanidams to areas in the Puttur, Chittoor and Tiruttani taluks of the Chittoor district may be considered after the census slips have been sorted and village-wise language figures are available.

Some progress has now been made in this direction and the Madras-Andhra border disputes may be settled satisfactorily by negotiation between the two governments.

The Andhra-Karnataka border may also be settled perhaps in the same manner. We have considered at some length only two important points, namely, the future of the present Bellary district of Mysore and that of the Madakasira taluk of Anantapur district.

The position regarding the Madakasira taluk is somewhat complicated. Portions of this taluk, being enclaves within the existing Mysore State, were merged in Mysore in 1950 in terms of the Provinces and States (Absorption of Enclaves) Order, but a substantial area of this taluk which has a Kannada majority of about 64 per cent still juts out in Mysore and is surrounded on three sides by areas which will belong to the prospective Karnataka State.

There is, however, a great deal to be said in favour of not breaking up the Anantapur district. This would be in accord with our general principle, and since it is also accepted that the integrity of Rayalaseema must as far as possible be respected, this argument applies with additional force. It will be illogical to break up the Anantapur district for the purpose of adding the Madakasira taluk to Karnataka but to decline to break up Kolar for the purpose of adding the predominantly Telugu portion to Andhra.

We now come to the question of the future of Madras city. In the memorandum which has been submitted to this Commission, the Andhra Government has reopened this question and has presented elaborate arguments in favour of special arrangements being made for Madras city, relying in particular on the early history of the city in order to prove its Telugu origin and affiliations.

The arrangements proposed, which envisage a kind of joint control for Madras city are, however, patently unworkable. The Tamil-speaking population of the city exceeds two-thirds of its total population at the present time and the case for its separation from the predominantly Tamil-speaking State of Madras rests on weak foundations. The future of Madras city, therefore, must now be regarded as finally settled.

The area and population of the Andhra State after minor adjustments will be a little more than 64,950 square miles and about 20.9 millions respectively without taking into account any adjustments which may be made by agreement between Andhra and Madras regarding the rectification of the southern border.

## BOMBAY

The formation of the proposed Karnataka State involves the separation of the Karnataka districts of the existing Bombay State. We now consider the important question whether there is a case for recommending a further disintegration of this State in order that separate Maharashtra and Gujarat States may be formed.

We should like to make a few preliminary observations regarding the existing Bombay State before the case for breaking it up is discussed in detail. Although it has been contended that in multilingual areas the stress of internal friction within the administration retards efficiency, Bombay is undoubtedly one of the best-administered States of the Indian Union. It has the highest percentage of literacy amongst the Part A States and has made a promising start in introducing compulsory primary education, and judged by the measure of success it has achieved in enforcing land reforms and ameliorative legislation, it must rank amongst the most progressive States in the country.

It is also noteworthy that its financial position continues to be sound and satisfactory, in spite of the heavy development expenditure which the State has incurred in recent years. The question, therefore, of further disintegration of this State which, on the whole, has done so well must receive very serious thought.

Though not as old as the demand for Andhra and Karnataka, nor even as old as the movement for Maha Vidarbha, the demand for a United Maharashtra comprising the Marathi-speaking areas of the existing States of Bombay, Madhya Pradesh and Hyderabad, with the city of Bombay as its integral part, has, of late, gathered considerable momentum.

Alongside the Samyukta Maharashtra movement there has also grown up a demand for the formation of Maha Gujarat by uniting the States of Saurashtra and Kutch with the Gujarati-speaking areas of Bombay. This demand, however, cannot be regarded as pressing, because, by and large, the Gujarati-speaking people would now seem to be content to remain in the composite State of Bombay, if it continues more or less as at present constituted.

The demand for the separation of the Marathi-speaking areas and their consolidation into one administrative unit rests on the arguments which are generally advanced against the continuance of composite States and in favour of the formation of linguistic States. It is emphasised that the Marathi-speaking people, who are claimed to be a distinct cultural group with a common historical tradition and political and economic interests, can legitimately claim a State of their own.

As we have observed earlier, we are not inclined to concede any demand on the sole ground of language. We have, therefore, to weigh the linguistic factor with other relevant considerations bearing on the well-being of the people of this region.

We are conscious of the fact that opinion in the northern and southern Maharashtra districts in general seems to be in favour of the creation of the United Maharashtra State. At the same time, we cannot ignore the fact that important sections of public opinion in the Marathi-speaking districts of Madhya Pradesh do not subscribe to the ideal of Samyukta Maharashtra.

The most difficult problem, however, which the separation of the Maharashtra and Gujarat regions of Bombay would pose is the future of the city of Bombay.

## CASE FOR CITY STATE

The case for the integration of Greater Bombay in Maharashtra briefly is that it does not deserve to be treated differently from other important multilingual cities like Madras; that it is geographically an integral part of Maharashtra; that if it is deprived of its hinterland its further growth would be arrested; and that as a separate State it will become an arena of ideological and political conflicts.

On the other hand, it is argued that the case of Bombay City stands by itself, that it is not a predominantly Marathi-speaking unit; that it has acquired its present commanding position by the joint endeavour of the different language groups and that it cannot legitimately be claimed by one language group; and that its integration in Maharashtra will lead to a rapid decline in its importance.

The Dar Commission and the J. V. P. Committee came to the conclusion that in the event of the disintegration of the Bombay State, Bombay City should be constituted into a separate unit. The conclusions arrived at by them are summed up in the following extracts.

"The city of Bombay stands in special relation to Maharashtra, Gujarat, and to India as a whole. Industrially and commercially, it is the hub of India's financial and industrial activity. And altogether it excites some of the deepest emotions in Marathi and Gujarati hearts.

"In all the non-Maharashtrian evidence that came before us there was practical unanimity that the city of Bombay should be formed into a separate province, either centrally administered or with a Government of its own and in no case should it be placed under a unilingual Government. Some expert evidence was also led before us to show how the commercial and financial interests of the Bombay City and of India as a whole would be affected by a sudden change in the form of the Government in Bombay.

"The best fortune that we can see for the City of Bombay is that it should continue as it is today, the meeting place of all communities, their source of pride and affection and a convenient centre for their joint labour and enterprise. It will be incongruous to make this multilingual, cosmopolitan city the capital of a unilingual province."

The question of the City of Bombay has not only risen but has been fiercely debated. And yet in our opinion, there can be little room for argument about this great city. It is not only one of the greatest cities of India but is essentially a cosmopolitan multi-lingual city, the nerve-centre of our trade and commerce, and our biggest window to the outside world. It is quite impossible for us to entertain any idea or any proposal which might injure the many-sided life and activity of this great city, which has been built up by the labour of all kinds of people and communities. We cannot consider it as belonging to any one linguistic group and attach it to a purely linguistic province. This would undoubtedly mean its rapid deterioration from its present commanding position. The population of Bombay has grown rapidly during the past years. It is very much a mixed population and there can be little doubt the Maharashtrians in Bombay are a minority of the population. But even if they were in a slight majority, that would not take away in the least from the cosmopolitan character of the city. We are, therefore, of opinion that, in case the present province of Bombay is split up, and separate Maharashtra province is formed, the City of Bombay should be constituted into a separate political unit.

It should be remembered that the Congress even when it formed the Maharashtra, Gujarat and Karnataka Provincial Congress Committees, made Bombay City a separate Provincial Congress Committee.

"Be it stated clearly and emphatically that Greater Bombay will not become just a part of a purely linguistic province, and that if such linguistic provinces are formed out of the present Bombay Province, the area of Greater Bombay will have to be constituted as a separate unit."

During the course of our inquiry, a vast majority of persons who appeared before us and did not belong to either of the two contending language groups expressed themselves strongly in favour of placing Bombay City under a separate administration in the event of the disintegration of the State.

It has been argued before us that all this may be irrelevant to the main issue, namely, whether Greater Bombay should merge in Maharashtra. Constitutional provisions, it has been stated, will ensure that there will be freedom of trade, commerce and intercourse between Greater Bombay and the other areas of the Indian Union. Discriminatory treatment of minorities is also forbidden by the Constitution, and there may be no particular reason to expect that any future government of Maharashtra will be so short-sighted as to create an atmosphere of tension, suspicion and unrest thereby injuring its own long-term interests.

We are impressed by the cogency of these arguments, but we cannot lightly brush aside the fears of the other communities. The Maharashtrians in the city, according to the 1951 census, still remain a minority, being only 43.6 per cent of the population. The position of the city, therefore, is different from that of Madras and Calcutta, where the dominant language groups account for about two-thirds of the population. The city's special position should be recognized.

## BILINGUAL STATE

The alternative suggested by the Dar Commission and the J. V. P. Committee, namely, the constitution of Greater Bombay into a separate administrative unit will also not be free from serious difficulties. Having regard to the population and the size of the area as well as the fact that it is primarily a city unit, it will not, in our opinion, be entitled to be treated as a full State of the Union. On the other hand, Greater Bombay has been the hub of the political life of a democratically advanced State and its administration as a Central enclave may be regarded as a retrograde step.

Another point to bear in mind is that Greater Bombay now depends for power and water supplies, no less than for its further expansion, on the Maharashtra areas. The natural links of the city with its hinterland in Maharashtra are, therefore, another argument for not constituting Greater Bombay into a separate administration.

If the separation of the city from Maharashtra is administratively not desirable, the effects on the growth and development of the city in future may prove to be equally adverse if Greater Bombay were to form part of Maharashtra, but were administratively independent of Gujarat. The likely psychological dissatisfaction of the Gujarati and other communities, in the event of Greater Bombay forming part of Maharashtra, may be very great, and it will be unwise to hope that the industrial and commercial life of the area will remain unaffected. We feel that the importance of Greater Bombay is such and the possible loss either to Gujarat or to Maharashtra considered individually and to the country as a whole might be so great that it would be prudent not to take any risks.

A very important factor bearing on the question of the separation of Greater Bombay from Maharashtra and Gujarat is the dependence of both the Marathi and Gujarati-speaking regions on the financial surplus of Greater Bombay.

The figures published by the Bombay Government indicate that Greater Bombay's average surplus during the three years ending March, 1953, was of the order of Rs. 12 crores. It is probable that this surplus will increase rather than diminish in future.

In the event of the separation of Greater Bombay, it has been pointed out in this connection, some portion of the tax on sales for export from Greater Bombay may cease to be available to the city. It has also been suggested that it may allot a portion of its surplus or relieve the deficit

areas of a major share of their debt and interest-bearing liabilities, by means of an *ad hoc* settlement which may form part of the scheme of separation.

On an examination of these suggestions we feel that it will be difficult to devise in practice satisfactory arrangements for the routing of Greater Bombay's surplus to the deficit areas of Gujarat and Maharashtra.

We are so greatly impressed on the one hand by the difficulties of making Greater Bombay's surplus available to the deficit areas of Gujarat and Western Maharashtra or Samyukta Maharashtra, and on the other hand by the argument that Western Maharashtra and Gujarat, if they are constituted, will themselves be deficit respectively to the extent of about Rs. 6.0 crores and Rs. 2.5 crores or more, that, on financial grounds alone, we would view with concern the separation of Greater Bombay from the other two regions of the State.

Other suggestions made to us include the constitution of three sub-States, representing Bombay-Maharashtra, Bombay-Gujarat and Greater Bombay, within a composite State; joint administration of Greater Bombay by Maharashtra and Gujarat; and enhancement of the powers of the Bombay Municipal Corporation.

We have examined all these proposals with the care they deserve, but have come to the conclusion that any improvised devices which depart from the normal constitutional pattern may create more difficulties than they may solve. The conclusion is, therefore, forced on us that no alternative can really be so conducive to the welfare of all the people of the State as the maintenance of its composite character.

We recommend, therefore, that the reconstituted State of Bombay may comprise the areas of the existing Bombay State minus the Abu Road taluk of the Banaskantha district, the Karnataka district of Dharwar, Bijapur, North Kanara and the district of Belgaum (except the Chandgad taluk), plus the following areas:

- (i) Osmanabad, Bhir, Aurangabad, Parbhani and Nanded districts of the existing Hyderabad State;
- (ii) Saurashtra; and
- (iii) Kutch.

The integration of Marathwada with Bombay follows necessarily from our proposals in regard to Hyderabad. We considered the possibility of the northern part of these areas being joined with Vidarbha but popular sentiment is strongly in favour of integration with Bombay, and as there is no overriding administrative and economic objection to such integration we see no reason why the wishes of the people should not be respected in this case.

Saurashtra, a Part B State, is, to our mind, too small a unit to be treated as a State of the Union. Important sections of public opinion in Saurashtra State have expressed themselves in favour of joining the Bombay State.

Kutch is a small Part C State, which was placed under Central control because of its economic backwardness and geographical position. For the reason we have discussed we do not consider it necessary that this unit should continue to be a separate Centrally-administered area. We, however, regard the State as one of the units to which the safeguards which we have proposed for some of the Centrally-administered areas like a special development board may be extended.

The State thus reconstituted will have an area of about 151,360 sq. miles with a population of 40.2 millions.

The proposals which we are making will have the effect of bringing into existence a new unit, namely, Vidarbha, in which the Maharashtrians will be the predominant linguistic group with a percentage of 75; and of consolidating the rest of them in the new Bombay State where their percentage would increase to about 48. Further, it may be noted that the

population of the predominantly Marathi-speaking districts of the proposed Bombay State will be 21.3 millions out of the total population of 40.2 millions. The Maharashtrians will, therefore, enjoy a position of some advantage in the proposed State.

The case of the Maharashtrians is very different from that of the Kannadigas who, as we have already stated, are at present dispersed over a number of States, constituting ineffective minorities in all except one of them.

The present position is that while they are the largest single language group in the existing State of Bombay, with a percentage of 44, in the other two States in which they are to be found in substantial numbers, namely, Hyderabad and Madhya Pradesh, they constitute the second largest language group with a percentage of 24 and 29, respectively.

What we have stated in the preceding paragraphs might seem to be unsatisfactory, from the point of view of the Gujarati-speaking people. Our assessment of Gujarati sentiment, as has been mentioned earlier, however is that influential sections amongst the Gujaratis would prefer to stay in a composite State even after the separation of the Karnataka districts. We are strengthened in this belief by the categorical assurance of the Gujarat Pradesh Congress Committee to the effect that important elements amongst the Gujarati-speaking people would be prepared to live and to work together in one State with their Maharashtrian brethren in the larger national interests, as also in the interests of the city of Bombay, to which they seem to be greatly attached.

Our own view of the prospective development of the Bombay State does not lend support to the fear that the two linguistic areas which will be left in the State after the separation of the Karnataka districts will not receive fair and equal treatment. On an unbiased view of the relevant facts the existing State of Bombay cannot, in our opinion, be accused of having been partial to the interests of any particular area or group to such an extent as to justify its being broken up.

In the Chapter dealing with language we have expressed the view that where satisfactory conditions exist and economic and administrative considerations favour composite States, these States should be continued, with such safeguards as may be necessary to ensure that all sections enjoy equal rights and opportunities. Bombay, in our opinion, is a State which undoubtedly fulfils these conditions.

We have recommended elsewhere an agency to be set up to go into the question of fair and equitable distribution of development expenditure in the different areas of the proposed States. We also hope that the Government of the State will devise suitable means of adequately safeguarding the special interests of its two regions.

## VIDARBHA

The origin of the movement for Maha Vidarbha can be traced back to 1905. In the circumstances which prevailed about 50 years ago, the demand for the creation of Maha Vidarbha inevitably took the form of a claim for separation from the Hindi-speaking areas. In recent years, however, the question whether this separation should lead to the formation of Maha Vidarbha or the integration of this area with a larger Marathi-speaking unit has assumed importance.

The first issue to be settled is whether there is a case for the reorganization of the present composite State of Madhya Pradesh. It is not necessary for us to go in any detail into the charges made by those demanding the separation of the Marathi-speaking areas from the rest of the State, regarding the alleged discriminatory and unequal distribution of development and welfare activity over the two regions or the relative share of the two language groups in the State services. Judged by the evidence submitted to us on behalf of the Madhya Pradesh Government, the distribution of expenditure as between

Hindi and Marathi-speaking areas, at any rate in recent years, has, by no means, been unfair. However, the demand for the separation of the Marathi-speaking areas from the Hindi-speaking areas of the State can no longer be ignored. The *status quo* will involve an increasingly severe strain on the political life and the administrative machinery of the State. The Hindi-speaking people of the State seem to be more or less reconciled to this proposition.

The second question which is more controversial is what should be the future alignment of the eight Marathi-speaking districts of Madhya Pradesh. The case for the integration of these areas with Western Maharashtra rests primarily on the ground of linguistic homogeneity, although it has also been claimed that the economies of the two regions are complementary. On the other hand, the arguments advanced in favour of a separate State are historical, cultural, administrative and financial.

We shall first deal with the four Berar districts, namely, Akola, Amravati, Buldana and Yeotmal.

Before the beginning of the fourteenth century, Berar was under the domination of Deccan kingdoms like the Satavahana empire and the Vakatakas, Chalukyas, Rashtrakutas and Yadava kingdoms. The area was conquered for Delhi early in the fourteenth century. But about four hundred years later, it passed into the possession of the Nizam of Hyderabad, and was administered by him or on his behalf under various treaties till it was attached in 1903 to the then Central Provinces.

The Marathi-speaking districts of the existing state of Madhya Pradesh other than the Berar districts cannot be dealt with independently of Berar. Geographically, economically and culturally, the Marathi-speaking districts of Madhya Pradesh outside Berar cannot be distinguished from Berar itself.

Vidarbha's traditional financial surplus, so far as we are aware, continues. The size of this surplus in future will depend on a variety of factors but so far as it can be estimated, it may be a crore and a half of rupees or possibly more. In view of the satisfactory financial position of Vidarbha and since Maharashtra without Greater Bombay is likely to be a deficit area on revenue account to a very much greater extent, there is, some reluctance in this area to join Maharashtra.

The position will, of course, be different if Greater Bombay forms part of Maharashtra. In view, however, of our recommendation in regard to the future of Bombay State, this expectation would no longer be valid.

We should also like to mention certain other reasons in favour of the creation of a separate Vidarbha State which are either explicitly stated or are implied in the memoranda submitted to us. One of these is the fear that Nagpur will be completely overshadowed by the Bombay City which would be the natural capital of a single Maharashtra state if it were created. Communalism, it has been stated, may also be introduced into the political life of Vidarbha if it joins Maharashtra. Land and tenancy laws in this area will have to be modelled on those of Bombay State; and a period of transition, during which Vidarbha may be struggling to maintain and safeguard its interests, may be unavoidable. Important sections of the people in Vidarbha, in these circumstances, are not willing to run this risk.

That there is deep-rooted regional consciousness in Vidarbha is conceded even by the leaders of the movement for Samyukta Maharashtra who have offered to make concessions to allay the fears of the people in Vidarbha. The Akola and Nagpur agreements, which aim at reconciling the difficult points of view, go so far as to provide for a tract-wise allocation of a defined share not only in the Cabinet and the executive and judicial services, but also in educational institutions. They also contemplate the establishment of a High Court at Nagpur, the recognition of two capitals and the distribution of development expenditure on an agreed basis. As we have observed in the chapter on the new Hyderabad

State, these arrangements are not workable and if our assessment of public opinion is correct, are no longer regarded by a section of leaders as a satisfactory means of finding a solution.

We recommend, therefore, that a new State should be formed in this area consisting of the following Marathi-speaking districts, namely, Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara and Chanda. The area and population of this State will be 36,880 square miles and 7.6 millions respectively.

It will be noticed that we do not propose to break up the existing districts of Nimar, Betul, Chhindwara and Balaghat to the north and Bastar to the east in order to recognize the claims made on behalf of Vidarbha mainly on linguistic grounds. As we have indicated earlier, as far as possible, adjustments below the district level should be avoided except where important administrative, economic or other considerations would justify a departure.

Vidarbha will be one of the most important cotton-growing areas in the country. It will, however, be reasonably industrialised at the same time. The cotton textile industry of the existing State of Madhya Pradesh is heavily concentrated in this area. Only minor and medium irrigation works have been undertaken in this area so far. But in view of the proposals to utilise the waters of Kanhan, Penganga and Wainganga rivers, large scale development may hereafter be possible. The further opening up of the Pench and Kanhan valley coal fields will benefit this State.

### MADHYA PRADESH

The separation of the eight Marathi-speaking districts of Madhya Pradesh brings us to the question of the future of the remaining districts of the State. This has to be considered along with the future of the other Hindi-speaking units of central India namely Vindhya Pradesh, Bhopal and Madhya Bharat.

The proposals made to us about these areas range from the consolidation of all of them into one administrative unit on the one hand to the maintenance of the *status quo* on the other. Public opinion in the Hindi-speaking areas of Madhya Pradesh seems to assume that the formation of a larger Hindi-speaking unit follows as a necessary corollary from the disintegration of Madhya Pradesh. The Mahakosal Pradeshik Congress Committee has thus suggested the formation of a State consisting of the Hindi-speaking areas of the present Madhya Pradesh, the Malwa portion of Madhya Bharat and the whole of Vindhya Pradesh and Bhopal. The main question to be considered is whether it would be feasible to form one State by the unification of all the Hindi-speaking areas of central India.

Historically the area has never been administered together; at any rate long enough for a tradition of common loyalties and sentiment to have come into existence. The question is, however, one which should be determined primarily by economic and administrative considerations and not by the history of individual principalities. Judged by these considerations the formation of a large unit will have clear advantages.

We have already recommended that to the extent practicable territories now constituted in Part C States should be integrated in the adjoining larger units. Apart from the fact that there will be a recurring saving, there are some additional reasons in favour of the proposed merger of the uneconomic and small units of Bhopal and Vindhya Pradesh in a new central Indian State.

### BHOPAL, VINHYA PRADESH

The State of Bhopal owes its separate existence to a commitment made to the Ruler, at the time of the merger of the State that it would be administered as a Chief Commissioner's Province for a period of five years.

This period has expired and, therefore, the difficulty alluded to no longer stands in the way of the merger of Bhopal. One advantage of this merger will be that economic development of

the region will be facilitated. The Narbada serves as the boundary between this State and Madhya Pradesh but a number of projects to be sited on or near this border, but within the existing Madhya Pradesh State have recently been investigated. There are proposals, we understand, to build a high dam on the Narbada river in the Jahalpur district of Madhya Pradesh; and it is likely that one of the two principal canals leading off from this project will serve an appreciable portion of Bhopal territory.

Vindhya Pradesh, likewise, is in a position to benefit from the projects for the utilisation of the Narbada waters. This State initially came into existence as a Part B State but was subsequently converted into a Centrally-administered unit, because it was thought that, owing to its economic and political backwardness, it could not be administered as a Part B State. The intention of the Government of India, when this decision was taken, was to divide Vindhya Pradesh and to merge it in the adjoining States. The considerations which led the Government of India to propose the abolition of the State as a separate administrative unit still hold good.

We mention all this to reinforce the general conclusion already reached in Chapter I of this part. There can be no doubt that the advantages, from the point of view of Bhopal and Vindhya Pradesh, of becoming an integral part of a richly-endowed State will more than compensate for the initial disadvantages, if any, such as the loss of revenue gap grants-in-aid from the Centre or the temporary unsettlement regarding development plans.

### MADHYA BHARAT

The future of Madhya Bharat presents a more real problem. Madhya Bharat, it has been stated, is relatively undeveloped, and is, therefore, not yet in a position to join the residuary areas of the Madhya Pradesh State. The case for special assistance to Madhya Bharat was recognised in the federal financial agreement and in pursuance of an undertaking which was then given by the Central Government, the needs of this area have been investigated, and an *ad hoc* grant has recently been made to it by the Government of India.

There is also the fear that a new unit, which includes both the Hindi-speaking areas of the present Madhya Pradesh State and Madhya Bharat, will tend to concentrate on the development of the areas in the east where potentialities for development are much greater. If this actually turns out to be the case, Madhya Bharat's special needs and problems will, it is argued, be ignored or neglected.

We have carefully examined from this point of view the proposals which have been made for the retention of Madhya Bharat in its existing form, with or without minor boundary adjustments. On the whole, we find that the case against the merger of Madhya Bharat, as it has been presented to us, is not very strong. On the other hand, there are a number of important reasons why in the long run the formation of the bigger unit will be desirable.

In the first instance the basic assumption that Madhya Bharat is relatively undeveloped may itself be questioned. It is true that the federal financial agreement recognised the claims for special assistance from the Centre only in the case of some Part B States. The Part B States (Special Assistance) Enquiry Committee, however, found that the progress made by Madhya Bharat in the preceding four or five years compared favourably with that made by some of the Part A States. Even in the matter of *per capita* expenditure the position of Madhya Bharat was better.

The unsettling consequences, from an administrative point of view, of the merger of Madhya Bharat also seem to us to have been exaggerated. We understand that in some cases pay scales in Madhya Bharat are already in line with those in Madhya Pradesh; and in any case the inconvenience regarding the integration of services will be minimised if the suggestions made later are followed.

From an administrative point of view, it seems to us that Madhya Bharat, like Bhopal or Vindhya Pradesh, can only gain by joining a large and resourceful unit. One clear advantage of the proposed merger will be that controversies regarding the distribution of development expenditure between the north and the south, which are linked to some extent with the traditional rivalries between Gwalior and Indore, will lose their edge, if a bigger unit which may have its capital at a more central place, is formed. Since this bigger unit is also likely to have the resources needed in order to provide for the balanced and equitable development of all the areas which may be included in it, Madhya Bharat, we feel, can have no reasonable ground for any apprehensions regarding the future.

### HINDI STATE

On the whole there has been a remarkable consensus of opinion in favour of the formation of a large State comprising the Hindi-speaking areas of central India.

The suggestions made to this Commission regarding the exact extent of this State have been various and conflicting. In particular, the following claims and counter-claims have been made:

(i) It has been argued on behalf of Maha Vidarbha that the boundaries of Mahakosal should be so drawn as to exclude the following areas, namely, the Marathi-speaking portions of the Nimar, Betul, Chhindwara, Balaghat and Bastar districts;

(ii) It has been suggested that the four northern districts of the existing State of Madhya Bharat, namely, Bhind, Morena, Gird (Gwalior) and Shivpuri, cannot appropriately be included in the proposed State, as they do not form part of Malwa;

(iii) the district of Mandsaur, which is surrounded by Rajasthan for the most part and has an enclave which is a very small and tiny island in Rajasthan territory, as also portions of the Rajgarh and the Guna districts of Madhya Bharat have been claimed by Rajasthan;

(iv) the Sironj sub-division of the Kotah district is an enclave in Madhya Bharat and it has been suggested that it should merge in the new State; and

(v) the Andhra State has claimed the southern half of Bastar district below the river Indravathi; a portion of this district has also been claimed by the Utkal Sammlani.

As for the four northern districts of Madhya Bharat, there seems to be no particular reasons why they should be separated from the proposed State. Rajasthan has not claimed these four districts, which are predominantly Hindi-speaking, which ninety to ninety-nine per cent of the population in each district speaking this language. On the other hand, these districts have fairly close economic and administrative links with the Mahakosal area.

The law and order situation in the area immediately to the south of the Chambal river is such that the creation of one single administration will be desirable. The terrain of the country is difficult; and the existing State borders are so artificial that the establishment of a common agency has been found necessary to deal with unsocial elements.

One illustration of the links of the four northern districts of Madhya Bharat with the rest of the proposed State is that the Matatila dam on the river Betwa, which is one of the biggest projects undertaken so far in Bundelkhand, is intended to serve the Gird (Gwalior) and Bhind districts in Madhya Bharat, the Datia and Tikamgarh districts in Vindhya Pradesh, and Jhansi in Uttar Pradesh. As matters now stand, however, some difficulty seems to have been experienced in its working because of the existence of more than one government in this area.

It has been pointed out to us that there is no direct rail communication from Ujjain or Indore in the south of Madhya Bharat to Gwalior in the north; and that the northern part of Madhya Bharat in consequence is rather cut off from the

rest of the State. We understand, however, that the Railway Board have already under consideration the question of constructing a new line from Gwalior to Ujjain via Shivpuri, Guna and Agar. With the construction of this line, the four northern districts of Madhya Bharat will become more closely linked with the rest of the State than they are at present.

#### CLAIMS ON M.P.

The demand which has been made on behalf of Rajasthan to the Mandasaur district and the Madhya Bharat claim to Kotah and Jhalawar rest more or less on the same grounds, namely, historical association, administrative convenience and cultural affiliations. An argument which has been urged by both the Governments is that the areas jut out inconveniently into the territories of the States claiming them and that territorial readjustments would ensure greater geographical compactness. Barring the Suneil and Sironj enclaves, however, the disputed areas are geographically contiguous to their respective States and have been administered as part of these States for a long time. Public opinion has not expressed itself in favour of the disturbance of the *status quo*. In these circumstances, we would confine our recommendations only to the transfer of the Suneil town which is an enclave now belonging to the Mandasaur district to Rajasthan and of the Sironj subdivision of the Kotah district of Rajasthan to the proposed State of Madhya Pradesh.

The portions of the existing Rajgarh and Guna districts, which Rajasthan has also claimed, are contiguous to the rest of Madhya Bharat. The arguments put forward in favour of the transfer of a portion of these districts are even weaker than in the case of Mandasaur.

The Andhra claim to the southern half of Bastar has been pressed on the ground that Telugu is the prevailing language in this area. It has also been pointed out that administratively South Bastar used to be part of the former Upper Godavari district. The Andhra State has also claimed that the economic development of Southern Bastar is linked with that of Vishakhapatnam. This claim to Bastar, however, cannot be conveniently conceded, if, as is proposed later, the claim to Koraput is rejected.

The linguistic affiliations of this area are not very clear. Telugu, it has been contended, is only a language which is used and understood in what is naturally a bilingual area. Halbi, Bhatri, Parhi and Gondi are the real indigenous languages.

The Utkal Sammilani's claim to portions of the Bastar district is based, among other reasons, on an alleged affinity between Halbi and Parhi. On the one hand and Oriya on the other, which in our opinion has not by any means been adequately proved.

The claim which has been advanced on behalf of Maha Vidarbha to Bastar. It is interesting to note, is also based on the argument that Halbi is a dialect of Marathi. Eminent linguists, like Grierson and Sten Konow have, however, differed on this point; and Vidarbha's claim cannot, therefore, be considered to be stronger than that of Andhra or Orissa which we have found it necessary to reject.

The result of this brief examination is that the proposed State, according to our recommendations, should include the following areas, namely,

- (i) the 14 districts of the residuary Madhya Pradesh;
- (ii) the whole of Bhopal;
- (iii) the whole of Vindhya Pradesh;
- (iv) Madhya Bharat except the Suneil enclave of the Mandasaur district; and
- (v) the Sironj sub-division of the Kotah district of Rajasthan.

The new State, which can appropriately be described as Madhya Pradesh, will be a compact unit. It will bring almost the whole of Bundelkhand and Baghelkhand under one administration.

Jabalpur will be situated at a central place in this unit and has or will soon have some important facilities like water supply and availability of electrical power. It will, in our opinion be a suitable capital.

#### ECONOMY

Partly as a result of the decision to erect certain new steel plants, but partly also because of general economic expansion and the growth in traffic, the route and track mileage of the railway system within the proposed unit will have to be increased and certain proposals have already been sanctioned or are under consideration. We would, however, like to mention more particularly in this connection the demand that Jabalpur should be connected with Lalitpur or Jhansi. With two new rail links from Jabalpur to selected points in the south-west and the south-east on the Central and South-Eastern Railways respectively, and another line running east to west through Vindhya Pradesh, the proposed State of Madhya Pradesh will be much more satisfactorily served by the railway system than it is at the present time. The suggested links in our opinion seem to be essential and the Government of India will no doubt take this into consideration.

With relatively greater scope for the reclamation of virgin or jungle land and a preponderance of zamindari areas in which land alienation has now been abolished, the proposed State is expected to be agriculturally prosperous. The new State will have virtually the entire wheat and rice belts of the existing Madhya Pradesh State. There will also be a very rich concentration of minerals in this area; and with the development of hydro-electric power potential in the Nanda and Betwa valleys which is now being planned, there are possibilities of large-scale industrialization, particularly in the Nimar, Hoshangabad and Durg-Bilaspur areas.

Bhilai in the Durg district of Madhya Pradesh has already been selected as the site of one of the new steel plants and both the Central and State Governments have formulated plans for the industrialization and development of Bilaspur and Hoshangabad Madhya Pradesh may, therefore, become one of the richest States in the Indian Union.

Financially, the new State, on the basis of such judgments as we have been able to form about the future, will have a comfortable revenue surplus.

The scales of pay in this area, as has already been stated, have been upgraded to the Madhya Pradesh level in many cases.

The reconstituted State of Madhya Pradesh will have an area of about 171,200 sq. miles, with a population of 26.1 millions.

#### RAJASTHAN

We should like to make it clear, before we take up the question of disputed areas, that there seems to be little justification for the disintegration of Rajasthan.

The Government of Rajasthan has claimed the following areas, namely, the whole of the Ajmer State, the Abu Road taluk of the Banaskantha district of Bombay, the Mandasaur district and small portions of the Guna and Rajgarh districts of Madhya Bharat, the Loharu sub-division of the Bhawal taluk of the Hissar district of the Punjab and the Mohindergarh district of PEPSU.

We agree with the Rajasthan Government that the linguistic, cultural and geographical links of Ajmer with Rajasthan must be respected, and that, for several reasons, for example, the likelihood that the law and order situation may improve as a result of the elimination of dual control, the proposal to merge Ajmer will be justified.

The controversies regarding Abu Road taluk are much more real. This portion of the former Sirohi State was merged in Bombay in January, 1950.

We have come to the conclusion that Rajasthan has a legitimate claim to the Abu Road taluk and that this claim should be recognized on two main grounds, namely, local feeling, and the fact that Rajasthan is the mother-tongue of 65 per cent of the population of the Abu Road taluk.

Loharu is now part of the Hissar district, having been merged in 1948. It has been represented to this Commission that, for at least three and a half centuries after the State was founded, it had intimate links with Rajasthan and that, even in the period which immediately preceded the merger, the association with Bikaner was very close. Loharu, it has also been stated, has rather intimate trading connections with Rajasthan, the wool trade being particularly important. The area is geographically contiguous to Rajasthan, and it would, perhaps, be easier to administer it from Jhunjhuna, with which town Loharu is incidentally intimately connected, than from Hissar. On a review of all the circumstances in which the claim has been made we recommend that Loharu should be transferred to Rajasthan.

Rajasthan's claim to the Mohindergarh district of PEPSU seems to us to be much less reasonable than the claim to Loharu. Apart from the fact that Mohindergarh is outside Rajasthan from the linguistic point of view, the primary ground on which the claim is made, namely that Mohindergarh is an enclave cut off from its parent State, will no longer be valid if our recommendation regarding the amalgamation of PEPSU with the Punjab is accepted. Mohindergarh, incidentally, may benefit in future from the Punjab Government's scheme for the utilization of the waters of the Sutlej or the Jinnah. There is, therefore, no case for disturbing the *status quo*.

We now pass on to a brief examination of the claims made on Rajasthan by other States. But, for all practical purposes, we need consider only two proposals which have been made, namely, the suggested transfer of Banswara and Dungarpur to Bombay and the inclusion of Bharatpur and Alwar either in Greater Delhi or in Brj Pradesh. The claim to Banswara and Dungarpur rests on two main arguments. Historically, this so-called Vagad area used to be part of Gujarat. This historical connection with Gujarat, it has been stated, has now been reinforced by the fact of Gujarat's interest in the Mahi river which flows through the Vagad area and the utilization of which is of very great importance from Gujarat's point of view.

In view of the recent history of Banswara and Dungarpur no undue importance need be attached to the ancient affiliations of the Vagad area. About the utilization of the waters of the Mahi river both Rajasthan and Gujarat are interested and the problem can be dealt with independent of territorial adjustments.

As regards Alwar and Bharatpur there has been no change in public opinion since the Shankerrao Deo Committee went into the question in 1949.

The State of Rajasthan will include the present State less the Sironj sub-division of the Kotah District, plus the Suneil Town of Mandasaur District, the Abu Road Taluk of the Banaskantha District, the Loharu sub-division of the Hissar District and the State of Ajmer.

The area will be about 132,300 sq. miles, and the population 16 millions. The financial position and economy will be more or less unaffected.

#### THE PUNJAB

We first examine the demand for the formation of a Punjabi-speaking State. The case for the creation of this State, as set out in the memorandum submitted by the Shiromani Akali Dal, rests mainly on the arguments generally advanced in favour of linguistic States. But it has some features of its own and poses problems which require very careful consideration.

The main arguments urged in favour of the proposed Punjabi-speaking State are:

- (i) It will remove all causes of unrest and discontent, eliminate language controversies, enable the imparting of education in the mother-tongue and help the people to grow and advance;
- (ii) It will be a geographically compact unit, financially viable, surplus in food and rich in resources;
- (iii) It will be a homogeneous State inhabited by sturdy people, and as such would strengthen the defence of the north-western border; and finally
- (iv) It will secure for the country a contented Sikh community.

The areas which are claimed to be Punjabi-speaking, and are, therefore, suggested for inclusion in the proposed State are:

- (i) **Punjab**:—The districts of Gurdaspur, Amritsar, Ferozepore, Ludhiana, Jullundur, Hoshiarpur, Ambala, Karnal (except Paudet tehsil) and tehsils Sirsa and Fatehabad, and sub-tehsil Tohana of Hissar district;
- (ii) **Pepsu**: The districts of Patiala, Barnala, Bhaini, Kapurthala, Pathankot, Sahib and Sangrur (except Jind and Nirwana tehsils);
- (iii) **Rajasthan**: Ganganagar district.

The agitation in favour of the proposed Punjabi-speaking State has been the subject-matter of a serious controversy, a regrettable consequence of which has been the inflammation of communal passions in this region. One strange result of this has been the repudiation by large sections of the Hindu community of the Punjabi language as their mother-tongue. This led during the last Census operations to a situation in which the separate tabulation of Hindi and Punjabi-speaking people had to be abandoned.

A peculiar feature of the demand for a Punjabi-speaking State has also been that, while other demands for separation from existing composite States have had the backing of an overwhelming majority of the people of the language group seeking such separation, the demand for a Punjabi-speaking State is strongly opposed by large sections of people speaking the Punjabi language and residing in the areas proposed to be constituted into a Punjabi-speaking State. The problem, therefore, is *qui generis*. It has to be examined against its own peculiar background.

We first examine the linguistic considerations urged in support of the demand. As has been stated earlier, our approach to the linguistic principle is governed by practical administrative considerations. Linguistic homogeneity, in our opinion, has to be aimed at as an instrument for facilitating social and political intercourse amongst the people and for ensuring the closer association of the people with the Government. If this criterion is applied, it will be found that there is no real language problem in the State of Punjab as at present constituted. This is so because the Punjabi and Hindi languages as spoken in the Punjab are akin to each other and are both well-understood by all sections of the people of the State. Nobody has seriously argued before us that the present set-up presents any difficulty so far as the communication needs of the people are concerned.

It is also of interest to note that while the substratum of Punjabi is a language of the outer circle akin to modern Lahnda, its superstructure is a dialect of western Hindi. The line of demarcation between the Punjabi and the Hindi spoken in the State has, therefore, been more theoretical than real. In recent years, moreover, with the large-scale influx of Punjabi-speaking people from Western Punjab into all the districts of the State this line has been further blurred.

Likewise, the present arrangements do not stand in the way of the growth of Punjabi language and culture. There are no distinctive cultural zones in the existing State. As for literary

activity, the figures cited in the Akali Dal memorandum would themselves rebut any contention that in the existing Punjab State there is any impediment to the development of the Punjabi language.

The feelings of those sections which advocate the creation of a Punjabi-speaking State seem to be that Punjabi is a distinct and developed language with a script, different from the Nagari script, that this language is the language of the region which is proposed to be constituted into a Punjabi-speaking State; and that those who oppose the demand are motivated by communal considerations because the Punjabi-speaking State will "improve the position of an under-dog of democracy which they at present are."

Those opposed to the movement argue on the other hand that basically the demand is a communal one and that cultural and linguistic arguments have been pressed into service merely to camouflage the real motives. The Hindus as a whole, it is argued, have never accepted Punjabi as their medium of expression, to the exclusion of Hindi, because while at home they speak the Punjabi language, in their religious ceremonies and festivals, in their schools and colleges they use Hindi, in any case, they have never accepted the Gurmukhi script.

#### THE SCRIPT

For assessing the merits of these contending views, it is necessary to take note of certain special features of the linguistic composition of the Punjab. The first point to remember is that although Punjabi has been the spoken language of the greater part of the eastern half of the undivided province of the Punjab, the position before the partition was that Urdu and not Punjabi was regarded as the official language for purposes other than those for which English was used. This position still holds good. It is only recently under the decision known as the Sachar-Gyani Kartar Singh formula that Punjabi and Hindi are proposed to be introduced as regional languages for official and educational purposes in the two language zones into which the Punjab has been demarcated.

There is also no denying the fact that the demand that Punjabi written in Gurmukhi script alone should be recognised as the Punjabi language is of relatively recent origin. Not only have some of the reputed Punjabi writers like Warris Shah written in a script other than Gurmukhi with which Punjabi is now sought to be related, but even the University of Punjab had been giving before partition an option to candidates taking various Punjabi examinations to adopt either the Gurmukhi or the Persian script.

The problem of language in the Punjab is therefore, primarily one of scripts; and in this battle of scripts, sentiment is arrayed against sentiment.

We have to consider how far the formation of the proposed Punjabi-speaking State will help to solve this script problem. The first point to be considered is naturally whether there is any justification for the exclusive use of the Gurmukhi script in writing Punjabi. It has been contended that no practical difficulties were experienced even when the Persian script, which is quite distinct from the Gurmukhi script, was used for writing Punjabi. The Devanagari script it is claimed, is even more suitable, because it has marked affinities with the Gurmukhi script, and is fully equipped to meet all the phonological needs of the Punjabi language.

The Hindus, as a community, seem to be strongly opposed to the imposition of the Gurmukhi script on them in disregard of the past practice as also their own sentiment. In these conditions, it may create more problems than it would solve, if this area is constituted into a bilingual state, in which only one script, namely, Gurmukhi, is recognised.

Assuming for the sake of argument that a settlement of the problem is to be sought by conceding the demand that Punjabi written in

Gurmukhi script should be the language of the region proposed to be constituted into a Punjabi-speaking State, the long-term prospect, from the point of view of all those who are interested in the growth and development of the Punjabi language, can hardly be described as happy. In the proposed State, people claiming Hindi as their mother-tongue will still be entitled to receive instruction in Hindi. Under the arrangements made at present, in implementation of the resolution regarding the interests of linguistic minorities that was adopted by the Provincial Education Ministers' Conference of August, 1949, and approved by the Central Advisory Board of Education and the Government of India, the State Governments are required to provide facilities for the instruction of children in the primary stage in their mother-tongue, if it is different from the regional or State language, provided that there are at least 40 pupils speaking that language in the whole school or 10 in one class. Facilities must also be provided in the secondary stage, if there is a sufficient number, usually one-third of the total number of pupils, whose mother-tongue is different from the regional or State language.

Having regard to the background of the language controversy in this area, it is not unlikely that large sections of Hindus would seek instruction in Hindi if a Punjabi-speaking State is formed. In these circumstances, even if a Punjabi-speaking State is formed, the entire area will still be bilingual, in the sense that instruction in Hindi will have to be arranged on an extensive scale, and for official purposes also Hindi will probably have to be given special recognition.

That the demand for the due recognition of Hindi as the spoken language of the region has not been stimulated only by the recent controversy, is clear from the fact that of the total number of candidates who appeared during the last five years in the Hindi and Punjabi examinations of the Punjab University from the Jullundur division, 62.2 per cent appeared in the Hindi examinations and 37.8 per cent in the Punjabi examinations; these figures relate to the six Punjabi-speaking districts of the present Punjab State in which, according to the 1931 Census, the percentage of Punjabi-speaking people was 97.2 and of Hindi-speaking people only 1.3. It is also of interest to note that, out of 1,03,758 candidates appearing in the matriculation examination of the Punjab University during the last four years who had the option to answer history and geography papers either in Hindi or Punjabi, 73.5 per cent elected to answer in Hindi and 26.5 per cent in Punjabi. Motives cannot well be attributed to examinees at university examinations who must have exercised their option on the basis of their own literary needs and family traditions. For this reason, the conclusion which seems to be indicated cannot be ignored. Hindi will not by any means be unimportant in the Punjabi-speaking zone and Punjabi and Hindi will have to exist and develop side by side.

An arrangement such as that contemplated under the Sachar-Gyani formula, based on the recognition of the bilingual character of this area would provide in these circumstances, a more effective solution of the problem of language than the separation of the Punjabi-speaking areas from the rest of the State. If, therefore, in consequence of the formation of a Punjabi-speaking State, the Punjabi language secures an advantage in one direction namely, in the enforcement of the Gurmukhi script in the Punjabi-speaking zone, it may lose in another direction, namely in its dissemination in areas now known as the Hindi-speaking areas.

#### CASE AGAINST DIVISION

There is another important aspect of the problem which should be taken into account in considering a further division of the Punjab on linguistic grounds. The territorial claims for the proposed Punjabi-speaking State include the whole of Ambala, the district of Karnal, one tehsil, and portions of Hissar. A claim has also been made to the Ganganagar district of Rajasthan which never formed part of the

Punjab. With the large-scale dispersal of Punjabi-speaking people from the Punjab (Pakistan) in the eastern Punjab and with the colonisation of the area under the Bhakra project the division between the two linguistic zones in the Punjab is progressively becoming less and less real. The Akali Dal memorandum itself states that the Punjabi-speaking people carry their culture and language with them. Quite clearly, with this widespread dispersal of the Punjabi language in recent years and the intermingling of Hindi-speaking and Punjabi-speaking people, it would be impossible to create a compact unilingual State.

The creation of a Punjabi-speaking State would offer no solution to the language problem, the present arrangements for the recognition of both Punjabi and Hindi could not be done away with.

We now come to the important question whether the proposed State will secure an improvement from the point of view of peace and contentment of the people of the area. There are no complaints from those sponsoring the movement for a Punjabi-speaking State about economic or political exploitation of the Punjabi-speaking areas by the representatives of the so-called Hindi-speaking region. If anything, the complaint is from the hilly areas and the Harijans tract.

There is undoubtedly internal tension in this area. But this tension follows communal and not territorial lines. There is little likelihood that the creation of the proposed State will lead to greater communal harmony and concord.

The sponsors of the Punjabi-speaking State argue that a majority of the people inhabiting the area are in favour of a Punjabi-speaking State and that opposition is confined to certain communal elements. The results of the recent elections to the Shiromani Gurdwara Prabandhak Committee have been cited as evidence of the popular backing which the demand has amongst the Sikh masses. On the other hand, the results of the last general elections and the subsequent byelections are cited in support of the view that the demand for the Punjabi-speaking State is confined to communal elements in the Sikh community.

It is quite obvious that the minimum measure of agreement necessary for making a change in the present set-up does not exist. We may actually be imposing the wishes of a substantial minority on the majority.

The case for a Punjabi-speaking State falls firstly, because it lacks the general support of the people inhabiting the area, and secondly, because it will not eliminate any of the causes of friction from which the demand for a separate Punjabi-speaking State emanates. The proposed State will solve neither the language problem nor the communal problem and, far from removing internal tension, which exists between communal and not linguistic and regional groups, it might further exacerbate the existing feelings.

We now come to the demand for the separation of the so-called Harijans area of the Punjab. The complaint from this area is one of inadequate representation in the civil administration of the State and relative economic backwardness.

The Punjab Government placed before us some facts and figures in repudiation of the allegation of discriminatory treatment of this region. It has been argued that schemes have recently been formulated or implemented for extending the irrigation system of the Punjab so as to serve the dry areas of Hissar and Rohtak. The Gurgaon Canal project now under consideration is a major project intended to benefit Harijans. The Bhakra-Nangal project will materially benefit this area and the contention that the original plan has been varied to the disadvantage of the area has no basis in fact.

We do not wish to express any opinion on these two contending views, but we are convinced that the separation of the so-called Harijans areas of the Punjab which are defect

areas, will be no remedy for any ill, real or imaginary, from which this area at present suffers.

### PEPSU

The next question we have to consider is the future of Pepsu. The decisions regarding the proposed Punjabi-speaking State and the Harijans tract which have been indicated in the preceding paragraphs do not dispose of the contention of the Pepsu Government that having regard to the special background against which this State was created the *status quo* should not be disturbed.

Physically and geographically Pepsu is very much a part of the Punjab. From the point of view of population Pepsu is the smallest of the Part B States and is comparable to an existing Part C State, namely, Vindhya Pradesh. The area of the State is less than one half of that of Vindhya Pradesh and even this small area is not geographically compact. It consists of five disconnected bits which are surrounded mostly by the territories of the Punjab. This lack of geographical contiguity has naturally stood in the way of a real political integration of the people of the State and it is not surprising that demands for merger in the adjoining areas have been voiced from time to time in the outlying enclaves of Kapurthala and Mohinderghar and the hilly tracts of the State.

There is considerable force in these arguments. We feel that even with its present territory the State cannot be regarded as a sizable unit, and with the merger of its outlying pockets in the adjoining areas, which should follow as a natural corollary of territorial readjustments in this area, it will become very difficult for this State to maintain its separate existence.

As it is, the State is not in a position to maintain separate cadres of All-India Services and the proposal for having a common cadre with the adjoining State of Punjab has been under consideration for some time. Administratively the States of the Punjab and Pepsu have a number of common problems to face and devices such as a Joint Advisory Council and periodical conferences have to be adopted to achieve a certain minimum degree of co-ordination between the two States. It would be simpler and more economical, besides being conducive to more efficient administration, if the State were merged.

The main arguments advanced in favour of the continuance of the State are, firstly, that Pepsu is a home-land for the Sikhs and should, therefore, be allowed to continue as such, and secondly, that the alternative to this would be to concede either the demand for a Punjabi-speaking State or the demand for a Maha Punjab, both of which, it is stated, are communal in character in that they are intended to tilt the balance in favour of one or the other of the two main communities.

Earlier we have discussed at some length the implications of the home-land concept. Here we would only add that while we view the doctrine of a linguistic home-land with serious misgivings, we consider that the concept of a communal home-land is fraught with even more dangerous potentialities.

As for the possible unfavourable repercussions of enlarging the present State of Punjab on the existing communal equilibrium, the position is that the proposal which we make about this region will no doubt result in the formation of a larger unit, but the Sikh percentage in the enlarged unit will not be adversely affected as compared with their percentage in the existing State of Punjab.

The Sikh percentage in the proposed State will in fact show a small improvement of a little more than 1.5 per cent resulting in a corresponding decrease in the Hindu percentage.

It is no doubt true that the percentage of the Sikh community in Pepsu is 40, but for the reasons already stated, this unit cannot be considered to be administratively viable and we do not find it possible to overlook this fact.

During the course of our discussions with the representatives of the Pepsu Government we noticed that it was appreciated that on account of clear geographical and administrative compulsions, Pepsu could not continue as a separate administrative unit for any length of time. It was, however, suggested to us during these discussions that for some time to come the State might be maintained as a separate unit in order to ensure that the present pace of its development was not impeded. We are not impressed by this argument. We feel that the people of Pepsu are as resourceful and enterprising as those of the adjoining areas of the Punjab.

It seems to us that one important reason why the proposal to merge Pepsu in the Punjab has not been as popular as it might otherwise have been is the feeling that Patiala city, which has grown appreciably in size and importance since the partition of the country, may be overshadowed by Chandigarh and Simla. A great deal of money has recently been spent on the improvement of the city and if it were to be reduced after merger to the status of a mere district headquarters or the headquarters of a Commissioner's division, much of this investment might turn out to have been a waste.

It would be reasonable to take note of this feeling. We recommend that the special position of the city of Patiala, might be recognised and that some important offices of the Punjab Government might be located there. This would involve no departure from the general principle which is referred to elsewhere in this report, namely, that administrative convenience must be the main consideration to be taken into account in deciding the location of Government offices. The claims of Patiala can be supported on the ground that Chandigarh has still to develop and that the location of some offices in Patiala which is situated at a short distance from Chandigarh, will be both popular and convenient.

### HIMACHAL PRADESH

Our decision regarding the future of the Himachal Pradesh and the general considerations on which it is based have already been indicated. We shall now examine certain arguments advanced by the Himachal Pradesh Government against its merger in a larger unit.

Himachal Pradesh is relatively backward, and having regard to its small population, the percentage of literacy in these areas which is much lower than in the case of the Punjab, and the very great need for development, it is argued that this State as part of a bigger unit will be a neglected area with few opportunities, if any, for economic or social advancement. The alleged indifference of the Punjab Government to the needs of the eastern portion of the Kangra district is quoted in support of this argument. Himachal, as it happens, is also a border State, with an international boundary which is partially undefined. It is contended, therefore, that the existing position, under which the State has a separate administration but is actively supported by the Centre, should continue.

We have examined these arguments with sympathy and understanding because the area is backward, and will need special attention for quite some time to come. We are extremely doubtful, however, whether direct administration by the Centre, within the framework which we propose for centrally-administered territories, is the best solution which is possible or whether this solution will be acceptable to those who have been advocating the continuance of Himachal Pradesh as a separate unit.

Himachal is relatively poor largely because of the poverty of its resources. The lack of trained personnel is also at present a serious impediment. It is not, therefore, a unit which can stand by itself.

One of the main arguments in favour of separate existence is that the area has a cultural individuality and that the interests of the relatively backward people of this area will

suffer by association with the more advanced people of the adjoining plains. We are unable to accept this argument, because it does not seem to us to be desirable that states should be formed in this or any other region consisting exclusively of hilly areas. For one thing, it is not correct to say that all hill people are necessarily backward. It is also implicit in the demands for separate hill states that the interests of the hill people, on the one hand, and the interests of the people of the adjoining plains on the other, are mutually exclusive. These assumptions are unwarranted by facts.

The economic and administrative advantages of Himachal Pradesh being integrated with the adjoining States are on the other hand quite clear. The catchment area of the Sutlej and the Beas, for instance, is mostly in Himachal Pradesh; and from the point of view of the Bhakra project, this fact is of such great relevance that the need for the transfer of some area to the Punjab has been accepted in principle. Soil conservation in the hills is vitally important from the point of view of the plains. Integration of these areas will, therefore, be to the mutual benefit of the people of the plains and of the hills.

Another argument urged in favour of the claim of Himachal Pradesh to separate existence is that the Government of India in the Ministry of States had intended at the time of the formation of this unit that it should continue as a separate Centrally-administered unit. It is doubtful if any firm assurance to that effect was actually given. The arrangements which were made at the time of the integration or merger must, as we have observed earlier, be regarded as transitional expedients. If we were to accept them as final and binding settlements, it would be impossible to reorganise the States on a rational basis. Our terms of reference do not exclude from the purview of our enquiry any category of States.

Our own impression, formed as a result of our tour of this area, is that opposition to the integration of this unit in the Punjab is not so strong as is generally made out. While we undoubtedly noticed some sense of uneasiness in certain sections of the people about the merger of the State, it was clear to us that vested interests were actively fostering this.

In view of what has been stated in the preceding paragraphs the right course would be to merge Himachal Pradesh with the Punjab and to make at the same time suitable arrangements to ensure that the economic development of this area is not impeded. The Central Government should retain supervisory authority over this area and the flow of Central aid for its development should not be disturbed for another period of, say, ten years.

We also suggest that the Punjab cabinet should include at least one member elected from one of the constituencies of the Himachal Pradesh.

The India-China border in this region admits of easy infiltration and the defence and security requirements of the region must remain a special concern of the Central Government. These considerations of security in our opinion require the establishment of a stronger and more resourceful unit than the present Himachal Pradesh.

We do not propose to go in any detail into the proposal for the formation of a larger hill unit by integrating with the present Himachal Pradesh the adjoining hill territories of the Punjab, the Uttar Pradesh and PEPSU. For one thing, there has been no reliable evidence of any desire on the part of the people of the areas claimed from other States to join the people of Himachal Pradesh. In fact, if one were to judge by the results of the recent elections in Bilaspur, which according to the winning group constitute a clear popular verdict against the merger of Bilaspur in Himachal Pradesh the claim that in the adjoining hill areas there is a popular movement in favour of integration with Himachal Pradesh would stand repudiated.

Quite apart from these considerations, it is clear that if even a larger hill unit is brought into existence, it will not form an administratively viable unit.

It now remains to dispose of the demand sponsored primarily by certain Hindu organisations in the Punjab for the formation of a larger Punjab unit comprising not only the territories of the States of Punjab, PEPSU and Himachal Pradesh but also of portions of the existing Delhi State and two or three neighbouring western districts of the Uttar Pradesh. On administrative and economic grounds, there is no case for the further addition of territories to the proposed Punjab State. From a political point of view, the acceptance of the proposal is likely to have very undesirable repercussions.

### UNITED PUNJAB

We have now considered all the important proposals regarding the future of the Punjab. By a process of elimination we have arrived at the conclusion that the merger of the existing States of the Punjab (except the Loharu sub-division of Hissar district), PEPSU and Himachal Pradesh in a single integrated unit is the most satisfactory solution which can be proposed.

This new State will have an area of about 58,140 square miles and a population of 17.2 millions.

This is not only the least unsatisfactory of several unsatisfactory alternatives. There is a great deal that can be said positively in favour of the formation of a united Punjab.

The whole of the Punjab from the Sutlej to the Indus was obviously intended by nature to be a single natural area. Even after the division of the State, the areas within the Union of India, commanded by the Ravi, Beas and Sutlej constitute a compact unit fertilised by a single river system. The central part of this unit consists of an area on both sides of the rivers Beas and Sutlej. This central part however, has vital economic links with the hill districts of Himachal where the catchment areas of this river system are located; and the portion which is to the south also has important economic lines with this central part, because the most important irrigation work which has been undertaken since Partition is intended to serve this southern portion, either directly by means of new irrigation canals, or indirectly, by means of augmenting the available supply in the old canals.

An important instance of the links of the south with the north is provided by the Mohinderwarh district. Situated in a remote corner of this region, it is likely to receive electricity from Bhakra, and if plans which have been under investigation materialise or are extended, this district, which has had no irrigation so far, may get water from the Jumna. Apart from the fact that the irrigation system of the whole of the Indian Punjab is thus one and indivisible, the power potential of this region, which is also dependent in this system, is also immense; and the Uhl and Bhakra-Nangal electrical power grids together are intended to command the entire area of United Punjab.

Other instances can also be quoted. The system of road communications in Mandi, Mahasu, Lahul, Spiti and Kulu is centred, for example, on Simla; and trade flows along these routes. The allotment of evacuee agricultural property under the resettlement scheme had to be handled at Jullundur as a regional problem. The prosperous central belt moreover is the granary of the Punjab.

During the past few years new problems calling for co-ordination have arisen as a result of the Punjab undertaking commitments in respect of the Bhakra project. These problems are the rehabilitation of persons displaced by the project and the orderly implementation of the agreements regarding the rivers of the Punjab which have been or are likely to be arrived at as the result of negotiations between India and Pakistan. In our opinion, the formation of a

united Punjab will facilitate planning of the kind which seems to be so obviously indicated.

Before we conclude, we should like to emphasize the important fact that whether the proposed Punjabi-speaking State is formed or not, the Hindus and the Sikhs in the Punjab have to live together in amity. The two communities are so interspersed in this region that no form of reorganisation can be a real substitute for communal harmony. To base a decision regarding the future of this area on the assumption that the Hindus and Sikhs are destined to drift apart will be both shortsighted and unwarranted in these circumstances.

From the point of view of the Sikhs themselves, the solution which we have proposed offers the advantage that the precarious or uncertain political majority which they seek will be exchanged for the real and substantial rights which a sizable and vigorous minority, with a population ratio of nearly one-third, is bound to have in the united Punjab in the whole of which they have a real stake.

We are in no position to say how far the allegations made about discrimination against the Sikhs have any real basis in fact. One complaint is that the Sachar-Gyani formula itself has not been implemented effectively. Another grievance which has been voiced relates to the relative share of the Sikh community in the services of the State. All that we would say is that, given a measure of goodwill, an amicable settlement should not be difficult.

Our Chairman is unable to subscribe to the recommendation we have made about the merger of the Himachal Pradesh in the Punjab. He would prefer the administration of this unit by the Centre as a territory. A separate note containing his views on the subject is appended. On all other issues including the abolition of Himachal Pradesh as a Part C State, the recommendations made are unanimous.

### DELHI

The proposals which have been made in the preceding pages involve a rejection of the demand for the creation of the Haryana prant or a Greater Delhi State. Quite independently, however, of any decision affecting the areas adjoining it, the future of Delhi has to be determined primarily by the important consideration that it is the seat of the Union Government.

The present set-up of Delhi State. It may be stated, is even more anomalous than that of other Part C States in that, within the narrow ambit of powers delegated to these States, the legislative authority of Delhi is subject to certain special limitations. The subjects specifically excluded from the purview of the State Legislature include law and order, local self-governing institutions, the Improvement Trust and other statutory boards regulating certain public utility services in Delhi and New Delhi.

It is not surprising that these arrangements have not worked smoothly. On the one hand, it is contended that the development of the capital is hampered by the division of responsibility between the Centre and the State Government and that there has been a marked deterioration of administrative standards in Delhi since dual control was introduced in 1951. On the other hand, there is persistent complaint from the State Government about the inadequacy of the powers vested in it. How unrealistic the present situation is, will be clear from the strong opposition of the State Government to the establishment of a corporation in Delhi in spite of the fact that there is every justification for setting up a corporation for a big urban area like Delhi, which is rapidly growing in importance and where health and sanitation are raising immense problems. It is interesting to note that the main ground on which opposition to a corporation is based is that, with the creation of a legislature and a popular government in this predominantly urban State, establishment of a corporation is not feasible.

That the present arrangements cannot endure is admitted even in the memorandum submitted on behalf of the Delhi Government which states that "Delhi is a Part C State and it is difficult to see any future for such States". According to the basic pattern of component units of the Indian Union which we envisage, an existing Part C State must in future become either part of a State or a Centrally-administered territory. In making a choice between the two alternatives we must take into account the following special factors:

- (i) Delhi is the seat of the Union Government; and
- (ii) It is basically a city unit, 82 per cent of its total population being resident in urban areas.

It is hardly necessary to discuss in any detail the reasons why Delhi, if it is to continue as the Union capital, cannot be made part of a full-fledged constituent unit of the Indian Union. Even under a unitary system of government, the normal practice is to place national capitals under a special dispensation. In France for example, there is a greater degree of central control over Paris than over other municipalities. In England, the police administration of the metropolitan area is directly under the control of the Home Secretary, who does not exercise similar powers in respect of other municipal areas.

Capital cities possess, or come to possess, some degree of political and social preponderance. They are seats of national governments, with considerable property belonging to these governments. Foreign diplomatic missions and international agencies are located in these capitals. They also become centres of national culture and art. Any constitutional division of powers, if it is applicable to units functioning in the seats of national governments, is bound to give rise to embarrassing situations. Practice in other countries, administrative necessity and the desirability of avoiding conflicting jurisdictions, all point to the need for effective control by national governments over federal capitals.

It may be recalled that the desirability of excluding the seat of the Central Government from the jurisdiction of a provincial government was one of the main considerations which led to the transfer of the Imperial capital from Calcutta in 1912. It was then considered essential that the Supreme Government should not be associated with any particular Provincial Government and it was also felt that the removal of the Central Government from Calcutta would materially facilitate the growth of local self-government on sound and safe lines.

#### CENTRAL ADMINISTRATION

That the capital of the Union Government should be directly administered by it has not been disputed either in the memorandum submitted on behalf of the Delhi Government or by the official representatives of the State. It has, however, been suggested that New Delhi should be regarded the national capital over which the Union Government might have full control. The real issue, therefore, so far as the future of Delhi is concerned is whether a line of demarcation should be drawn between New Delhi and Old Delhi and the two units be placed under two separate administrations.

Delhi is now an integrated and vast metropolis with an urban population of nearly a million and a half. From the point of view of law and order, the social life of the people, trade and commerce and common public utility services, Old Delhi and New Delhi now constitute one integrated unit and it will be wholly unrealistic to draw a line between the two. Both the areas are rapidly expanding and satellite townships are developing on the outer peripheries of both Old Delhi and New Delhi. The anomaly of treating the two areas separately is illustrated by the fact that even under the existing arrangements Delhi Port had to be declared as an area outside the jurisdiction of Delhi Government for purposes of the Warrant of Prevention.

If it is conceded that the national capital has to be under the effective control of the national

Government and both New Delhi and Old Delhi have to be treated as a single unit for administrative purposes, there will be little scope for difference of opinion on its future administrative pattern.

As we have observed earlier, Delhi is essentially urban in character. It has a rural belt which was acquired to meet its requirements as the seat of the Imperial Government. The rural areas, however, to the extent that they are not indispensable for the future urban expansion and development of Delhi, can be retroceded to the parent state or states.

In devising a system of Government for Delhi, therefore, we must take into account primarily the requirements and aspirations of a cosmopolitan urban population. Urban problems such as slum clearance, reconstruction, city planning, recreation, transportation, and primary and secondary education, all fall within the domain of municipal finance and enterprise. Municipal autonomy for Delhi in the form of a corporation would appear to be the most appropriate method of meeting and reconciling the broader requirements of the national Government as well as the local needs and the wishes of the people.

One of the main reasons advanced by the Delhi Government against the establishment of a municipal corporation is that the financial resources of Delhi State cannot maintain a popular Government as well as a municipal corporation. As under our recommendations, a separate State Government for Delhi will no longer be required, this objection will cease to have any validity.

We have given careful consideration to the argument that a denial to the people of Delhi of the benefits of popular Government at state level would be a retrograde step. It has to be realised that, if Delhi is to continue to be the seat of the Central Government, it must adopt a model which is sound in principle and administratively workable in practice. People residing in national capitals enjoy an advantageous position and they must be prepared to pay some price for it.

The people of Centrally-administered areas in India are more advantageously placed than those of the Centrally-administered territories in other important federal countries in that they have full representation in the Union Parliament. There is, therefore, no question of disfranchising the people of Delhi or any other Centrally-administered area.

Having taken all these factors into account, we are definitely of the view that municipal autonomy in the form of a corporation, which will provide greater local autonomy than is the case in some of the important federal capitals is the right and in fact the only solution of the problem of Delhi State.

#### UTTAR PRADESH

The proposals already made leave the western and southern boundaries of the Uttar Pradesh unaffected. No major proposals regarding the eastern boundary have been made to us, except for certain claims on behalf of a Vishal Vindhya Pradesh, which we have already disposed of. The recommendations which we have made so far, therefore, do not affect the territorial limits of the existing State of Uttar Pradesh.

But an important question which still remains to be decided is whether Uttar Pradesh itself should be divided.

The case for division was presented to this Commission by an *ad hoc* body described as the Western U.P. M.L.A.'s' Central Committee for the Reorganization of the Uttar Pradesh. A memorandum urging the division was originally signed by 97 members of the local legislative assembly representing 16 western districts. But about 70 members subsequently dissociated themselves from this memorandum. The State Government moreover has strongly expressed the view that a division of the State will be both unwarranted and undesirable.

The arguments in favour of dividing the State are mainly three or four. It is claimed that physically and geographically, the hill and plateau regions of the Uttar Pradesh have little in common with the Gangetic valley. The present size of the State is also unwieldy. The inevitable result is that the administration is, generally speaking, not too efficient. It has also been urged by those representatives of the western districts, who continue to press their claim, that their areas have been neglected, and that the financial surplus which accrues to the State from its western half is now mostly being spent on the development of the eastern areas. Finally, they have expressed sympathy with a point of view which has sometimes been presented to this Commission, namely, that the States of the Union should be roughly equal in size and importance, so that no one unit is in a position to exercise a dominant influence in all-India affairs.

Our conclusion is that on the whole the size of the State has not affected the standard of administration; and that the allegations of neglect of the west or, indeed, for that matter of any other portion of the State cannot be sustained.

The existing State of Madhya Pradesh has, and the proposed States of Bombay, Madhya Pradesh and Rajasthan will have, after reorganisation, a much bigger area than that of Uttar Pradesh. Undivided Bengal before the partition of the country, and the composite State of Madras before the separation of Andhra, had each a population which was not far short of that of the Uttar Pradesh at the present time. Knowing the repercussions of the partition of Bengal we have to adopt a cautious approach and to refrain from doing anything which may lead to unnecessary agitation or create problems which do not exist at present. We are satisfied that in the State itself there is no demand on any large scale for its being broken up. On the other hand, we think that the vast majority of the people are likely to view with very great dis-favour and concern the partitioning of a State which has remained as a unit by itself for a very long period.

It cannot well be claimed that mere size as such is undesirable and there is in fact no clear or necessary connection between the size of State and the quality of its administration. This conclusion is also borne out by facts. The law and order situation in Uttar Pradesh, particularly in Bundelkhand, is generally supposed to be very unsatisfactory, but official statistics of crime in the various States, recently published for the first time, do not by any means indicate that Uttar Pradesh has a particularly bad record in this respect. Literacy in this State is, no doubt, low, but the per capita figures of expenditure on security and social services, which are usually produced in support of the argument that the administration of the State is not very efficient, are now somewhat out of date. The rate at which expenditure on the nation-building departments has been stepped up in recent years is impressive. With the relatively greater increase in the size of the State's revenue budget, the expenditure on the overheads of administration, considered as a proportion of the total expenditure of the State is already fairly low, and is likely to be reduced even further. Uttar Pradesh has been a pioneer in certain respects, for example, in the abolition of zamindari.

Statistics over a period of ten years furnished by the Uttar Pradesh Government indicate that the distribution of expenditure has been more or less in the ratio of the population of the sixteen western districts and this disposes of the allegation that the Meerut, Agra and Rohilkhand divisions have been neglected.

The political objection to the continuance of Uttar Pradesh is in a way extraneous. Nevertheless it is of considerable importance because it reflects a sentiment which is fairly widely shared in some non-Hindi-speaking areas. The contention is that a fair balance between its constituent units is an essential condition for the working

of a federal union; it has further been argued that the present commanding position of the Uttar Pradesh, with its representation in both the Houses of Parliament broadly reflecting its numerical strength, violates this important principle.

#### NO CASE FOR DIVISION

The feeling that the Uttar Pradesh today exercises a powerful influence in all-India affairs, whether justifiable or not, should not be lightly brushed aside. If, however, we examine the question in the light of the current political trends in certain important federal unions, it will be seen that the influence of any particular State in national affairs under a federal system of government, is not determined by its size.

In all the federal constitutions the representatives of the Lower House are elected on a population basis, but in most of them there is equality of representation in the Upper House. It must, however, be remembered that in India, the Union is not a federation of sovereign States and the Rajya Sabha does not enjoy the same powers as the Lok Sabha. This is an important distinction between the Indian Union and some other democratic federations. If there is any merit in the contention that there should be equality of representation in the Upper House, the mere breaking up of the Uttar Pradesh will not solve the problem. If there is any remedy at all, it lies in the amendment of the Constitution. Besides in view of the limited powers enjoyed by the Rajya Sabha, equality of representation will not do any good to the smaller States.

After a great deal of thought we have come to the conclusion that it is not possible to form only such States as are equal to one another in size and population. In fact, there is no country in the world where one can find mathematical uniformity in regard to size and population among the component States. In other countries where the Upper Houses enjoy relatively wide powers, political forces have so operated that the old concept of States as such being represented in the Upper House has undergone a radical change. Even on a close study of the working of the principle of equal representation of States in the United States of America, has come to the conclusion that "if America, as it is today, were to give itself a new Constitution it is very doubtful whether it would adopt equality in the Senate".

"In the actual evolution of the Federation the small States have never been allied against the large States of the *terre*".

"Owing to the growth of party the country has been divided, not into States, but into opposed political organizations which have recruited the States within their fold to each other and to the Union", and

"Owing to the industrial and commercial evolution of the nation the rival interests have been and are, sections rather than States".

In Australia also party divisions, in Prof. Wheare's words, "have usually proved stronger among Senators than State divisions. Votes in the Senate are cast more on strict party lines than upon a regional basis".

The main objection seems to be that Uttar Pradesh being a very large State, all its representatives are apt to combine in pressing their point of view in Parliament. There is no guarantee, however, that even if Uttar Pradesh is split up the representatives of the newly-created units, who have been associated together for a long time, will not vote on the same side. We should not also forget that, sometimes, the complaint is that most of the representatives of the Hindi-speaking areas vote on the same side.

It will be unrealistic to think that any State *qua* State is, or will be, able to influence the Centre to any considerable extent under a system of Cabinet Government under which party loyalties must override State loyalties.

We are, therefore, not disposed to attach much importance to the view that either the present size of the Uttar Pradesh or its representation in the Upper House secures for this

State any dominating influence in the Union Parliament or executive.

Whatever the historical origin of Uttar Pradesh and the justification for the formation of this State might have been, the State has now been administered as a single unit for a long period. There is considerable force in the State Government's contention that the economy of the whole region has, in consequence, become integrated. Thus, the two main irrigation or power projects in the State, namely, the Ganga and Sarada Canal systems cover both the eastern and the western parts of Uttar Pradesh. The Yamuna hydel project is to be located in Dehra Dun, and the Runganga Canal is intended mainly for the west; but even in these cases, a considerable area in central and eastern Uttar Pradesh, as far eastwards as Fatehpur, will be served by the projects which are now under consideration.

The existing State has been able to avoid a great deal of expenditure which might otherwise have been necessary, if two or more States had been created. We see no reason for imposing this unnecessary expenditure on this area. Besides, we must bear in mind the facts that the State has now committed all its resources to its economic development, and that the scope which may exist for increasing the revenue in the immediate future seems to be limited. The State has, for example, entered into a contractual obligation with the bhumidars not to revise land revenue settlements for a period of forty years. Partition of the State in these circumstances is bound to lead to the dislocation of the administration, besides creating financial difficulties for one or more of the new units.

The existing unit should, therefore, continue.

Our colleague, Mr. K. M. Panikkar, does not subscribe to the recommendation. His views on this subject are contained in a separate note which is appended.

#### BIHAR

The proposals regarding Uttar Pradesh leave the western boundary of Bihar unchanged, but claims and counter-claims in the north, east and the south are numerous, and the case for or against the changes proposed has been argued in considerable detail. We propose to deal only with the more important and controversial issues, namely,

- (i) The formation of a Jharkhand State in south Bihar,
- (ii) The Orissa claim for the restoration to it of the Sankhali sub-division of the Shughat district,
- (iii) The border adjustments proposed by West Bengal, and
- (iv) The Bihar claims to Darjeeling, Jalpaiguri, Malda and West Dinajpur in the north and to Sundargarh, Keonjhar and Mayurbhanj in the south.

Before the present Constitution was brought into force, the Sub-Committee of the Constituent Assembly on the excluded and partially-excluded areas (other than Assam), which went into the question of drawing up a scheme for the administration of tribal and backward areas, considered very briefly the suggestion that a new province should be created in South Bihar. The Sub-Committee expressed itself against this proposal.

Since then, there have been only two major developments of interest. One is that the Jharkhand Party fought the last general elections on this issue and claims to have secured a substantial verdict in favour of the proposal to form a new State. The other recent development is that 33 members of the local legislature from the Chota Nagpur division and the Santhal Parganas district have presented the case for the division of Bihar to this Commission, this representation being supported by other parties and organizations. The members of the Bihar Legislative Assembly from the Chota Nagpur division and the Santhal Parganas, do not, however, represent

the majority view, and it is also of some interest to note that the Jharkhand Party did not obtain a clear majority within the Chota Nagpur division and the Santhal Parganas during the last general elections. This is, in our opinion, significant. We need hardly add that public opinion outside South Bihar is not in favour of dividing the State. Even in South Bihar parties other than the Jharkhand Party were in general opposed to a division.

#### CHOTA NAGPUR

We cannot overlook this volume of opposition. If the Chota Nagpur division and the Santhal Parganas are taken together, the tribal population is only a little more than one-third of the total population and is divided into several language groups. Even if it is assumed that Adivasis are solidly in favour of formation of a Jharkhand State, a major issue of this kind cannot, in our opinion, be decided on the basis of the views of a minority. There seems to be no warrant, however, for the assumption that even Adivasi opinion can be considered to be unanimous on this point.

The separation of South Bihar will affect the entire economy of the existing State. The plains are predominantly agricultural and the Chota Nagpur plateau provides an industrial balance. The sugar factories of the State are situated outside the Chota Nagpur division, but the coal-bearing areas and the major industrial zones are in South Bihar. Bihar's biggest thermal power station is also located at Bokaro in the Jharkhand area. The residual area can hardly afford to lose the benefits derived from this station.

The separation of Chota Nagpur will upset the balance between agriculture and industry in the residual State which will be a poorer area with fewer opportunities and resources for development. At the same time the centres of higher education, like the Patna and Bihar Universities, will be outside the Jharkhand area. Obviously, it would be very inconvenient for the north as well as for the south if the State were to be broken up.

It has sometimes been suggested that Chota Nagpur is bound to benefit from the separation, because it has been neglected so far by the Bihar Government. While it is true that irrigation works in Chota Nagpur are not many or important, there is little evidence, on the whole, of lopsided economic development. It was, in our opinion, natural and inevitable having regard to the resources of the two areas, that irrigation should have been important in the north and industrialization in the south. A comprehensive plan for irrigation in the south has recently been prepared and a broad-based development plan is now under consideration. A Tribes Advisory Council has also been constituted.

The ultimate objective in relation to the inhabitants of what are at present "scheduled areas" under the Constitution, is that normal administration should be introduced as early as possible and that distinctions between Adivasi and other citizens, in so far as they impede the economic and political advancement of the tribal areas, should be progressively removed. From the point of view of the long term interests of the Adivasis themselves, the present arrangements, as set out in the Fifth Schedule to the Constitution read with Scheduled Areas (Part A States) Order, seem to be fair and satisfactory.

The Sub-Committee of the Constituent Assembly on the excluded and partially-excluded areas (other than Assam), to which reference has already been made, was of the view that tribal people should be associated adequately with all branches of administration "including the Cabinet" and that "this tract must be dealt with not only by economic and educational improvements but also by remedies which recognize its political and psychological aspects". Their observations have the same force today as they had about seven years ago and we commend them for special attention.

We also recommend that question of a special development board for the Chota Nagpur division and the Santhal Parganas district of Bihar along the lines already suggested be considered.

### OTHER CLAIMS

The controversies over Seraikella and Kharasawa are comparatively more recent. The Orissa claim to these areas rests mainly on the ground that Oriya is the largest single language group. The two states, however, have formed part of the Singhbhum district since May, 1948, and the historical affinities of the two states with the Porahat raj in Singhbhum district, on the one hand, and with the administration which was in charge of the Chota Nagpur division, on the other, are held to justify the decision to include them in Bihar.

The major question which we have had to consider in the course of our examination of this problem is whether the position of Oriya in the Seraikella sub-division is by itself, an adequate ground for disturbing the existing arrangements. As has been pointed out elsewhere in this report, language by itself, does not, in our opinion, provide sufficient justification for breaking up a district. In this case, moreover, the Oriya percentage in rural portions is only about 26; and those speaking this language do not seem to be concentrated, anywhere within the sub-division, to such an extent that linguistic affinities can be regarded as clear and unmistakable. Above all, in view of the recommendations which we make in the next chapter for the transfer of part of the Manbhum district to West Bengal, the transfer of the Seraikella sub-division, or any portion thereof, to the State of Orissa will convert the Dhalbhum sub-division in the east into an enclave which will not be physically contiguous to the rest of Bihar.

This can be avoided only if the whole of Singhbhum is transferred to Orissa. Such a transfer, however, will not be justified on administrative and other grounds. It may be recalled that in 1932 the O'Donnell Committee considered the question of the transfer of this entire district as it then was to the proposed Oriya-speaking State, but declined to recommend its inclusion in Orissa, on the ground, amongst others, that its geographical position and lines of communication favoured its retention in Chota Nagpur. We see no reason why the decision reached on the basis of this recommendation should now be reconsidered.

The Bihar Government's claims to Darjeeling and some other districts of West Bengal and to three districts of Orissa which are contiguous to Bihar, has been made are not justified on the ground of linguistic or cultural affinity, administrative necessity, or any other special reason.

The results of our examination of the border disputes in the north, east and south of Bihar can now be summarized. Subject to the recommendations which are made under West Bengal the boundaries of the existing State of Bihar will remain unchanged.

After taking those recommendations into account, the State of Bihar will have an area of about 66,520 square miles and a population of a little less than 39 millions. The administrative structure and economy of the existing State are unlikely to be affected materially by our proposals.

### WEST BENGAL

The material which has been submitted to this Commission from West Bengal is voluminous, and the claims or counter-claims of the other governments concerned, namely, Bihar, Assam and Orissa, have also been supported in considerable detail.

Although these States are predominantly unilingual, the reorganization of the border areas has not become any the less difficult or controversial. Indeed, as the incidents in Goalpara and the emotional upheaval that followed the appointment of this Commission in some of the disputed areas have indicated, the readjustment of West Bengal's borders has now become a major problem. We do not foresee that, with the passage of time, this problem will disappear.

Partition has created many problems for West Bengal. Apart from the influx of refugees from Pakistan, which may now be estimated at about three and a half millions, the entire communications system of Bengal has been disrupted since 1947. The northern districts of the Presidency division have become less easily accessible from Calcutta; and West Bengal is now the only Part A State which is geographically not a compact and integrated unit.

To some extent, West Bengal's difficulties are also shared by Bihar and Assam. Communication links between the north and the south in this part of the country have not been as satisfactory as may be desired. There is in the first place the problem of bridging the Ganga. The major rail bridge across this river was at Pakul in East Pakistan; and since this has been lost to India, a crossing at Mokameh Ghat is now being provided. The Mokameh Ghat bridge when it is completed will, however, relieve the congestion in traffic only partially. The break of gauge north of the Ganga, the inadequacies of the Assam rail link, and the comparative inaccessibility of the eastern areas of the Malda and West Dinajpur districts of West Bengal will still remain.

Various proposals have been put forward in order to improve communications between Calcutta and the north-eastern portion of India which is now somewhat isolated. One proposal is that a road-cum-rail bridge and a barrage across the Ganga at Farraka in West Bengal should be built. It has also been suggested that a new railway line from Dhubri in Assam via Alipur Duar to Siliguri should be laid and that line capacity should be doubled from that point onwards. Rail links are also proposed to be provided via the contemplated Farraka crossing, connecting the southern districts with Darjeeling, Jalpaiguri and Cooch-Behar through the Barsol-Siliguri railway line; and links with suitable points in the east in the middle portions of the West Bengal State have also been proposed.

In order to supplement the transport capacity which will be provided by these new railway lines, two road links which will be part of the national highway system are also being constructed within or just on the borders of the West Bengal State.

The West Bengal case is that all these projects should be given priority; and that such territorial readjustments should be made as will give to the State control over the areas through which the main lines of communication are to pass.

### TERRITORIAL CLAIMS

Geographical contiguity, in order to ensure the more orderly development of its communication links, is thus the main argument on which the West Bengal claims in the north, that is to say, in the Purnea and Santhal Parganas districts, are based.

As regards the area which is to the south, the basis of the claim is that river control and irrigation development are now being projected on a very large scale in the Burdwan division of West Bengal. This development, it is claimed, will be helped by the transfer to West Bengal of a portion of the Santhal Parganas and the whole of Manbhum. The rivers which have been particularly mentioned in connection with these territorial claims are the Ajay and the Kasai, dams on which are proposed to be built in or on the borders of Bihar. The West Bengal Government has asked for the catchment areas of these two rivers, in order to ensure that its programme of river control and development is not jeopardised.

We have dealt so far with what apparently are the most important points in West Bengal's case. But it will be wrong to assume that the claims are based only on administrative grounds.

West Bengal, so far as we have been able to judge, feels that it has been treated unjustly. This feeling is based partly on the fact that from

1905 onwards the State has steadily lost territory, the result of the latest change has been to create a disconnected unit, and West Bengal thinks that its difficulties have not been appreciated.

The "real extent" of Bengal, it has been stated, was always larger than it is at the present time. It is not surprising, therefore, that arguments drawn from history have also been considered to be relevant. The West Bengal Government and the Pradesh Congress Committee have relied to some extent on the fact that considerable portions of the areas now claimed were previously under the Government of Bengal. Reliance has also been placed on the definition of the limits of the Mughal Sarkar of the Moghul empire; on a resolution passed by the Congress in 1911, and on a statement reported to have been issued by some prominent leaders of Bihar in 1912, conceding West Bengal's claims to the territory east of the Mahananda, the whole of Manbhum and the Daibhum portion of the Singhbhum district.

The last-mentioned statement has been challenged and counter-arguments drawn from history have been produced in order to rebut West Bengal's claim. The Government of Bihar has also pointed out that no great importance need be attached to geographical contiguity in view of the fact that the Constitution of India contains adequate provision to facilitate inter-State co-operation, even if such co-operation cannot be assumed in the normal course.

A more or less extensive bilingual belt, it is stated, is unavoidable. Attempts to establish the precise linguistic and cultural affiliations of such areas can never be quite successful and may also be unnecessary since a completely unilingual area cannot always be created.

Hindi is either the predominant language or at least a very important language in this bilingual border belt; and since Hindi is not only the regional official language in the disputed areas, but also the national language, proficiency in which is necessary and desirable, the grievance that Hindi is being "imposed" cannot be regarded as legitimate. The Bihar Government has also stated that the natural predominance of Hindi in these areas has been obscured in the past by attempts to impose Bengali; and it has been pointed out that a number of typically Bihar castes are to be found in the territory claimed.

Many of the arguments advanced against the proposal to create a Jharkhand State are also regarded as relevant to the proposal to transfer the rich mineral-bearing and industrialized areas of Rajmahal, Manbhum and Dhalbhum to West Bengal. This transfer, it is argued, is bound to dislocate the economy of residuary Bihar, and it will upset the balance between agriculture and industry.

Finally, it has been contended by Bihar that there is no popular demand in this disputed fringe for a rectification of the boundary.

### CASE FOR CESSION

The linguistic complexion of the disputed areas is unfortunately not quite clear. The mother-tongue data of the 1951 Census have been challenged by both Bengal and Bihar. Neither West Bengal nor Bihar has, in these circumstances, confined itself to arguing from past figures. Both the Governments have relied on a number of subsidiary factors in order to prove the cultural affinity of the disputed areas.

The arguments advanced by the Bihar Government in favour of the maintenance of the *status quo* are not without force. It has also to be recognized that bilingualism in the area under consideration has to be accepted as an inevitable fact and that no great importance can, therefore, be attached to mere linguistic affinity.

We feel, however, that quite apart from the special background of the West Bengal claim and its psychological aspect, there is no denying the fact that the present distribution of territories between Bihar and West Bengal is such as to give rise to some real administrative difficulties from the point of view of West Bengal.

We shall first examine the claims made on the Purnea district. The mother-tongue data of the census returns for this district, as has been mentioned already, have been challenged by West Bengal. The main controversy in this district, however, relates to the classification of the dialect or dialects spoken to the east of the river Mahananda. Grierson, and following him O'Malley, classified them as North Bengali, but the Bihar Government, relying among other evidence on the views of Gait, the Census Superintendent in 1901, has challenged this classification.

The affinities between Kishanganj or Sirpuria as spoken in the extreme east of Purnea district, on the one hand, and Bengali on the other, seem to be close. But this dialect is written in the Kaithi script, which is allied to Hindi, and as one proceeds westwards its affinities with Maithili and Hindi become more marked. Arguments based on linguistic affiliations, whether advanced by Bihar or by Bengal, are thus far from being conclusive.

The main argument in support of the West Bengal claim on this area is the desirability of making the State a geographically contiguous unit. The Bihar Government has represented that it is not necessary to transfer to West Bengal the area through which the national highway connecting the northern districts to the rest of West Bengal passes. The highway, it is stated, is now and will remain the responsibility of the Central Government. The Government of Bihar has also dealt at some length with the allegations of lack of co-operation in facilitating transport and communications between the southern and northern portions of West Bengal.

We attach great importance to the geographical compactness of administrative units because we are of the view that the physical integration of such units is vital to their real political and administrative integration. Apart from the inconvenience in administering geographically-detached areas we must take note of the fact that the continued isolation of the northern districts from the rest of West Bengal will tend to foster and accentuate separatist trends in these districts. West Bengal, therefore, has a good case for a geographical integration of the northern areas.

Besides, even if the Bihar Government extends full co-operation in facilitating traffic between the north and the south of West Bengal, certain difficulties are inherent in the existing arrangements. These difficulties will be eliminated if portions of the Kishanganj sub-division and the Gopalpur revenue thana are transferred to West Bengal. This will enable West Bengal to construct feeder roads connecting the national highway to its other territories and to control road traffic with Darjeeling and other places in the north, by eliminating avoidable delays and cumbersome and inconvenient administrative arrangements, and by liberalizing, if necessary, the present practice relating to road transport.

West Bengal will also acquire control of the Indo-Pakistan border in this region along its entire length. From an administrative point of view this will be both convenient and desirable.

We have carefully examined the suggestion that the entire area to the east of the river Mahananda in the Purnea district should be transferred from Bihar to West Bengal in order to provide for geographical contiguity between the two disconnected parts of West Bengal. We do not consider it necessary, however, to recommend the transfer of any area which may not be absolutely essential in order to achieve the object in view.

Taking all the relevant factors into consideration we propose that

- (i) the portion of the Kishanganj sub-division which is to the east of the river Mahananda, and
- (ii) a portion of the Gopalpur revenue thana contiguous to the territory mentioned in (i) and extending down to national highway in this thana,

should be transferred to West Bengal. The details of this transfer will have to be left to the Government of India, acting in consultation with the State Governments concerned. But it should be ensured that control of the national highway in the Gopalpur revenue thana is vested in the Government of West Bengal.

While making this recommendation we have to take note of the fact that the eastern portion of the Kishanganj sub-division is predominantly inhabited by Muslims who would view with concern the transfer of this area to West Bengal on the ground that their linguistic and cultural rights might suffer and that the possible resettlement of displaced persons from East Bengal might dislocate their life. These fears are not without justification. It would, therefore, be necessary for the West Bengal Government to take effective steps such as the recognition of the special position of Urdu in this area for educational and official purposes. The density of population in this area is such that there is little scope for any resettlement of displaced persons. The West Bengal Government would, therefore, do well to make a clear announcement to the effect that no such resettlement would be undertaken.

#### SANTHAL PARGANAS

In the Santhal Parganas, the Santals are, according to the 1951 Census, numerically the second most important linguistic group. The West Bengal claims in this district seem to be based on a number of subsidiary arguments, such as that Santals have affinities with West Bengal, and that the revenue history of this district indicates its administrative links with Birbhum and Murshidabad. These claims, however, are not convincing.

Bengali influence in the entire Santhal Parganas district is very slight. The percentage of the Bengali-speaking people is meagre in all the sub-divisions, excepting Rajmahal and Pakur, where they constitute about 16 and 13 per cent of the population, respectively.

Rajmahal was for brief periods the capital of ancient Bengal. Even so, the Hindi-speaking population in Rajmahal, as the Bihar Government has pointed out, far outnumbers at the present time that speaking Bengali. That this is not an accidental or manipulated result is clear from the records of earlier censuses.

The areas claimed by West Bengal are an integral part of Santhal Parganas as it was constituted in 1885. It will be inconvenient to Bihar if this eastern fringe of this district were now detached from it. Apart from the administrative complications which may be created, Bihar will lose the Rajmahal coalfields to West Bengal if the area claimed were transferred. Santal opinion has not declared itself in favour of the West Bengal claim.

We have considered very carefully the question whether a portion of the Santhal Parganas alongside the Ganga, which is reported to be partially unsurveyed in this neighbourhood, can be transferred to West Bengal in order to enable that State to control entirely one or more points at which this river can be crossed. We have also examined in some detail the case for the transfer of the catchment areas or a portion of territory along the course of the river Ajay. As has been stated elsewhere in this report a claim which is based on the desirability of access to the proposed site of a river valley project will be admissible only if the other factors are more or less evenly balanced. This is not the case so far

as this district is concerned. We have, therefore, come to the conclusion that the transfer of any portion of the Santhal Parganas district to West Bengal will be difficult to justify.

In Manbhum, which is further to the south, the position is different. Manbhum is really composed of two different areas which are divided by the Damodar. These areas are now treated as two sub-districts, but with a population of 732,000 and 1,514,000, respectively, they are for practical purposes separate districts and are administered as such. Dhanbad which is the industrialized area, in which incidentally Hindi is predominant, differs from Purulia which is comparatively less industrialized, and has a much greater concentration of the Bengali-speaking people.

There is no case for the transfer of Dhanbad to West Bengal. The Hindi-speaking majority in this sub-district is 65 per cent. Coal-fields along the course of the Damodar river and the D.V.C. industrial belt are situated mostly in this sub-district, and there are indications that Dhanbad, like Jamshepur further south, may soon attract a mixed population from all over India as it is further developed. The West Bengal claim to this area is, therefore, untenable.

In Purulia on the other hand, there is unmistakable evidence of Bengali influence even today. This sub-district has the largest concentration of Bengali-speaking people outside West Bengal.

The transfer of Purulia can be justified on the ground that it will facilitate the implementation of a flood control-cum-irrigation project which has recently been taken up in West Bengal. The Kangsabati (Kasai) river, which rises in Purulia, is of no real importance from the point of view of Bihar, but West Bengal has already utilized it to some extent in its lower reaches, and now proposes to build a dam on this river near the Bihar border.

#### KASAI CATCHMENT AREA

If flood control and irrigation in the Burdwan division are to be efficiently carried out in future it will be desirable to transfer to West Bengal a major portion of the catchment area because this will facilitate soil conservation measures and also provide perhaps a more appropriate dam site.

The importance of the Kasai to West Bengal will be apparent from the fact that it is supposed to derive its name of "the butcher" from the annual devastation which its flood waters cause in and round Midnapore. This may not be a conclusive argument justifying the proposed transfer. But in this case, as in the case of Bellary, the other arguments are either unimportant or are more or less balanced, in these circumstances, it cannot be regarded as a minor question that the implementation of a project to which West Bengal attaches considerable importance will be helped by the transfer.

It has been claimed by West Bengal that the linguistic tabulation of the 1951 Census cannot be regarded as satisfactory and that if we disregard the Census of 1951 and take into account the two previous Censuses at which the linguistic distribution of the people was recorded, the Bengali-speaking percentage was of the order of two-thirds of the total population in the entire district; in Purulia, which as has already been stated, has even today a considerable population speaking the Bengali language, it was, perhaps, more impressive.

We must take note of the fact that even according to the 1951 Census, the Bengali speaking majority in the rural areas of Purulia will be about 55 per cent (as against 28 per cent of the Hindi-speaking people) if the Chas revenue thana, which is contiguous to Dhanbad is excluded.

Considering the circumstances referred to above in which the West Bengal claim to Manbhum has been made, we propose that the Purulia sub-district excluding the Chas thana

should be transferred to West Bengal. Such a transfer will not seriously upset either the economy or the administrative structure of Bihar, but will, on a balance of considerations, be justified. It may be pointed out incidentally that since the area proposed to be transferred is virtually a district, the initial inconvenience, if any, as a result of the transfer will be negligible.

We pass next to Dhalbhum. From a linguistic point of view, Singhbhum district is the meeting ground of Ho, Oriya, Bengali, Hindi and Santhali. These languages are important roughly in the order named. In the Dhalbhum sub-division considered separately, Bengali is the largest language group but it cannot by any means be considered to be predominant, and a *prima facie* case for a boundary adjustment in favour of West Bengal has not been made out either on the ground of linguistic affiliation or on any other grounds. The historical links of this district with West Bengal, as in the case of Goalpara, are tenuous. It is also impossible to overlook the fact that in an important portion of the area claimed, that is to say, in and around Jamshehpur, the population is so mixed that no State can legitimately claim the city on cultural or linguistic grounds. Indeed, the West Bengal Government has itself recognised this fact.

#### GOALPARA DISTRICT

We next deal with the West Bengal claim on Assam. These claims do not seem to us to be sound. There is no evidence, according to the 1951 Census, that the Goalpara district is predominantly Bengali-speaking. Although the figures have been challenged, and reference has been made to the considerable Muslim population in Goalpara which is claimed to be Bengali-speaking, we do not have enough evidence on the basis of which the mother-tongue data of 1951 can be disregarded. We find it difficult to admit on that ground alone any claim by West Bengal to Goalpara or any part of it. Such historical connection as there has been between Goalpara and West Bengal has been intermittent and tenuous. The district has now been part of Assam for such a long time that there is no justification for disturbing this position.

Our findings regarding the border disputes between West Bengal and Bihar and West Bengal and Assam can now be summarised.

We have conceded the claim of West Bengal to the whole of the Purnia sub-district of Maubhum district, with the exception of the Chas thana, and have also admitted its claim to some territory east of the Malananda in the Purnea district. The existing Bengal-Bihar and Bengal-Assam boundaries will continue except to the extent indicated.

The area and population of West Bengal as a result of these recommendations will be about 34,590 sq. miles and about 26.5 millions respectively.

We have already referred to the long history and complicated nature of the border disputes. The claims which have been made on Bihar by or on behalf of West Bengal have not only been numerous but have also been conflicting.

The New Bengal Association, which submitted a representation to the Constituent Assembly in 1948, was broadly in favour of the addition of a little more than 10,000 sq. miles from Bihar to West Bengal. But a memorandum prepared at about the same time by the late Shri N. R. Sarker for the Government of West Bengal claimed an area of almost 10,000 sq. miles.

In a resolution passed by the West Bengal Legislative Assembly in August, 1952, this demand was more or less reiterated. The official representation which has now been made to this Commission on behalf of the Government of West Bengal is confined to a smaller area of about 11,810 sq. miles involving a population of about 5.7 millions. The West Bengal Pradesh Congress Committee on the other hand claims at present an area of about 13,950 sq. miles involving a population of about 6.7 millions.

Our recommendations relate to two bits of territory which have been mentioned in every claim during the last seven years; and even in these two cases, they are confined to areas, the transfer of which can be regarded as absolutely essential.

The proposals which we have made will involve the transfer only of an area of about 3,612 sq. miles and a population of about 1.7 millions.

The redrawing of these boundaries has been one of the most difficult problems with which this Commission has been faced.

Our Chairman Shri Fazl Ali, because of his long connection with Bihar, has not considered it desirable to concern himself with investigating and deciding the territorial disputes to which Bihar is a party.

#### ASSAM

The State of Assam is made up of the Brahmaputra (Assam) and Surma river valleys and the hilly areas to the north, south and east of these two river basins. The Brahmaputra valley, which is the most important and fertile tract in the State, contains six out of the seven plains districts. Communications between this area and the rest of the State, or for that matter with the rest of India, are still relatively undeveloped. The hill districts have today even more intimate administrative and economic links with the plains, in which incidentally about seven lakhs of tribal people are to be found.

From a historical point of view, Assam and north-east India seem to have been intended by nature to be the meeting place of many tribes and races with the result that till comparatively very recent times Assamese was not in fact a language spoken by a majority of the inhabitants of the State.

Assam also owes a great deal to capital and enterprise from outside the State; and its tea, coal and oil industries have been built up mainly as the result of such enterprise. The contribution which permanent or temporary immigrants into the State can make to the development of its economy is important even at the present time.

The proposals as presented to the Commission can broadly be summarised as follows.

The Assam Pradesh Congress Committee, the local Communist party, the Tripura State Congress Committee, and the Government of Assam are broadly in favour of the *status quo*. Assam, however, would welcome the merger, if possible, of Cochin-Bihar, Manipur and Tripura, and closer connection with the administration of the North-East Frontier Agency, which is now constitutionally part of Assam.

The hill districts have pressed the case for the formation of a hill state. This demand, reiterated at the Tura (Garó Hills) Conference of tribal leaders in October, 1951, contemplates the unification of all the hill districts mentioned in Part A of the table appended to the Sixth Schedule to the Constitution, including also the Naga Hills district.

The Naga National Council seeks independence from Assam and India and to remain aloof from the proposed hill state.

As a compromise between these extreme positions, but for entirely different reasons, the formation of a Kamatapur State consisting of Goalpara, Garo Hills, Cochin-Bihar, Darjeeling and Jalpaiguri, or of a Purbachal State consisting of the area round Cachar has also been suggested.

#### HILL AREAS

We first deal with the demand for the creation of a hill state. This demand, it may be noted, is of comparatively recent origin. When the Sub-Committee of the Constituent Assembly on the North-East Frontier (Assam) Tribal and Excluded Areas, popularly known as the Bardoloi Committee, reported in July, 1947, the Naga demand for independence, as the Committee noted, was not supported by moderate elements.

The other proposals made to the Committee ranged from a quasi-independent status to cultural autonomy for the individual districts. The scheme for a hill state had already been put forward and discussed in certain quarters, but had not yet taken any concrete shape.

The Sub-Committee's report whose proposals are substantially incorporated into the Constitution rejected these various alternatives either directly or by implication. This report, it may be of interest to note, was supported by the tribal representative.

In the period of about eight years since the Bardoloi Committee reported there has been an attempt on the part of certain elements in the hill districts to reopen this entire problem.

It is of paramount importance to establish a stable administration in the north-east based on the goodwill of the tribal people, and it is clear that such an administration will have to be primarily concerned with the well-being of the tribes.

The problem in the hill areas at this stage is at least as much psychological as political. There is no denying the fact that the demand for a hill state partly reflects the separatist pull of the extremist elements. Other factors, however, appear to have lent support to the demand and these are

- (i) suspicion and distrust of the people of the plains by the tribal people of this area;
- (ii) the diversity of races and cultures and the different levels of social, educational and political development in the different areas of this region which have prevented the tribal people from coming up to the level of the people in the plains;
- (iii) lack of communications in these areas which has made it difficult for the various tribes to come in close contact with the rest of India; and
- (iv) the economic backwardness of the region.

It has also been alleged that the Government of Assam has not been as sympathetic and helpful to the tribal people as it should have been.

The problem is, in a substantial measure, an inheritance from the pre-independence days. The extremist demands of the present time reflect what has sometimes been labelled the "national park" approach. This was fundamentally the British policy and there were attempts to demarcate the tribal zones and to isolate them, as far as possible, from external influences, preventing, in particular, immigration from elsewhere into the scheduled areas. This went to the extent of stopping Indian officers from entering these areas.

The demand for a separate tribal State is partly a hang-over of this policy. With the departure of the British, however, conditions have changed radically in the sense that there is now a growing awareness amongst the tribal people of their political rights as full and equal citizens of the Indian Union which, they did not have.

It is clear that, in these changed conditions, it is neither necessary nor desirable to confer on the tribes any immunity from external contacts to such an extent as to hamper their development. Policy cannot obviously be so administered as to freeze existing economic and cultural patterns and to inhibit healthy growth.

The results of the "inner line" regulation policy, as administered by the British was not enforced so much against Europeans and Christians as against the other Indian communities. The broad effect of throwing the tribal areas open to some but not to all external influences has been to divide the tribal people themselves, and to create, as a result of British and missionary influences, a new class, which has so far remained quite distinct from the general population either in the hills or in the plains. The creation of a new hill state will, in our opinion, accentuate these distinctions.

During the initial phase of the changeover after 1947 the hill districts may not have received adequate attention. The whole of Assam, is, in a sense, backward. Assam, moreover, has had to face the consequences of Partition, so that the genuine grievances of the hill districts, such as the loss of Pakistan markets for the Garo and Mizo (Lushai) hills districts, or the inadequacy of rail or road communications, have been the inevitable results of the disruption of Assam's economy rather than the consequences of any policies pursued by the Assam Government.

Some of the causes for misunderstanding have also been removed recently, as the implications of the various development and welfare schemes have come to be somewhat better appreciated.

### CASE AGAINST HILL STATE

The Government of Assam has tried to provide temporary relief by arranging for the subsidised sale of food, the air-lift of essential commodities and the building of essential roads. Important schemes for reclamation, like the Kongkhong and Nambhor reclamation schemes, pilot projects for 'jhum' control and proposals for extending railway lines have also been under consideration. A major amendment to the Assam Land and Revenue Regulation brought into force some years ago permits the creation of tribal belts where normally no non-tribal can acquire land. It is also possible that irrigation-rum-flood control projects on the Dihang and the Barak, proposals for the establishments of some industries in the Garo hills and schemes for the diversification of agriculture in the hills may be undertaken in the future.

We take note of the important fact that, individually or together, the hill districts will not be able to command, even with such aid as may be granted by the Government of India, the resources in money, material or man-power needed to implement these development programmes.

Separation will add to the cost of administration, and the co-ordination of policies and programmes between the State of Assam and the hill areas on the one hand and between the hill districts themselves on the other will become more difficult. The scheme for a hill state, it must be noted, also contemplates that the capital of Assam and of the proposed hill state will be common, and that many institutions, apart from the Governor and the High Court, will be shared—an arrangement which will involve, in practice, a great deal of inconvenience and even conflict.

The impression which we have formed as a result of our tour of the area is that a substantial body of public opinion, even in the tribal areas of Assam, has not, by any means, been converted to the view that a new hill State should be formed.

Generally speaking, the United Mikir and North Cachar Hills and the Mizo (Lushai) Hills are not in favour of a separate hill State and the district council in the Lushai Hills and the Karbi-A-Durbar (Mikir Hills National Council) are in favour of the *status quo*.

The agitation in favour of a hill State is, therefore, confined virtually to the Garo and the Khasi and Jaintia Hills. Owing to their geographical position, these two districts have necessarily a closer association with the adjoining plains districts than the rest of the hill or tribal areas; even in these two districts, therefore, an influential section of opinion views with disfavour the formation of a separate hill State.

Taking all these factors into consideration, we have come to the conclusion that the formation of a hill State in this region is neither feasible nor in the interests of the tribal people themselves.

The hill districts, therefore, should continue to form part of Assam and no major changes should be made in their present constitutional pattern.

A question which figured prominently during the course of our enquiry concerning this region was the working of the district and regional autonomous bodies which were created under the Sixth Schedule to the Constitution. The consensus of opinion seems to be that the scheme is not working satisfactorily.

We would recommend that the question of the working of the Sixth Schedule be examined comprehensively by a body specially constituted for this purpose. The question should be examined with due regard to the promotion of the best interests of these people and the need for checking disruptive tendencies and securing good administration.

In the meantime, it seems necessary that some measures should be taken to ensure proper liaison between the Government of Assam and the autonomous district councils and to facilitate the formulation and implementation of schemes for the development of these areas. An important step in the direction of providing better liaison, in our opinion, will be the appointment of a Commissioner to be in charge of the administration and development of all the hill districts. We envisage that the Commissioner would act as the Governor's agent for the various purposes laid down in the Sixth Schedule; and that he with the assistance of the district officers would help the district councils in their various day-to-day problems so as to remove difficulties speedily. He may be assisted by a development board consisting among others of representatives of the different district councils.

The extension of the north-eastern railway system, so as to cover the two western hill districts, namely, the Garo and the Khasi and Jaintia hills, and the extreme southern district, namely, the Mizo (Lushai) hills, may also have to be investigated.

### PURBACHAL

The proposal for the formation of a Purbachal State, like the demand for the creation of a hill State, is not new. It was examined by the Congress organisation in 1948, but was not pursued, and in one of the forms in which it has now been revised, the Purbachal scheme provides for the constitution of Cachar, Tripura, the Mizo (Lushai) Hills, the Naga Hills, Manipur and the NEFA into a new state; it, therefore, reproduces to some extent the proposal for the separation of the hill districts from the Assam (Brahmaputra) valley.

Some of our objections to the proposal to create a hill state are, therefore, applicable to this case. Moreover, the organisation sponsoring this demand, namely, the Cachar States Reorganisation Committee, itself recognises that this new State will be financially in deficit for quite some time to come. The proposed Purbachal State, under any of the schemes that have been suggested, will have an international boundary on three sides. It is clear that it will have neither the resources nor the stability to provide for the security of the Indian border in this part of the country. It is also obvious that substantial minorities speaking languages other than Bengali will be found in it, with the result that it will provide no real solution of the existing difficulties.

The genesis of the Purbachal demand is that since the major part of Sylhet was cut off from India at the time of Partition, the Bengalis in Assam, who used to feel that culturally and even geographically they belonged to Bengal, have found themselves somewhat isolated in what they may now be disposed to regard as an uncongenial environment. It has been represented to us that the activities of the Assam Jatiya Mahasabha and the policies of the local Government have not only not reconciled the Bengalis in this part of Assam, but have had quite the opposite result. The Bengali-speaking people have cited for instance the fact that the number of Government primary schools in Goalpara district with Bengali as the medium of instruction has fallen from 252 in 1947-48 to 1 at the present time.

These complaints in so far as there is some *prima facie* justification for them deserve to be carefully examined. It is difficult for us to believe that the arrangements which have been made at present adequately meet the needs of the Bengali-speaking population in this district, and in particular the problem of primary education in this area should receive early attention. But the creation of a new State, which may well mean only that one set of problems is exchanged for another is not in our opinion an appropriate remedy for the grievances of the minorities.

On the grounds which we have already discussed we are also unable to entertain the demand for the creation of a Kamatapuri State north-west of Purbachal consisting of Goalpara, Garo Hills, Jalpaiguri, Cooch-Bihar and Darjeeling.

### THE NORTH-EAST FRONTIER AGENCY

We have now to deal with the suggestion that the North-East Frontier Agency should be more fully integrated with Assam. Constitutionally, the North-East Frontier Agency is part of Assam but it presents special features of its own.

In the whole area of about 35,000 sq. miles the population has been estimated at only eight lakhs. It is a difficult mountainous country extremely deficient in communications. The work of any administration which is in charge of this area will therefore, have to be of a special kind for quite some time to come.

In recognition of this fact, the governance of this area has been entrusted for the time being to the President acting through the Governor of Assam, and a separate cadre for the superior posts recruited on an all-India basis, has been created. Central expenditure in this area has been increased very considerably during the last few years, and it is now widely recognised that an efficient and progressive administration is being gradually built up.

In these circumstances, the suggestion made by the Assam Government for the early integration of this frontier area is not feasible and the existing arrangements regarding the North-East Frontier Agency should continue.

The Naga Hills district presents another special problem. Owing to the activities of the extremist elements, the law and order situation in this area has been unstable in recent years. The Nagas boycotted the elections to the autonomous bodies, with the result that the area has had to be administered directly by the Assam Government.

It has been represented to us that the law and order problem in the Naga Hills district is the same as in the Tuensang area of the NEFA, and that unless the entire area is brought under one authority the situation cannot be effectively dealt with. However, it has been stated on behalf of the Assam Government that the Naga Hills district has been relatively quiet during the last two or three years and that there are indications of the people of the area abjuring violence in favour of peaceful methods. After taking the relevant factors into account we have come to the conclusion that it would not be desirable to suggest any change in regard to the Naga Hills district at the present juncture.

The results of these recommendations may now be summarised. The proposed new State of Assam will include all the areas now constituting the existing State as well as Tripura and will have an area and population of about 99,040 square miles and 0.7 millions respectively.

The linguistic complexion of the existing State establishes very clearly its composite character. The Assamese-speaking population constitutes only about 53 per cent of the population of the State.

## MANIPUR

The State of Assam, with the boundaries which have been suggested will not include the existing State of Manipur. This is because we recommend that Manipur should for the present continue to be Centrally-administered.

Manipur is a Part C State, situated on India's eastern border with a population of about 0.6 million. A unit such as this cannot be considered administratively viable. Consistently, therefore, with the principles discussed before, the merger of Manipur in the adjoining State should be the natural course, the more so when the other Part C State with a comparable population in this region, namely, Tripura, is proposed to be merged in Assam.

There are, however, some features peculiar to this unit, which render it desirable that its separate existence should be maintained for the time being.

We may first state the main arguments which have been advanced in favour of the continued existence of this unit. Manipur, it is claimed, is a border State; and, as in the case of the North-East Frontier Agency, which is a neighbouring area, security considerations are, or must be, paramount. Manipur, it has also been claimed, has been independent for centuries and its connection with the neighbouring States—and indeed with India itself—is very recent. There is, even today, no railway which links the State with the rest of India. The State is now receiving substantial financial aid from the Centre. Its economic development will be retarded if it is merged either in Assam or in West Bengal or in the hill districts.

The racial and linguistic composition of the State is somewhat peculiar. The Melitohs or Manipuris, constituting about 65 per cent. of the population of the State, are the major linguistic group and are to be found mostly in the valley. There has been some settlement by Mizos from the south, by Hmars, Nagas and other tribes and even some immigration from Assam and from Bengal. But the linguistic and cultural individuality of the valley, it is claimed, has remained largely unaffected.

Manipuris have accordingly developed a special social and cultural life of their own. This consciousness of a distinct linguistic and cultural individuality accounts for the opposition within the State to suggestions that Manipur should become part of Assam or of a Purbachal State created round Cachar or of a hill State extending from the Mizo (Lushai Hills) district in the south to the North-East Frontier Agency in the north.

The essential difference between Manipur and Tripura is that the Bengali-speaking people in the neighbouring district, namely, Cachar, already constitute seventy-seven per cent. of the population of the district; and the merger of Tripura in the State would, therefore, be natural to some extent. This important consideration does not apply to Manipur which has no particular linguistic affinity with Assam.

Another important consideration we have to bear in mind is that Assam has fairly difficult political and economic problems of its own to solve. Besides, apart from the autonomous hills districts, the administration of the State will have to look after another border unit, namely, Tripura. In these circumstances, it may not be desirable to impose on Assam the additional burden of administering the important border area of Manipur.

The only serious alternative to merger in Assam is to create a new State consisting of Manipur and the neighbouring areas like Lushai Hills, Tripura and Cachar. We have already referred to the opposition of the people to this proposal. But the proposal itself is impracticable owing to lack of communications, a variety of language difficulties regarding administrative and technical personnel and inadequacy of financial resources.

On a careful consideration of the implications of the various possible alternatives, we have come to the conclusion that Manipur should continue to be a Centrally-administered territory for the time being.

While we make this recommendation, it is quite clear to us that Manipur cannot maintain its separate existence for long and that the ultimate solution should be its merger in the adjoining State of Assam. It is equally clear to us that, so long as it continues as a separate administrative unit, the administrative structure of Manipur should conform to the pattern we have indicated. We wish to repeat that, if a unit such as Manipur wishes to have representative government at the state level, it must be prepared to join a larger unit. It cannot insist on a separate existence, and demand, at the same time, substantial central aid not only for its economic development but also for the maintenance of expensive representative institutions and uneconomic administrative agencies.

## TRIPURA

Tripura is a Part C State with a population of 639,020. The predominant language in this State is Bengali, which is spoken by about 59 per cent. of the population. The capital, namely, Agartala, is connected by air with Calcutta, but the State is contiguous to Assam, and while Agartala is equally well-connected by air with Gauhati and Silchar, an important road from Agartala to Churaibari in Assam is now under construction. It will be easy to extend this link and to connect Agartala with Shillong, by means of a road passing through Silchar and Jowai. We recommend that high priority should be accorded to the construction or improvement of these links.

As a small Part C State, Tripura cannot obviously stand by itself. The West Bengal Government, moreover, has not claimed this area; and its merger in Assam, in our opinion, can be supported among other reasons on the ground that it will be desirable to bring the entire border between India and Pakistan in this region under one single control, namely, that of the Assam Government.

Such a merger will also make it possible to co-ordinate development in Cachar and the contiguous area of Tripura. The Bengali-speaking population after the merger will be a little more than one-fifth of the total population of the State. It should not be difficult for the Assam Government to allay the apprehensions of the Bengali-speaking people by treating this area, which requires development, as a separate administrative division under a commissioner. The special position of Bengali in this division should be recognised for official and educational purposes.

If safeguards on these lines are provided the merger of Tripura in Assam will achieve for its people the fulfilment of their aspirations for representative Government at the state-level without prejudicing their linguistic and cultural interests. Suitable safeguards can and should also be provided for the tribal people in the proposed administrative division.

## ORISSA

The province of Orissa was created in 1936 in terms of the Government of India (Constitution of Orissa) Order, but an elaborate enquiry which covered in particular the question of its boundaries preceded this Order and was spread over a period of about thirty years, that is to say, from 1903, when the circular which dealt with the regrouping of provinces was first addressed to the provincial governments, right up to the time when the Order in Council was issued.

The question was also considered by three important committees in very considerable detail: the Phillpotts Committee reported in 1924, the Attlee Committee, which was constituted by the Simon Commission, about six years later, and by O'Donnell Committee in

1932. The reports of these committees formed the subject-matter of prolonged and detailed correspondence between the Government of India and the Secretary of State, in the course of which every important argument was considered and reconsidered from all points of view.

Orissa, in short, was carved out of the neighbouring areas, after a review of its boundaries which was more elaborate than was possible in the case of any other State. This has considerably simplified the task of the re-determination of the boundaries of the Orissa State.

The major claims made on Orissa are as follows:

- (i) the three northern districts of Mayurbhanj, Sundargarh and Keonjhar have been claimed by Bihar on the ground that the people of these areas desire to be associated with Chota Nagpur, and
- (ii) the Andhra State has claimed the whole of the Koraput district, the Parlakimedi estate and the Parlakimedi Malahs of the Ganjam district, and a portion of the Chatrapur and Berhampur talukas of Ganjam constituting a coastal belt in this district extending from the present Andhra boundary up to the Rushikulya river.

The principal claims made for or on behalf of Orissa on the other hand are:

- (i) a coastal belt and agency tracts consisting of predominantly Oriya and aboriginal areas in Srikakulam district right up to the Vamsadhara river;
- (ii) the Pulhjar and Bindra-Nawagarh ex-zamindari areas of the Raipur district, a portion of ex-zamindari areas of Chandrapur now in the Bilaspur district and a portion of the Bastar district;
- (iii) the Singhbhum district of Bihar, particularly Seraikella and Kharsawan; and
- (iv) a portion in south-west Midnapore district of West Bengal.

We have already dealt with the Bihar Government's claims on Orissa as also the Orissa claim to Singhbhum or to Seraikella and Kharsawan.

## CLAIMS ON STATE

The Andhra claim to Koraput rests on a number of arguments, the most important and relevant of which at the present time is that the trading affiliations of the district with Parvatipuram and the rest of Srikakulam district as well as with Vishakhapatnam district are fairly close. The basis of the demand for the other territories which have been claimed is mainly linguistic, Parlakimedi estate and Berhampur town in particular being claimed as outlying Telugu pockets in Orissa.

Koraput, however, is a district in which the Oriya majority is absolute; and since Kondh and Paraja in addition are spoken by a little less than one quarter of the population, there is no case for regarding it as an Andhra area. The trading affiliations of this district which have been mentioned are not also such as to justify the disturbance of the existing position. The preponderance of tribes in this district is considerable, and some of the arguments advanced by Andhra, for example, that riots or fitfuls in the tribal area can be much better dealt with by a Government which controls Vishakhapatnam, are no longer valid. There is, therefore, no case in our opinion for the transfer of Koraput to Andhra.

The Parlakimedi pocket was considered together with the Parlakimedi hill areas at the time that this portion was transferred to Orissa; and although the main ground for this transfer was that the preference of the Raja of Parlakimedi for Orissa deserved to be considered with sympathy, the transfer was also justified on linguistic grounds. The Berhampur tract was likewise established at that time to be clearly within the area of Oriya influence. There is little reason to upset these decisions now.

In the entire district of Ganjam of which these two claimed areas form part, Oriya is the predominant language and Telugu is spoken only by about 15 per cent of the people. It is quite unnecessary in these circumstances to detach an important coastal belt from the rest of the district.

While there is no case in view of what has been said so far for subtracting any territory from Orissa, there is also no case for adding any territory to it.

The Telugu majority in Srikakulam district from which portions have been claimed for Orissa is as high as 89 per cent. This majority is likewise pronounced even in the Ichapuram, Sompeta and Tekkali taluks. There is no reason for disturbing these areas or the tribal areas of the West.

In the case of the Phuljar and Bindra-Nawagarh areas of the Raipur district, the O'Donnell Committee found overwhelming public support for their retention in the present Madhya Pradesh. These areas form part of a district in which Hindi is the predominant language and even Chattisgarhi is more important than Oriya. According to the latest census, the Oriya-speaking population is not in a majority even in Mahasamund, and no other convincing reasons have been advanced in favour of the claim.

These arguments are applicable more or less with the same force also in the case of the Chandrapur claim.

We have already dealt with the claims on Bastar while dealing with the new Madhya Pradesh.

The area in south-west Midnapore which Orissa has claimed belongs culturally to West Bengal and there has been a progressive increase in Bengali influence. The Oriya population in the claimed areas is negligible at the present time. The Orissa case rests in part on the claim that the historical association of these areas with the ancient Orissa kingdoms should be respected. The argument is debatable and in accordance with the principles already set out, cannot be accepted. Moreover, the association in this case is not quite clearly established.

The area and population of the existing State of Orissa accordingly remain unaffected.

### ANDAMANS

We have considered some suggestions regarding the Andaman and Nicobar Islands. No major change in the existing arrangements regarding the administration of these Islands has, however, been proposed and, there does not appear to be any case for disturbing the status quo.

The territories other than the Andaman and Nicobar Islands, which have been or may be brought under central administration, like Pondicherry, have obviously to be administered under flexible and transitional arrangements for the present. Generally speaking, there may be an interval before they become *de jure* part of India, and the special position and needs of each area may have to be considered.

### ADMINISTRATIVE AND ALLIED MATTERS

An important question connected with the reorganisation of States is that of providing safeguards for linguistic groups which are in a minority in different states.

The Indian Constitution embodies the bulk of the rights which are generally guaranteed to minorities, within the framework of the fundamental rights of Indian citizens in general. The only provisions in the Constitution which have been particularly devised to safeguard the interests of minorities are those contained in Articles 29, 30 and 347.

### LINGUISTIC MINORITIES

During the course of our enquiry, the question of reinforcing the existing system of safeguards for minorities figured prominently. It was strongly urged before us that the safeguards for minorities embodied in the Constitution have proved inadequate and ineffective against the cultural oppression of linguistic minorities and their economic exploitation. Whatever the merits of his assertion, large sections of public opinion, favour the strengthening of the existing constitutional guarantees to linguistic minorities.

We are not in favour of setting up too elaborate a system of guarantees to the minorities which would, in our opinion, complicate rather than solve the problem.

Before we make our specific recommendations on the subject, we wish to indicate the broad principles and objectives which have governed our approach to the problem. These are :

- (i) as the problem of linguistic minorities is common to unilingual as well as polyglot areas, the measures to be adopted should be such as can be applied to linguistic as well as composite States ;
- (ii) while minorities are entitled to reasonable safeguards to protect their educational, cultural and other interests, it has to be borne in mind that such safeguards should not so operate as to perpetuate separatism or to impede the processes of natural assimilation ;
- (iii) the system of guarantees to minorities should not be such as to lead itself to misuse by parties interested in promoting a sense of disloyalty to the State ; and
- (iv) it should be clearly understood that a state in which a particular language group constitutes the majority cannot be considered to be the custodian of the interests of all people speaking that language, even when they are residents of other States.

### Instruction in Mother-Tongue

The more important aspects of the problem, however, are the rights of linguistic minorities to instruction in their mother-tongues, the use of minority languages in the administration, and the representation of the minorities in the State services. The language of instruction in educational institutions and the language of the administration are matters that touch, in practice, many vital aspects of the life of every individual. They, therefore, constitute what we regard as the core of the problem of linguistic minorities.

The Indian Constitution guarantees to the minorities the right to private schools but does not specifically recognise the right to instruction in the mother-tongues in public schools. It seems to us that linguistic minorities do not have the resources required to establish and maintain their own educational institutions particularly in rural areas. In such cases, therefore, a positive duty should be cast on the State to provide for facilities to the minorities for education in the mother-tongue at the primary school stage.

It may be recalled that the right of each language group to have education in the mother-tongue in public schools at the primary schools stage has been recognised by the Congress Working Committee in its resolutions adopted in August, 1940, and May, 1953. The right has also been recognised in principle by the State Governments as well as the Government of India. This is clear from the resolution adopted at the Provincial Education Ministers' Conference held in August, 1949, which has been approved by the Government of India, and now serves as a guide to the State Governments in making arrangements for the education of their school-going children whose mother-tongue is different from the regional language.

From the data supplied to this Commission by the State Governments it appears that most of the States are endeavouring to implement this resolution, though it is difficult to say to what extent it is being carried out both in the letter and in the spirit. The resolution is only recommendatory, we have come to the conclusion that the right of the minorities to have education in the mother-tongue at the primary stage, subject to a sufficient number of students being available, should be placed on a more stable footing than is the position at present. We, therefore, recommend that constitutional recognition should be given to this right and that the Central Government should acquire power to issue appropriate directives for the enforcement of this right on the lines of the provisions contained in Article 347 of the Constitution.

So far as secondary education is concerned, the policy of the Government of India, as embodied in the Resolution of the Central Advisory Board of Education adopted in 1949, has been that regional languages should be introduced at the secondary stage, with provision for instruction in the mother-tongue even at this stage if the number of pupils in the area is sufficient to justify establishment of separate schools, or for instruction in the same school if one-third of the pupils in the school ask for it.

We are doubtful if this deals with the problem adequately. It is, of course, clear that, so far as secondary education is concerned, it will have to be treated differently from the education at the primary stage.

We, therefore, do not recommend the extension of the principle of the constitutional recognition of the right to have instruction in mother-tongue to secondary education. At the same time, we feel that the Government of India should, in consultation with State Governments, lay down a clear policy and also take more effective steps to implement it.

### Use for Official Purposes

The next question to be considered is the use of the minority languages for official purposes. Article 347 of the Constitution, as we have already stated, empowers the President to provide for the use of a minority language also in the administration of a State. We understand that so far no order has been issued under this Article and it has been left more or less to the States concerned to regulate the use of the minority languages for administrative purposes.

From the information furnished to us it appears that the States of Uttar Pradesh, Bihar, Madhya Bharat, Madhya Pradesh, Rajasthan, Ajmer and Saurashtra have adopted legislation under Article 345, recognising the respective regional language or languages as the official language or languages in the States concerned. In other States, English continues to be the official language. Some States have recognised more than one official language. Thus, in Madhya Pradesh, both Hindi and Marathi are the official languages at all levels. The Punjab and PEPSU have demarcated two distinct zones—a Punjabi-speaking zone and a Hindi-speaking zone. In Bombay and Hyderabad, official business at district and taluk levels is conducted in the languages of these units.

In Hyderabad, PEPSU, Rajasthan, Travancore-Cochin and Madhya Bharat, the regional language or languages have been recognised for use in the High Court. In other States, English continues to be the language of the High Court.

As regards the lower courts, there is no State, with the exception of Assam, in which English is used exclusively in the lower courts. In most States, where English is used in the High Court, the subordinate courts use both English and the regional languages, the general practice being that judgments are written in English and other work is done in the regional languages.

Several States have permitted the use of the minority languages in subordinate courts. Bihar, Bombay, Andhra, Madras, Orissa, Hyderabad, Travancore-Cochin and West Bengal have allowed the use of two, or even three, languages in certain areas.

The present position, therefore, is that, while it is generally agreed that minority languages should receive due recognition in bilingual areas, a clear policy has not so far been laid down for regulating the use of the minority languages in the administration.

We are inclined to the view that a State should be treated as unilingual only where one language group constitutes about seventy per cent or more of its entire population. Where there is a substantial minority constituting thirty per cent or so of the population, the State should be recognised as 'bilingual' for administrative purposes.

The same principle might hold good at the district level; that is to say, if seventy per cent or more of the total population of a district is constituted by a group which is a minority in the State, the language of the minority group, and not the State language, should be the official language in that district.

It will also be of advantage if, in bilingual districts, municipal areas, or other smaller units such as taluks, where there are minorities constituting fifteen to twenty per cent of the population, documents which are used by the people at large, such as Government notices, electoral rolls, ration cards, etc., are printed in both the languages. It should also be permissible to file documents in the courts, etc., in the minority language. Likewise, where the candidates seeking election to any local bodies are required to have a working knowledge of a language, the knowledge of a language of such minor language groups should be given recognition.

These suggestions are for the consideration of the Government of India. What we wish to emphasise is that the Government of India should adopt, in consultation with the State Governments, a clear code to govern the use of different languages at different levels of State administrations and that effective steps should be taken to ensure that this code is followed.

#### Recruitment to Services

Recruitment to the services is a prolific source of discontent amongst linguistic minorities. The main complaint is that a number of States confine entry to their services to permanent residents of the State, 'permanent residents' being defined in varying ways. These domicile tests, it is contended, have been so devised as to exclude the minority groups from the services.

The residence required under these rules varies from three years in certain cases to fifteen years. These rules are, strictly speaking, in contravention of Article 16 (1) of the Constitution. They have apparently been allowed to continue in terms of Article 35 (b) pending a general review of the position.

This review, we understand, has now been undertaken. Legislation is likely to be promoted in Parliament in order to regulate the extent to which it would be permissible for a State to depart in future from the principle of non-discrimination as between citizen and citizen, as laid down in Article 16 (1).

We strongly recommend that the contemplated legislation should be taken up early, and that, if any departure from the principle of non-discrimination is to be authorised at all, it should be such as to cause minimum hardship.

One form which discrimination against language groups takes, it has been stated, is the tendency in certain States to make their services a preserve for the predominant language group by prescribing a high test of proficiency in the regional language or by making this language the medium in the various competitive tests.

At present, higher competitive examinations are conducted in most States in English. Some States, however, have allowed an option to offer one or more of the regional languages. In a number of States there is also a compulsory paper in the regional language. For lower examinations one of the regional languages is the medium and also a compulsory subject. Most States insist on a departmental examination of proficiency in the regional language or the local dialect for candidates whose mother-tongue is other than the regional language.

That all public servants should be conversant with the official language or languages of the State admits of no dispute. The point for consideration, however, is whether candidates belonging to one language group should have an initial advantage over those belonging to the other language groups. We feel the present practice in certain States tilts the scales in favour of the dominant language group, and consider it both practicable and desirable that, for services known as the 'State services', apart from the main language of the State, the candidates should have the option to elect, as the medium of examination, the Union language—English or Hindi—or the language of a minority constituting about fifteen to twenty per cent or more of the population of the State. A test of proficiency in the State language should be held, in that event, after selection and before the end of the period of probation. In the case of subordinate services, however, the State language could continue to be the medium of examination.

It is desirable, to constitute State Public Service Commissions in such a manner as to ensure that these bodies are not affected by particularist trends. This objective can be achieved to some extent by constituting, so far as possible, one Public Service Commission for more than one State. Under the Constitution, appointments to Public Service Commissions serving more than one State are made by the President. We recommend that this principle be extended even to Public Service Commissions serving only single States. This arrangement, we are sure, will give these bodies a higher stature and more independence.

#### Agency for Enforcing Safeguards

We now come to the question of devising a suitable agency to enforce the rights of the linguistic minorities.

One suggestion that has been made to us is the creation of a Central Ministry for Minority Affairs. Since the Centre's responsibility, under the scheme we have in view, will be confined to the enforcement of safeguards in the educational field and to making arrangements for the use of the minority languages in the administration, a separate Central Ministry will not be justified.

Another proposal which has been put forward in certain memoranda received by us is that a Statutory Commission for Minority Affairs should be appointed. This Commission, it has been suggested, should be a non-political quasi-judicial, advisory body. The most important argument in favour of such an arrangement would be that it would instil confidence into the minorities. On the other hand, it will have a serious disadvantage in that the existence of a tribunal before which State Governments could be impugned might lead to vexatious claims and counter-claims and might encourage the minorities to look constantly beyond the borders of the State for the redress of their grievances, real or imaginary.

There are, however, clear advantages in utilising the services of the Governor for supervising the implementation of the policies of the Central Government in regard to linguistic minorities. With his detached outlook and knowledge of the requirements of administration, the Governor would be better suited for this task than a judicial or quasi-judicial Commission. The arrangement would also not involve extra expenditure.

There is no reason, however, why the Governor should not function as an agent of the Central Government in regard to a matter which is of national concern.

However, with a view to minimising the possibility of any conflict it may be provided that, when the Governor finds the State Government acting in disregard of the Central Government's policies, he should, in the first instance, advise the State Government to take the measures necessary for the implementation of such policies; if the State Government disagreed with him, he should have the right to refer the matter to the Central Government, along with his advice and the views of the State Government. The decision of the Central Government should be issued as a directive from the President.

The arrangement which we have suggested will involve no constitutional amendment.

#### INTEGRATION OF SERVICES

Earlier we made a brief reference to the unsettling effects of the reorganisation of States. Here we proceed to examine the administrative implications of reorganisation and to suggest certain measures which may have to be taken in order to curtail the period of transition.

The most urgent problems, perhaps, which the reorganised States will have to tackle will be those connected with the integration of the personnel drawn from various areas and the rationalisation of the administrative structure. We have deemed it necessary to deal with this matter at some length, because the reorganisation of the States is likely to be undertaken at a time when the burden thrown on the administrative services will be very great.

For some time to come the responsibilities of governments and the services in the disputed areas may, therefore, be particularly heavy. The general elections are also due to be held shortly; and the second five-year plan may be well under way by the time the proposed reorganisation takes effect. The cumulative strain which all this will impose on the administrative services may be expected to be so considerable that the greatest importance must be attached to the maintenance of the morale of the services.

In recent years problems more or less similar to those with which the new administrations will be faced have had to be handled in connection with the integration of the princely states and also in connection with the formation of Andhra. This process has had to be spread over very nearly six or seven years, and even now in some cases it has not been completed. The lack of any clear criteria for the gradation of the service personnel inherited from the integrated States, the free exercise of the rights of appeal against decisions taken by competent authority, and the failure on the part of the State Governments either to finalise the decisions taken or to accord to the problem the priority which it deserved seem to explain this delay. The uncertainty which prevailed in the initial years after the formation of the Part B and Part C States has been such as to affect service morale and to impair efficiency.

The reconstitution of the sanctioned State cadres will have to be taken in hand as soon as the new units are set up. This should not involve any difficulty except in so far as common services or posts which cannot be clearly related to any particular area are concerned.

Against the posts thus determined, the allotment of personnel may be made primarily on the basis of the option of the employees. This option should be respected as far as possible, but it must be consistent with the public interest which will require a division which on the one hand will be satisfactory to the services as a whole and on the other hand will be fair to the new States themselves.

The integration of services which will follow the determination of the cadres and the allotment of personnel should be based on definite principles which should, as far as possible, be of uniform application throughout India.

Some of the principles which seem *prima facie* to be suitable are that seniority among the officers in the State of origin *inter se* should not be disturbed, and that the existing series of pay and conditions of service should not be varied to the disadvantage of those who are now in employment, and should be continued until such time as uniform pay scales, not less advantageous than those enjoyed by them in the parent State, are evolved.

It is also of the greatest importance that the body constituted to integrate the service personnel of the different States should be such as to inspire confidence and that only one appeal from a decision regarding integration should be permitted. The procedure which was adopted in the case of Andhra was to constitute two committees composed of the members of the services themselves representing the separating areas of composite Madras, and these committees did most of the work in the first instance. *Prima facie*, this procedure seems to be suitable.

The Government of India are directly concerned with the re-allocation to the prospective States of the personnel of the All India services and normally the Governments of the new States should be responsible for the division and reconstitution of the rest of the services.

We wish, however, to draw the attention of the Governments concerned to one important aspect of the problem with which they will be called upon to deal. An eminent public man has recently drawn our attention to the fact that the existing smaller units which may be integrated with the larger States should not be treated as annexed territories and that Government servants belonging to these smaller units should be treated fairly and even generously. We realise the importance of this question and hope that the reorganisation of the administrative machinery in the States will be effected in such a manner that no section or group may be left with a sense of grievance.

### FINANCE COMMISSION

In terms of Article 280 of the Constitution the second Finance Commission is now due to be appointed. Assuming that the recommendations of the second Finance Commission take effect from 1st April 1957, an announcement regarding the setting up of this Commission cannot perhaps be delayed for any length of time. It will be an obvious advantage if decisions on the reorganisation proposals are taken before the Commission commences its enquiry. Otherwise another such body may have to go into the question of the financial needs of the newly-created units.

The existing States are expected to be prepared to take up and implement from 1st April 1956, the second five year plan which is likely to be finalised by that date. If decisions regarding reorganisation are taken and implemented without avoidable delay, the difficulties arising out of reorganisation would be faced and overcome in the early years of the next plan period.

It would be necessary to provide for some help to the newly-constituted units during the period of transition. It has been the normal practice for the Government of India in the past, whenever new States have been created or when accommodation is needed for any other reason, to grant ways and means advances to the States which may require them. We presume that such assistance will be available also in the initial years after reorganisation.

If it has been suggested that revenue gap grants-in-aid to the new units, as in the case of the existing Part C States, may likewise be paid in the initial years, and that the Centre should assume, in effect, the residual responsibility for supporting the revenue budgets of the States until such time as other arrangements can be made. It is doubtful, however, whether it will be possible or desirable for the Centre to undertake a blanket commitment in preference to more normal and orthodox arrangements.

Pending a comprehensive review, we would suggest that grants in aid on revenue or capital accounts as well as long term loans should be available to the new States as nearly as may be on the existing basis. The Government of India might redress the existing statutory and development grants and long term loans (including amounts promised but not disbursed to the States) with reference to

- (i) the principles, if any, on which the grants have been recommended or sanctioned, or
- (ii) failing any definite principle, the population of the reorganised units as compared to the existing States, and
- (iii) the purposes for which long term loans have been granted.

This modification of the existing pattern of grants and loans to meet the needs of the new situation may be revised in the light of the recommendations of the next Finance Commission. However, the need for such action immediately after or even in advance of the reconstitution of the new States is clear.

It is also necessary here to refer to one minor complication. According to Article 278 of the Constitution revenue gap grants in aid are paid to three of the existing Part B States. In the set up contemplated after reorganisation some are now included in these Part B States will be integrated with other States. It would be fair to regard the payments under Article 278 as outright grants and to apportion them population wise among the new States until such time as the position is reviewed by the Finance Commission.

In the case of the Part C States the acceptance of our recommendations will necessitate an amendment of Article 264 (b) of the Constitution. The legislation or rules under the authority of which a prescribed percentage of the divisible pools of income tax and central excise attributable to the Part C States and retained with the Centre may be distributed among the new units where necessary in the ratio of the population.

### DIVISION OF ASSETS AND LIABILITIES

As soon as the budgetary position and prospects of the new units have been clarified arrangements for the division of the assets and liabilities will have to be taken in hand.

Generally speaking a fair basis of division will be that where the assets exceed the liabilities—

- (i) the movable assets of a State which is being divided should be distributed by agreement as equitably as possible the most satisfactory basis being the ratio of the population,
- (ii) each area which is being separated should take over the liabilities corresponding to the book values of the immovable assets which are located in the area and the movable assets which are claimed,

and where the liabilities exceed the assets—

- (i) the movable assets should be distributed as equitably as possible and
- (ii) each area which is being separated from a composite State should take over liabilities corresponding to the book values of the immovable assets which are located in that area and such movable assets as it is entitled to claim, and
- (iii) the balance of the liabilities should be divided as equitably as possible, the most satisfactory basis being the population ratio.

The Government of India will no doubt be able to formulate general principles on these or other lines.

On one point, it may be necessary to make an exception to the general rule and to consider some special arrangements. In the case of the

present Part C States, the accounts of which were merged into those of the Centre, the scheme of reorganisation which is contemplated will necessitate a complete separation of their balances from those of the Centre. It will be convenient if the financial settlements in the case of Part C States are not elaborate but are based on a broad review of the position as it exists today and the needs of these areas.

Normally, it takes a number of years for a complete and satisfactory division to be effected. We would suggest the creation, if possible of some special machinery for expediting the final settlements.

### INTER-STATE AGREEMENTS

We have stressed elsewhere the need for adequate arrangements being made for ensuring the orderly progress of the major irrigation and power projects which have already been taken up before or under the first five year plan. A number of inter State agreements regarding the allocation of water rights have been concluded or finalised recently. On the reorganisation of States some of these agreements may require to be changed. Provision for such adaptation may have to be made in the legislation to be enacted under Articles 3 and 4 either by specifying the rights and obligations of the prospective States or by empowering the Central Government to make the necessary adaptation in consultation with the State Governments concerned.

The general scheme of the River Boards Bill, which was introduced in Parliament in May 1955 is that Advisory River Boards charged with the formulation of plans for the development of inter State rivers or river valleys will be set up under the aegis of the Centre (finance will be provided by the Government of India).

The Water Disputes Bill 1955, also introduced in Parliament in May 1955, contemplates that on a request from a State Government, the Centre will constitute an *ad hoc* water disputes tribunal in each case involving a water dispute. We should recommend that the contemplated legislation should be passed and brought into force as early as possible.

### REGIONAL GRIEVANCES

Reference has been made elsewhere in this report to the grievances of particular areas on the ground of arrested economic development.

The feeling that some areas have been or will be neglected has to be taken into consideration as an existing fact.

Some attempts have been made in the past, mainly as a result of non official efforts to provide adequate assurances of non discrimination and equal treatment along these lines. The Brihadratha Pact of 1937 in the case of Andhra and the Akola Pact of 1947 and the Nagpur Pact of 1953 in the case of Maharashtra may be cited as examples. These pacts represent an attempt to spread as equitably as possible the benefits and advantages which may be derived from the location of important offices or institutions of the State Government and from the expenditure of the State Government in general.

The only special arrangement for areas which are now economically underdeveloped which seems to us to be suitable is that development boards may be constituted in these areas wherever conditions justify such an expedient in order that the needs of these areas may be properly studied and schemes adequate to meet them formulated. Advisory planning bodies we understand, have been constituted in most States. Our suggestion in effect only extends this principle.

We have already referred to the possibility of a provision being made in the Constitution authorising the Centre to exercise supervisory powers in relation to the development of certain economically underdeveloped areas during a period say of ten years. These areas will, we think, be reassured if supervisory authority for a short period is thus retained by the Government of India.

We also consider it necessary that a permanent body consisting of persons, who would inspire public confidence, should be appointed for the purpose of looking into the economic grievances of different areas. The proposed body should serve a two-fold purpose. It should help on the one hand to remove wrong impressions, and on the other to redress the legitimate grievances of the various areas. It will be an advantage if this body includes some members of the Planning Commission and reports its findings to the National Development Council.

### INDUSTRIAL LOCATION PLAN

Another important question is the equitable distribution of Central Government expenditure. Responsibility in respect of many development schemes has now passed to the Central Government, and the country is on the eve of rapid industrialisation. In these circumstances, the consideration of an industrial location plan may be of value at this stage, as it will ensure that Central Government expenditure is, as far as possible, spread uniformly all over the country.

This question of the location of industries has already been agitated by some States in connection with the proposed establishment of the steel and fertiliser factories which are being planned by the Government of India.

We would recommend, however, that the entire question should be examined, so that the reorganised units might be assured or reassured that subject to the availability of natural resources and the requirements of the different industries, there would be an equitable distribution of Central Government expenditure, particularly of that part of the expenditure which will be incurred on the industrial plan.

### DISRUPTIVE TENDENCIES

The problem of reorganisation of States has aroused such passions and the claims which have been made are so many and so conflicting that we should like to emphasise two basic facts. Firstly, the States, whether they are reorganised or not, are and will continue to be integral parts of a Union which is far and away the more real political entity and the basis of our nationhood. Secondly, the Constitution of India recognises only one citizenship, a common citizenship for the entire Indian people, with equal rights and opportunities throughout the Union.

It may seem that we have merely stated what should be obvious to all. It is, however, patent that, if the implications of these important facts had been fully appreciated and generally accepted, the question of territorial redistribution would not have developed into a major national problem of disquieting proportions. It has been most distressing to us to witness, during the course of our enquiry, a kind of border warfare in certain areas in which old comrades-in-arms in the battle for freedom have been pitted against one another in acrimonious controversy, showing little appreciation of the fact that, the States are but the limbs of the same body politic and that territorial readjustments between them should not assume the form of disputes between alien powers. Deliberate efforts to whip up popular frenzy by an appeal to parochial and communal sentiment; threats of large-scale migration; assertions such as that, if a certain language group is not allowed to have an administrative unit of its own, its moral, material and even physical extinction would follow as an inevitable consequence; and finally incidents such as those in Gwalpara, Parlakimedi, Ladhiana and Amritsar; all point to an acute lack of perspective and balance.

It would be unwise not to take note of these disruptive trends. One view, which is strongly held by certain sections of public opinion, is that only a unitary form of Government and division of the country into purely administrative units can provide the corrective to the separatist tendencies. We feel, however, that in the existing circumstances this approach would be somewhat unrealistic.

Unfortunately, the manner in which certain administrations have conducted their affairs has itself partly contributed to the growth of this parochial sentiment. We have referred earlier to the domicile rules which are in force in certain States, governing eligibility to State services. When such devices as domicile rules operate to make the public services an exclusive preserve of the majority language group of the State, this is bound to cause discontent among the other groups, apart from impeding the free flow of talent and impairing administrative efficiency.

We were greatly concerned to observe that in one State for instance, domicile rules were applied not only to determine eligibility for appointment to the public services but also to regulate the awards of contracts and rights in respect of fisheries, ferries, toll-bridges, forests and excise shops. The conditions to be satisfied for acquiring a domicile in this State are also generally, such as to deserve some notice. These conditions are: (a) ownership of a homestead in the State; (b) residence in such a homestead for ten years; (c) a clear intention to live in the State till death; and (d) renunciation of the old domicile, which is to be established by such circumstantial evidence as whether the applicant has landed property or other interests in his native place, or whether he pays frequent visits to that place.

Such stipulations, in our opinion, are not only inconsistent with Articles 15, 16 and 19 of the Constitution but go against the very conception of an Indian citizenship.

We have already recommended that the domicile rules in force in certain States should be replaced by appropriate Parliamentary legislation as contemplated in Article 35 (a) (1) of the Constitution.

It has, however, been alleged before us that certain State Governments have imposed restrictions, in practice though not in theory, on the acquisition of property by outsiders. It is obvious that, if such administrative malpractices exist, they should be immediately discarded.

### ALL-INDIA SERVICES

There are certain other measures which, if adopted will, we hope, help in correcting parochialist trends and also in securing greater inter-State co-ordination for the efficient implementation of all-India policies.

Our first proposal is that, as far as possible, about fifty per cent of the new entrants in any cadre of an existing All-India Service should be from outside the State concerned. We understand that several State Governments have already accepted the proposition that one entrant every year in the Indian Administrative Service should be taken from outside the State. We are given to understand that this amounts approximately to only one-third of the total annual allotment of personnel to the Indian Administrative Service.

Besides, the principle, in the form in which it has been accepted, does not take into account the fact that twenty-five per cent of the vacancies in the Indian Administrative Service are filled by promotion.

We would, therefore, recommend that, in order that the fifty per cent target might be achieved, the computation should be made after deducting the number of posts in any State to be filled by promotion; and these principles should apply to all the All-India Services. It would also be necessary to ensure that the proportion of members of the All-India Services recruited from outside the State is not reduced in practice by such devices as the deputation of officers to the Centre.

We also consider that, apart from the Indian Administrative Service and the Indian Police Service some more All-India Services should now be constituted. The question of reconstituting all-India cadres for certain technical departments and particularly the suggestion that the Indian Service of Engineers should be revived, has, we understand, been under the consideration of the Union Ministries concerned for some time. The Central and State Govern-

ments have to work in very close co-operation in executing important development projects, which necessitates that technical personnel should be recruited and trained on a common basis and that they should have uniform standards of efficiency and the feeling of belonging to common and important cadres.

We recommend, therefore, that the following Services, namely, the Indian Service of Engineers, the Indian Forest Service, and the Indian Medical and Health Service should now be constituted.

The *raison d'être* of creating All-India Services, individually or in groups, is that officers, on whom the brunt of the responsibility for administration will inevitably fall, may develop a wide and all-India outlook. This advantage will become illusory, however, if members of the All-India Services remain too long either in the service of any particular department or on deputation to the Central Government. In so far as the present All-India Services are concerned, the Centre is already aware of the problem, and transfers to and from the States are intended to be arranged regularly. In the set-up which we recommend, regular transfers to and from the Centre will be even more important.

Another point which we would emphasise is that the training of probationers to the All-India and Central Services should be such that they should have a good introduction to the essentials of Indian geography, history, religions, customs and manners. What is desired is that the probationers, when they complete their training should have an all-India outlook and should cease to consider themselves as Andhras, Tamilians, Marathas or Bengalis.

We understand that it has been recently agreed that a detailed knowledge of the Five-Year Plan should form part of the curriculum of studies for the new entrants to the Indian Administrative Service. We suggest that in addition, basic and essential knowledge of Indian history, geography, religions, customs and manners be included in the curriculum of studies for new entrants to the All-India and Central Services.

### PROBLEM OF LANGUAGE

The present emphasis on regional languages in the Universities will inevitably lead to the growth of a parochial attitude, which can only be corrected by a system of training which emphasises the all-India point of view.

The progressive adoption of Hindi for the official purposes of the Union will no doubt, be an important factor towards national unity. But it is of very considerable importance that languages other than Hindi should also figure much more prominently in the training programme of the All-India and Central Services than is now the case. In a recent statement of the policy of the Government of India, regarding the medium in which competitive examination for the All-India Services are to be conducted in future, there is a reference to a proposal that candidates from the Hindi-speaking areas should be asked to pass a qualifying examination in one Indian language other than Hindi. We only wish to suggest that the principle might be extended to the Central Services also and to add that the arrangements proposed are essential in order to ensure the transfer of service personnel from one State to another. The Indian language other than Hindi should preferably be a South Indian language.

We would also recommend that at least one-third of the number of Judges in a High Court should consist of persons who are recruited from outside that State. In making appointments to a High Court bench, professional standing and ability must obviously be the over-riding considerations. But the suggestion we have made will extend the field of choice and will have the advantage of regulating the staffing of the higher judiciary as far as possible on the same principles as in the case of the Civil Service.

As we have already observed, the progressive adoption of Hindi for the official purposes of the Union should operate as a unifying factor.

A common national language, however, to be a really integrating force should have a wider range. English, though a foreign language, has helped to bring the people of different regions in India closer to each other firstly because it has been the official language both at the central and at the provincial levels, and secondly because it has been the medium of instruction for higher education throughout the country. It has, therefore, provided a common vehicle for higher thought as well as for administrative activity and has helped to maintain common standards at the higher educational institutions.

Hindi is to replace English to a limited extent. At the national level Hindi will replace English, but in the States it is to be succeeded to a large extent by the regional languages.

The Official Language Commission, recently appointed by the Government of India, will, no doubt, consider fully the manner in which the constitutional provision about the adoption of Hindi as the official language is to be enforced.

It is, however, quite obvious that replacement of English by Hindi should be so phased that there may be no vacuum from the point of view of social and political intercourse between different parts of the country and that standards of higher education in the country do not suffer.

A wide field of choice for higher education and migration from universities and other institutions for higher education has been possible in this country, not only because English has so far been the medium of instruction in these institutions, but also because the standards of teaching and research have been, generally speaking, comparable. Some of these institutions are contemplating the adoption of the regional languages as the media of instruction. If English in any of these institutions is replaced prematurely, and if facilities are not provided for acquiring necessary proficiency in that language in the interests of higher research, standards of higher education are bound to suffer.

It has to be remembered that English is an important international language and that a knowledge of it makes available to Indian students the results of advanced studies and higher research in other progressive countries. Suitable measures will, therefore, have to be adopted to encourage the study of English and other foreign languages at our important educational institutions, even after the adoption of the regional languages as the media of instruction.

We fully realise the importance of the study of Hindi and the regional languages, but we feel that for the present the use of English in higher technical studies does not come into conflict with the growth of these languages.

#### REGIONALISM

From the point of view of national unity, it is also of great importance that there should be closer understanding between the north and the south. All institutions and establishments which help to bring about such an understanding should receive particular encouragement from the Government of India.

The Osmania University in Hyderabad is one of such institutions. We suggest that this University may be placed under the Central Government. The medium of instruction at this University should be Hindi; and if standards of instruction at this institution are maintained at a high level, this would attract students from the adjoining areas and be of advantage to the South.

We also consider it necessary that another central university should be established further south with emphasis on Hindi and that in the principal North Indian universities there should be facilities for the study of South Indian languages and cultures.

India is now on the eve of vast economic and social changes.

One of the important developments in recent times has, for example, been the country's conversion to the ideal of social, political and economic equality.

Age-old conceptions regarding personal laws, including in particular the law of succession to property in Hindu society which used to be regarded as unalterable, are now in the process

of being changed, to suit the needs and requirements of a modern and developing society. Internal migration on a scale which renders unrealistic any attempt to regard the linguistic situation in any area as static is another major factor which has now to be taken into account. Economic opportunity and the rapid development of communications have contributed, in recent years, to this general increase in mobility within the Indian Union. With the vast increase in industrialisation that is now being planned under the auspices of the Centre it is also inevitable that migration within the country will increase even further. More and more cities or pockets, which are Indian rather than provincial in character, are, in consequence, bound to come into existence all over the country.

We wish to emphasise that considered in its proper perspective, the reorganisation of the States can only be regarded as providing the necessary adjustments to remove tensions and to enable the Union to function more effectively.

It is the Union of India that is the basis of our nationality. It is in that Union that our hopes for the future are centred. The States are but the limbs of the Union, and while we recognise that the limbs must be healthy and strong and any element of weakness in them should be eradicated, it is the strength and the stability of the Union and its capacity to develop and evolve that should be the governing consideration of all changes in the country.

Regionalism has a legitimate place in a country as large as India, but unless its limitations are recognised, and the supremacy of the Union not merely in the political but also in the economic thinking of the country is fully accepted, it will be a source of weakness to us as a nation. If this is generally realised, we have no doubt that the issues arising out of the reorganisation of the States will not be allowed to assume the proportions of major political controversies.

#### DISSENTING NOTES

##### HIMACHAL PRADESH\*

In my (Mr. Fazl Ali) judgment, this State should continue as a separate unit and should be under the direct control of the Central Government.

The opinion which I have expressed is not very different from the opinion which appears to have been formed by the States Ministry of the Government of India shortly after the State of Himachal Pradesh came into existence as "any merger with the Punjab was bound to be locally unpopular."

I am convinced that there is a great deal of uneasiness among the people of Himachal Pradesh over the question of its being merged in the Punjab. It appears that early in 1950 there was a proposal that the jurisdiction of the East Punjab High Court should be extended to Himachal, but no action was taken in regard to this suggestion because it seems to have been recognised that "the sentiment of the hill people was opposed to the extension of the authority of any of the administrative organs of the East Punjab to Himachal." That the attitude of the people has not changed since, is apparent from the fact that with the exception of two small groups, all the political parties—the Congress, the Praja Socialists and the Communists—as also the great majority of the persons who appeared before the Commission have strongly opposed the merger proposal.

What seems to account for the great anxiety of the people of Himachal Pradesh not to be associated with the Punjab is their deep-seated distrust of the men of the plains. It is just possible that this feeling of distrust is to some extent a legacy of the pre-Independence princely regime which employed a large number of retired officers from the Punjab who, for some reason or other, were not able to win the confidence of the local people. It may also be partly due to advantage being taken, in the past, of the ignorance and poverty of the people of Himachal Pradesh by persons from outside the State.

The extremely backward and exploited people of this State have, since their emancipation from feudal regime, gained a keen awareness of their new status and opportunity. It is highly im-

portant that no step is taken which may damp their new-found enthusiasm and eagerness to progress and to catch up with the more advanced sections of the Indian population. From this point of view, placing them in a position of subordination—which merger will amount to at this stage—would, in my opinion, instead of contributing to their progress, greatly retard it.

It seems to me that in the interests of the Punjab itself it is desirable that the two areas should be kept separate. A somewhat disturbing feature of the political life of the Punjab today is the existence of certain differences among its three well marked regions. To bring another region with a distinctiveness, individuality and problems of its own into the picture will only complicate matters and add considerably to the difficulties of the Government of the Punjab. Punjab will have to face a new minority problem, as the people of Himachal Pradesh feel that they have not much in common with the people of the Punjab.

A weighty argument in favour of merger is that there will be saving on expenditure by providing for a common legislature, a common High Court, a common Head of the State and a common administrative set-up. But administrative economy by itself will be of little value if sufficient attention is not paid to the much more important consideration of administrative convenience and efficiency. The system of judicial administration now in force in Himachal Pradesh, under which the Judicial Commissioner visits every district, seems to me admirably to suit the requirements of her people who need cheap and expeditious justice. The expensive and time-consuming formalities involved in taking the appeals to the Punjab High Court, which is not so easily accessible, will rob the billineer of the advantage which they enjoy today. Nor will a common head of the State serve the purpose adequately, because what is needed in the hills is the intimate and personal touch of the head of the State with the common man. Having regard to these disadvantages consequent on merger, the saving that will be effected will not be of much significance. The extra cost that a separate administration under the Central Government might entail will be amply compensated by the advantages of a sympathetic and intensive administration.

I am also greatly impressed by an important argument presented in one of the memoranda submitted to us, which is quoted below :

"The Punjab has two very great problems to solve (1) the communal problem and (2) the law and order problem. The deteriorating relations between the Hindus and Sikhs in the Punjab have caused concern not only to the Punjab Government but also to the Government of India. . . . The disease runs very gravely (even) in the services. . . . Himachal Pradesh, fortunately, is spared all this malady; for it is a State predominantly of the Hindus and no communal problem whatsoever exists here."

"Even the language problem which has baffled the administrators in Punjab is non-existent in Himachal Pradesh. People speak Pahari, the more educated being influenced by chaste Hindi. Hindi alone is taught in schools and other institutions."

The advocates of the amalgamation of Himachal Pradesh with the Punjab lay some emphasis on the economic links between the two areas, and they particularly refer to the advantages to be derived from the orderly implementation of the Bhakra project. I am, however, unable to see how this fact by itself should lead inevitably to the inference that the two areas must be integrated.

With the Centre controlling and administering Himachal Pradesh, I do not visualise any difficulty whatsoever in the way of the orderly implementation of plans regarded vital for the development of the plains. On the other hand, I should think that a Central administration in Himachal would, instead of interfering with, help the task of preserving the catchment area of the Sutlej and the Beas and of undertaking the necessary soil conservation measures.

\* Mr. Fazl Ali's note.

The amalgamation of the two States may understandably be advantageous to the Punjab in certain respects; but it is somewhat doubtful whether Himachal Pradesh would be substantially benefited by it or, at any rate, the benefit which will accrue will be such as to outweigh the undesirable consequences of a forced amalgamation.

As for the argument that the Punjab needs the transfer of some area of Himachal Pradesh in connection with the Bhakra project, I would leave the matter to the Central Government which might take a decision after fully considering the report of the Hejmadi Committee and the feelings of the local people.

One of the arguments against small units is that for manning their services they do not usually attract or retain talent, since they have few opportunities and rewards to offer. There is also a tendency in such small units for the Government to undertake detailed and direct administration, and thereby deprive the services of their initiative, drive and sense of responsibility. These considerations will not have much force in the case of Himachal Pradesh. As a centrally-administered unit, its administrative personnel would be drawn from the All-India Services who will not have to work under the suggested handicaps and can be expected to place national interests above parochial interests and bring to bear on their administrative work the perspective and breadth of outlook so necessary for a successful administration.

Himachal Pradesh is a backward area on the development of which considerable outlay is obviously called for, at least for some time. It is extremely doubtful if the Punjab can shoulder the burden and develop the area in as rapid a manner as would seem desirable in this strategic northern border State. In any case, it being admitted on all hands that the Centre would have to spend large sums of money on the development of the area for some time to come, even if it were merged in the Punjab, I do not see why in these circumstances the area should not be under the direct control of the Centre.

We have a special responsibility in keeping the people of the border areas like Chini and Pangl and also those of the rest of the Himachal Pradesh contented and happy and in guarding against any feeling being created in them that they are not so well looked after as the people across the border. With this special responsibility and with the imperative need for guarding the frontier exposed to infiltration, the national interests will, in my opinion, be best served by the Centre directly controlling the area.

Himachal Pradesh is a typical instance where the arguments in favour of small units can be applied with advantage. As a separate unit, it may be able to provide an intensive programme of social welfare measures which would not be possible if it is merged in the Punjab. In so far as the need for such a programme is pressing in this backward area, the case of Himachal Pradesh for separate existence need hardly be emphasized.

In a previous paragraph it has been recommended that wherever vital, strategic and other considerations are involved, the areas have to be administered by the Centre. I believe that Himachal Pradesh is one of such areas and, therefore, I would strongly recommend its being treated as a centrally-administered territory.

#### UTTAR PRADESH\*

The position of Uttar Pradesh in the Union of India is something which no one interested in the reorganisation of the States of India can legitimately overlook. It contains over 63 million people or over one-sixth of the population of India. It is divided into 51 districts, and the average population in each district is over 1.2 millions. An army of officials (nearly 260,000) is required to administer it.

The uniqueness of this position will become apparent when it is remembered that the next largest State in India, Bihar, has only a population of 40 millions (or less than two-thirds of Uttar Pradesh), while most of the other States

have less than 30 millions. The imbalance created by the existence of a State of this size in a federation seems to me to be fairly obvious.

I consider it essential for the successful working of a federation that the units should be fairly evenly balanced. Too great a disparity is likely to create not only suspicion and resentment but generate forces likely to undermine the federal structure itself and thereby be a danger to the unity of the country.

In most federal constitutions, though wide variations exist in respect of the population and resources of the unit, care is taken to limit the influence and authority of the larger States. Thus in the United States of America, for example, though the States are of varying population and resources and the State of New York has many times the population, say of Nevada, the constitution provides for equal representation of every State in the Senate. In the Bismarckian Reich again, though Prussia had a dominant position from the point of view of population, she was given less representation in the Reichsrat than she was entitled to (less than one-third) and the permanent presidency of that body was vested in Bavaria, clearly demonstrating that even here it was considered necessary to give weightage to the smaller units and also to reduce Prussia to the position of a minority in the Reichsrat.

Unfortunately, the Indian Constitution contains no such provision to diminish the disparity or to counteract the dominant influence of one unit, let alone to secure the equality of the States. In both Houses of Parliament representation is broadly speaking, on the basis of population. Thus in the Lok Sabha, Uttar Pradesh has 86 members (out of 499) and in the Rajya Sabha it has 31 (out of 216).

If one were realistic and took into consideration the manner in which Governments functioned all over the world, it would be easy to see that this preponderant influence which would accrue to a very large unit could be abused, and would in any case be resented by all the other constituent units. Modern Governments are controlled, to a greater or lesser extent, by party machines, within which the voting power of a numerically strong group goes a very long way. It is also undeniable that there is a natural tendency for the representatives of a State to form or to be brought together into such a powerful political bloc. The real issue, therefore, is whether it is desirable to place any unit in a position to exercise an unduly large measure of political influence.

#### Recentment

The consequence of the present imbalance, caused by the denial of the federal principle of equality of units, has been to create feelings of distrust and resentment in all the States outside Uttar Pradesh. Not only in the southern States but also in the Punjab, Bengal and elsewhere the view was generally expressed before the Commission that the present structure of Government led to the dominance of Uttar Pradesh in All-India matters. The existence of this feeling will hardly be denied by anyone. That it will be a danger to our unity, if such feelings are allowed to exist and remedies are not sought and found now, will also not be denied. Since the normal constitutional device for equalising grave disparities between the units in a federation, that is the provision of equal or at least heavily weighted representation in the house representing the federal principle, is not now possible in our case, and even if it were possible, would not now be a satisfactory solution, in view of the dominant position of the House of the People, the only remedy open to us is to reconstitute the overgrown state in such a manner as to lessen the differences—in short to partition the state. This seems to me an obvious proposition.

One of the commonest objections, advanced before us by leaders in Uttar Pradesh was that the existence of a large, powerful and well-organised state in the Gangetic Valley was a guarantee for India's unity; that such a state would be able to correct the disruptive tendencies of other states, and to ensure the ordered progress of India. The same idea has been put to us in many other forms such as that Uttar Pradesh is the "back-bone of India", the centre from

which all other states derive their ideas and their culture, etc. It is not necessary to examine these claims seriously for nothing is more certain to undermine our growing sense of unity than this claim of suzerainty or paramountcy by one state over others.

A second argument is that the Uttar Pradesh is a homogeneous and integrated state and that to partition it would be to ruin its economy and to create discontent. In this connection the agitation that followed the partition of Bengal has been pointed out to us as a warning. The process of administrative unification of this area started only in 1775 when Asaf-ud-daula made over to the English East India Company some territory in the south-eastern portion of the State as it is constituted today. The doab between the Ganga and the Yamuna was acquired by the British from Sadat Ali, Nawab of Oudh, only in 1801, and Kumaon and Garhwal were annexed in 1816 after the Anglo-Gurkha war. The territory north of the Yamuna was ceded by the Marathas between 1803 and 1805, after the Second Maratha War. Oudh, of course, was annexed very late by Lord Dalhousie in 1856. For all practical purposes, therefore, the existing State of Uttar Pradesh has had a continuous history of less than a hundred years. The argument that it is a well-knit area which cannot be broken up without undesirable consequences is not, in these circumstances, impressive.

On the other hand, there is plenty of evidence that nothing has happened during these hundred years to alter the basic fact that this area has but little unity. There is or can be very little in common between the still nomadic inhabitants of the Garhwal and Kumaon Himalayas or of the hilly area of Bundelkhand on the one hand and the inhabitants of the fertile Gangetic Valley on the other. Even within the plains, the Khadar and Bhangar (dry) areas in the Meerut division are quite different from the fertile valley of the Ganga which has been further enriched by the Ganga Canal. Not unnaturally, the problems of these areas also differ; and an administration which has so large a population to look after is not necessarily in the best position to attend to the particular regional problems of these areas.

The example of Bengal quoted as a warning does not bear examination. Bengal was a historic unity, and besides, its partition was frankly for the purpose of creating a Muslim majority unit in East Bengal. The partition of Bengal was thus not merely an injustice to the Bengali people but an attempt to favour one community at the expense of another. The present proposal is based on purely political and administrative grounds and does not cause injustice to any one.

#### Administrative Efficiency

Thirdly, it has been contended that the size of the Uttar Pradesh contributes to economy in administration. In its memorandum submitted to this Commission, the Uttar Pradesh Government has stated that the percentage of expenditure on civil administration in Uttar Pradesh is lower than in many other Part A States; and from this, the conclusion has been drawn that the existing State of Uttar Pradesh is in a position to save considerably on overheads. I find it somewhat difficult to accept this argument. There are several States in India where the percentage of expenditure on administrative services is less than in the Uttar Pradesh, as the following figures from Appendix IX of the Report of the Finance Commission, 1952, will indicate:

STATES	1950-51	1951-52	1952-53
Assam .. ..	19.6	20.4	16.7
Bihar .. ..	30.0	28.4	25.4
Bombay .. ..	25.7	26.6	24.2
Madhya Pradesh ..	28.9	27.7	23.1
Madras .. ..	27.6	27.9	25.6
Orissa .. ..	24.6	27.9	26.3
Punjab .. ..	31.2	30.6	29.9
Uttar Pradesh ..	28.4	27.0	24.6
West Bengal .. ..	25.3	27.7	25.5
Hyderabad .. ..	26.1	26.0	20.0
Madhya Bharat ..	24.1	26.6	23.1
Mysore .. ..	12.9	15.0	13.1
PEPSU .. ..	28.6	32.3	28.0
Rajasthan .. ..	29.6	29.8	28.5
Saurashtra .. ..	34.6	31.4	31.0
Travancore-Cochin	12.0	12.3	11.4

\* Mr K. M. Panikkar's note.

Even more revealing is the per capita expenditure on general administration. In 1950-51, this was 0.8 for Uttar Pradesh. For Assam, Bihar, Mysore and Travancore-Cochin, the figure was less, while it was the same for Madhya Pradesh, Orissa, West Bengal and Hyderabad. In 1951-52, again, the per capita expenditure on general administration was less in Bihar, Hyderabad and Travancore-Cochin. In 1952-53, it was less in Assam, Bihar, Madhya Pradesh, Orissa, Hyderabad, Mysore and Travancore-Cochin.

Moreover, the test of economical and efficient administration is obviously whether a State is or has been in a position to increase the expenditure on nation-building services. It does not appear that the Uttar Pradesh can claim any particular advantage or achievements in this matter. Again I give certain figures from Appendix IX of the Finance Commission's Report.

The per capita expenditure on social services in Uttar Pradesh in 1950-51 was Rs. 2.4, against Rs. 3.1 for Assam, Rs. 6.0 for Bombay, Rs. 3.3 for Madras, Rs. 3.1 for Punjab, Rs. 3.6 for West Bengal, Rs. 3.2 for Hyderabad, Rs. 3.9 for Madhya Bharat, Rs. 6.9 for Mysore, Rs. 3.4 for PEPSU, Rs. 5.2 for Saurashtra and Rs. 4.2 for Travancore-Cochin. The per capita expenditure on social services in Uttar Pradesh for 1950-51 was the same as for the undeveloped State of Rajasthan, viz., Rs. 2.4.

In 1951-52, only in Bihar and Orissa was the per capita expenditure on social services less than in Uttar Pradesh. As against Rs. 2.4 for Uttar Pradesh, the figure was as high as Rs. 5.7 in both Bombay and Mysore. Even in Rajasthan the figure was Rs. 2.8.

In 1952-53, the tale was repeated and only in Bihar and Orissa was per capita expenditure on social services less than in Uttar Pradesh. As against Rs. 2.7 for Uttar Pradesh, Mysore had a figure of Rs. 6.8 and Bombay Rs. 6.0.

The same story is revealed in the matter of education. In all the years from 1950-51 to 1952-53, only Bihar and Orissa have spent less per head on education than Uttar Pradesh; all other States have spent more. As against Rs. 1.1 in 1950-51 for Uttar Pradesh, Bombay spent Rs. 3.5; in 1951-52, Bombay spent Rs. 3.4, as against Rs. 1.2 for Uttar Pradesh; in 1952-53, Bombay spent Rs. 3.6, Mysore Rs. 3.7, Travancore-Cochin Rs. 3.6 and Saurashtra Rs. 3.0, as against Rs. 1.3 for Uttar Pradesh. Those figures are revealing enough.

Further, I find no evidence to justify the claim that the Uttar Pradesh Government because of the size of the State has been a particularly efficient one. Uttar Pradesh has the lowest literacy of all the Part A States in India including Orissa and even some of the Part B and C States.

Even the report on education in the States of the Indian Union which gives slightly different figures does not alter the fact that Uttar Pradesh is now probably the most backward Part A State in the matter of education. Nor could the State claim that in the matter of medical services, road transportation and maintenance of law and order it is in a better position than Bombay or the southern Indian States.

### Not Homogeneous

The argument put forward by some of the M.L.As. from the western districts in their memorandum submitted to us clearly show that the claim of homogeneity and the desire of the different areas of the Uttar Pradesh to remain together have, to say the least, been overstated. The points they have raised deserve consideration and indicate that in some parts of the State at least there is a feeling of serious dissatisfaction. It has been argued that these demands are of recent origin and therefore do not deserve serious consideration. The agitation for separation may not be of old standing but then it has to be remembered that substantial economic and social development by the State has been taken up only recently and economic rivalries have, therefore, only recently come to the forefront.

Lastly, it has been held that even accepting that the present imbalance created by the disproportionate size of Uttar Pradesh is something which requires consideration, there is no case for a partition of the State as the imbalance is not due to anything Uttar Pradesh itself has done, but is the result of other States having been partitioned. It is argued, that when Bengal, Madras and the Punjab existed as unpartitioned States, there was no great disparity between the major units and it as a result of the creation of Pakistan the Punjab and Bengal were partitioned and if further the Andhras and the Punjabis could not live together and had therefore to separate, these provide no justification for reducing the size of Uttar Pradesh. But the essential point to consider is that a new situation has thereby been created which affects the political structure of India and generates forces likely to affect its unity and stability. The present situation has to be faced in the general interests of India, especially from the point of view of eliminating those developments and trends which create suspicion and resentment in other States situated further away from the capital.

If a partition of Uttar Pradesh would cause hardship to any considerable section of people of the residual State, or generally create political instability, then the opposition to it could have been understood. No such arguments have been advanced. In fact even after a partition of the kind suggested below, Uttar Pradesh will still have a population of over 40 millions and will continue to be the biggest unit in India. It would have the major industrial area of Kanpur, and would include the cities of Allahabad, Lucknow and Banaras. The State would still have a larger population than Bihar or Bombay.

From the point of view of the interests of the people of Uttar Pradesh, the partition would involve no hardship. The districts of Dehra Dun, Naini Tal and Pilibhit would be left in residuary Uttar Pradesh, which would thus have control over the headworks of the Ganga Canal system. The river and canal waters would have to be shared between the new State and the residuary Uttar Pradesh. This should not cause any difficulties, as such sharing is the normal feature in India. The various parts of residuary Uttar Pradesh, including the Kumaon Division, would also be physically contiguous. Indeed, the

partition would be greatly to the advantage of the people of Uttar Pradesh, as the present unmanageable size of this State, as I have pointed out earlier, stands in the way of efficient administration.

We are today at a critical stage of our political evolution. The problem of the reorganisation of the States touches the very root of our political structure. We are proposing now a rationalisation of the units which constitute the federation. If on this occasion we omit to rectify what I consider to be the major and basic weakness of the Indian Constitution—the extraordinary disparity between one unit and the rest—then in my opinion we will only be strengthening the forces of disunity by making it practically impossible to tackle this problem at any later stage.

I am convinced that the decision the Government of India takes about Uttar Pradesh will determine the course of our evolution, the sanctity, the strength and the faith of the people in our Constitution, which should be the palladium of our rights and the source of our political unity.

### Proposal

My proposal is that a new State should be created consisting of the Meerut, Agra, Rohilkhand and Jhansi Divisions of Uttar Pradesh (minus Dehra Dun district of Meerut Division and Pilibhit district of Rohilkhand Division), the district of Datia from Vindhya Pradesh and the four districts of Bhind, Morena, Gird (Gwalior) and Shivpuri from Madhya Bharat.

The total area of this State would be 51,346 sq. miles, and the total population, according to the 1951 Census, will be 21,365,931.

The area of residuary Uttar Pradesh would be 74,994 sq. miles, and the population 41,182,075, according to the 1951 Census.

The new State might have Agra as its capital and might be called the "State of Agra." Agra will be conveniently situated from the point of view of communications. The State thus constituted would be manageable in size and population, and will generally speaking be homogeneous with resources sufficient to carry out its development programmes.

The current revenue of the districts included in the proposed Agra State was of the order of Rs. 27-28 crores, with a surplus of Rs. 1 to 1.5 crores, during the period of three years ending March, 1953.

The current revenue of residuary Uttar Pradesh was of the order of Rs. 35.5 crores during the same period, with a deficit of Rs. 3.75 to 4 crores.

The size of the revenue budget has increased, for various reasons, in the case of both the units since March, 1953. But there is no reason to anticipate that Western Uttar Pradesh will have to face financial embarrassment. Equally, Eastern Uttar Pradesh will be able to make up its initial deficit by reviewing some of its taxation measures. The new Finance Commission will, no doubt, take all factors into account and try to minimise the deficit of residuary Uttar Pradesh.

## THE STATES REORGANIZATION ACT 1956

Below we give some main provisions of the States Reorganization Act. The numbers of the Articles are retained, but the articles are sometimes shortened or summarized or put in different words.

### TERRITORIAL CHANGES

3. (1) As from the appointed day, there shall be added to the State of Andhra the territories comprised in—

(a) the districts of Hyderabad, Medak, Nizamabad, Karimnagar, Warangal, Khammam, Nalgonda and Mahbubnagar;

(b) Alampur and Gadwal taluks of Raichur district, and Kodangal taluk of Gulbarga district;

(c) Tandur taluk of Gulbarga district;

(d) Zahirabad taluk (except Nirma circle), Nalkal circle of Bidar taluk and Narayankhed taluk of Bidar district;

(e) Bichkonda and Jukkal circles of Deglur taluk of Nanded district;

(f) Mudhol, Bhanusa and Kuber circles of Mudhol taluk of Nanded district; and

(g) Adilabad district except Islapur circle of Boath taluk, Kinwat taluk and Rajura taluk; and thereupon the State of Andhra shall be known as the State of Andhra Pradesh.

(2) The territories referred to in clauses (b), (c), (d), (e) and (f) of sub-section (1) shall be included in, and become part of, Mahbubnagar, Hyderabad, Medak, Nizamabad and Adilabad districts, respectively, in the State of Andhra Pradesh.

4. There shall be added to the State of Madras the territories comprised in the Agastheeswaram, Thovalai, Kalkulam and Vilavancode taluks of Trivandrum district and the Shencottah taluk (excluding Puliya Hill pakuthy) of Quilon district; (b) the territories comprised in the Agastheeswaram, Thovalai, Kalkulam and Vilavancode taluks shall form a separate district to be known as Kanya Kumari district in the State of Madras; and (c) the territories comprised in the Shencottah taluk shall be included in, and become part of, Tirunelveli district in the State of Madras.

5. (1) There shall be formed a new Part A State to be known as the State of Kerala comprising the following territories:—

(a) the territories of the existing State of Travancore-Cochin, excluding the territories transferred to the State of Madras by section 4; and

(b) the territories comprised in—

(i) Malabar district, excluding the islands of Laccadive and Minicoy; and

(ii) Kasaragod taluk of South Kanara district.

(2) The territories specified in clause (b) of sub-section (1) shall form a separate district to be known as Malabar district in the State of Kerala.

6. The Laccadive, Minicoy and Amindivi Islands shall cease to form part of the State of Madras and shall become a new Part C State.

7. (1) There shall be formed a new Part A State to be known as the State of Mysore comprising the following territories:—

(a) the territories of the existing State of Mysore;

(b) Belgaum district except Chandgad taluk and Bijapur, Dharwar and Kanara districts, in the existing State of Bombay;

(c) Gulbarga district except Kodangal and Tandur taluks, Raichur district except Alampur and Gadwal taluks, and Bidar, Bhalki, Humnabad and Santpur (Aural) taluks of Bidar district, in the existing State of Hyderabad;

(d) South Kanara district except Kasaragod taluk and Amindivi Islands, and Kollegal taluk of Coimbatore district, in the State of Madras; and

(e) the territories of the existing State of Coorg;

(2) The territories comprised in the existing State of Coorg shall form a separate district to be known as Coorg district, and the said Kollegal taluk shall be included in and become part of, Mysore district.

8. (1) There shall be formed a new Part A State to be known as the State of Bombay comprising the following territories, namely:—

(a) the territories of the existing State of Bombay, excluding—

(i) Bijapur, Dharwar and Kanara districts and Belgaum district except Chandgad taluka, and

(ii) Abu Road taluka of Banaskantha district;

(b) Aurangabad, Parbhani, Bhilrand Osmanabad districts; Ahmedpur, Nilanga and Udgir taluks of Bidar district; Nanded district (except Bichkonda and Jukkal circles of Deglur taluk, and Mudhol, Bhanusa and Kuber circles of Mudhol taluk); and Islapur circle of Boath taluk, Kinwat taluk and Rajura taluk of Adilabad district, in the existing State of Hyderabad;

(c) Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara and Chanda districts in the existing State of Madhya Pradesh;

(d) the territories of the existing State of Saurashtra; and

(e) the territories of the existing State of Kutch;

(2) The said Chandgad taluka shall be included in, and become part of, Kolhapur district; the said Ahmedpur, Nilanga and Udgir taluks shall be included in, and become part of, Osmanabad district; the said Islapur circle of Boath taluk, Kinwat taluk and Rajura taluk shall be included in, and become part of, Nanded district; and the territories comprised in the existing State of Kutch shall form a separate district to be known as Kutch district, in the new State of Bombay.

9. (1) There shall be formed a new Part A State to be known as the State of Madhya Pradesh comprising the following territories:—

(a) the territories of the existing State of Madhya Pradesh, except the districts mentioned in clause (c) of sub-section (1) of section 8;

(b) the territories of the existing State of Madhya Bharat, except Sunel tappa of Bhanpura tahsil of Mandasaur district;

(c) Sironj sub-division of Kotah district in the existing State of Rajasthan;

(d) the territories of the existing State of Bhopal; and

(e) the territories of the existing State of Vindhya Pradesh.

(2) The said Sironj sub-division shall be included in, and become part of, Bhilsa district in the new State of Madhya Pradesh.

10. (1) There shall be formed a new Part A State to be known as the State of Rajasthan comprising the following territories, namely:—

(a) the territories of the existing State of Rajasthan, except Sironj sub-division of Kotah district;

(b) the territories of the existing State of Ajmer;

(c) Abu Road taluka of Banaskantha district in the existing State of Bombay; and

(d) Sunel tappa of Bhanpura tahsil of Mandasaur district in the existing State of Madhya Bharat.

(2) The territories comprised in the existing State of Ajmer shall form a separate district to be known as Ajmer district, and the territories referred to in clauses (c) and (d) of sub-section (1) shall be included in, and become part of, Sirohi and Jhalawar districts, respectively, in the new State of Rajasthan.

11. There shall be formed a new Part A State to be known as the State of Punjab comprising the following territories:—

(a) the territories of the existing State of Punjab; and

(b) the territories of the existing State of Patiala and East Punjab States Union.

In the First Schedule to the Constitution the Part A States will be:

Andhra Pradesh, Assam, Bihar, Bombay, Kerala, Madhya Pradesh, Madras, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh, West Bengal.

The Part B State will be:

Jammu and Kashmir.

The Part C Territories will be:

Delhi, Himachal Pradesh, Manipur, Tripura, the Laccadive, Minicoy, and Amindivi Islands.

13. The power of the State Governments to alter the name, extent and boundaries of any district or division in the State is not affected by any provisions of this Act.

### ZONAL DIVISION

15. There shall be a Zonal Council for each of the following five zones namely:—

(a) the Northern Zone comprising the States of Punjab, Rajasthan and Jammu and Kashmir and the Part C States of Delhi and Himachal Pradesh;

(b) the Central Zone, comprising the States of Uttar Pradesh and Madhya Pradesh;

(c) the Eastern Zone, comprising the States of Bihar, West Bengal, Orissa and Assam, and the Part C States of Manipur and Tripura;

(d) the Western Zone, comprising the States of Bombay and Mysore; and

(e) the Southern Zone, comprising the States of Andhra Pradesh, Madras and Kerala.

16. (1) The Zonal Council for each zone shall consist of the following members:—

(a) a Union Minister to be nominated by the President;

(b) the Chief Ministers of each of the States included in the zone and two other Ministers of each such State to be nominated by the State Government in the case of Kashmir and by the Governor in any other case, and if there is no Council of Ministers in any such State three members from that State to be nominated by the President.

(c) Where any Part C State is included in the zone not more than two members from each such State to be nominated by the President.

(d) In the case of the Eastern Zone, the person for the time being holding the office of the Adviser to the Governor of Assam for Tribal Areas.

(2) The Union Minister nominated under clause (a) of sub-section (1) to a Zonal Council shall be its Chairman.

(3) The Chief Ministers of the States included in each zone shall act as Vice-Chairman of the Zonal Council for that zone by rotation, each holding office for a period of one year at a time.

If there is no Council of Ministers in the State concerned, such member from that State as the President may nominate shall act as Vice-Chairman.

(4) The Zonal Council for each zone shall have the following persons as Advisers to assist the Council in the performance of its duties:—

(a) one person nominated by the Planning Commission;

(b) the persons for the time being holding the offices of Chief Secretaries in the States included in the zone; and

(c) the persons for the time being holding the offices of Development Commissioners in the States or any other officers nominated by the Governments of the States included in the zone.

(5) Every adviser to a Zonal Council shall have the right to take part in the discussions of the Council or of any Committee thereof of which he may be named a member but shall not have a right to vote at a meeting of the Council or of any such Committee.

17. (1) Each Zonal Council shall meet at such time as the Chairman of the Council may appoint in this behalf and shall, subject to the other provisions of this section, observe such rules of procedure in regard to transaction of business at its meetings as it may with the approval of the Central Government lay down from time to time.

(2) The Zonal Council shall unless otherwise determined by it, meet in the States included in that zone by rotation.

(4) All questions at a meeting of a Zonal Council shall be decided by a majority of votes of the Members present and in the case of an equality of votes, the Chairman shall have a second or casting vote.

(5) The proceedings of every meeting of a Zonal Council shall be forwarded to the Central Government and also to each State Government concerned.

19. (1) Each Zonal Council shall have a secretarial staff consisting of a Secretary, a Joint Secretary and such other officers as the Chairman may consider necessary to appoint.

(2) The Chief Secretaries of the States represented in such Council shall each be the Secretary of the Council by rotation and hold office for a period of one year at a time.

(3) The Joint Secretary of the Council shall be chosen from amongst officers not in the service of any of the States represented in the Council and shall be appointed by the Chairman.

20. (2) The administrative expenses of the said office, including the salaries and allowances payable to or in respect of members of the secretarial staff of the Council other than the Secretary, shall be borne by the Central Government out of moneys provided by Parliament for the purpose.

21. (1) Each Zonal Council shall be an advisory body and may discuss any matter in which some or all of the States represented in that Council, or the Union and one or more of the States represented in that Council, have a common interest and advise the Central Government and the Government of each State concerned as to the action to be taken on any such matter.

(2) In particular, and without prejudice to the generality of the provisions of sub-section (1), a Zonal Council may discuss, and make recommendations with regard to,—

(a) any matter of common interest in the field of economic and social planning;

(b) any matter concerning border disputes, linguistic minorities or inter-State transport; and

(c) any other matter connected with or arising out of the reorganization of the States under this Act.

22. (1) Where it is represented to a zonal council that a matter in which a State included in that zone and one or more States included in some other zone have a common interest should be discussed at a joint meeting of the zonal councils concerned it shall be legitimate for the Councils to meet and discuss the matter.

(2) The Central Government may make rules for regulating the procedure at such joint meetings.

#### LEGISLATURES

22. (1) Such six of the eleven sitting members representing the State of Hyderabad as the Chairman (of the Council of States) shall specify shall fill six of the eighteen seats allotted to the State of Andhra Pradesh.

(2) Such five of the six sitting members representing the State of Travancore-Cochin and such three of the eighteen sitting members representing the State of Madras as the Chairman shall specify shall fill eight of the nine seats allotted to the State of Kerala.

(3) The eleven sitting members representing the States of Bhopal, Madhya Bharat and Vindhya Pradesh and such five of the twelve sitting members representing the State of Madhya Pradesh as the Chairman shall specify shall be deemed to have been duly elected to fill the sixteen seats allotted to the new State of Madhya Pradesh.

(4) Such one of the six sitting members representing the State of Travancore-Cochin as the Chairman shall specify be deemed to have been duly elected to fill one of the seats allotted to Madras State.

(5) The six sitting members representing the State of Mysore, and such four of the seventeen sitting members representing the State of Bombay, and such two of the eleven sitting members representing the State of Hyderabad, as the Chairman shall specify shall fill the twelve seats allotted to the new State of Mysore.

(6) The eleven sitting members representing the existing States of Punjab and Patiala and East Punjab States Union shall fill the eleven seats allotted to the new State of Punjab.

(7) The nine sitting members representing the State of Rajasthan and the sitting member representing the States of Ajmer and Coorg shall fill the ten seats allotted to the new State of Rajasthan.

(8) The five sitting members representing the States of Saurashtra and Kutch and the sitting members representing the existing States of Bombay, Hyderabad and Madhya Pradesh who have not been allocated under sub-sections (1), (3) and (5) to Andhra Pradesh, Madhya Pradesh and Mysore shall fill the twenty-seven seats allotted to the new State of Bombay.

25. As soon as may be after the appointed day, bye-elections shall be held to fill the vacancies existing on the appointed day in the seats allotted to the States of Kerala and Madras.

26. In order that as nearly as one-third of the members may retire on 2nd April, 1958, and on the expiry of every second year thereafter, the President shall after consultation with the Election Commission make such provision as he thinks fit in regard to the terms of office of members.

27. Nothing (in this Bill) shall be deemed to affect the constitution or duration of the existing House of the People or the extent of the constituency of any sitting member of that House.

28. (1) Where by virtue of the provisions of this Bill the whole area of any Assembly constituency in an existing State is transferred to any other existing State or becomes part of a new State other than Kerala,—

(a) that area shall be deemed to form a constituency of such other existing State or of such new State, as the case may be; and

(b) the sitting member representing that constituency shall, be deemed to have been elected to the said Legislative Assembly by that constituency.

(2) The sitting members for constituencies in the State of Madras falling wholly or partly within that State which after the appointed day become part of the State of Kerala shall from that day cease to be members of the Legislative Assembly of Madras.

(3) The provisions of the First Schedule shall apply in relation to the sitting members representing the Assembly constituencies specified therein.

(4) The members of the electoral college for Kutch shall, as soon as may be after the commencement of this Act elect eight persons from among themselves in accordance with the system

of proportional representation by means of the single transferable vote and the persons so elected shall be deemed to have been elected to the Legislative Assembly of Bombay by a constituency comprising the whole of Kutch district.

(5) The sitting members nominated to represent the Anglo-Indian community in the Legislative Assemblies of Madhya Pradesh, and Mysore shall be deemed to have been nominated to the Legislative Assemblies of the corresponding new States.

29. When a general election is next held in the State of Andhra Pradesh for electing members to the House of the People, elections shall also be held to fill the seats allotted to the Assembly constituencies into which the transferred territory in that State is divided.

30. The period of five years shall in the case of Legislative Assembly of each new State except Kerala, be deemed to have commenced on the date on which it actually commenced in the case of the Legislative Assembly of the corresponding State.

#### COUNCILS

33. (1) As from such date as the President may appoint, there shall be a Legislative Council for the new State of Madhya Pradesh.

(2) In the said Council there shall be 72 seats of which—

(a) the numbers to be filled by persons elected by the electorates referred to in sub-clauses (a), (b) and (c) of clause (3) of article 171 shall be 24, 6 and 6 respectively;

(b) the number to be filled by persons elected by the members of the Legislative Assembly in accordance with the provisions of sub-clause (d) of the said clause shall be 24; and

(c) the number to be filled by persons nominated by the Governor in accordance with the provisions of sub-clause (e) of that clause shall be 12.

34. (1) As from such date as the President may appoint, there shall be a Legislative Council for the new State of Bombay.

(2) Until the said Council has been reconstituted in accordance with the provisions of sub-sections (4) and (5) of this section and summoned to meet for the first time, the said Council shall consist of—

(a) all the sitting members of the Legislative Council of the existing State of Bombay, except those representing the Belgaum (Local Authorities), Bijapur (Local Authorities) and Dharwar (Local Authorities) constituencies; and

(b) 25 members to represent the territories specified in clauses (b), (c), (d) and (e) of sub-section (1) of section 8 who shall be chosen in such manner as may be prescribed.

(3) After such reconstitution as aforesaid, there shall be 72 seats in the said Council of which—

(a) the numbers to be filled by persons elected by the electorates referred to in sub-clauses (a), (b) and (c) of clause (3) of article 171 shall be 24, 6 and 6 respectively;

(b) the number to be filled by persons elected by the members of the Legislative Assembly shall be 24; and

(c) the number to be filled by persons nominated by the Governor shall be 12.

35. (1) In the Legislative Council of Madras, as from the appointed day, there shall be 50 seats of which—

(a) the numbers to be filled by persons elected by the electorates referred to in sub-clauses (a), (b) and (c) of clause (3) of article 171 shall be 16, 6 and 4 respectively;

(b) the number to be filled by persons elected by the members of the Legislative Assembly in accordance with the provisions of sub-clause (d) of the said clause shall be 16; and

(c) the number to be filled by persons nominated by the Governor in accordance with the provisions of sub-clause (c) of that clause shall be 8.

(8) The two sitting members of the said Council representing the West Coast (Local Authorities) Constituency and such two of the eighteen sitting members elected by the members of the Legislative Assembly, as the Chairman of the said Council shall specify shall, on the appointed day, cease to be members of the said Council.

(4) If, immediately before the appointed day, the total number of sitting members nominated by the Governor is nine, such one of them as the Governor shall specify shall, on the appointed day, cease to be a member of the said Council.

(6) As soon as may be after the appointed day, bye-elections shall be held in all the local authorities constituencies to fill the vacancies existing on that day in the said Council.

(7) In order that as nearly as one-third of the members of the said Council may retire on 20th April 1958, and on the expiry of every second year thereafter, the Governor shall after consultation with the Election Commission make such provision as he thinks fit in regard to the term of office of members.

36. (1) There shall be a Legislative Council for the new State of Mysore.

(2) Until the said Council has been reconstituted in accordance with the provisions of sub-sections (3) and (4) of this section and summoned to meet for the first time the said Council shall consist of—

(a) all the sitting members of the Legislative Council of the existing State of Mysore, and

(b) 12 members to represent the territories specified in clauses (b), (c), (d) and (e) of sub-section (1) of section 7 who shall be chosen in such manner as may be prescribed.

(3) After such reconstitution as aforesaid, there shall be 52 seats in the said Council of which—

(a) the numbers to be filled by persons elected by the electorates referred to in sub-clauses (a), (b) and (c) of clause (3) of article 171 shall be 18, 4 and 4 respectively;

(b) the number to be filled by persons elected by the members of the Legislative Assembly shall be 18, and

(c) the number to be filled by persons nominated by the Governor shall be 8.

37. (1) There shall be a Legislative Council for the new State of Punjab.

(2) Until the said Council has been reconstituted in accordance with the provisions of sub-sections (3) and (4) of this section and of any other law for the time being in force the said Council shall consist of—

(a) all the sitting members of the Legislative Council of the existing State of Punjab.

(b) six persons to be elected in such manner as may be prescribed by the members of the Legislative Assembly of the existing State of Patiala and East Punjab States Union from amongst persons who are not members of that Assembly.

(3) After such reconstitution as aforesaid, there shall be 40 seats in the said Council of which—

(a) the numbers to be filled by persons elected by the electorates referred to in sub-clauses (a), (b) and (c) of clause (3) of article 171 shall be 13, 3 and 3 respectively;

(b) the number to be filled by persons elected by the members of the Legislative Assembly shall be 13; and

(c) the number to be filled by persons nominated by the Governor shall be 8.

#### DELIMITATION OF CONSTITUENCIES

41. As soon as may be after the commencement of this Act, the President shall make such modifications in the Constitution (Scheduled Castes) Order, 1950, the Constitution (Scheduled Castes) (Part C States) Order, 1951, the Constitution (Scheduled Tribes) Order, 1950 and the

Constitution (Scheduled Tribes) (Part C States) Order, 1951, as he thinks fit having regard to the territorial changes and formation of new States.

42. (1) The population as at the last census of the scheduled castes and of the scheduled tribes in each of the States of Andhra Pradesh, Bombay, Kerala, Madhya Pradesh, Madras, Mysore, Punjab, Rajasthan shall be ascertained or estimated by the census authority.

(2) The population figures shall be taken to be the relevant population figures as ascertained at the last census and shall supersede any figures previously published.

43. (1) As soon as may be after the commencement of this Act, the Central Government shall constitute a Commission to be called the Delimitation Commission which shall consist of three members as follows:—

(a) two members each of whom shall be a person who is, or has been, a Judge of the Supreme Court or of a High Court, to be appointed by the Central Government; and

(b) the Chief Election Commissioner, *ex officio*.

44. It shall be the duty of the Commission—

(a) to determine on the basis of the population figures the number of seats, if any, to be reserved for the scheduled castes and the scheduled tribes of each of the States mentioned in section 42 in the House of the People and in the Legislative Assembly of the State;

(b) to determine the parliamentary and assembly constituencies into which each new State shall be divided, the extent of, and the number of seats to be allotted to each such constituency, and the number of seats, if any, to be reserved for the scheduled castes and the scheduled tribes of the States in each such constituency.

45. (1) For the purpose of assisting the Commission the Commission shall associate with itself in respect of each new State such five persons as the Central Government shall by order specify, being persons who are members either of the House of the People or of the Legislative Assembly of an existing State.

Provided that such persons shall be chosen as far as practicable from among those members who were associated with the former Commission. None of the associate members shall have the right to vote or sign any decision of the commission.

#### HIGH COURTS

49. (1) The High Courts exercising immediately before the appointed day jurisdiction in relation to the existing States of Bombay, Madhya Pradesh and Punjab shall, as from the appointed day, be deemed to be the High Courts for the new States of Bombay, Madhya Pradesh and Punjab, respectively.

(2) As from the appointed day, there shall be established a High Court for each of the new States of Kerala, Mysore and Rajasthan.

50. (1) As from the appointed day, the High Courts of all the existing Part B States, except Jammu and Kashmir, and the Courts of the Judicial Commissioners for Ajmer, Bhopal, Kutch and Vindhya Pradesh shall cease to function and are hereby abolished.

55. (1) As from the appointed day,—

(a) the jurisdiction of the High Court of the existing State of Andhra shall extend to the whole of the territories transferred to that State from the existing State of Hyderabad;

(b) the said High Court shall be known as the High Court of Andhra Pradesh; and

(c) the principal seat of the said High Court shall be at Hyderabad.

#### EXPENDITURE

70. In the case of every new State, the Governor or Rajpramukh of the corresponding State may before the appointed day authorise such expenditure as he deems necessary for a period not extending beyond the 31st day of March, 1957.

Provided that the Governor of a new State may authorize such further expenditure as he deems necessary for the said period.

71. (1) As from the appointed day, any Act passed by the Legislature of the State of Andhra or Madras before that day for the appropriation of any money to meet any expenditure in respect of any part of the financial year 1956-57 shall have effect also in relation to the transferred territory in that State.

(2) The Governor of Andhra Pradesh or Madras may authorize such expenditure as he deems necessary for any purpose or service in the transferred territory of the State for any period not extending beyond the 31st day of March 1957.

72. (1) Where the whole or any part of the territory of an existing State has been transferred to another existing State or to a new State the reports of the Comptroller and Auditor-General of India relating to the accounts of that existing State shall be submitted to the Governor of such State or of each of such States and the Governor shall thereupon cause them to be laid before the Legislature of that State.

(2) The President may by order—

(a) declare any expenditure incurred out of the Consolidated Fund of Bombay, Madhya Pradesh or Punjab or of any Part B or Part C State on any service during the financial year 1955-56 or any earlier financial year in excess of the amount granted for that service and for that year as disclosed in the reports referred to in sub-section (1) to have been duly authorised, and

(b) provide for any action to be taken on any matter arising out of the said reports.

73. The allowances and privileges of the Governor of each new State shall, until provision in that behalf is made by Parliament by law be such as the President may, by order, determine.

74. (1) Section 3 of the Union Duties of Excise (Distribution) Act, 1953 and paragraphs 3 and 5 of the Constitution (Distribution of Revenue) Order, 1953 shall, in respect of the financial year 1956-57, have effect in the modified form set out in the Fourth Schedule.

(2) There shall be charged on the Consolidated Fund of India in respect of each of the three financial years 1957-58, 1958-59 and 1959-60 as grants-in-aid of—

(a) the State of Bombay, the sum, if any, by which 8.58 per cent of the total of the amounts payable to that State under articles 270 and 272 falls short of 248.04 lakhs of rupees;

(b) the State of Kerala, the sum if any, by which 61.91 per cent of the total of the amounts payable to that State under the said articles falls short of 232.38 lakhs of rupees;

(c) the State of Madras, the sum, if any, by which 2.97 per cent of the total of the amounts payable to that State under the said articles falls short of 24.65 lakhs of rupees;

(d) the State of Mysore, the sum, if any, by which 46.75 per cent of the total of the amounts payable to that State under the said articles falls short of 289.80 lakhs of rupees.

#### DIVISION OF ASSETS

75. The provisions of this Part shall apply in relation to the apportionment of the assets and liabilities immediately before the appointed day of every Part A or Part B State the whole or any part of whose territories is transferred to another State or becomes a Part C State.

76. (1) Subject to the other provisions of this Part, all land and all stores, articles and other goods belonging to an existing State shall—

(a) if within the existing State, pass to the successor State in which they are situated; or

(b) if outside the existing State, pass to the successor State, or if there be two or more successor States, to the principal successor State;

Provided that where there are two or more successor States and the Central Government is of opinion that any goods or class of goods should be distributed among them otherwise than according to the situation of the goods, the Central Government may issue such directions as it thinks fit for a just and equitable distribution of the goods and the goods shall pass to the successor States accordingly.

(2) Any unissued stores of any class in an existing State shall pass to the successor State, or if there be two or more successor States, shall be divided between them in proportion to the total indents for stores of that class made in the period of three years ending with the 31st day of March, 1956, for the territories of the existing State included respectively in each of those successor States excluding the indents relating to the Secretariat and offices of heads of departments having jurisdiction over the whole of the existing State.

Provided that nothing in this sub-section shall apply to stores held for specific purposes, such as use or utilisation in particular institutions, workshops, or undertakings or on particular works under construction.

(3) In this section, the expression "land" includes immovable property of every kind and any rights in or over such property, and the expression "goods" does not include coins, bank notes and currency notes.

77. The total of the cash balances in all treasuries of an existing State and the credit balances of that State with the Reserve Bank of India immediately before the appointed day shall pass to the successor State, or, if there be two or more successor States, be divided between them according to the population ratio:

Provided that for the purpose of such division, there shall be no transfer of cash balances from any treasury to any other treasury and the apportionment shall be effected by adjusting the credit balances of the successor States in the books of the Reserve Bank of India on the appointed day.

Provided further if any successor State has no account with the Reserve Bank of India the adjustment shall be made in such manner as the Central Government may direct.

78. The right to recover arrears of any tax or duty on property including arrears of land revenue shall belong to the successor State in which the property is situated, and the right to recover arrears of any other tax or duty shall belong to the successor State in whose territory the place of assessment of that tax or duty is included.

79. (1) The right to recover any loans or advances made before the appointed day by an existing State to any local body, society, agriculturist or other person in an area within that State shall belong to the successor State in which that area is included.

(2) The right to recover any loans or advances made before the appointed day by an existing State to any person or institution outside that State shall belong to the successor State or, if there be two or more successor States, to the principal successor State.

Provided that where there are two or more successor States any sum recovered in respect of any such loan or advance shall be divided between all the successor States according to the population ratio.

80. The investments in the cash balance investments account, the famine relief fund and the general fund of an existing State and the sums at the credit of an existing State in the central road fund shall pass to the successor State or, if there be two or more successor States, be divided between them according to the population ratio; and the investments in any special fund the objects of which are confined to a local area in an existing State shall pass to the successor State in which that area is included.

81. (1) The assets and liabilities relating to any commercial or industrial undertaking of an existing State shall pass to the successor State in which the undertaking is located.

(2) Where a depreciation reserve fund is maintained by an existing State for any commercial or industrial undertaking, the securities held in respect of investments made from that fund shall pass to the successor State in which the undertaking is located.

### PUBLIC DEBTS

82. (1) The public debt of the existing State of Hyderabad attributable to loans raised by the issue of Government securities and outstanding with the public immediately before the 31st of October, 1956, shall as from that day be the debt of the Union, and immediately on such transfer of the debt, the Central Government shall be deemed to have made a loan to that State of an amount equal to the debt so transferred on the same terms in regard to interest and repayment as are applicable to the loans so raised by that State.

(2) The public debt of any other existing State attributable to loans raised by the issue of Government securities and outstanding with the public immediately before the appointed day shall, as from that day, be the debt of the successor State or, if there be two or more successor States, be the debt of such one of them as the Central Government may, by order, specify, and in the latter case,—

(a) the other successor States shall be liable to pay to the successor State so specified their share of the sums due for the servicing and repayment of the debt, and (b) for the purpose of determining the said shares, the debt shall be deemed to be divided between the successor States as if it were a debt referred to in sub-section (3).

(3) The public debt of an existing State attributable to loans taken from the Central Government, the Reserve Bank of India or any other Bank before the appointed day, including in the case of Hyderabad the loan deemed to have been made by the Central Government shall pass to the successor State, or if there be two or more successor States, be divided between them in proportion to the total expenditure on all capital works and other capital outlays incurred up to the appointed day in the territories of the existing State included respectively in each of those successor States:

Provided that for the purposes of such division, only expenditure on assets for which capital accounts have been kept shall be taken into account.

Provided further that any loan taken from the Central Government by the Government of an existing State before the appointed day in connection with the construction of buildings, roads or other works for the capital of a new State or any State affected by the territorial changes, or for purposes incidental thereto shall, to the extent of the expenditure so incurred until that day, be wholly the liability of the successor State in which the capital is included.

(4) Where a sinking fund or depreciation fund is maintained by an existing State for the repayment of any loan raised by it, the securities held in respect of investments made from that fund shall pass to the successor State or, if there be two or more successor States, be divided between them in the same proportion as the public debt referred to in sub-section (3).

84. Civil deposits and local fund deposits with an existing State shall pass to the successor State in whose area the deposits have been made and the liability to pay them shall fall on that State.

85. The liability of an existing State in respect of the provident fund account of a Government servant in service on the appointed day shall as from that day, be the liability of the successor State to which that Government servant is permanently allotted.

86. The liability of the existing States in respect of pensions shall pass to, or be apportioned between, the successor States in accordance with the provisions contained in the Fifth Schedule.

### CONTRACTS

87. (1) Where an existing State has made any contract in the exercise of its executive power that contract shall be deemed to have been made in the exercise of the executive power—

(a) if there be only one successor State,—of that State;

(b) if there be two or more successor States and the purposes of the contract are exclusively purposes of any one of them,—of that State, and

(c) if there be two or more successor States and the purposes of the contract are not exclusively purposes of any one of them,—of the principal successor State:

Provided that in any such case the initial allocation of rights and liabilities made by this sub-section shall be subject to such financial adjustment as may be agreed upon between all the successor States concerned, or in default of such agreement, as the Central Government may by order direct.

88. Where, immediately before the appointed day, an existing State is subject to any liability in respect of an actionable wrong other than breach of contract, that liability shall—

(a) if there be only one successor State, be a liability of that State;

(b) if there be two or more successor States and the cause of action arose wholly within the territories which as from that day are the territories of one of them, be a liability of that successor State; and

(c) in any other case, be initially a liability of the principal successor State, but subject to such financial adjustment as may be agreed upon between all the successor States concerned, or in default of such agreement, as the Central Government may by order direct.

89. Where an existing State is liable as guarantor in respect of any liability of a registered co-operative society, that liability shall—

(a) if there be only one successor State, be a liability of that State;

(b) if there be two or more successor States and the area of the society's operations is limited to the territories which are the territories of one of them, be a liability of that successor State; and

(c) in any other case be a liability of the principal successor State.

Provided in any such case the initial allocation of liabilities shall be subject to such financial adjustments as may be agreed upon between all the successor States, or in default of such agreement as the Central Government may direct.

90. If any item in suspense is ultimately found to affect an asset or liability of the nature referred to in any of the foregoing provisions it shall be dealt with in accordance with that provision.

91. The benefit or burden of any assets or liabilities of an existing State not dealt with in the foregoing provisions shall—

(a) if there be only one successor State, pass to that State, and

(b) if there be two or more successor States, pass to the principal successor State in the first instance, subject to such financial adjustment as may be agreed upon between all the successor States before the 1st day of October, 1957, or in default of such agreement, as the Central Government may direct.

92. Where by virtue of any of these provisions any of the successor States becomes entitled to any property or obtains any benefits or becomes subject to any liability, and the Central Government is of opinion, on a reference made within a period of three years by any State that it is just and equitable that that property or those benefits should be transferred to or shared with, one or more of the other successor States, or that a contribution towards that liability should be made by one or more of the other successor States, the said property or benefits shall be

allocated in such manner, or the other successor State or States shall make to the State primarily subject to the liability such contribution in respect thereof, as the Central Government may, after consultation with the State Governments concerned by order determine.

93. All sums payable by the Union to any State or by any State to any other State or to the Union by virtue of these provisions shall be charged on the Consolidated Fund of India, or as the case may be, the Consolidated Fund of the State by which such sums are payable.

### PART C STATES

94. In this Part,—

(a) "existing State" means any of the existing Part C States of Ajmer, Bhopal, Coorg, Kutch and Vindhya Pradesh;

(b) "Union purposes" mean the purposes of Government relating to any of the matters mentioned in the Union List.

95. Subject to the other provisions—

(a) such of the assets of the Union within an existing State as are held by the Union for purposes of the governance of that State shall pass to the successor State, unless the purposes for which the assets are so held are Union purposes; and

(b) all liabilities of the Union arising out of, or in relation to, the governance of an existing State shall be liabilities of the successor State, unless the liabilities are relating to a Union purpose.

96. The right to recover arrears of any tax (including land revenue) due in an existing State, being a tax enumerated in the State List, shall pass to the successor State.

97. The right to recover any loans or advances made to any local body, society, agriculturist or other person in an existing State shall belong to the successor State unless the loan or advance was made in connection with a Union purpose.

98. Any debt of an existing State attributable to any loan given by the Central Government on or after the first day of April, 1954 and outstanding shall be a debt due by the successor State to the Central Government.

99. The liability of the Union in respect of the provident fund account of a Government servant serving in an existing State under the administrative control of the Lieutenant-Governor or Chief Commissioner thereof shall be the liability of the successor State:

Provided that the Central Government shall transfer to the successor State funds equal to the liability of the Union.

100. Where a Government servant under the administrative control of the Lieutenant-Governor or Chief Commissioner of an existing State has retired or proceeded on leave preparatory to retirement, any outstanding claim in respect of his pension shall be settled by the successor State, but the liability in respect of the pension sanctioned to any such Government servant, shall be the liability of the Union.

101. (1) Any contract made by the Union in the exercise of its executive power for purpose of the governance of an existing State shall be deemed to have been made in the exercise of the executive power of the successor State, unless the purposes of the contract are Union purposes; and all rights and liabilities which have accrued or may accrue under any such contract shall, to the extent to which they would have been rights and liabilities of the Union if this Act had not been passed, be rights and liabilities of the successor State.

### CORPORATIONS, PROJECTS

102. (1) As from the appointed day, the Financial Corporations established under the State Financial Corporations Act, 1951, for the existing States of Madhya Bharat, Punjab, Rajasthan and Travancore-Cochin shall be deemed to be the Financial Corporations established under the said Act for the new States of Madhya Pradesh, Punjab, Rajasthan and Kerala, respectively.

(2) The States of Kerala, Madhya Pradesh, and Rajasthan shall be liable to pay to the States of Madras, Rajasthan and Madhya Pradesh, respectively, on account of the share of each of the last-named States in the paid-up capital of the Financial Corporations for the existing States of Travancore-Cochin, Madhya Bharat and Rajasthan, respectively, such amount as the Central Government may determine.

(3) As from the appointed day, the Financial Corporations established under the State Financial Corporations Act, 1951, for the existing States of Andhra and Hyderabad shall stand amalgamated and shall be deemed to be the Financial Corporation established under the said Act for the State of Andhra Pradesh.

(4) After consulting the Governments of the existing States of Andhra and Hyderabad, the Central Government may, before the appointed day, provide for the constitution of the Board of Directors of the Financial Corporation for the State of Andhra Pradesh and for such consequential, incidental and supplemental matters as may, in the opinion of the Central Government, be necessary to give effect to the provisions of sub-section (3).

(5) The State of Andhra Pradesh shall be liable to pay to each of the new States of Mysore and Bombay on account of its share of the paid-up capital of the Financial Corporation for the existing State of Hyderabad such amount as the Central Government may determine.

(6) As from the appointed day, the Financial Corporations established under the State Financial Corporations Act, 1951, for the existing States of Bombay and Saurashtra shall stand amalgamated and shall be deemed to be the Financial Corporation established under the said Act for the new State of Bombay.

(7) After consulting the Governments of the existing States of Bombay and Saurashtra, the Central Government may, before the appointed day, provide for the constitution of the Board of Directors of the Financial Corporation for the new State of Bombay and for such consequential, incidental and supplemental matters as may, in the opinion of the Central Government, be necessary to give effect to the provisions of sub-section (6).

(8) The new State of Bombay shall be liable to pay to each of the new States of Mysore and Rajasthan on account of its share of the paid-up capital of the Financial Corporation for the existing State of Bombay such amount as the Central Government may determine.

103. (1) The Madras Industrial Investment Corporation shall be deemed to have been constituted for the new State.

(2) The State of Madras shall be liable to pay to each of the new States of Kerala and Mysore on account of its share of the paid-up capital of the said Corporation such amount as the Central Government may determine.

105. In the Multi-Unit Co-operative Societies Act, 1942, after section 5, the following sections shall be inserted, namely:—

"5A. (1) Where any co-operative society which, immediately before the 1st day of November, 1956, had its objects confined to one State becomes, as from that day, a multi-unit co-operative society, it shall be deemed to be a co-operative society to which this Act applies and shall be deemed to be actually registered in the State in which the principal place of business of the co-operative society is situated.

(2) If it appears to the Central Registrar of Co-operative Societies necessary or expedient that any such society should be reconstituted or reorganised in any manner or that it should be dissolved, the Central Registrar may, with the approval of the Central Government, place before a meeting of the general body of the society a scheme for the reconstitution, reorganisation or dissolution of the society, including proposals regarding the formation of new co-operative societies and the transfer thereto of the assets and liabilities of that society.

(3) If the scheme is sanctioned by a resolution passed by a majority of the members present at the said meeting, either without modifications or with modifications to which the Central Registrar agrees, he shall certify the scheme, and upon such certification, the scheme shall, notwithstanding anything to the contrary contained in any law, regulation or bye-law for the time being in force, be binding on all the societies affected by the scheme, as well as the shareholders and creditors of all such societies.

(4) If the scheme is not sanctioned under sub-section (3), the Central Registrar may refer the scheme to such judge of the appropriate High Court as may be nominated in this behalf by the Chief Justice thereof, and the decision of that Judge in regard to the scheme shall be final and shall be binding on all the societies affected by the scheme, as well as the shareholders and creditors of all such societies.

106. (1) The State Electricity Board for any of the existing States of Bombay, Madhya Pradesh and Saurashtra shall continue to function in those areas in respect of which it was functioning subject to the provisions of this section and to such directions as may be issued by the Central Government.

(3) A State Electricity Board shall be deemed to be dissolved on the 1st day of November, 1957, or such earlier date as the Central Government may appoint; and upon such dissolution, its assets and liabilities shall,—

(a) in the case of the Board for Saurashtra pass to the State of Bombay; and

(b) in the case of the Board for the existing State of Bombay or Madhya Pradesh, be apportioned between the successor States in such manner as may be agreed upon between them, within one year of the dissolution of the Board or if no agreement is reached, in such manner as the Central Government may determine.

(4) Nothing in the provisions of this section shall be construed as preventing the Government of any of the successor States to the existing States of Bombay, Madhya Pradesh and Saurashtra from constituting at any time a State Electricity Board; and if such a Board is so constituted before the dissolution of a Board continued under sub-section (1) and functioning in any part of that successor State—

(a) provision may be made by the Central Government enabling the new Board to take over from the existing Board all or any of its undertakings, assets and liabilities in that State; and

(b) upon the dissolution of the existing Board, any assets and liabilities which would otherwise have passed to the successor State shall pass to the new Board instead of to the successor State.

107. If it appears to the Central Government that the arrangement in regard to the generation or supply of electric power or the supply of water for any area has been or is likely to be modified to the disadvantage of that area by reason of the fact that it has been transferred from the State in which the power stations and other installations, or the catchment area reservoirs and other works are located the Central Government may give such directions as it deems proper to the State Government or other authority concerned for the maintenance, so far as practicable, of the previous arrangement.

108. (1) Any agreement or arrangement entered into between the Central Government and one or more existing States or between two or more existing States relating to—

(a) the administration, maintenance and operation of any project or

(b) the distribution of benefits, such as, the right to receive and utilise water or electric power, to be derived as a result of the execution of such project, shall continue in force, subject to such adaptations and modifications, if any, (being of a character not affecting the general operation of the agreement or arrangement) as may be agreed upon between the Central Government and the successor State

concerned or between the successor States concerned, as the case may be, by the first day of November 1957, or, if no agreement is reached by the said date, as may be made therein by the Central Government.

(2) Where a project concerning one or more of the existing States has been taken in hand, but not completed, or has been accepted by the Government of India for inclusion in the Second Five-Year Plan, neither the scope of the project nor the provisions relating to its administration, maintenance or operation or to the distribution of benefits to be derived from it shall be varied.—

(a) In the case where a single successor State is concerned with the project except with the previous approval of the Central Government, and

(b) in the case where two or more successor States are concerned with the project except by agreement between those successor States, or if no agreement is reached except in such manner as the Central Government may direct, and the Central Government may from time to time, give such directions as may appear to it to be necessary for the due completion of the project and for its administration, maintenance and operation thereafter.

(3) In this section, the expression "project" means a project for the promotion of irrigation, water supply or drainage or for the development of electric power or for the regulation or development of any inter-State river or river valley.

#### INTER-STATE TRANSPORT

109. (1) Save as otherwise expressly provided by the foregoing provisions where any body corporate has been constituted under a Central Act, State Act or Provincial Act for an existing State the whole or any part of which is transferred to any other existing State or to a new State, then, notwithstanding such transfer, the body corporate shall, as from the appointed day, continue to function and operate in those areas in respect of which it was functioning and operating immediately before that day, subject to such directions as may from time to time be issued by the Central Government, until other provision is made by law in respect of the said body corporate.

(2) Any directions issued by the Central Government under sub-section (1) in respect of any such body corporate shall include a direction that any law by which the said body corporate is governed shall in its application to that body corporate have effect subject to such exceptions and modifications as may be specified in the direction.

110. (1) Notwithstanding anything contained in section 63 of the Motor Vehicles Act, 1939, a permit granted by the State or a Regional Transport Authority in an existing State, the whole or any part of the territories of which is transferred to another existing State or to a new State shall, if such permit was, immediately before the appointed day, valid and effective in any area in the territories so transferred, be deemed to continue to be valid and effective in that area after that day subject to the provisions of that Act as for the time being in force in that area; and it shall not be necessary for any such permit to be countersigned by any other State or Regional Transport Authority for the purpose of validating it for use in such transferred territories:

Provided that the Central Government may, after consultation with the State Government or Governments concerned, add to, amend or vary the conditions attached to the permit by the Authority by which the permit was granted.

(2) No tolls, entrance fees or other charges of a like nature shall be levied after the appointed day in respect of any transport vehicle for its operations in any transferred territory under any such permit, if such vehicle was, immediately before that day, exempt from the payment of any such toll, entrance fees or other charges for its operations beyond the boundaries of the State in which such permit was granted.

Provided that the Central Government may, after consultation with the State Government or Governments concerned, authorise the levy of any such toll, entrance fees or other charges, as the case may be.

111. Where on account of the reorganisation of the States under this Act, any body corporate constituted under a Central Act, State Act or Provincial Act, any co-operative society registered under any law relating to co-operative societies or any commercial or industrial undertaking of an existing State, is reconstituted or reorganised in any manner whatsoever or is amalgamated with any other body corporate or undertaking, or is dissolved, and in consequence of such reconstitution, reorganisation, amalgamation or dissolution, any workman employed by such body corporate or in any such undertaking is transferred to, or re-employed by, any other body corporate or undertaking, then, notwithstanding anything contained in section 25F of the Industrial Disputes Act, 1947, such transfer or re-employment shall not entitle him to any compensation under that section:

Provided that—

(a) the terms and conditions of service applicable to the workman after such transfer or re-employment are not less favourable to the workman than those applicable to him immediately before the transfer or re-employment; and

(b) the employer in relation to the body corporate or the undertaking where the workman is transferred or re-employed, is by agreement or otherwise legally liable to pay to the workman, in the event of his retrenchment, compensation under section 25F of the Industrial Disputes Act, 1947, on the basis that his service has been continuous and has not been interrupted by the transfer or re-employment.

112. (1) As from the appointed day, there shall be established in the State of Madras a Devaswom Fund for the management of Hindu temples and shrines in the territories transferred to that State from the State of Travancore-Cochin.

(2) The assets as on the appointed day of the Devaswom Surplus Fund constituted by section 26 of the Travancore-Cochin Hindu Religious Institutions Act, 1950, shall be divided into two parts in the ratio of 37.5 to 13.5 in such manner as the Central Government may, direct, and the smaller part shall, as from the appointed day, be transferred to the Fund mentioned in sub-section (1).

113. The Central Government may in respect of the institutions of the categories specified in the Sixth Schedule located in a new State or in the State of Andhra Pradesh or Madras, direct that such facilities shall be provided to the Government and the people of one or more adjoining States for such period and upon such terms and conditions as may be agreed upon between the State Governments concerned before the 31st day of March, 1957, or, if no agreement is reached by the said date, as may be fixed by the Central Government.

#### ADMINISTRATIVE SERVICES

114 (2) As from the appointed day, there shall be constituted for each of the new States a State cadre of the Indian Administrative Service and a State cadre of the Indian Police Service.

(3) The initial strength and composition of each of the said cadres shall be such as the Central Government may determine before the appointed day.

(4) The cadres of each of the said services for the existing States of Bombay, Madhya Pradesh, Punjab and Vindhya Pradesh and for the existing Part B States shall cease to exist, and the members of each of the said services borne on those cadres shall be allocated to the State cadres of the same service for the other existing States or for the new States in such manner and with effect from such date or dates as the Central Government may specify.

115. (1) Every person who is serving in connection with the affairs of the Union under the administrative control of the Lieutenant-

Governor or Chief Commissioner in any of the existing States of Ajmer, Bhopal, Coorg, Kutch and Vindhya Pradesh, or is serving in connection with the affairs of any of the existing States of Mysore, Punjab, Patiala and East Punjab States Union and Saurashtra shall be deemed to have been allotted to serve in connection with the affairs of the successor State to that existing State.

(2) Every person who is serving in connection with the affairs of an existing State part of whose territories is transferred to another State shall, as from that day, provisionally continue to serve in connection with the affairs of the principal successor State to that existing State, unless he is required by general or special order of the Central Government to serve provisionally in connection with the affairs of any other successor State.

(3) As soon as may be the Central Government shall, determine the successor State to which every person referred to in sub-section (2) shall be finally allotted for service and the date with effect from which such allotment shall take effect.

(4) Every person who is finally allotted under the provisions of sub-section (3) to a successor State shall if he is not already serving therein be made available for serving in that successor State from such date as may be agreed upon between the Governments concerned, and in default of such agreement, as may be determined by the Central Government.

(5) The Central Government may establish one or more Advisory Committees for the purpose of assisting it in regard to—

(a) the proper integration of the services and their division among the States of Andhra Pradesh and Madras and the new States; and

(b) the ensuring of fair and equitable treatment to all persons affected by the provisions of this section and the proper consideration of any representations made by such persons.

(6) The foregoing provisions of this section shall not apply in relation to any person to whom the provisions of section 114 apply.

(7) The conditions of service applicable immediately before the appointed day to the case of any person referred to in sub-section (1) or sub-section (2) shall not be varied to his disadvantage except with the previous approval of the Central Government.

116 (1) Every person who is holding or discharging the duties of any post or office in connection with the affairs of the Union or of an existing State in any area which on 1st Nov. falls within another existing State or a new State or is a Union Territory shall, except where such post or office ceases to exist, continue to hold the same post or office in the other existing State or new State or Union Territory in which such area is included on that day and shall be deemed to have been duly appointed to such post or office by the Government of, or other appropriate authority in, such State, or by the Central Government or other appropriate authority in such Union Territory.

(2) Nothing in this section shall be deemed to prevent a competent authority, from passing in relation to any such person any order affecting his continuance in such post or office.

117 The Central Government may at any time give such directions to any State as may appear to it to be necessary for the purpose of giving effect to the foregoing provisions and the State Government shall comply with such directions.

118 (1) The Public Service Commissions for the existing States of Bombay, Mysore, Punjab, Rajasthan and Travancore-Cochin shall be deemed to be the Public Service Commissions for the corresponding new States.

(2) The Public Service Commissions for the existing States of Hyderabad, Madhya Bharat, Madhya Pradesh, Patiala and East Punjab States Union and Saurashtra shall cease to exist.

(3) Every person holding office as chairman or other member of any of the Commissions mentioned in sub-section (2)

(a) shall become a member and if so specified also the Chairman of such one of the Public Service Commissions for the States of Andhra Pradesh, Bombay, Madhya Pradesh, Punjab and Mysore as the President shall specify and

(b) shall, as such member or Chairman be entitled to receive conditions of service not less favourable than those to which he was entitled immediately before the appointed day.

(4) Every person who becomes a member of a Public Service Commission under sub-section (1) or sub-section (3) shall, hold office or continue to hold office until the expiration of his term of office as determined under the provisions applicable to him immediately before the appointed day.

### LEGAL AND MISCELLANEOUS PROVISIONS

119. The provisions effecting territorial changes shall not be deemed to have effected any change in the territories to which any law in force extends or applies, and territorial references in any such law to an existing State shall, until otherwise provided by a competent Legislature or other competent authority, be construed as meaning the territories within that State immediately before the appointed day.

120. For the purpose of facilitating the application of any law in relation to any of the States or Union Territories formed or territorially altered the appropriate Government may before the expiration of one year from the appointed day make such adaptations and modifications of the law, whether by way of repeal or amendment, as may be necessary or expedient, and thereupon every such law shall have effect subject to the adaptations and modifications so made until altered, repealed or amended by a competent Legislature or other competent authority.

121. Notwithstanding that no provision or insufficient provision has been made under section 120 for the adaptation of a law made before the appointed day, any court, tribunal or authority may, for the purpose of facilitating its application in relation to any State or Union Territory formed or territorially altered construe the law in such manner without affecting the substance as may be necessary or proper in regard to the matter before it.

122. The Central Government, as respects any Union Territory, and the State Government as respects any new State or any transferred territory, may specify the authority, officer or person who, as from the appointed day, shall be competent to exercise such functions exercisable under any law in force on that day as may be mentioned in the notification.

123. Where immediately before the appointed day the Union or an existing State is a party to any legal proceedings with respect to any property, rights or liabilities subject to apportionment under this Act the successor State which succeeds to, or acquires a share in, that property or those rights or liabilities shall be deemed to be substituted for the Union or the existing State as a party to those proceedings, or added as a party thereto, as the case may be and the proceedings may continue accordingly.

124. Any person who immediately before the appointed day, is enrolled as a pleader entitled to practise in any subordinate courts in an existing State which is affected by the territorial provisions of this Act shall, for a period of six months from that day, continue to be entitled to practise in those courts, notwithstanding that the whole or any part of the territories within the jurisdiction of those courts has been transferred to another State.

125. (1) Every proceeding pending before a court (other than a High Court), tribunal, authority or officer—

in any area which falls within a State shall, if it is a proceeding relating exclusively to any part of the territories which as from that day are the territories of another State, stand transferred to the corresponding court, tribunal, authority or officer in the other State.

(2) If any question arises as to whether any proceeding should stand transferred under sub-section (1), it shall be referred for the decision of the High Court having jurisdiction in respect of the area and the decision of the High Court shall be final.

126. (1) All ancient and historical monuments in Part C States which, before the 1st April 1956, have either been declared by the Central Government to be protected monuments or which have been taken possession of by the Central Government as protected monuments are hereby declared to be ancient and historical monuments of national importance.

(2) All archaeological sites and remains in Part C States which, before the 1st April 1956, have either been declared by the Central Government to be protected areas or which have been taken possession of by the Central Government as protected areas are hereby declared to be archaeological sites and remains of national importance.

127. The provisions of this Act, shall have effect notwithstanding anything inconsistent therewith contained in any other law.

128. If any difficulty arises in giving effect to the provisions of this Act, the President may do anything not inconsistent with such provisions which appear to him to be necessary or expedient for the purpose of removing the difficulty.

129. (1) The Central Government may, by notification in the Official Gazette, make rules to give effect to the provisions of this Act.

(2) All rules made under this section shall be laid before both Houses of Parliament as soon as may be after they are made.

130. (1) The Government of Part C States Act, 1951, is repealed with effect from the appointed day.

(2) The said repeal shall not affect any laws made by the Legislature of a Part C State by virtue of any power conferred on that Legislature by the Act so repealed, and all such laws in force immediately before the appointed day shall continue in force, subject to such adaptations and modifications as may be made therein until altered, repealed or amended by a competent Legislature or other competent authority.

### SCHEDULES

The First Schedule shows in which new State certain constituencies of the Bombay, Hyderabad, Madhya Bharat and Madras Legislative Assemblies will be placed.

The following constituencies will be in Bombay. The name of the State in which the constituency lay before the appointed day is shown in brackets:

Palanpur-Abu-Vadagam-Danta (Bombay); Chandgad (Bombay); Halsur (Hyderabad); Udgr (Hyderabad); Deglur (Hyderabad); Kinwat (Hyderabad).

The following constituencies will be in Andhra Pradesh:

Kodangal (Hyderabad); Zahirabad (Hyderabad); Mudhol (Hyderabad).

The following constituencies will be in Mysore: Tandur-Seram (Hyderabad); Bidar (Hyderabad); Panamangalore (Madras).

The following constituency will be in Madhya Pradesh:

Bhanpura (Madhya Bharat).

The Second Schedule shows the modifications made in the delimitation order relating to the Madras Legislative Council (order 1951) constituencies.

The Third Schedule shows the number of seats fixed for each of the State Legislative Assemblies and the number of seats assigned to each State and Union territory in the Lok Sabha (see the article on the Government of India in this book for the number so fixed or assigned).

The First Part of the Fourth Schedule modifies Section 3 of the Union Duties of Excise (Distribution) Act, 1953 and shows how a part of the Union duties of excise are to be distributed

among the States during the first half of the financial year commencing 1st April 1956. The figures are in percentages:

Andhra 5-92, Assam 2-61, Bihar 11-60, Bombay 10-37, Hyderabad 5-30, Madhya Bharat 2-29, Madhya Pradesh 6-13, Madras 10-30, Mysore 2-84, Orissa 4-22, PEPUSU 1-00, Punjab 3-66, Rajasthan 4-41, Saurashtra 1-19, Travancore-Cochin 2-68, Uttar Pradesh 18-23, West Bengal 7-16.

During the second half the payments will be as follows, again in percentage, and extra payments, if any to four of the States as follows:

Andhra Pradesh 9-03, Assam 2-61, Bihar 11-60, Bombay 12-57 + 1-19, Kerala 1-49 + 2-42, Madhya Pradesh 6-25, Madras 8-39 + 0-26, Mysore 2-90 + 2-62, Orissa 4-22, Punjab 4-66, Rajasthan 4-40, Uttar Pradesh 18-23, West Bengal 7-16.

The first half of the year will be deemed the first seven months, and the second half the remaining five months of the financial year.

The Second Part of the Fourth Schedule modifies paras. 3 and 5 of the Constitution (Distribution of Revenue) Order 1953.

The proceeds of income tax attributable to Part C States for the first half of the financial year 1956-57 shall be taken as 21 per cent of so much of the net proceeds of taxes on income for the half year as does not represent the net proceeds of taxes payable in respect of Union enclavements; and the proceeds attributable to Union territory for the second half of the financial year as one per cent.

The percentage of net proceeds of income tax, except in so far as these represent proceeds attributable to Part C States or taxes payable in respect of Union enclavements, which is to be assigned to Parts A and B States except Kashmir for the first half of the financial year 1956-57 shall be 55 per cent. And this total amount shall be distributed among the States as follows, figures in percentages:

Andhra 5-49, Assam 2-25, Bihar 0-75, Bombay 17-50, Hyderabad 4-50, Madhya Bharat 1-75, Madhya Pradesh 5-25, Madras 9-56, Mysore 2-45, Orissa 3-50, PEPUSU 0-75, Punjab 3-25, Rajasthan 3-50, Saurashtra 1-00, Travancore-Cochin 2-50, U.P. 15-75, West Bengal 11-25.

And for the second half of the financial year 1956-57 the total amount represented by 55 per cent (with the same sort of qualifications as above) will be assigned as follows, the figures in percentages:

Andhra Pradesh, 8-09, Assam 2-25, Bihar 9-75, Bombay 18-10 + 1-00, Kerala 1-38 + 2-26, Madhya Pradesh 5-40, Madras 7-79 + 0-24, Mysore 3-74 + 2-25, Orissa 3-50, Punjab 4-00, Rajasthan 3-51, Uttar Pradesh 15-75, West Bengal 11-25.

The first half shall be deemed to be the first seven months and the second half the remaining five months.

Grants-in-aid of the revenues of each State for the first half of the financial year 1956-57 (seven months constituting the first half and five months the second) for general purposes shall be as follows. The figures are in Rs. lakhs:

Assam 58-33, Mysore 23-33, Orissa 43-75, Punjab 72-92, Saurashtra 23-33, Travancore-Cochin 26-25, West Bengal 46-67.

For expansion of primary education the grant for the first half of the financial year (seven months) shall be as follows: the figures are in Rs. Lakhs:

Bihar 48-42, Hyderabad 23-33, Madhya Bharat 10-5, Madhya Pradesh 29-17, Orissa 18-67, PEPUSU 5-25, Punjab 16-33, Rajasthan 23-33.

Grants-in-aid in the second half (five months) for general purposes shall be as follows. The figures are in Rs. lakhs:

Assam 41-67, Mysore 16-67, Orissa 31-25, Punjab 52-08, Bombay 16-67, Kerala 16-93, Madras 1-82, West Bengal 33-33.

For the expansion of primary education the grant for the second half of the financial year (five months) shall be as follows. The figures are in Rs. lakhs.

Bihar 34.58, Andhra 9.62, Mysore 2.41, Bombay 12.10, Madhya Pradesh 20.98, Orissa 13.33, Punjab 15.42, Rajasthan 16.56.

There shall also be charged on the Consolidated Fund of India:

In the first seven months of the financial year as grant-in-aid to Mysore the sum by which the total amounts payable under the Union excise and revenue fall short of Rs. 201.25 lakhs, to Saurashtra the sum by which the total amounts fall short of Rs. 160.42 lakhs, to Travancore-Cochin the sum by which the total amounts fall short of Rs. 103.33 lakhs.

In the remaining five months of the financial year as grant-in-aid to Mysore the sum by which the total amounts payable as additional percentage fall short of Rs. 143.75 lakhs, to Bombay the sum by which the total amounts fall short of Rs. 114.58 lakhs, to Kerala the sum by which the total amounts fall short of Rs. 105.38 lakhs and to Madras the sum by which the total amounts fall short of Rs. 11.29 lakhs.

These sums will be in addition to sums payable under the provisos to clause 1 of Article 275 of the Constitution.

The Fifth Schedule is about pensions.

Existing pensions shall be paid by the successor State or successor States. Pensions of those whose claims are outstanding immediately before November 1, 1956 shall be paid by the successor State; if there is more than one successor State by such one of them as the Central Government may specify.

Where there are two or more successor States, there shall be computed in respect of the period commencing from Nov. 1, 1956 and ending March 31, 1957 and for each subsequent financial year the total payments made in all the successor States in respect to pensions mentioned above. This total shall be apportioned between the successor States in the population ratio, and a State paying more shall be reimbursed by a State paying less.

Provision is also made about the payment of pension to officers who retire after service to more than one successor State.

The Sixth Schedule gives a list of the type of institutions about which the Central Government can issue directions. The directions will

be to the effect that the State in which such an institution is situated should provide facilities to the Government or people of one or more adjoining States on condition that may be agreed upon by 31st March 1957 or in the absence of an agreement as may be fixed by the Central Government:

Engineering colleges and schools of technology; medical colleges; veterinary colleges; Government hospitals providing for special treatment such as tuberculosis hospitals or sanatoria, cancer hospitals, mental hospitals, leprosy hospitals or sanatoria, or hospitals providing for unani or ayurvedic treatment; research institutions such as irrigation research institutes, Government analysts' departments and serum institutes; central jails; Borstal schools and Certified schools; police training colleges and institutes; fire service training schools; hostels for Scheduled Castes, Tribes and Backward classes.

Photo Registry offices; Central Records offices; Forest schools; Finger print bureaux.

Agricultural Colleges.

Radium institutes.

Reformatory Schools.

## BIHAR AND WEST BENGAL (TRANSFER OF TERRITORIES) ACT, 1956

Below we give a summary of some of the more important provisions of the Act which received the President's assent on 1st Sept., 1956. The Act came into force on 1st Nov., 1956. The numbers of the provisions have been retained.

3. (1) As from the appointed day, there shall be added to the State of West Bengal the territories which on the 1st day of March, 1956, were comprised in—

(a) that portion of Kishanganj sub-division of Purnea district which lies to the east of the boundary line demarcated in accordance with the provisions of sub-section (2) by an authority appointed in this behalf by the Central Government, and that portion of Gopalpur thana of the said district which lies to the east or north, as the case may be, of the said boundary line; and

(b) Purnia sub-division of Manbhum district, excluding Chas thana, Chandil thana and Patanda police station of Barabhum thana;

(2) The boundary line referred to in sub-section (1) shall be so demarcated as to be generally two hundred yards to the west of the highway in Purnea district connecting Dalkola, Kishanganj and Chopra with Siliguri in Darjeeling district and two hundred yards to the south or south-west of the highway in Purnea district connecting Dalkola and Karandighi with Ralganj in West Dinajpur district:

Provided that the boundary line shall be so demarcated as not to cut across any village or town:

Provided further that from the point where the first-mentioned highway meets the southern boundary of Kishanganj municipality to the point where it leaves the northern boundary of that municipality, the boundary line shall be the same as the boundary of that municipality on the east.

(3) The territory specified in clause (a) of sub-section (1) shall be included in, and form part of, Darjeeling district, and the territory specified in clause (b) of that sub-section shall form a separate district to be known as Purnia district within Burdwan division of the State of West Bengal.

(4) Nothing in sub-section (3) shall be deemed to affect the power of the State Government to alter after the appointed day the name, extent and boundaries of any district or division in the State of West Bengal.

5. As from the appointed day, in the Fourth Schedule to the Constitution, in the Table of Seats, for the entries in the second column relating to Bihar and West Bengal, the entries "22" and "16" shall, respectively, be substituted.

6. As soon as may be after the appointed day, bye-elections shall be held to fill the vacancies existing on that day in the seats allotted to Bihar and West Bengal.

7. In order that, as nearly as may be, one-third of the members of the Council of States may retire on the 2nd day of April, 1958, and on the expiration of every second year thereafter, the President shall, after consultation with the Election Commission, make by order such provisions as he thinks fit in regard to the terms of office of the members elected under section 6.

8. Nothing in section 3 shall be deemed to affect the extent of the constituency of any sitting member of the existing House of the People from Bihar.

9. The sitting members of the Legislative Assembly of Bihar representing the Thakurganj, Karandighi, Para-cum-Chas and Barabazar-cum-Chandil constituencies shall, notwithstanding the reduction in the extent of those constituencies by the transfer of portions thereof to West Bengal, continue to be members of the Legislative Assembly of Bihar; and the sitting members of that Assembly representing any other constituency lying wholly or partly in the transferred territories shall, as from the appointed day, be deemed to have been elected to the Legislative Assembly of West Bengal and cease to be members of the Legislative Assembly of Bihar.

10. The changes in the composition of the Legislative Assemblies of Bihar and West Bengal under section 9 shall not affect their duration as provided in clause (1) of article 172.

11. (2) Every sitting member of the Legislative Council of Bihar representing a council constituency the extent of which is altered by virtue of sub-section (1) shall, as from the appointed day, be deemed to have been elected to the said Council by that constituency as so altered.

12. (2) In the Table appended to the said Order, in the entry in the second column, against West Bengal West (Graduates) Constituency, after the word "Bankura", the word "Purnia" shall be inserted.

(3) Every sitting member of the Legislative Council of West Bengal representing a council constituency the extent of which is altered by virtue of sub-section (1) or sub-section (2) shall, as from the appointed day, be deemed to have been elected to the said Council by that constituency as so altered.

13. The number of seats in the House of the People allotted to Bihar and to West Bengal and the number of seats assigned to the Legislative Assembly of each of those States shall be modified as follows:—

In the House of the People Bihar will have 53 seats and West Bengal 36.

The strength of the Bihar Legislative Assembly will be 318, and of the West Bengal Assembly 252.

14. As soon as may be after the commencement of this Act, the President may, by notified order, make such modifications in the (Constitution (Scheduled Castes) Order, 1950, and the Constitution (Scheduled Tribes) Order, 1950, as he thinks fit, having regard to the transfer of territories effected by section 3.

15. (1) After the said Orders have been so modified, the population as at the last census of the scheduled castes and of the scheduled tribes in Bihar and West Bengal shall be ascertained or estimated by the census authority.

(2) The population figures so notified shall be taken to be the relevant population figures as ascertained at the last census and shall supersede any figures previously published.

16. (1) As soon as may be after the commencement of this Act, the Central Government shall appoint an authority

(a) to determine on the basis of the population figures notified under section 15 the number of seats to be reserved for the scheduled castes and the scheduled tribes of Bihar and of West Bengal in the House of the People and in the Legislative Assembly of each of those States:

(b) to revise to such extent as may be necessary or expedient, having regard to the said provisions, the orders of the Delimitation Commission made under section 8 of the Delimitation Commission Act, 1952, with respect to Bihar and West Bengal.

The rest of the provisions are on the same basis as the provisions of the States Reorganization Act.

## ANDAMAN AND NICOBAR ISLANDS

Capital : Port Blair.

Area : 3,215 sq miles. Pop. 39,000 (1956).

The Andamans are a group of islands of various sizes large and small lying in the Bay of Bengal about 780 and 740 miles from Calcutta and Madras respectively. The main part of the group is composed of five large islands, viz., North Andamans, Middle Andamans, South Andamans, Baratang and Rutland Islands generally known as the Great Andamans. Included in the Great Andaman group are also 204 islets, stretching from Landfall Island in the north about 560 miles from the Hooghly mouth to the Little Andaman in the south. To the south of the Great Andamans is the island of Little Andaman. The extreme length of the Great Andaman Islands is 290 miles and the extreme breadth 32 miles, the total land area being approximately 2,508 sq. miles. These islands have several very good harbours—Port Blair, Port Cornwallis, Mayabander and Elphinstone Harbour. The headquarters are at Port Blair.

The Nicobar Islands numbering 19 from Car Nicobar in the north to Great Nicobar in the south intervene between Little Andaman and Sumatra. The southern island of Great Nicobar is about 100 miles from Pulo Brasse of Achin Head in Sumatra and the northern island of Car Nicobar 75 miles from Little Andaman. The extreme length of the seaspace occupied by the Nicobars is 163 miles and the extreme width is 36 miles. The islands forming Andamans mostly consist of a mass of hills enclosing narrow valleys covered by dense tropical forests. The islands in the Nicobar group are partly hilly and partly flat.

### POPULATION

The present\* population of the Andaman and Nicobar Islands is about 39,000 of which about 27,000 live in the Andamans and 12,000 in Nicobars. The population consists of (i) Andaman Indians including settlers 26,000, (ii) Aborigines 1,000 consisting of Onges 600, Andamanese 23 and Jarawas and Sentinelese 377 roughly; (iii) Nicobarese 11,900; (iv) Shom-Pens of Great Nicobar 100.

Some of the islands are not populated at all, some only sparsely while Car Nicobar is densely populated.

The original inhabitants of the Andaman group of islands are of a small Negrito type who live in the forests by hunting and fishing. They have no fixed habitation, and do no cultivation. Their civilization is about that of the Stone Age. Their numbers are not known as they prefer to avoid all contact with civilisation.

The climate of the islands can be generally described as tropical; warm but tempered by pleasant sea breezes. The islands are exposed to both monsoons with north-easterly gale from November to January and south westerly gale from May to October. The weather is smooth only from February to April and to some extent in October. The average rainfall is 125 inches. The maximum temperature varies between 85 and 92 degrees throughout the year. The scenery of the islands is everywhere strikingly beautiful.

### HISTORY

Very little is known about these islands earlier than the year 1789 when the first attempt to colonise these islands was made by Captain Archibald Blair, R.N. The first settlement was established in 1789 in the South Andaman at an island now called Chatham and given the name of Port Cornwallis, which in course of time changed to Port Blair after the name of its founder Archibald Blair. The settlers were engaged in clearing and cultivating the island, the greater portion of which was by August 1790, planted with vegetables and fruit trees. The settlement continued free from sickness. For strategic reasons the settlement was moved to north islands (North Andaman) in 1792 and the new settlement also given the name of Port Cornwallis. A number of new settlers were sent from the mainland. The situation in Port Cornwallis proved highly unfavourable and

dangerous to the health of the settlers and the settlement was ultimately abandoned in 1796. The present colony was actually opened in the year 1858 for the accommodation of a large number of prisoners following the uprising in India used to be called the "Great Mutiny".

From 1858 to 1942 the islands were used by the Government of India as a penal settlement for convicts serving life sentences and long terms.

The islands were occupied by the Japanese in March 1942 and re-occupied by the Government of India in October 1945.

With the re-occupation of these islands the penal settlement was abolished.

202 families of displaced persons from East Pakistan were settled in the South Andaman during 1949 under a pilot scheme sanctioned by the Government of India, Ministry of Rehabilitation Measures were taken for the expansion of education in the rural areas of South Andaman and in Car Nicobar. When India became a Republic in January 1950, these islands were given the status of part 'D' Territory under the direct administration of the President. A new A.C. Power Station was established at Port Blair. A Junior Division of the National Cadet Corps was raised. Social work and cultural activities were organised. A plan for large-scale colonisation of these islands was approved by the Government of India in 1952. The judicial administration of the islands was placed under the jurisdiction of the Calcutta High Court. A State Transport Service was constituted and a road scheme was approved. A Motor vessel equipped as a travelling dispensary was acquired from the Australian Government under the Colombo Plan for rendering medical aid to the people of the distant islands who had been neglected in the past.

There is no zamindari in the islands.

### AGRICULTURE, INDUSTRY

In the year 1954-55, 23,972 tons of timber and 30,850 bags of match splints were shipped to India, and the revenue from the sale of timber amounted to Rs 66,38,442. Coconut and rubber are other sources of income.

There is a Government saw mill at Port Blair and a match factory.

There are 40 co-operative societies.

The islands are slowly being made self-sufficient in paddy and rice, and now grow approximately half their annual requirements. No proper survey of the mineral resources of these islands has yet been undertaken.

Coconuts are next to timber the most important among the produce of the islands and a major item in the diet of the Nicobarese. Exports which go to Calcutta and Madras generally are in the form of nuts and copra.

There is plenty of scope for fruit growing. Such fruit as papaya, pineapple, Citrus, Bananas, mangoes, etc. can be easily grown.

Some of the species of wood found in the forest regions are Padauk, Andaman red wood and Gurjan. Gurjan is in great demand for the manufacture of plywood. Large quantities of soft wood are supplied to match factories.

There is one high school, 2 middle schools, 28 primary schools, 6 primary cum basic schools. The number of students is 2,612.

There is a well-equipped hospital at the headquarters with a separate branch for women and children. There are smaller hospitals and dispensaries at the outlying places. The incidence of malaria is moderate in areas under control and in other areas the disease is kept in check with regular administration of paludrine. Plague, cholera and small-pox are unknown.

The present activities of the forest Department comprise regeneration and other silvicultural work over large areas in all the three forest divisions, departmental exploitation and milling

and sale of timber from the South and Middle Andamans Division and a considerable volume of work pertaining to the Colonisation Scheme.

A dry dock was completed and opened on 20th March 1956. This dock is capable of handling small ships up to 12 ft. draft in favourable tide conditions.

A Government bus service was started from 5th April 1956 with a fleet of five buses on four different routes within South Andaman.

A Motor Vessel M. V. Reuna (renamed Indau) fitted as a floating hospital was acquired from the Government of Australia under the Colombo Plan. With a view to developing inter-island communication the Administration has purchased a 390-ton cargo-cum-passenger ship.

Comprehensive schemes have been drawn up for effective control of diseases like Malaria, Filariasis and V.D. Malaria and Filariasis Survey and Control Unit under the national health scheme has been set up and is operating in Car Nicobar.

### ABORIGINAL TRIBES

The aborigines of the Andamans are the remnant of a Negrito race supposed to have been the earliest people to inhabit the continent of South Eastern Asia. The Andamanese are of two types of which the first type is almost extinct now as a result of its contact with civilisation. The other type the Jarawas and Sentinelese are still hostile and the administration is trying to win them over by giving them gifts.

The Government of India have sanctioned a sum of Rs one lakh for the amelioration of aboriginal tribes in the Andaman and Nicobar Islands under the Second Five-Year Plan.

### THE SECOND FIVE-YEAR PLAN

The Plan involves an outlay of Rs 6 crores. Two thousand acres of unproductive forests will be cleared and brought under coconut plantation. The production of timber is to be raised to 75,000 tons per annum by the end of the plan period. Two veterinary hospitals and two veterinary outposts will be constructed. 100 miles of new roads will be constructed.

Some of the important changes envisaged as a result of the implementation of the recommendations of the Andaman Education Committee are : Four new Basic Primary Schools are to be set up in the headquarters area. New Basic Schools will be opened in rural areas. A Senior Basic School for girls will be opened in Port Blair. Social education will be introduced. A School for the Training of Teachers in Junior Basic Education will be set up at Port Blair. The expansion of educational facilities in tribal areas is to be speeded up.

New modern hospitals will be constructed at Port Blair and Car Nicobar. Four Maternity and Child Welfare Centres at Mayabander, Rangat, Wimberlygunj and Car Nicobar, will be opened. Schemes have been included for the expansion and development of co-operative societies. A branch of the State Bank of India is being opened at Port Blair. The annual volume of business is of the order of Rs 80 lakhs for exports and Rs 55 lakhs for imports. The Bank will also take over the Government Treasury business.

### ADMINISTRATION

The Andaman Islands are administered by the President acting through a Chief Commissioner and an Advisory Council of 5 Members. The seat of administration is at Port Blair, which is connected with Calcutta and Madras by a mail steamer which calls approximately once every 3 weeks at Port Blair. The islands are connected to India by wireless telegraphy. An Assistant Commissioner is stationed at Car Nicobar.

The budget estimates for 1955-56 were: Revenue Rs. 1,24,65,000, expenditure Rs. 2,73,71,000.

Chief Commissioner, S. N. Maitra, I.C.S.

Advisory Council, Ghulam Mohammad, Lachman Singh, Uma Pershad, K. S. Govindarajulu, Saw Lu Ku.

## ANDHRA PRADESH

(See under 'Late Particulars')

## ASSAM STATE

Area: 85,012 sq. miles (including N.E.F.A.); Assam: 60,043 sq. miles; N.E.F.A.: 34,969 sq. miles.

Population: 9,043,707 (including some parts of N.E.F.A.).

Capital: Shillong.

The 1951 census which yielded the latest population figures covered only a small portion of N.E.F.A. The total population of N.E.F.A. is very roughly estimated at 800,000.

Of the total population males number 4,812,166, females 4,231,541, urban 414,418, rural 8,629,289. The rural population is subdivided into Agriculture at 6,606,216, Non-Agricultural 2,023,073.

Population according to religion: Hindus 5,894,733; Muslims 1,096,456; Christians 585,399; Buddhists 22,675; Jains 4,245; Sikhs 4,107; Jews 209; Other religions: Tribal 527,712; Non-Tribal 8,144; Zoroastrians 27.

Number of Scheduled Castes: 424,044; Scheduled Tribes: 1,735,245.

Density of population per sq. mile: 179.4. No reliable figures on birth rate, death rate or infant mortality in the State can be found.

Names of Districts with headquarters in brackets: Goalpara (Dhubri); Kamrup (Gauhati); Darrang (Tezpur); Nowgong (Nowgong); Sibsagar (Jorhat); Lakhimpur (Dibrugarh); Cachar (Silchar); Garo Hills (Tura); United Khasi-Jaintia Hills (Shillong) which is also the capital of the state; United North Cachar and Mikir Hills (Diphu); Mizo previously called Lushai Hills (Aizawl); Naga Hills (Kohima).

More than one half of the area of Assam State is covered by hills. Plains: 23,033 sq. miles; Hills: 27,010 sq. miles (excluding N.E.F.A.). The hill areas are sparsely populated and inhabited by the hill tribes. Plains: 7,805,558; Hills: 1,238,149 (including some parts of N.E.F.A., covered by 1951 census).

The hill districts have been given, under the Constitution of India, a large measure of self-governing rights according to their respective tribal traditions and customs, exercised through Autonomous District Councils under the supervision of the Government of Assam.

For purposes of Autonomous District Councils, United North Cachar and Mikir Hills are two Districts: North Cachar Hills (Haflong); Mikir Hills (Diphu). No District Council has so far been formed in Naga Hills.

Number of Circles: In Assam Tahsils are termed as Circles: 50.

Number of Local Boards (District Boards): 15.

Number of Municipalities: 16.

Number of Town Committees: 11.

Number of Cantonments: 1.

Number of Panchayats: 372 (at the end of 1956).

Number of villages: 25,327.

There is no city in Assam. Names of towns with a population of over 50,000 (according to 1951 Census): Shillong: 53,756 (excluding Cantonment area comprising a population of 4,746).

Forty per cent of the population are recorded as speaking Assamese and about 24 per cent Bengali. Other languages spoken in the State are Hindi, Oriya, Mundari, Nepali and a great variety of languages and dialects, classified under the general heading Tibeto-Burman languages.

Number of people speaking the main languages (1951 census): Assamese: 4,972,493; Bengali: 1,719,155; Hindi: 335,688.

### NORTH-EAST FRONTIER AGENCY

The North-East Frontier Agency is situated on the borders of Tibet and Burma and has an area of 34,969 sq. miles.

Inhabited exclusively by hill tribes who have only recently been integrated with the rest of India, this area is administered under express provisions of the Constitution (Sixth Schedule, Part B) by the Governor of Assam acting as the Agent of the President of India. The North-East Frontier Agency is completely separate from Assam administratively.

The Governor of Assam rules the Agency with the help of an Adviser in Shillong and the ultimate responsibility for the area rests with the External Affairs Ministry.

Divisions in the Agency with headquarters in brackets: Kameng Frontier Division, previously known as Se La Sub-Agency (Bomdila); Subansiri Frontier Division formerly known as Subansiri Area (Ziro); Slang Frontier Division, previously known as Abor Hills District (Along); Lohit Frontier Division, previously known as Mishmi Hills District (Tezu); Tirap Frontier Division, previously known as Tirap Frontier Tract (Khela); Tuensang Frontier Division previously known as Tuensang or Naga Tribal Area (Tuensang). Each of these divisions is under the charge of a Police (Political Officer).

The total amount of money spent on development works in NEFA in 1956 was Rs. 35.36 lakhs.

### GEOGRAPHY

Assam has three distinct natural divisions: Brahmaputra or Assam Valley, Surma or Barak Valley and the hills.

The river basins are naturally fertile and present in the main few difficulties to the cultivator. Rainfall being high the problem in general is to dispose of the surplus water and to control the action of floods rather than irrigation in the usual sense.

Rice is the staple food crop. Tea and jute are the most important crops grown for export. Besides, potatoes are also cultivated in Assam. A good deal of short staple cotton and fruits like oranges and pineapples are grown in the hills.

Rainfall is everywhere abundant, and ranges from 50 to 258 inches a year leaving aside the highest recorded rainfall in this part of India with the maximum reached at Cherrapunji in the Khasi Hills 32 miles south of Shillong (905 inches in 1861: record precipitation for one day is 41 inches). This is reputed to be the wettest place in the world. Temperatures are moderate.

Earthquakes of considerable severity have taken place. By far the worst in recent times was that which occurred on August 15, 1950, one of the world's five biggest recorded tremors. According to old records the Assam earthquake of 1897 is regarded as the severest in human history.

### COTTAGE INDUSTRIES

Main cottage industries: Sericulture and Weaving. Principal areas for Sericulture: Sibsagar, Kamrup, Nowgong and Lakhimpur Districts.

Handloom weaving is done in most of the families in Assam. Number of fly and throw-shuttle looms in the State: Nearly 500,000. There are professional weavers in Cachar District and Sualkuchi area in Kamrup District.

1956-57:

Value of total production: Rs. 5,00,00,000.

Value of production of individual industries: Weaving products (Rs. 4,17,80,000); Muga raw silk (Rs. 48,00,000); Mulberry raw silk (Rs. 8,70,000); Open Eri Cocoon (Rs. 25,50,000).

Production of individual industries: Cloth—4,00,00,000 yards; Mulberry raw silk—29,000 lb.; Muga raw silk—1,60,000 lb.; Open Eri Cocoon—5,10,000 lb.

Total number of workers in Cottage Industries: 20,00,000.

Number of workers in individual industries: Weaving (1,280,000), Sericulture (720,000). Almost all these workers are part-time.

Budget grant for the year 1956-57: Rs. 52,33,200.

### AGRICULTURE

Latest available:

Main food crops of the State: Rice, Rape, Mustard, Sugar-cane, Potato, Pulses, Maize and Oranges.

Main cash crops of the State: Tea, Jute, Cotton and Tobacco.

Production of food crops in tons (Figures are for 1954-55): Autumn Rice: 208,480 tons; Winter Rice: 1,383,973 tons; Spring Rice: 9,543 tons; Rape and Mustard: 44,307 tons; Sugar-cane: 56,240 tons; Winter Potato: 95,314 tons; Spring Potato: 33,843 tons; Sweet Potato: 18,470 tons; Pulses, Rabi: 27,032 tons; Tur (Arhar) Pulse: 1,770 tons; Maize: 7,449 tons; Gram Pulse: 1,159 tons; Wheat: 1,390 tons; Other cereals and millets: 836 tons.

Production of individual cash crops in tons: (Figures for Calendar Year 1954) Tea: 352,992,342 lb. (Black Tea: 350,827,039 and Green Tea: 2,164,403 lb.); Jute: 749,519 bales (one bale = 400 lb.); Cotton: 8,398 bales (1 bale = 392 lb.); Tobacco: 7,359 tons; Mesta: 1,576 bales (of 400 lbs each).

Total geographical area of the State including areas now transferred to and forming part of the North-East Frontier Agency: 35,764,120 acres.

Area cultivated: 5,921,971 acres.

Area sown more than once: 840,798 acres (1951-52).

Area under food crops: 4,836,629 acres.

Area under cash crops: (Tea, jute, cotton, tobacco and mesta): 755,289. (Figures for 1954-55)

Area under individual food crops (Figures for 1954-55): Autumn rice (Ahu)—995,958 acres; Winter rice (Sall and Bao)—3,182,076 acres; Spring rice (Boro)—16,529 acres; Rape and Mustard—283,570 acres; Sugar-cane—59,900 acres; Winter Potato: 49,933 acres; Spring Potato: 18,780 acres; Sweet Potato: 13,491 acres; Pulses, Rabi: 173,001 acres; Tur (Arhar) Pulse: 6,104 acres; Maize: 37,772 acres; Gram Pulse: 5,194 acres; Wheat: 7,120 acres; Other cereals and millets: 4,851 acres.

Area under individual cash crops (Figures for 1954-55 unless otherwise mentioned): Tea—384,786 acres. (Figures for Calendar Year 1954) Jute—282,018 acres; Cotton—35,022 acres; Tobacco—23,547 acres; Mesta: 2,816 acres.

The cultivation of oranges, which is a principal crop, is mainly confined to the Khasi-Jaintia Hills which are a non-cadastrally surveyed area. Hence no data available.

Jhum Cultivation: Prevails in the hill districts of Assam. Trees and shrubs on hill slopes selected every year are cut down and burnt and then crops grown on the bald patches. The area is then abandoned for a number of years so that trees may grow again and fertility recouped.

Under this system a particular group of people jointly occupy a particular area. They have no individual right over the land. In lieu of land revenue they pay a sort of tax known as House Tax, Hoe Tax or Dao Tax which generally varies from Rs. 2 to Rs. 3 per family.

Total number of cattle: 5,145,576 (Cows—4,735,606, Buffaloes—475,231), Horses and Ponies—15,690, Sheep—32,604, Goats—917,239, Other livestock—291,920 and Fowls—5,050,724. (1951 livestock census).

Research Institutes: a) Bovine Contagious Pleuro Pneumonia Scheme (Research Institute, Gauhati); b) Cattle Nutritious Scheme (Research Institute, Khanapara, Gauhati).

## PLANTATIONS

### Latest available

1954-55:

Plantation in the State: Tea.

Area under Plantation: 1,407,000, acres.

Number of Plantations (For tea): 971.

Area under Tea: 384,786 acres.

Produce from plantation: Tea: 352,992,312 lbs. (Black tea—350,827,939 lbs., Green tea—2,164,403 lbs.)

Average daily number of workers:

a) Permanent garden labour: 438,717.

b) Permanent outside labour: 32,835.

c) Temporary outside labour: 37,605.

Variety of fish produced: Rahu, Katla, Mrigla, Mail, etc.

Number of fish farms (1955-56): 7 (under Government control)

Fish seed collecting centres (1955-56): 17.

## FORESTS

1955-56:

Total forest area in State: 17,333 sq. miles.

Reserve forests: 6,378 sq. miles; Protected forests: 110 sq. miles; Unclassed State forests: 10,850 sq. miles.

Total area of private forests: 975 sq. miles inclusive of Corporation Forests.

Main types of Forest with some species of trees of economic importance occurring in them:

Evergreen forests, mixed deciduous forests, deciduous and dry deciduous forests, riverain forests, Savannah forests, swamp forests, bamboos and temperate forests.

A large area under forests falls in the hill districts which are sparsely populated and covered with vegetation.

Assam possesses one of the richest fauna in Asia and it is claimed that out-ide Africa, there is no part in the world with so many varieties of animals, birds, reptiles and insects. Rhinoceroses, elephants, wild buffaloes, bisons (called 'Mithans' by most of the hill tribes and the N.E.F.A.), swamp deer, Sambar, spotted deer, barking deer, tiger, copards, black panther, King Cobra, pink-headed duck and Giant Hornbill are some of the well-known specimens of wild life.

Four sanctuaries and two game reserves with a total area of about 500 sq. miles, are maintained by the Government Forest Department for the protection of the interesting and in some cases the numerically dwindling species. Kaziranga and Manas are the two most famous sanctuaries, both nearly the same size, 166 and 162 sq. miles respectively. Kaziranga, in the heart of Assam and situated on the South Trunk, is easily accessible and affords every facility to the visitor to see the famous one-horned rhinoceros from elephant back at close range. The sanctuary at Manas at the foot of Bhutan Hills is the more attractive from the scenic point of view.

Total revenue from forests and total expenditure:

Revenue .. ..	Rs. 86,72,779.
Expenditure .. ..	Rs. 71,65,606.

Main Forest produce with the quantity and value of each variety in brackets:

Timber (7,123,000 cft., Rs. 63,70,440); Firewood (7,878,000 cft., Rs. 1,15,238); Bamboos (6,953,984 Nos., Rs. 1,03,121); Elephants 33 Nos., Rs. 1,24,498); Cane (9,511,875 Rft. and 16,03,475 bundles, Rs. 2,34,305); Lac (547 mds., 24 seers, Rs. 3,457); Elephant Tusks (1 md. 30 seers, Rs. 745); Rhino horns (6 pieces; Rs. 7,690) (1954-55); Thatch (405,704 Nos. and bundles, and leases, Rs. 1,35,159); Fishery (Leases, Rs. 1,558); Stone (2,107,847 cft.; Rs. 85,404); Sand (8,134,624 cft., Rs. 3,09,510); Drugs (1954-55) (Rs. 95,565); Spices (1954-55) (Rs. 450); Incense and Perfumes (1954-55) (Rs. 9,374); Fibres and Flosses (1952-53) (Rs. 346).

Aforestation undertaken during the year:

Artificial regeneration ..	46,771 acres.
Natural regeneration ..	28,706 acres

Total .. .. 75,477 acres

Expenditure—Rs 7,20,690

Grazing allowed: Cows and bullocks: 44,580 Nos.; Buffaloes: 26,133 Nos.; Sheep and Goats: 2,961 Nos.; Other livestock: 564.

Vannamahotsava:

Number of trees planted:

Edible fruits: 37,720

Others: 32,092

Total: 70,322

Number of trees survived:

Edible fruits: 27,950

Others: 20,261

Total: 48,214

Percentage of survivals to planted: 68.5.

## LAND TENURE SYSTEM

There are two classes of land tenure system in the State—the permanently settled estates and the temporarily settled estates.

**Permanently settled estates:** These are found in Goalpara District and Karimganj Sub-division of the Cachar District. The land is held by zamindars having intermediaries under them. The actual tillers of the land are the tenants who hold land either directly under the zamindars or intermediaries. The tenants also pay a fixed amount of rent.

In common with other States having the permanent settlement system, Assam Government has passed laws to end zamindari rights. An area of 12,13,549 acres has already been acquired by Government out of the total permanently settled area of 1,702,055 acres. Government was expected to take over another area of 3,05,433 acres from April 1957 and steps for the acquisition of the rest were in progress. Total compensation: about Rs. 5 crores.

**Temporary settlement system:** Also known as the Ryotwari system. Prevails in the other plains districts of the State. These lands are assessed to full revenue and are called Khiraj lands.

The peculiarity of this system is that generally the cultivators hold lands directly under the Government unlike the lands in permanently settled estates.

The Khiraj lands are again divided into two categories periodic and annual. The periodic landowner has a heritable and transferable right whereas the annual landowner has a right of occupation only and has no right of transfer or subletting. Subject to the payment of the land revenue the owners of annual lands get renewal of the lease from year to year but they have no right to renewal.

Besides these, there are some La-Khiraj (full revenue free) and nia-Khiraj (half revenue free) tenures in Assam and also a number of Fee Simple tenures. These Fee Simple tenures are for cultivation of tea. These tenures are initially revenue-free, but subsequently they have been assessed at full rate of revenue under Assam Revenue Free Waste Land Grants Act; 1948.

There are three tenancy Acts in Assam, viz., The Goalpara Tenancy Act, The Sylhet Tenancy Act and the Assam (Temporarily Settled Districts) Tenancy Act. The former two Acts apply to the Districts of Goalpara and Cachar (those portions of Sylhet District which have remained in Assam after partition) respectively. The last Act applies to the plains districts of Assam. These Acts confer rights of occupancy, determine the rent payable by the tenants and regulate the relationship between the landlords and the tenants. The Assam Adhikars Protection and Regulation Act, 1948, governs the conditions regarding crop-rent payable by the crop-sharing tenants and prescribe the conditions on which the landlord can resume possession for personal cultivation. Government has also passed a bill called the Assam Fixation of Ceiling on Land Holdings Bill whereby it is sought to limit the holding of agricultural lands to 150 bighas (about 50 acres) per family.

## MINES, INDUSTRIES

The only minerals in Assam worked on a commercial scale are coal, limestone and petroleum oil. Petroleum output 8,72,00,000 gallons; coal output 4,72,000 tons; and limestone output approximately 1,00,000 tons. The most extensive coal measures hitherto worked are in the Naga Hills, Lakhimpur District and Khasi-Jaintia Hills. Important deposits also exist in the Garo Hills, but those are yet to be exploited. Limestone is quarried in the Khasi-Jaintia Hills. Petroleum is worked only in Lakhimpur and refined there. An oilfield has been found at Nahorkatiya.

Silk is manufactured in the Assam valley; also cotton weaving prevails as a cottage industry, women playing a predominant part. In this valley there are no caste weavers. In the Surma Valley or Cachar weavers carry on a brisk manufacture on a commercial scale. These handloom products find a ready market on account of the great scarcity of mill made cloth. There is no textile mill in Assam and the entire requirement of mill-made cloth has to be imported from other States.

Tea is the main industry, but there is a large petroleum mining concern with Digboi in Upper Assam as the centre and also some coal-mines. There is a big match manufacturing concern at Dhubri. Boat-building, brass and metal and earthenwares, limestone burning, cane and bamboo work, furniture making, sola hat, smithy, brick making, mustard oil pressing, rice and saw mills are other industries. But agriculture employs about 80 per cent of the population. Assam carries on a considerable trade with the adjoining hill tribes and countries.

Total number of workmen employed in the State in registered factories (1956): 68,611 (Men: 57,723; Women: 8,350; Adolescents: Male: 1,761, Female: 64; Children: 714).

## TRADE

Assam has to import almost every article of daily necessity except rice and paddy to meet the requirements of the population. As there are no production units every type of manufactured goods has to be imported and brought into Assam by the rail link, steamer or air, none of which has so far been able to cope with the demand. Prices have gone up in the State as a consequence of this.

Manufactured goods, textiles, iron and steel, medicine, sugar and pulses are some of the main items of import. Exports from Assam are tea, jute, timber, cane, bamboos and fresh fruits.

## TRANSPORT

Much of the trade of Assam is carried by river.

The rail system in Assam is entirely metre-gauge. Till March 1956 the total mileage was 1447.76, broken down as follows:

Running Track mile ..	1095.50
Transport Siding ..	251.58
Commercial Siding ..	100.62

After Partition the Assam Rail Link was built to connect the State directly with the rest of India but as the line is very close to the Himalayas from which a number of rivers rush down into the plains, it is subject to heavy damage by floods almost every year and through traffic also remains suspended for long periods. The Railway Board has sanctioned certain measures designed to prevent recurring flood damage and dislocation of traffic.

From August 1955, goods traffic to the rest of India was also started through East Pakistan.

A survey for a railway line in Garo Hills has been going on for the purpose of opening up trade in valuable mineral deposits and abundant forest produce.

Because of the slender surface link between Assam and the rest of India, air services are of great value to the state. The first direct link by air between Calcutta and Gauhati was established in 1947. This air service was originally on a non-scheduled basis but very soon it became a daily service. Now almost all the big towns—Tezpur, Jorhat, Dibrugarh, North Lakhimpur and Silchar are served by daily scheduled flights. Dibrui is linked by unscheduled flights. Pasighat in N.E.F.A. has also been placed on the airmap.

Shillong is now reached by the 63-mile nationalised motor route from Gauhati, the nearest railhead, steamer ghat and air station. Assam Government's State Transport carries both passengers and goods on a monopolistic basis on this National Highway, in combination with railway and steamer services on out-gate terms.

Nationalisation of motor transport in the State was started in 1948, and till March 1956, 610 miles were covered. The Second Five Year Plan aims at another 830 miles.

Till March 31, 1956 :

Number of passenger buses : 218

Number of cars : 29

Number of Goods Vehicles : 126

Number of passengers carried in a day : 11,340

Goods carried in a day : 7,870 maunds.

The organisation provides employment to 1,000 persons. Capital invested till March 31, 1956 is Rs. 1,03,00,000. Profit in 1955-56 stood at about Rs. 21,00,000. The State Transport is under the administrative management of a Board, with the Minister for Transport as Chairman.

The programme of road-making has its special significance in that it is designed to make Assam self-sufficient in ensuring quick transport of its exports to and imports from other parts of the Indian Republic without having to pass through Pakistan. At the same time communications within the State are being improved by provision of necessary feeder roads from and to the arterial road system of the State so that local surplus produce may find good markets.

Before independence the State had only 2,610 miles of motorable roads—2,040 miles in the plains and 570 miles in the hills. After the achievement of independence an extensive programme of road-making was taken in hand and on March 31, 1956, the total length of motorable roads stood at 8,827 miles including 797 miles of National Highway. Of these 5,163 miles were in the plains and 1,464 in the hills. Besides, there were on this date about 1,700 miles of bridle roads.

### CIVIL SUPPLIES

Rationing was withdrawn in May 1954, after ten years. There is now no restriction on rice, the staple foodgrain. But in the latter part of 1956, two control orders were promulgated to restrict export of rice, paddy, mustard oil and seeds from Assam, so that a tendency for prices to rise, which had then manifested, could be checked.

Almost all controls on wheat have also been removed. *Bona fide* traders can import wheat from Central Government depots at Calcutta and Siliguri on the recommendation of the State Government. Since there are no flour mills in Assam, the State is dependent on supplies of Maida and Fines from Calcutta.

The entire requirements of sugar, salt, cloth and yarn have to be imported as there is no production unit for any of these commodities.

The demand for sugar prior to decontrol in June 1953 was about 2,500 tons monthly. This has now gone up to 5,000 tons. For the entire quantity Assam depends on mills in other States or on Calcutta for imported sugar. The price fluctuates in the absence of a steady supply.

In the matter of cloth there is no control on movement or price, but the licensing of dealers still continues.

State's requirements : Rice—1,377,000 tons (annual); Wheat—5,000 tons (monthly); Salt—200,000 md. (monthly); Sugar—5,000 tons (monthly); Cloth 5,000 bales per month, Yarn—3,000 bales per month.

### CO-OPERATION

1951-55 :

Total number of Co-operative Societies : 3,788.

Total membership of Co-operative Societies : 307,259.

Total working capital : Rs. 2,91,00,113.

Types of Co-operative Societies and the number of each :

Farming (81); Milk Societies (3); Agricultural Credit (1952-53) (639); Non-Agricultural Credit (168); Non-Agricultural Non-Credit (1952-53) (1,777); Weaving (535); Fishery (73); Industrial (63); Rural Credit (1,509); Central Non-Credit (13); Consumers and Trading (1,289); Primary Land Mortgage Bank (2); Multi-purpose (26); Social Service (8); Sugar Mill (1); Cotton-ginning Mill (1); Co-operative Union (1); Other Types (6).

Number of Banking Unions : 15; Number of Central Banks (Assam Co-operative Apex Bank) : 1 with 17 branches :

Apex Bank :

Working capital .. .. Rs. 158,56,000

Deposits .. .. " 95,63,000

Paid-up share capital .. .. " 14,06,000

Profit .. .. " 2,66,000

Budget allotment for the department for the year 1954-55 : Rs. 10,96,300.

### STATE HELP FOR AGRICULTURE

1954-55 :

Manure distributed and the quantity of each: Rural Compost : 81,472 tons, benefiting an area of 16,906 acres; Additional yield expected : 1,411 tons; Town Compost : 478 tons; Off-cake : 20,115 md., covering an area of 4,177 acres; additional production anticipated : 725 tons; Fertilizers (Bone meal) : 2,610 md., serving an area of 888 acres; estimated additional production : 61 tons; Ammonium Sulphate distributed : 2,800 tons.

Quantity of improved seeds distributed Paddy : 26,734 md.; Pulses : 1,421 md.; Wheat : 530 md.; Mustard : 23 md.

Monetary or other help given by Government to cultivators :

Loans : Rs. 2,05,500.

Government's share of 50 per cent contribution towards irrigation projects : Rs. 5,03,290. Area covered : 1,66,991 acres. Additional outturn 27,838 tons.

Manures and fertilizers are being subsidised by Government.

Number of Agricultural experimental farms : 9 (excluding 9 district seed farms under "Grow More Food").

Plant protection organisation : One.

It has been under the supervision of a Mycologist assisted by an Entomologist since 1949-50. During 1954-55, 25,434 acres of paddy, 2,012 acres of potato, 378 acres of pulses and 191 acres of vegetables were treated against insect pests, in addition to 420,482 maunds of paddy, 2,992 maunds of pulses and 566 maunds of potato treated in storage against pests.

Target for additional production of food crops under "Grow More Food" for the five-year period ending 1955-56 as agreed to by the State Government under seven different schemes for irrigation, reclamation of land, production and distribution of manures, fertilisers and seeds was 230,000 tons.

Highest yield per acre :

Sali Paddy—110 maunds 15 seers per acre—in Lakhimpur.

Potato—463 maunds 8 seers per acre—in Lakhimpur.

Budget estimates for 1956-57 :

	(Rs. lakhs)
Seeds .. ..	5.55
Manures .. ..	7.16
Plant protection .. ..	2.26
Tea Garden Loan .. ..	3.50

### PUBLIC HEALTH

Latest figures available :

Commonest diseases in State and mortality from each disease during 1953.

Diseases	Persons affected	Death
Malaria .. ..	232,636	14,791
Kala-Azar .. ..	16,078	383
Total : All fevers .. ..	not available	33,011
Small Pox .. ..	not available	237
Dysentery and Diarrhoea .. ..	not available	4,432
Respiratory diseases .. ..	not available	4,092
Injuries .. ..	not available	866

Number of Allopathic Hospitals : 95.

Number of Allopathic Dispensaries : Rural—443; Urban—10.

Number of beds in Allopathic Hospitals : 2,689.

Number of Ayurvedic Dispensaries : Rural—6.

Types of special hospitals and the number of each : T.B. Hospital—1 (97 beds); Mental Hospital—1 (716 beds); Leprosy Hospitals—10 (721 beds); Kala-Azar Hospitals—3 (142 beds).

Total number of Allopathic doctors (Rural and Urban)—3,137.

Total number of Ayurvedic doctors (Rural and Urban)—117.

Total number of Nurses—609.

Total number of Midwives—403.

Total number of Dhals (Rural and Urban)—430.

Total number of Compounders—1,982.

Total number of indoor patients treated in Hospitals in 1953—38,121.

Total number of outdoor patients treated in Hospitals during 1953—1,786,422.

Total number of Government Hospitals—60.

Total number of Government doctors : Allopathic—367, Ayurvedic—12.

Total number of Government Nurses : 190.

Total number of Medical Colleges : Allopathic—1; Ayurvedic—1.

Total number of Students : Allopathic—430; Ayurvedic—43.

Special Medical Research Institute—1 (Pasteur Institute).

Budget allotment for Public Health for 1954-55—Rs. 47,62,000.

**EDUCATION**

The information furnished below relates to the year 1955-56.

**Elementary Schools :**

Total number of elementary schools—13,510.  
Total enrolment: 802,244 (boys 523,096; girls 279,148).

Total number of teachers: 21,247.  
Total expenditure: Rs 1,08,01,517 (excludes expenditure on unrecognised institutions).  
Contribution by State Government: Rs. 93,58,514.

By Local Bodies: Rs. 2,56,029.  
By Private agencies: Rs. 8,46,283.

**Nursery Schools :**

Total number of Nursery Schools: 21 (boys 6; girls 15).

Total enrolment: 820 (boys 377; girls 452).  
Total number of teachers: 31.

Number of schools with Nursery classes attached: 15 (urban areas 3, rural areas 12).  
Total enrolment in such classes: 85 (1954-55).

Total expenditure on Nursery Schools: Rs. 37,305 (excludes expenditure on unrecognised institutions).

**Secondary Schools :**

Total number of Secondary Schools for boys: 1,763; for girls: 207.

Total enrolment: 281,281 (boys 214,121; girls 67,160).

Total number of teachers: 12,062.  
Total expenditure on Secondary Education: Rs. 1,42,72,335.

Contribution by State Government: Rs. 73,75,974.

By Local bodies: Rs. 1,26,729.  
By Private agencies: Rs. 15,11,373.

Fees: Rs. 49,72,537.

**European and Anglo-Indian Schools :**

Number of European and Anglo-Indian Schools: 4.

Total enrolment: 1,105.  
Total Government grant: Rs. 64,723.

**Sanskrit Tols :**

Number of Sanskrit tols: 137.  
Enrolment: 1,055.

Government grant: Rs. 31,416.

**Arabic Madrasahs :**

Number of Arabic Madrasahs: 109.  
Total enrolment: 10,100.

Government grant: Rs. 73,232.

Number of Elementary schools owned by State Government: 1,626; by School Boards: 9,515; by Private agencies: 2,369.

Number of Secondary schools owned by State Government: 160; by Central Government: 2; by Local Bodies: 478; by Private agencies: 1,318.

Number of Colleges owned by State Government: 1; by Local Bodies: Nil; by Private agencies: 23.

Number of teachers' training institutions owned by State Government: 15; by Local Bodies: 11; by Private agencies: 8.

Number of commercial and technical institutions owned by State Government: 19; by Central Government: 1; by Local Bodies: 1; by Private agencies: 21.

Number of European and Anglo-Indian Schools owned by State Government: 1; by Private agencies: 3.

Number of Sanskrit Tols owned by State Government: Nil; by Private agencies: 137.

Number of Arabic Madrasahs owned by State Government: 1; by Private agencies: 108.

Number of nursery schools owned by State Government: 2; by Private agencies: 19.

**Schools for Defectives :**

Total number of schools for defectives: 1 (Deaf and Dumb).

Total enrolment: 35.

Number of teachers: 2.

Government grant: Rs. 6,726.

**Schools for Social Education :**

Number of Institutions: 739.

Number of teachers: 739.

Total expenditure: Rs. 1,89,529.

Contribution by State Government: Rs. 1,89,529; by Private agencies: Rs. 4,930 (1954-55).

**Training Institutions :**

Total number of teachers' training institutions: 34 (for men 29; for women 5).

Number of training institutions which confer degrees: 1 (Teachers' Training Class attached to Gauhati University).

Total number of new trained teachers available for staffing elementary schools in a year: 662.

Total number of new trained teachers available for staffing secondary schools in a year: 825.

Total expenditure on teachers' training institutions: Rs. 7,83,757.

Contribution by State Government: Rs. 7,61,628; By Local Bodies: Rs. 1,350; by Private agencies: Rs. 16,355; Fees: Rs. 1,426.

**Commercial and Technical Institutions :**

Total number of Commercial and Technical Institutions: 42 (Commercial: 18; Technical: 24).

Total enrolment: 3,503 (Commercial Institutions: 1,756; Technical Institutions: 1,807).

Total number of teachers: 235 (Commercial: 51; Technical: 184).

Total expenditure: Rs. 12,53,045 (excludes expenditure on unrecognised institutions).

Contribution by State Government: Rs. 1,54,000; by Central Government: Rs. 2,38,749; by Local Bodies: Rs. 4,018; by Private agencies: Rs. 50,317; Fees: Rs. 75,666.

**Research Institutions :**

Kamrup Anusandhan Samity, Gauhati.  
Assam Provincial Museum, Gauhati.  
Assam Paribhasa Committee, Gauhati.  
Assam Sahitya Sabha.

**Universities :**

Number of Universities: One.

**Colleges :**

Number of colleges: 23.

Total number of women's colleges: 3.

Total enrolment: 12,336 (boys 10,645; girls 1,651), including enrolment in unrecognised colleges.

Total number of teachers: 445.

Total expenditure on Collegiate Education: Rs. 20,23,153.

Contribution by State Government: Rs. 7,19,645; By Central Government: Rs. 22,029; By Private agencies: Rs. 85,940; Fees: Rs. 11,95,530.

**Professional Colleges :**

Total number of Professional Colleges: 5.

Number in each category—Medical: 1; Agriculture: 1; Veterinary: 1; Law: 1; Ayurvedic: 1.

Total enrolment: 1,345.

Total enrolment in each category: Medical: 449; Agriculture: 130; Veterinary: 355; Law: 385; Ayurvedic: 26.

Total number of teachers: 84.

Total expenditure on Professional Education: Rs. 11,90,746.

Contribution by State Government: Rs. 1,04,926; by Private agencies: 8,445; Fees: Rs. 1,83,040.

The grant given by the Central Government under Article 275 of the Constitution for education of backward classes: Rs. 19,72,500.

Elementary education is compulsory in selected Plains areas in the State for children of the age group 6-11.

Total number of children of school-going age in areas under compulsion: 312,162.

In 1954-55, the number of Primary Schools maintained by the State Primary Education Board: 10,060.

Total enrolment: 641,700.

Number of teachers: 16,112.

Government expenditure: Rs. 92,18,190 (excluding contribution by local bodies).

The Assam Elementary Education Board has made arrangements for the training of 700 teachers annually.

**SOCIAL EDUCATION**

Number of Social Education Centres organised so far throughout the State: 739.

In order to cater for the post-literacy courses 429 village libraries were given grants-in-aid in 1956.

Adults both male and female are generally admitted into the Social Education Centres. Total number admitted: 39,771 men; 4,295 women.

Total budget for the scheme in the State: Rs. 3,65,900.

Number of adults who appeared in the literacy tests held every year from the Social Education Centres: Male—30,837; Female—3,131.

Number of adults who came out successful: Male—21,056; Female—2,503.

Number of teachers in Social Education Centres: 739.

**Hindi in the Education System :**

With a view to introducing Hindi in all secondary schools in the State as a compulsory subject from class IV onwards, it is proposed to introduce Hindi as compulsory subject in 130 institutions every year.

Total number of schools where Hindi has been introduced as a compulsory subject: 464.

The number of candidates who appeared at the different examinations conducted by the Assam Rastrabhasa Prachar Samity: Pratham—10,772; Prabhasika 3,876; Probh—1,192; Bisharad—419.

**Basic Education :**

The Scheme for Basic Education was first introduced in this State only in the year 1949-50 on the lines of the Wardha Education Scheme.

Due attention was paid to the productive side of Basic Education.

It is expected that the existing 5 training centres with Basic Schools under them will earn on an average Rs. 1,000 per centre.

**LABOUR**

Average daily number of workers in registered factories at the end of November 1956: 68,611 (Adults: men 57,723; women 8,359; Adolescents: male 1,751; female 64; Children: boys 657; girls 57).

Names of industries in which a minimum wage is fixed: Tea Plantation, Motor Transport, Rice and Oil Mills, Agriculture, Road Construction, Building Operation and Stone-breaking or crushing.

Average monthly earnings of workers in some of the more important industries (In March 1956) (earnings include basic wage as well as other cash remunerations like dearness allowance and overtime; basic wages are shown in brackets):—Plantations: Rs. 44-4 (Rs. 29); Tea factories: Rs. 55-12 (Rs. 38-12); Rice Mills: Rs. 60-8 (Rs. 55-12); Plywood factories and Saw Mills: Rs. 94 (Rs. 52); Match factory: Rs. 115 (Rs. 55); Petroleum: Rs. 199 (Rs. 105).

Total number of Trade disputes for the year 1955: 6,012.

Total number of Strikes (October 1955-September 1956): 11 (8 in plantations).

Total number of workers affected: 1,970 (1,883 in plantations).

Number of Man-days lost : 6,278 (4,354 in plantations).

Number of registered Trade Unions in State (October 1956) : 168.

Total membership of Trade Unions (March 1956) : 201,101.

Number of Labour Welfare Centres in State : 20.

Number of houses built through the Industrial Housing Scheme : 11. In the tea industry in 1954-55 3,230 houses of the type approved by the Government were constructed, and 521 old houses adapted to the approved standard.

### COMMUNITY PROJECTS

The Community Development Projects and Blocks and the National Extension Service Blocks taken up in the State till October 1956 cover a total area of about 17,000 sq. miles with a population of approximately 2,862,000 (about 32 per cent of the State population) in about 9,900 villages.

### HOUSING

Housing authority : Housing Board, Assam. Finance available for housing : Schemes are entirely financed by loans and subsidies from the Government of India, Ministry of Works, Housing and Supply except that for slum clearance schemes a matching subsidy is given by the State Government. Staff expenses for all schemes are borne by the State Government. Allotment by Government of India for the Second Five-Year Plan period : Rs. 1,23,50,000.

Types of houses built : 2. Tenements for municipal sweepers at a ceiling cost of Rs. 3,500 per tenement, and residential houses by private individuals with no prescribed ceiling.

Rents charged : For tenements for municipal sweepers : Nil; for residential houses : does not arise.

Financial help given to local bodies : To Municipalities for sweepers' tenements, 80 per cent of the estimated cost of construction or Rs. 2,800 per tenement, whichever is less.

The Housing Board advances loans also to private individuals for construction of residential houses at the rate of 80 per cent of the cost of construction or Rs. 8,000, whichever is less.

By December 31, 1956, 12 tenements and 60 residential houses were built. Target number of tenements : 314. Loans were granted for 416 residential houses.

Schemes for implementation during Second Five Year Plan period : Development of building sites—Rs. 5,00,000; Loans to Local Bodies—Rs. 5,00,000 from Government of India and Rs. 10,00,000 (in 1956-57 only) from State Government; Plantation labour housing scheme Rs. 35,00,000; Slum clearance—Rs. 9,00,000; Subsidised industrial housing scheme—Rs. 9,00,000; Loans to individuals and co-operatives Rs. 60,50,000.

### THE ASSAM FINANCIAL CORPORATION

('Glencorquahrt', Shillong)

The Corporation came into being on 14th August 1954.

Aims and objects : To contribute to the industrialisation of the State by providing credit, medium and long term to industrial concerns present or future in Assam.

Authorized capital : Rs. one crore divided into one lakh shares.

The one lakh shares are distributed as below :

1. Government of Assam	50,000
2. Reserve Bank of India	20,000
3. Scheduled Banks, Insurance Companies, Co-operative Banks and other financial institutions.	25,000
4. Parties other than those referred to above	5,000

Total number of applications received : 175.

Total number of applications accepted for loan : 35.

Total amount of loan sanctioned : Rs. 53,95,000.

Total amount of loan advanced : Rs. 20,41,605.

Rate of interest charged : Six per cent to seven per cent.

	Rs.
Income	3,60,134
Expenditure	87,031
Profit	2,73,103

### POPULATION OF DISTRICTS

Assam Districts.	Total	Males	Females	Rural	Urban

K. K. Handiqui, M.A. (Cal. et Oxon.).

**REGISTRAR**

P. Datta, M.A., B.L.

Teaching, Affiliating and Residential.

Subjects where provision exists for post-graduate and research :

Assamese, Philosophy, Economics, History, Education, Mathematics, Statistics, Botany, Commerce, English, Physics, Chemistry, Geology, Anthropology and Teachers' Training in the method of teaching English.

Number of colleges affiliated : 23 (including one constituent college).

Number of students : Affiliated Colleges : 11,590 ; University Departments : 1,393.

**Grant from State Government :**

Annual recurring grant of Rs. 6,00,000.

Receipts : Rs. 30,01,187-13-0 (1955-56).

Expenditure : Rs. 18,46,069-10-3 (1955-56).

**LIST OF COLLEGES**

Assam Agricultural College, Jorhat.  
 Assam Medical College, Dibrugarh.  
 Assam Veterinary College, Gauhati.  
 B. Barooah College, Gauhati.  
 B.N. College, Dhubri.  
 Cotton College, Gauhati.  
 D' C' Baruah Girls' College, Jorhat.  
 Dibrugarh H.S. Kanol College, Dibrugarh.  
 Darrang College, Tezpur.  
 D.M. College, Imphal (Manipur).  
 Gurucharan College, Silchar.  
 Handiqui Girls' College, Gauhati.

J.B. College, Jorhat.  
 Karimganj College, Karimganj.  
 Lady Keane Girls' College, Shillong.  
 M.C. College, Barpeta.  
 Nalbari College, Nalbari.  
 Nowgong College, Nowgong.  
 Sibsagar College, Sibsagar.  
 St. Anthony's College, Shillong.  
 St. Edmund's College, Shillong.  
 St. Mary's College, Shillong.  
 University Law College, Gauhati.

**CHAMBERS OF COMMERCE**ASSAM CHAMBER OF COMMERCE,  
SHILLONG.

President, J. N. Dawri.

Vice-Presidents, H. Banerji ; S. D. Goswami.

Hon. General Secy, A. S. Mann, Major A.M.C. (R).

# BIHAR STATE

Area : 87,164 sq. miles.  
Total Population : 38,770,562.  
Capital : Patna.

See note on the Bihar and West Bengal (Transfer of Territories) Act, 1956, on page 337.

**Administrative Divisions:**—Patna, Bhagalpur, Tirhut and Chota Nagpur.

Districts with names of District Headquarters in brackets in each Division :

**Patna Division :** Patna (Patna); Gaya (Gaya); Shahabad (Arrah).

**Tirhut Division :** Muzaffarpur (Muzaffarpur); Saran (Chhapra); Champaran (Motihari); Darbhanga (Laheriasaral).

**Bhagalpur Division :** Bhagalpur (Bhagalpur); Monghyr (Monghyr); Purnea (Purnea); Santal Parganas (Dumka); Saharsa (Saharsa).

**Chota Nagpur Division :** Ranchi (Ranchi); Hazaribagh (Hazaribagh); Palamau (Daltonganj); Singhbhum (Chaibassa); Dhanbad (Dhanbad).

Number of Districts : 17; Number of District Boards : 17; Number of Municipalities (including Patna Municipal Corporation) : 52.

Number of Notified Area Committees : 14; Number of Panchayats : 7,936 (March 31, 1956). Names of towns with a population of over 50,000 : Patna, Monghyr, Jamshecpur, Muzaffarpur, Gaya, Chhapra, Bhagalpur, Arrah, Ranchi and Darbhanga.

Number of towns 113; number of villages 71,378.

## GEOGRAPHY

Bihar lies between 20°30' and 27°30' N. latitude and between 82°31' and 88°26' E. longitude and includes the former States of Serakella and Kharsawan. It is bounded on the north by Nepal and the Darjeeling District of West Bengal, on the east by West Bengal, on the south by the State of Orissa; and on the west by Uttar Pradesh and Madhya Pradesh.

The area of the territories which constitute the Governorship of Bihar is 87,164 square miles. The State comprises the plateau-land of Chota Nagpur and the valley of the Ganges from the spot where it issues from the territories of the Governor of Uttar Pradesh till it enters West Bengal near Rajmahal. Following the main geographical lines, there are four Civil Divisions with headquarters at Patna, Muzaffarpur, Bhagalpur and Ranchi. The headquarters of Government are at Patna. The new capital which lies between the Military Cantonment of Dinapore and the old civil station of Bankipore is known as "Patna," the old town being called "Patna City."

Bihar is more thickly populated than Germany. Hindus form an overwhelming majority of the population. Though Muslims form about one-tenth of the total population they constitute more than one-fifth of the urban population of the State. Animists account for 6 per cent. These are inhabitants of the Chota Nagpur plateau and the Santal Parganas, the latter district being a continuation of the plateau in a north-easterly direction.

Although there is a great deal of mineral wealth in Chota Nagpur and important industries are developing in connection with it, still for the bulk of the population of the State agriculture continues to be the basic occupation. Over 80 per cent of the population depends wholly on agriculture, while only 7.8 per cent depends on industries.

The soil throughout the whole of that portion of the Indo-Gangetic plain lying within the State boundaries is extremely fertile, particularly in North Bihar, in parts of which the density of the population is more than 900 people to the square mile. The State occupies a transitional position between Ganges delta with its damp climate so suitable for the paddy crop and the States to the north and west where large irrigation schemes have had to be provided to enable the soil to produce its bounty.

As in the delta of the Ganges, rice is by far the most important crop as it occupies normally an area of approximately 12 million acres or over 50 per cent of the net cropped area of the State. As canal irrigation is available only in the Sope Valley and to a moderate extent in Champaran District, the importance of the south-west monsoon to the State of Bihar cannot be overestimated.

In addition to the rice crop, however, other grain crops are grown on a tolerably large scale. Of the monsoon cereals, maize, wheat and barley are extensively grown. The cultivation of oilseeds like castor, mustard and linseed forms a large and important part of the agriculture of Bihar.

After Uttar Pradesh, Bihar is the most important white sugar area in India, some 23 per cent of the total production of white sugar in the country being turned out in Bihar factories.

Jute has been an important crop and is confined almost entirely to the Purnea District part of which has gone to West Bengal after reorganization.

Tobacco is a crop of increasing importance in the State and one which is likely to expand in importance.

A State Finance Corporation was set up on December 6, 1954, with an authorized capital of Rs. 2 crores.

## LARGE-SCALE INDUSTRY

The large-scale industries are :

Iron and Steel, Aluminium, Lead, Foundry, General and electrical engineering, Bicycles, Tanning, Leather goods and foot-wear making, Sulphate of ammonia, Hume pipe and R.C.C. products, Asbestos products, Glass and glass-ware, Ceramics, Cement, Heavy chemicals, Woollen textiles, Cotton textiles, Jute textiles, Silk and Art silk, Tobacco, Distilleries, Bezol, Sugar, food industries, Roller flour mills, Mica and Shellac.

The number of registered factories in Bihar in 1956 : 4,575

The number of factories worked and workers engaged are as follows : The first figure gives the number of factories and the second the number of workmen (1954) : (3,726; 170,347).

The figures below are for 1953 unless otherwise stated :

Iron and steel (1954) : (4; 37,096); Copper (1; 1,701); Aluminium (1; 330); Lead (1; 233); Sugar (29; 21,641); Cement (6; 4,231); Refractories (8; 6,200); Mica (137; 11,608); Bidi (327; 13,153); Glass (2; 1,388); Coke ovens (5; 1,674); Jute mills (3; 5,839); Cotton mills (2; 1,365); Woollen mills (1; 602); Cigarettes (1; 2,540); Pulp and paper (1; 1,218); Shoe (1; 682); Tannery (1; 290); Sindri (1; 5,520); Rice mills (348; 6,074); Oil mills (317; 2,790); Shellac (94; 3,407).

## COTTAGE INDUSTRIES

The main cottage industries in the State :

(A) Textile industries : 1) Cotton Weaving, 2) Hand spinning and khadi industries, 3) Sericulture, 4) Mulberry silk, 5) Eri silk, 6) Tassar silk, 7) Wool sheaving, spinning and weaving, 8) Dyeing and printing, 9) Tailoring, embroidery and Zardozi, 10) Twine and rope making.

(B) Wood working industries : 1) Sewing, 2) Village Carpentry, 3) Furniture making, 4) Bamboo work and Basketry, 5) Palm leaves products, 6) Handmade paper making, 7) Charcoal burning, 8) Manufacture of toys, combs, flutes, drums, hooks, lathis, etc.

(C) Metal Industries : 1) Village Smithy, 2) Cutlery, 3) Manufacture of trunks, etc., 4) Brass and bell metal work, 5) Gold and Silver smithy.

(D) Leather and allied industries : 1) Tanning, 2) Foot-wear and leather goods making, 3) Manufacture of manure from dead animal, 4) Mother of Pearl button making.

(E) Ceramics Industries : 1) Village pottery, 2) Brick making, 3) Manufacture of stoneware and porcelain articles, 4) Lime.

(F) Chemical Industries : 1) Shellac manufacture, 2) Extraction of saltpetre, 3) Soap making, 4) Kath making, 5) Miscellaneous chemical industry.

(G) Miscellaneous cottage industries.

## MINERALS (1954)

Chief Minerals	Quantity
Iron ore .. .. .	1,047,098 tons
Coal .. .. .	19,166,613 "
Mica .. .. .	73,047 cwt.
Manganese .. .. .	35,262 tons
Kyanite .. .. .	41,874 "
Asbestos .. .. .	1,557 cwt.
Copper ore .. .. .	342,383 tons
Chromite .. .. .	1,614 "
Stearite .. .. .	142,000 cwt.
Slate .. .. .	25 tons
Limestone .. .. .	3,68,306 "
Igneous rocks .. .. .	471,359 "
Fireclay .. .. .	30,456 "
China clay .. .. .	21,779 "
Silica .. .. .	15,155 "
Bauxite .. .. .	31,408 "

The distribution of the minerals is as follows : Coal in Jharia, Bokaro, Kurnapur, parts of Raniganj; iron ore in Noamundi, Gua, Buda Bane in Singhbhum District; mica in a 90-mile long and 20-mile broad belt extending from Gaya District through Hazaribagh to Monghyr and Bhagalpur Districts; copper at Rakha, Mosaboni, Dhoabani and Badia in Singhbhum; bauxite at Pakripur, Serendag in Ranchi District and at Netarhat in Palamau District; limestone at Banjari, Rohitas, Banila in the districts of Shalabhad, Palamau, Hazaribagh and Singhbhum; China clay in Singhbhum, Dhanbad, Bhagalpur and Santal Parganas; Fire clay at Jharia and Daltonganj in Monghyr and Singhbhum Districts; manganese in Singhbhum District; kyanite at Lapsa Bura, Ghaghdi, Kanyaluka in Singhbhum and Dhanbad Districts; stearite at Belajapahar, Digha, Bhatadari and Narda in Singhbhum District and Fakhukata in Dhanbad District; chromite near Chaibassa; pyrites in Shahabad District; graphite in Palamau and Chota Nagpur, apatite at Nandup, Pathargara, Badia, Sunrui in Singhbhum District; antimony at Hissati in Hazaribagh District; asbestos at Barhna and Saranghori in Serakella State and in Monghyr District; ochre in Singhbhum District and in Rajmahal hills in Santal Parganas; tungsten at Tatanagar; uranium deposits have also been located in Bihar.

Workers employed in mines in 1954. Iron ores—15,119; Coal—177,192; Mica—16,102; Kyanite—1,642; Manganese—606; Chromite—246; Copper ore—4,036; Asbestos 108; Limestone—6,182; China clay—2,245; Stone (igneous rock)—2,875; Fire clay—265; Bauxite—491.

## AGRICULTURE (1954-55)

Figures are for 1954-55 unless otherwise stated :

Main food crops : Rice, Wheat, Barley, Maize, Gram.

Total production of food crops and total area under food crops : 5,299,000 tons, 17,738,825 acres.

Production of each food crop : Rice (4,148,000 tons) (1953-54); Wheat (426,362 tons); Barley (190,271 tons); Maize (254,000 tons); Gram (262,739 tons).

Main cash crops : Sugarcane, Jute, Chillies and Tobacco.

Total production of cash crops and total area under cash crops (1953-54) : 1,852,440 tons and (jute) 601,000 bales; 693,582 acres.

Production of each cash crop (1953-54) : Sugarcane (1,842,787 tons); Jute (601,000 bales of 400 lb. each); Chillies (21,000 tons); Tobacco (9,703 tons).

Area under cash crops : Chillies (50,910 acres), Sugarcane (326,956 acres), Jute (265,733 acres), Tobacco (28,929 acres).

There are about 4 lakh cane-growers in Champaran, Saran, Darbhanga and Muzaffarpur. Tobacco is grown in Muzaffarpur, Monghyr, Purnea, Darbhanga; and jute in Purnea part of which has gone to West Bengal after reorganization.

Variety of fish produced (inland) : Carg, Cat-fishes, feather backs, Murrells and miscellaneous.

Estimated production of fish : 10 lakh maunds valued at Rs. 7 crores approximately.

Estimated fishing population : 22 lakhs.

#### FORESTS (1955-56)

Total forest area : 13,652 square miles. Types of forests : Mainly sal.

Total revenue from forests for 1955-56 : Rs. 84,88,000 and total expenditure : Rs. 82,84,000.

The following is the latest information available in 1956-57 :

Main forest produce	Quantity
Timber .. .. .	3,248,000 c.ft.
Fuel .. .. .	4,036,000 "
Bamboo .. .. .	9,173,000 Nos.
Sabalgrass .. .. .	22,255 mds.

An afforestation division has been functioning since 1951. An area of 5,500 acres was afforested upto 1955-56.

**Livestock (1953-54).**—Total number of Cattle: 18,600,000; Cows 6,850,900; buffaloes 5,300,000; working bulls (cattle over 3 years) 6,500,000; bulls (buffaloes) over three years 680,000; horses and ponies 800,000; sheep 1,000,000; goats 5,000,000; donkeys 40,000; mules 2,000; camels 1,000; pigs 700,000.

**Poultry (1953-54):** Hens 2,100,000; cocks 1,600,000; chickens 4,000,000; ducks 200,000; drakes 100,000; ducklings 200,000.

#### TRANSPORT (1955-56)

Total mileage of roads : 7,911 miles; metalled roads, 5,378 miles; unmetalled roads: 2,563 miles.

Total mileage of waterways : Length open to navigation : 300 miles.

Transport is nationalized in Seraikeella, Jamshedpur, Patna District, Gaya District and on Patna-Ranchi trunk road and Monghyr-Bhagalpur road. Total mileage nationalized upto 1954 was 1,011.

Total mileage covered, specific areas (1953-54) : Main Scheme 338 miles; Jamshedpur 23 miles and Seraikeella 96 miles.

After nationalisation, only the third class fare was increased by 25 per cent.

A five-year plan has been drawn up by the Government for expanding nationalised transport.

#### TRADE

Statement showing exports and imports during 1954-55. The first three items in numbers, rest in maunds.

Article.	Exports.	Imports.
Horses, ponies, mules .. .. .	141	100
Cattle (excluding sheep and goats) ..	61,740	42,289
Sheep and goats .. ..	115,252	616
Bones .. .. .	223,374	2,221
Cement .. .. .	12,819,812	629,108
Coal and coke .. .. .	2,61,446,986	32,694,477
Cotton twist and yarn (Indian) .. ..	7,556	87,447
Cotton piecegoods (Indian in bales) ..	8,252	494,371
Dyes and tans (Myrobalans) .. ..	10,529	9,872
Fruits dried .. .. .	9,076	116,535
Glass .. .. .	188,698	79,717
Maize .. .. .	14,297	522,270
Jawar and Bajra .. ..	17,820	61,241
Hemp, Indian and other (Fibres excluded) .. .. .	28,092	2,886
Hides (raw) .. .. .	290,681	5,425
Skin (raw) .. .. .	31,670	508
Hides and skins (tanned) and leather .. .. .	12,340	5,953
Jute (loose) .. .. .	50,856	20,297
Jute (Pucca bales) .. ..	1,715,231	4,462
Gunny bags and cloths .. .. .	379,109	327,092
Iron and steel bars, sheets, girders and other commercial forms of iron and steel ..	16,758,741	2,616,537
Lac and shellac .. ..	106,216	49,501
Manganese ore .. .. .	3,731,778	1,953
Oil cakes .. .. .	5,358	4,907
Kerosene oil .. .. .	47,469	2,384,037
Vegetable oil .. .. .	—	—
Coconut .. .. .	10,454	76,981
Castor .. .. .	12,758	9,050
Groundnut .. .. .	10,307	135,390
Salt .. .. .	43,254	4,061,056
Sugar .. .. .	1,338,882	1,881,813
Gur .. .. .	87,244	240,464
Tea .. .. .	12,932	49,708
Tobacco (raw) .. .. .	182,203	101,620
Wood and timber .. ..	11,024	41,814

#### IRRIGATION (1955-56)

Area irrigated by Government irrigation works : 952,275 acres; private canals : 767,699; tanks : 1,208,075 (1953-54); wells : 559,653; other sources : 1,420,247; tube-wells : 68,000 (1953-54).

The larger irrigation works are Sone Canal covering Shahabad, Patna and part of Gaya District; Tribeni Canal, Dhaka Canal and Teur Canal covering Champaran; and Sakri Canal covering Gaya, Patna and Monghyr Districts.

During the First Five-Year Plan period (up to March 1956), 4,953 minor irrigation works, 10,545 surface wells, 7,082 open borings and 408 medium irrigation works and 116 tube-wells were completed by the Agriculture Department in connection with the Grow More Food Scheme. In addition, 3,504 Rahat pumps were also sold. Besides about 13,586 tons of phosphate fertilisers, including bone meals, 67,355 tons of Ammonium sulphate and 311,000 tons of town compost, 65 lakh tons of rural compost and 1,560 maunds of green manure seeds were supplied to farmers during the First Five-Year Plan period. Improved seeds of potato and other crops were also distributed. During the year 1955-56, 3,742 minor irrigation schemes were completed by the Revenue Department. The total number of such schemes executed during the period 1948-49 to 1955-56 (December) is 46,470 benefiting an area of 913,020 acres.

As regards major and medium irrigation projects, 8 irrigation schemes, 29 drainage schemes, 13 flood protection schemes and seven river training schemes have been completed in North Bihar during the First Five-Year Plan period at a total cost of Rs. 2 crores 30 lakhs. The total area benefited by these schemes comes to about 8 lakh acres. Further 66 more schemes, consisting of 5 irrigation, 33 flood control, 26 drainage and 3 river training schemes are either in progress or proposed to be taken up shortly at a total estimated cost of Rs. 11 crores. An area of 11 lakh acres is likely to be benefited by these schemes.

In South Bihar 61 irrigation schemes were completed during the First Plan period up to 31st March 1956. The Mayurakshi left bank works have been completed at a cost of Rs. 81 lakhs, and it is likely to benefit an area of 20,000 acres of land during Kharif and 5,000 acres during rabbi season. 450 tube-wells have been sunk in reserve areas of sugar factories and in Community Project areas of North Bihar. In South Bihar 499 tube-wells have been sunk under various schemes.

In all, the additional area, which will be assured of irrigation by the First Five-Year Plan Schemes, is about 10 lakh acres. In addition, nearly 14 lakh acres will be benefited by flood control measures.

#### Irrigation Projects

Name of Project.	District/Area benefited.	Date begun.	Date for completion.	Total Cost (Rs. in Lakhs.)	Development Expenditure—Five Years 1951-56 (Rs. in Lakhs.)	Area to be irrigated on completion in '000 acres.
300 tube-wells in North Bihar	Champaran, Muzaffarpur, Darbhanga and Saran	1950-51	1955-56	1,83	1,74	120
Tube-wells in South Bihar	Shahabad and Patna	1946-47	....	1,48	85	114
Drainage of chauras and other small irrigation and flood protection schemes	Patna, Gaya, Shahabad, South Monghyr, Bhagalpur and Santhal Parganas	1948-49	....	3,75	1,18	115
Sakri (Lower Valley) Scheme	Monghyr and Gaya	1948-49	....	35	10	50
Tribeni canal extensions	Champaran	1950-51	1955-56	28	23	28
Emergency pumping schemes	Entire State	1951-52	1955-56	93	93	90
Further 300 tube-wells in sugar factory areas	North Bihar	1953-54	1955-56	1,61	1,61	120
Sakri (Upper Valley) Irrigation	Gaya	1952-53	1957-58	93	53	60
Further 200 tube-wells in South Bihar	Gaya, Patna, Shahabad, North Bhagalpur and North Monghyr	1952-53	1955-56	98	98	80
Irrigation dams and weirs in hilly districts	Chota Nagpur and Santhal Parganas	1951-52	....	2,00	1,58	75
<b>TOTAL</b>				<b>14,14</b>	<b>9,73</b>	<b>852</b>

## Power Projects

Project	Area	Date begun	Date for Completion	Five-Year Cost (Rs. in lakhs)	Plan Target (kW.)
P.B.E.B. scheme in emergency tube-wells Irrigation scheme (electrical)	Patna-Barh, Bhaktiarpur, Ekargasara, Bihta	1949-50	1955-56	79.33	2,700
Dehri-Sasaram lift Irrigation and electrification scheme	Dehri-Sasaram and the neighbourhood	1949-50	1955-56	41.51	1,700
Gaya electric supply scheme	Gaya and the neighbourhood	1949-50	1955-56	83.21	950
Hazaribagh electric supply scheme	Hazaribagh and the neighbourhood	1950-51	1955-56	21.23	800
Kodarna and Mica mines electrification scheme	Kodarna and neighbouring mica mines and villages	1950-51	1955-56	47.92	3,000
Coal mines area electrification scheme	Coal mines area	1951-52	1955-56	154.50	6,750
Taking over of derelict electric supply undertakings	Sahebganj, Muzaffarpur, Monghyr and Darbhanga	1952-53	1955-56	3.63	3,150
Girdih electric supply scheme	Girdih township and neighbourhood	1950-51	1955-56	18.6	700
Girdih-Madhopur-Jasidih electric supply	Girdih - Madhopur - Jasidih and Deogarh	1952-53	1955-56	34.21	1,150
North Bihar tube-well and electrification scheme	Northern areas of Bihar State	1950-51	1955-56	198.98	4,050
Buxar tube well and electrification scheme	Buxar and the neighbouring areas	1952-53	1955-56	20.40	525
TOTAL .. .. .				707.57	25,475

The total connected load of electric energy in 1954 was about 82,000 kW.

The following is a list of Adjustment Schemes under Power Projects, showing the cost within brackets: Electrification of the towns of Katihar, Purnea and en route villages (Rs. 7.68 lakhs); Electrification of Kishunganj town and neighbouring areas (Rs. 4.00 lakhs); Electrification of Saharsa, Madhepura towns and en route villages (Rs. 4.14 lakhs); Loan to Muzaffarpur (Rs. 10 lakhs); Electrification of Bahganua, Sitamarhi, Rayaul and en route villages (Rs. 17.00 lakhs); Utilisation of D.V.C. Powers for supply to Aurangabad, Delhi, Babhna and Buxar areas (Rs. 50.84 lakhs); Utilisation of D.V.C. Power for supply to Gaya-Patna area (Rs. 76.06 lakhs); Coal mines area electrification (Rs. 16.76 lakhs); Electrification of Shil, Chakradharpur and rural areas in Singhbhum District (Rs. 55.00 lakhs); Electrification of Dumka and adjoining areas (Rs. 6.30 lakhs); Electrification of Jamalpur, Monghyr, Bhagalpur, Sahebganj and adjoining areas (Rs. 14.22 lakhs); Loan to Bhagalpur Electric Supply Co. (Rs. 3.00 lakhs); T.C.A. Schemes 1952 (Rs. 131.00 lakhs); T.C.A. Schemes 1953 (Rs. 6.25 lakhs); T.C.A. Schemes related to the execution of tube-well schemes to cover 385 tube-wells distributed both in South and North Bihar areas.

Electrification scheme as in 1955-56: Large-scale rural electrification works have already been carried out throughout the State. In South Bihar and Chotanagpur power availed from D.V.C. and various other sources is distributed over an extensive area. In North Bihar, seven diesel generating stations have been commissioned and four more are under erection with a wide net-work of distribution lines round each. A net-work of 3,000 miles of H.T. and L.T. transmission and distribution lines with 1,500 transformer stations for town and village electrification have been erected. 300 villages have been electrified and power is available in another 1,000 villages for working the tube wells and surface wells.

Area of land reclaimed from 1947-48 to 1953-54 was 2,25,596.55 acres.

## LAND TENURE

The land tenure system in Bihar is governed by the following Tenancy Acts: The Bihar

Tenancy Act, 1855, The Chotanagpur Tenancy Act, 1908 and the Santal Parganas Tenancy (Supplementary Provision) Act, 1949.

The riyats are classified as riyats at fixed rents or rates and occupancy riyats. A very small area is held by non-occupancy riyats who have no permanent and heritable interest in their holdings. There is also a small number under riyats having occupancy rights holding of lands both under riyats at fixed rents and under occupancy riyats.

A small area of land is cultivated by private Zamindars themselves.

The Government of Bihar enacted the Bihar Land Reforms Act, 1950 which provides for the liquidation of Zamindari system in the State.

The Bihar Land Reforms Act, 1950 was put into force with effect from 25th September 1950, and now all intermediary interests have been acquired by the Government. The Zamindari system in Bihar now stands completely abolished.

It is estimated that now the State would derive a land revenue of Rs. 16 crores per annum which may ultimately increase to Rs. 18 crores.

The Government has laid down a sliding scale for the assessment of compensation. Where the net income does not exceed Rs. 500, the compensation payable is twenty times the net income, and where the net income computed exceeds Rs. 1,00,000 it is payable at three times the amount.

The total compensation is estimated at Rs. 158.24 crores. Provision has been made for the payment of ad interim compensation.

The assessment of compensation for mines and minerals has either to be fixed by agreement or by a tribunal appointed for the purpose.

As for funds to finance compensation, the proposal for Zamindari abolition in Bihar has been drawn up as a self-liquidating scheme. So all the compensation money will be realised from the beneficiaries. The gross rental in the State is estimated at about Rs. 16 crores per annum which is likely to increase at the rate of Rs. 5 lakhs per year as a result of reclamation of waste lands; their development and of the development of forests. It is estimated that during the first eleven months the State may be faced with a deficit.

The amount of compensation will be paid in cash or in bonds or partly in cash and partly in bonds. The bonds will be either negotiable or non-negotiable and non-transferable, and will be payable in forty equal instalments, and carry interest at two and a half per cent per annum with effect from the date of issue.

The total income from the Zamindaris taken over upto 31st March 1954, was Rs. 2,48,52,943.

## CO-OPERATION (1955)

Number of Co-operative Societies (as on 20-11-1955): 23,820; Membership: 814,800; Working capital: Rs. 7,44,26,511; Share capital: Rs. 1,21,57,248; Reserve Fund: Rs. 99,76,740.

Types of Co-operative Societies and number of each type: Provincial and Central banks 53 (1955); other Central Societies 70; total Central Societies 70; Primary Credit Societies with Limited liabilities 120; Primary Credit Societies with unlimited liabilities 2,849; multipurpose (1955): 9,049 (registered), 2,979 (converted); Weavers' Co-operative Societies (1955), 512 and 70 sales emporia; Vishwakarma 39 (1955); oilmen's 111 (1955); vegetable growers 70 (1955); fishermen's 42 (1955); primary stores 322; teachers' stores 259; Harijan Co-operative Societies 39; Cane Marketing unions 70 (1955); Cane Growers' Co-operative Societies 7,818 (1955); Milk Societies: 11 (1955); Industrial Societies other than Vishwakarma Industrial Societies: 24 (1955); Ghee Producers' Societies: 4 (1955); Paddy Growers' Societies: 15 (1955); Jute Growers' Societies: 7 (1955); Biri Workers' Society: 1 (1955); other types including consumers' stores and Teachers' Co-operative Societies 419.

Position about multipurpose Societies is as follows: number of members 2,60,245; paid up share Capital Rs. 20,03,196; reserves Rs. 12,59,810; loans to financing banks and others Rs. 27,32,786.

Bihar State Co-operative Bank: paid up shares Rs. 4.17 lakhs, deposits Rs. 81.46 lakhs, loans from Government Rs. 45.18 lakhs, reserves Rs. 17.86 lakhs, working capital Rs. 148.69 lakhs, loans to central banks and societies Rs. 21.21 lakhs.

Position about credit agricole: number of depots 186; Chemical fertilizers sold 21,559 tons

worth Rs. 71,61,825; Oilcakes sold 46,468 mds. worth Rs. 3,71,744; Iron sold (for manufacture of agricultural implements) 1,038 tons worth Rs. 9,52,400.

Weavers Societies: Number 165; value of goods produced Rs. 4,18,182; value of goods sold Rs. 6,64,748.

Consumers' Co-operative Stores, number 322. The apex organization of all Co-operative Societies is the Bihar Co-operative Federation, the annual Government grant for which is about Rs. 50,000.

### STATE HELP FOR AGRICULTURE

Loans for agriculture, 1954: Rs. 5.38 crores

Number of experimental farms: 21.

Target under the first five-year plan for additional food production: 7.75 lakh tons.

Estimated additional production due to Grow More Food Schemes completed during 1952: 4.61 lakh tons.

Number of veterinary hospitals 82, dispensaries 41; number of animals that can be accommodated at the hospitals 503, number of surgeons 190; number of stockmen 11. 11 varieties of vaccine and serum are used in the hospitals.

### HEALTH SERVICES

The following particulars are for 1956:

Allopathic hospitals 201; Allopathic dispensaries 651; Beds in allopathic hospitals 7,400; Ayurvedic and Unani dispensaries 223 and 11 respectively; T.B. hospitals 4; Mental hospitals 2; Beds in T.B. hospitals 450 and in Mental hospitals 1,380.

Allopathic doctors 5,877 (1956); Nurses 754 (1955); Trained dais in urban and rural areas 43; Compounders 1,908; Ayurvedic and Unani doctors 470; Nurses 270, Compounders in Government employment 239.

Number of Medical Colleges (Allopathic) 2; Government Ayurvedic 1; Private 2; Government Unani 1.

At the end of 1953 there were 766 Hospitals and Dispensaries, out of which 119 were maintained by the State Government and 535 by District Boards.

There were 47 first class medical officers, 584 assistant surgeons, 642 sub-assistant surgeons, 525 nurses, 108 midwives, 206 dais.

466 beds in all were available for T.B. patients. There is one sanatorium at Itki, two at Ranchi and a T.B. Centre in Patna. The total number of R.C.G. tests and vaccinations upto March 1956 were 73,19,294 and 33,75,902 respectively.

There is a laprosum at Brahmba near Ranchi with a provision for 75 beds.

A separate infectious diseases hospital has been opened in Patna city.

18 malaria control units each covering a population of two million are working at an estimated cost of Rs. 31 lakhs.

There are 20 epidemic doctors and 100 health assistants maintained at the headquarters in addition to 30 doctors and 210 health assistants in the districts.

150 vaccinators are working in a mass vaccination scheme to re-vaccinate the entire adult population at a cost of Rs. 16,000.

Training facilities for M.B.B.S. are available for 180 persons, for nurses 100, midwives 40, compounders 400, dressers 60 to 70, operation room assistants 8, dais 200, sanitary inspectors 75, health inspectors between 100 and 120.

### LABOUR

Average daily number of workers in registered factories as on 31st December 1954: 1,07,858; number of factories: 3,741.

Number of employed in all factories: 1,71,673.

Number of women in seasonal factories (1952): 1,725.

The average annual earnings of factory workers was Rs. 1,423 in 1952. Daily wage of agricultural labourer, Rs. 1-8 in 1949-50.

The following particulars refer to 1953-54:

Industries in which minimum wage is fixed: Agricultural employment; Woollen carpet making and shawl making; Rice, flour, dal and oil milling; Bidi making; Lac manufactures; Road construction and building operation; Stone breaking and stone crushing; Employment in public motor transport; Tanneries and leather manufactures; Mica works; Tea plantations; Employment in local bodies.

Number of strikes: 62 (1955).

Number of lockouts: 6 (1955).

Number of man-days lost: 24,655 (1955).

Number of Disputes settled by conciliation: 124 (1955).

Number of awards: 56 (1955).

Important State laws affecting Industrial Labour: Bihar Maternity Benefit Act, 1947; Bihar Workmen's Protection Act, 1948.

Number of trade unions in the State: 763 (1955).

Total membership of trade unions: 262,100 (1955).

Number of labour welfare centres: 29 (including five model welfare centres) (1955).

Number of houses built through the Industrial Housing Scheme: 1,384.

Approximate cost: a little over one crore.

TELCO: 546 houses at a cost Rs. 50 lakhs.

TISCO: 500 at houses at a cost Rs. 32 lakhs.

In Sahabganj 108 two-room houses at an approximate cost of Rs. 6 lakhs were built for the workers of Dwarak Radhakrishna and Bharatiya Engineering Works under the Government of India's Housing Scheme. The cost was shared between the State Government (one-third) and the Government of India (two-thirds).

Number of factories under purview of Provident Fund Scheme: 168 covering more than 80,000 employees.

Fifteen factories employing 51,510 employees were exempted as they had their own P. F. Scheme.

### EDUCATION (1955-56)

On March 31, 1956 there were 29,541 primary schools with 50,000 teachers and about 17 lakhs pupils. The State Government provide free education upto class V of the primary stage. The work of converting lower primary schools into upper primary schools, continues and during 1955-56, 200 lower primary schools were upgraded to upper primary schools.

The percentage of pupils of the age-group 6-11 would be about 30 in 1956-57. Age group 11-14: 14 per cent.

There are 535 Basic schools, Four pre-Basic schools, 14 post-Basic schools, 20 Senior Training schools, three Teachers' Training Colleges and 41 Junior Basic Training schools under Government Management.

There are 435 Basic schools in Community Development and N.E.S. Blocks under the Project administration. 12 post-Basic schools and 129 Basic schools are run by private agencies and they are given grant-in-aid by Government.

Four Shishushalas (Rural Nursery schools) are also being run in Turki-Vaishali area as an experimental measure. A rural institute has also been set up to impart higher rural education at the University stage to boys who have completed the post-Basic stage.

These converted primary and basic schools would be managed directly by Government.

The number of teachers employed in High, Middle and Basic schools is about seven lakhs.

There are 960 high schools. There are seven lakh pupils in all types of secondary schools.

There is now a School Examination Board to conduct the Secondary School Examination, and also a Board of Secondary Education.

Compulsory primary education is in force in the municipal (urban) areas of 17 towns and in one rural area.

Students are taught through the medium of regional languages upto 111 class. Hindi as compulsory language begins in class IV. From class VI onwards all non-language subjects are taught in Hindi. English as compulsory starts in class VIII.

Number of literates according to 1951 census: 12.83 per cent of the total population.

### BUDGET

(See under 'Late Particulars')

### TRANSFERRED TERRITORY

The percentage of population transferred from Bihar to W. Bengal under the States re-organization scheme was 3.60.

The percentage of population transferred from Manbhum (excluding Dhanbad) to W. Bengal in relation to its original population was 75.54.

The percentage of population transferred from Purnea in relation to its original population was 10.94.

The total area and population transferred from Manbhum:

2,407 sq. miles; 11,69,097

The total area and population transferred from Purnea:

759 sq. miles; 2,77,288

The total area and population transferred from Bihar:

3,166 sq. miles; 1,446,385

While practically the whole of the former Purnea sub-division was transferred in the south, in the north the following areas were transferred from Purnea Dt: Thakurganj, Chopra, Islampur, Kishenganj, Goal Pokhar, Karandighi.

Singhbhum Dt. was reconstituted with the addition of Patamda, Chandil, Ichagarh.

Dhanbad Dt. was reconstituted with the addition of Chas and Chandankary.

**ADMINISTRATIVE PERSONNEL**

(See under 'Administrative Personnel of States')

**BIHAR UNIVERSITY**

Wheeler Senate House, Patna-4.

Founded 1952.

**Chancellor**, Ranganath Ramchandra Diwakar, M.A., B.L.**Vice-Chancellor**, Vacant.**Treasurer**, Rameshwar Prasad Singh, B.A., M.L.C. Registrar, Phulkari Panj Roy Choudhury, B.Sc. Controller of Examinations, Amarendra Narayan, M.Sc.**Inspectors of Colleges**, Phuldeo Sahay Varma, M.Sc.; Biman Bihari Majumdar, M.A., Ph.D., P.R.S.**Asstt. Registrar**, Dinesh Prasad Verma, M.A.

The Bihar University is a teaching-cum-affiliating University.

Provision for teaching up to the Post-graduate standard has been made in the following subjects: English, Hindi, History, Economics, Political Science, Geography, Physics, Chemistry, Psychology, Philosophy, Sanskrit, Anthropology, Sociology, Rural Economics and Co-operation, Commerce, Botany, Zoology and Mathematics. Scholars work under Professors and submit their theses for research degrees.

Number of colleges affiliated: Constituent Colleges: 2; Affiliated Colleges: 61.

Number of students: 46,525.

Income (1956-57 budget estimates): Rs. 98,62,918.

Expenditure: Rs. 1,01,82,354.

Grant from the State Government: Rs. 30,85,387; Non-recurring: Rs. 37,78,850.

**Colleges: (A) Constituent Colleges:** Langat Singh College, Muzaffarpur; Ranchi College, Ranchi; T. N. J. College, Bhagalpur (only the University departments). **(B) Affiliated Colleges—(i) Technical and Professional Colleges:** Bihar Agricultural College, Sabour (Bhagalpur); Bihar Institute of Technology, P.O. Shidri Institute (Dhanbad); Bihar Veterinary College, P.O. Veterinary College, Patna; Bihar Institute of Technology, Post Box No. 61, Mesra, Ranchi; Chotanagpur Law College, Ranchi; Darbhanga Medical College, Darbhanga; Indian School of Mines and Applied Geology, Dhanbad; Ranchi Agricultural College, Kanka (Ranchi); Tirhut College of Engineering, Muzaffarpur; S. K. J. Law College, Muzaffarpur. **(ii) Other Colleges:** Chandradhari Mithila College, Darbhanga (also teaching Law); College of Commerce, Patna; D. A. V. College, Siwan (Saran); Deoghar College, Deoghar (S.P.); D. K. College, Dumri (Shahabad); Gaya College, Gaya; Ganesh Dutt College, Begusarai (Monghyr); Gorcal Mehta College, Banmankhi (Purnea); H. D. Jain College, Arrah; Jamshedpur Co-operative College, Jamshedpur; K. K. Memorial College, Jamni (Monghyr); Koshi College, Khagaria (Monghyr); M.D.D. Manila College, Muzaffarpur; Marwari College, Bhagalpur; Mushi Singh College, Motihari; Nalanda College, Bhadsharif (Patna); Purnea College, Purnea; R. D. & D. J. College, Monghyr; Rajendra College, Chapra; Rani Dayalu Singh College, Muzaffarpur; Ram Krishna College, Madhubani (Darbhanga); Ranchi Women's College, Ranchi; S. R. K. Goenka College, Sitamarhi (Muzaffarpur); S. Sinha College, Aurangabad (Gaya); Samastipur College, Samastipur (Darbhanga); St. Columba's College, Hazaribagh; St. Xavier's College, Ranchi; S. Mahila Mahavidyalaya, Bhagalpur; T. N. J. College, Bhagalpur (also teaching Law); A. N. S. College, Barh (Patna); Bettiah College, Bettiah; Bindeshwar Singh College, Dinapore (Patna); Darshan Shah College, Kathar (Purnea); Ganesha Lal Agarwal College, Daltonganj (Palamau); Giridih College, Giridih (Hazaribagh); Godda College, Godda (S.P.); Jagdam College, Chapra; Jai Prakash College, Narsipur (Bhagalpur); Maharaja Ram Ranvijay Pd. Singh College, Arrah; Murarka College, Sultanganj (Bhagalpur); Raja Shiba Prasad College, Jharla (Dhanbad); Rajnarain College, Hajipur (Muzaffarpur); Sahabganj

College, Sahabganj (S.P.); Saharsa College, Saharsa; Santal Parganas College, Dumka; Shanti Prasad Jain College, Sasaram (Shahabad); Shrikrishna Ramruchi College, Barbhaga (Monghyr); Swami Sahajanand College, Jehanabad, Gaya; Tata College, Chhabasa; Thakur Prasad College, Madhepura (Saharsa).

**PATNA UNIVERSITY**

Patna 5.

**Chancellor:** R. R. Diwakar, Governor of Bihar.**Vice-Chancellor:** Dr. B. Narayana, M.Sc., M.B. (Cal.), Ph.D. (Edin.), F.R.S. (Edin.), F.N.I.**Treasurer:** Ram Charitra Singh, M.Sc.**Registrar:** Jagatnandan Sahay, M.A. (Pat.), T.D. (Lond.).**Deans of the Faculties:** Arts, Dr. K. K. Datta; Science, Dr. B. N. Singh; Law, B. K. Sinha; Education, Shrinati S. Sinha; Medicine, D. Ram; Engineering, N. N. G. Dasidhar; Commerce, B. K. Sinha.**Constituent Colleges and Institutes of the University:** Colleges: Patna College; Science College; Bihar National College; Bihar College of Engineering, Prince of Wales Medical College; Patna Law College; Patna Training College; Patna Women's College; Magadh Mahila College; Women's Training College; University B. Com. Classes.**Institutes:** Institute of Psychological Research & Services; Institute of Public Administration; Institute of Music.

Number of teachers in the University: 418.

Number of students in the University: 8,332 (Men 7,094; Women 1,238).

**BUDGET 1955-56**

Income: Rs. 94,16,508. (This includes income from Government. Recurring: Rs. 67,91,651 and non-recurring: Rs. 26,24,857.)

Expenditure: Rs. 90,47,934.

**SARVODAYA SAMAJ**

(Buniyadganj, Gaya)

The Samaj is not an organization in the accepted sense of the term. After the death of Mahatma Gandhi constructive workers from all over India met in a conference in March 1948 at Sevagram in Wardha. They decided to form a voluntary brotherhood of all who believe in the ideal of truth and non-violence.

The Secretary of the Samaj is Mr. Vallabh Swami, and there is a register of those who have declared their faith in Sarvodaya.

The Samaj has, however, an executive organ, the Sarva Seva Sangh with headquarters in Maganwadi, Wardha.

The word 'Sarvodaya' was popularised by Mahatma Gandhi. He gave the name 'Sarvodaya' to his Gujarati translation of Ruskin's 'UNTO THIS LAST'. In the preface to this book he writes: "The object of this book is to plead for the rise of all. I, therefore, gave it the name, 'Sarvodaya'".

The term Sarvodaya thus stands for the good of all, and is the name given collectively to the ideas and teachings of Mahatma Gandhi.

More specifically, Sarvodaya strives towards a social order based on Truth and Non-violence, in which there will be no distinction of class or creed, no exploitation of any kind, offering full scope for the development of the individuals as well as groups.

It insists on the purity of the means as that of the ends.

For the achievement of the aim, the following programme is followed:

Communal harmony (fellowship between followers of different faiths and sects); Removal of untouchability; Abolition of class distinctions; Prohibition; Promotion of khadi and other home industries; Village sanitation;

Basic Education; Equality of status and rights for both men and women; Health and hygiene; Development of provincial languages; Removal of provincialism; Propagation of Hindustani as the national language; Economic equality; Development of agriculture; Organization of Labour; Welfare of aborigines; Organization of students; Service of leprosy patients; Relief-work; Cow protection, Naturopathy.

Whoever accepts the above aim and the basic principle and endeavours to follow them is eligible for the brotherhood of the Samaj. On sending his or her name and address to the Secretary of the Sarvodaya Samaj, Khadigam, Monghyr, Bihar, he or she will be registered as a "Sevak".

The 30th January of every year when Mahatma Gandhi passed away is observed at all places as Sarvodaya day.

On 12th February, every year fairs are organized at places where the Mahatma's ashes were immersed.

To facilitate mutual contact and exchange of views among the Sevaks Sarvodaya melas and Sammelans are held.

The deliberations of the Samaj are of an advisory nature and not mandatory in any way.

**ASSOCIATIONS****THE BIHAR CHAMBER OF COMMERCE**

(Estd. 1926)

Judges' Court Road, P.O. Box No. 71, Patna 1.

Representative organisation of the industries, trade and commerce of Bihar—stands to promote and safeguard the industrial and commercial interests of the State. Membership open to commercial and industrial companies and persons interested in trade, commerce and industry—given seats in University Senate, Advisory Committees and other local bodies.

President: Shanti Prasad Jain.

**BIHAR HARIJAN SEVAK SANGH**

Annie Besant Road, Patna-4.

President: Acharya Badrinath Varma.

Secretary: Nagendra Narayan Sinha.

**INDIAN COLLIERIES UNION**

P. O. Katrasgarh (Dist. Dhanbad).

**INDIAN COLLIERY OWNERS ASSOCIATION**

I.C.O. Association Road, P.O. Box No. 70, P. O. Dhanbad, Dist. Dhanbad.

**INDIAN CONFERENCE OF SOCIAL WORK**

Bihar State Branch, Annie Besant Road, Patna 4.

President: Dr. Anugraha Narayan Sinha.

Secretary: Nagendra Narayan Sinha.

**INDIAN SUGAR MILLS ASSOCIATION, BIHAR BRANCH**

"Hasan Manzil," Fraser Road, Patna 1.

**KODARMA MICA MINING ASSOCIATION**

P.O. Kodarma, Hazaribagh (Bihar), E. Railway.

Established in 1907.

President: R. G. Agarwalla.

Hon. Secretary: M. K. Banerjee.

Asst. Secretary: B. Gupta.

**BIHAR LEGISLATIVE COUNCIL**

(See under 'General Elections')

**BIHAR LEGISLATIVE ASSEMBLY**

(See under 'General Elections')

## BOMBAY STATE

Area : 190,872.

Population : 48,265,000.\*

Capital : Bombay.

**Districts:** The districts given below are grouped according to the six Administrative Divisions into which the State is broken up. The district headquarters are given in brackets after the name of the District:

**Ahmedabad Division (Ahmedabad):** Ahmedabad (Ahmedabad), Bannaskantha (Palanpur), Baroda (Baroda), Broach (Broach), Kaira (Kaira, Nadiad), Mehsana (Mehsana), Panch Mahals (Godhra), Sabarkantha (Himatnagar).

**Aurangabad Division (Aurangabad):** Aurangabad (Aurangabad), Bhilr (Bhilr), East Khandesh (Jalgaon), Nanded (Nanded), Osmanabad (Osmanabad), Parbhani (Parbhani).

**Bombay Division (Mumbai, Bombay):** Dangs (Ahwa), Greater Bombay (Bombay), Kolaba (Alibag), Nasik (Nasik), Ratnagiri (Ratnagiri), Surat (Surat), Thana (Thana), West Khandesh (Dhulia).

**Nagpur Division (Nagpur):** Akola (Akola), Amravati (Amravati), Bhandara (Bhandara), Buldana (Buldana), Chanda (Chanda), Nagpur (Nagpur), Wardha (Wardha), Yeotmal (Yeotmal).

**Poona Division (Poona):** Ahmednagar (Ahmednagar), Kolhapur (Kolhapur), Poona (Poona), Satara North (Satara), Satara South (Sangli), Sholapur (Sholapur).

**Rajkot Division (Rajkot):** Amreli (Amreli), Gohilwad (Pallana), Halar (Jamnagar), Kutch (Bhuj), Madhya Saurashtra (Rajkot), Sorath (Junagadh), Zalawad (Surendranagar).

The five constituent units of the new Bombay State are Kutch, Saurashtra, Marathawada (roughly the Marathi-speaking Districts of the former Hyderabad), Vidarbha (roughly the Marathi-speaking Districts of the former Madhya Pradesh) and the residuary Bombay State (that is, the former Bombay State bereft of the Karnatak Districts).

The area and the population (in thousands) of these constituent units are given below:

Kutch: 16,724 sq. miles; 568,000. Saurashtra: 21,451 sq. miles; 4,137,000. Bombay (residuary): 90,123 sq. miles; 30,768,000. Marathawada: 25,694 sq. miles; 5,185,000. Vidarbha: 36,880 sq. miles; 7,607,000.

Some other census relating to Bombay State: Density: 15 per cent; Rural population: 72.1 per cent; Urban population: 27.9 per cent; Agricultural population: 62.5 per cent.

Area under cultivation: 55 per cent of the total area; Per capita area under cultivation: 1.38 acres; Area under food crops: 68.2 per cent of the total cultivated area; Area irrigated: 5.6 per cent of the total cultivated area; Area under forests: 14.5 per cent of the total area of the State.

Bombay State now bulks larger in the size and economy of the country than before 1st Nov. 1956.

The area is 15 per cent of that of the Indian Union and the population 13.4 per cent.

The value of its annual textile production is about 70 per cent of that of the country and the number of persons employed in the industry 67 per cent of the number employed in the country as a whole.

It has 37.7 per cent of the area in India under ground nut, and 50 per cent of the area in India under cotton.

Of the manganese ore produced in India 21.1 per cent would be mined in this State.

The installed capacity of electrical energy in the new State is about 27.7 per cent of the installed capacity of the country as a whole, and the amount of electricity generated about 39.8 per cent.

The number of motor vehicles is 26.2 per cent of the country as a whole.

The State has 22.6 per cent of the total Indian student population.

### POLITICAL SET-UP

The State has 43 Districts. All the Districts are territorially compact except two—Amreli and Nanded. Amreli is broken up into eight parts separate from one another all in the Kathiawad peninsula, while Nanded has Rajura and Kijawat Taluqs (former Hyderabad State) which is separated from the main body of the District by Yeotmal.

The strength of the Legislative Assembly is 398 and of the Council 72†. The State sends 66 members to the Lok Sabha and 27 to the Rajya Sabha.

The State is a member of the Western Zonal Council, the other member of which is Mysore.

The Zonal Council will be presided over by the Home Minister of the Government of India, and consists of the two Chief Ministers and four Ministers of the States. They are: Mr. Y. B. Chavan and Mr. S. Nijalingappa, Chief Ministers of Bombay and Mysore; Dr. Jivraj Mehta, Bombay's Finance Minister, Mr. M. S. Kannamwar, Minister for Public Health, Bombay, Mr. M. P. Patil, Mysore's Revenue Minister, and Mr. H. K. Veeranna Gowdh, Minister for Public Works, Mysore.

The Chief Ministers of the constituent States will be vice-chairmen by rotation.

The advisers of the Western Zonal Council are: Mr. M. D. Bhanvali, Chief Secretary to the Bombay Government, Mr. P. V. R. Rao, Chief Secretary, Mysore, Mr. V. Iswaran, Secretary to the Political and Services Department, Bombay, Mr. N. Puttarangaswami, Secretary to the Planning and Development Department, Mysore, and Mr. S. V. Ramamurthy, Adviser, Planning Commission.

The Bombay Secretariat has eleven Departments:

The Political and Services Department, Home Department, Revenue Department, Agriculture and Forests Department, Education Department, Local Self Government & Public Health Department, Finance Department, Public Works Department, Legal Department, Industries & Co-operation Department, Labour & Social Welfare Department.

The total number of officers in the I.A.S. Cadre has been tentatively fixed at 180 and of the I.P.S. at 128.

The State Financial Corporation of Saurashtra was amalgamated with the State Financial Corporation of Bombay on 1st Nov. 1956.

The nationalized passenger road transport services of Kutch, Saurashtra, Vidarbha and Marathawada were taken over by the Bombay State Transport Corporation on 1st Nov. 1956.

The Bombay Electricity Board was reconstituted as the Bombay State Electricity Board on 1st Feb. 1957 and took over the Saurashtra Electricity Board, the Madhya Pradesh Electricity Board's schemes in Vidarbha, and all the electricity schemes in Kutch and Marathawada which were under the Electricity Departments of the Governments of the former Kutch and Hyderabad States.

### GEOGRAPHY

The State embraces a wide diversity of soil, climate and people. In the residuary area of the former Bombay State there are the rich plains of Gujarat, watered by the Narmada and the Tapi, whose fertility is so marked that it has long been known as the Garden of India.

South of Bombay City the State is divided into two sections by the Western Ghats, a range of hills running parallel to the coast. Beyond the Ghats are the Deccan Districts; on the sea side is the Konkan, a rice-growing tract, intercepted by creeks which make communication difficult.

The rainfall of the State is derived chiefly from the south-west monsoon between June and October. The amount of rainfall varies widely in different areas from 20" to about 250".

The population varies as markedly as soil and climate. The people of Gujarat although softened by prosperity, are among the keenest trading races in the world. The Deccan peasant has been seasoned by adversity; the saying goes that the Deccan expects a famine one year in every three, and gets it.

Hindi in the Devanagari script is recognized by the Government as one of the regional languages of the State.

The principal occupation is agriculture, which supports sixty-four per cent of the population. In Gujarat the soils are of two classes, the black cotton soil, which yields the famous Broach cottons, the finest in India, and alluvial, which under careful cultivation in Ahmedabad and Kaira, makes splendid garden land.

The dominant soil characteristic of the Deccan is black soil, which produces cotton, wheat, gram and millet, and in certain tracts rich crops of sugar-cane.

The Konkan is a rice land, where the crop is grown under the abundant rains of the sub-montane regions.

There are no great perennial rivers suitable for irrigation, and the harvest is largely dependent upon the seasonal rainfall, supplemented by well irrigation. A chain of irrigation works, consisting of canals fed from great reservoirs in the region of unfulfilling rainfall in the Ghats, is gradually nearing completion, and this will ultimately make the Deccan immune to serious drought.

The territory covered by the former Saurashtra State stands boldly out into the Arabian Sea between Kutch and the Gujarat Coast.

Saurashtra's physical features suggest it may once have been an island or a group of islands of volcanic origin. The surface of Saurashtra is for the most part undulating with low ranges of hills running in very irregular directions. With the exception of the Thanga and Mandav hills, in the west of Jhalawar, and some unimportant hills in Halar the northern portion of the country is flat. But in the south from the neighbourhood of Gogha, the Gir range runs nearly parallel with the coast and at a distance of about 20 miles from it, along the north of Bahariawad and Sorath to the neighbourhood of Girnar. The principal river is the Bhadar which rises in the Mandav hills and, flowing south-west, falls into the sea at Navibandar after a course of about 110 miles, everywhere marked by highly cultivated lands bordering its course. Other rivers in the area are Manj, Machhu, Ozat and Shetrunji, the last remarkable for wild and romantic scenery. There are a number of salt-water creeks. The area has a 600-mile coast line and a number of ports: Bedi Bunder, Navlakhi, Bhavnagar, Porbandar and Sica. Of these the first and chief port in the matter of import traffic from Europe is Navlakhi.

The area has a variety of minerals: sand stone, pottery, clay, iron slags, moulding sand, chandani, bhutdo, black stone, white chalk, stone marble, lime-stone, clippings, white clay, building stone and lead.

\* Approximate. Note that there is a small of India and the Government of Bombay.

† It has been decided to raise this to 108.

difference in the figures relating to area and These are the Bombay Government figures.

population as published by the Government

All the forests here are situated in one District, Sorath. In addition there are a number of mangrove forests along the sea coasts. The main species of wood in the inland forests is teak. Others are sawar, tanach, sadado, bilyo, kalam and haladvan.

The adjoining area of Kutch has good cultivable land, the principal crops being bajra, wheat, barley and cotton. Irrigation is well developed. The area is also rich in such deposits as gypsum, clays, lime-stone and even larger deposits of lignite, alum, marble and oclres. The main occupation of the people apart from agriculture is embroidery and silver work. The Kutchis are an enterprising people. It is estimated that over six lakhs of them are in trade and industry in the cities of India or abroad. Kutch exports salt, cotton, wool, castor seeds and fish and imports foodgrains and cloth. The chief means of communication are the sea; and Kandla port which is now open is one of the major ports of India.

The south-eastern part of Bombay State is made up of Marathawada formerly in Hyderabad State. It is covered by trappean rock or black cotton soil and the chief produce is wheat and cotton. Part of it is hilly and covered by luxuriant vegetation, but the forests have little economic value. The soil is very rich and advantage is taken of the water obtainable from rivers and wells to grow garden crops which are more profitable. Only two crops are raised during the rains. The kharif crops are yellow jawar, bajra, cotton, suna, kodru, til, (oor and kulhi), the rabi crops are cotton, white jawar, chenna, karad, wheat, linseed, chillies sugarcane and tobacco. There is in this area no wet cultivation.

There are cotton ginning and pressing factories in Aurangabad, Parbhani, Nanded and Bhilr, and cotton mills in Nanded and Aurangabad.

In the far east of the State are the Nagpur, Wardha, Chanda and the Berar Districts. This is on the whole, rich agricultural land supported by industry and well provided with transport facilities and electric power.

The Nagpur plain and the Berar constitute with their black soil one of the richest cotton-growing areas in the country. The food crops are rice in Nagpur and jawar in Berar. The south-east is covered with forests where many jungle tribes live.

Cotton is the most important cash crop of which over ten lakh bales are produced every year. Out of this a quarter is consumed in the local mills and the rest is exported. Most of the cultivated area is under medium staple cottons like buri, cambodia, farilla and veram and the rest under comra cotton.

The orange crop of Nagpur is notable. The Nagpur orange has the reputation of being among the most delicious and finds a ready market all over the country. Over a lakh ton of the fruit is produced annually valued at about Rs. 2.5 crores. There are two crops, winter and summer though the supply is continuous from September to the end of May.

Among the mineral deposits are coal and manganese. The reserves of coal in the Wardha valley (part of which lies in Madhya Pradesh) are estimated at 4,000 million tons. The manganese deposits chiefly in Nagpur and Bhandara are reckoned among the finest in the world. The reserves of higher grade ores are estimated at around 10 million tons.

The chief industry is, of course, the textile mill industry. But there are also glass, and soap factories and oil mills. Some lac is produced in Gondia.

There are about ten spinning and weaving mills in Nagpur, Hinganghat, Akola, Pulgaon, Badnera and Ellichpur. Some spin mostly coarse counts of yarn, the chief market for which is the handloom industry. Most of the producing units are medium-sized. There are over 400 cotton ginning and pressing factories. The increasing popularity of small-scale power looms is a significant feature of the textile industry. There are over 500 power looms operating in small weaving factories and cottages.

Bee-keeping is a popular cottage industry particularly in Nagpur, Wardha and Akola.

Electric power which is mostly of the thermal variety is well developed and covers by means of a grid a whole area from Akola to Chanda.

Road and railway communications are good except in the Chanda District.

### ECONOMY

Bombay is a highly urbanized State. There are eleven cities with a population of a lakh and over in the State and a total population of 57.8 lakhs.

The State now accounts for the largest handling of the foreign trade of India about 41 per cent—53 per cent of the imports and 29 per cent of the exports.

Apart from the production of commercial raw materials, and the growth and development of foreign trade, the industrial environment in Bombay State has also been helped by development of means of communications and transport, generation and supply of electrical energy and growth and development of financial institutions as well as private enterprise.

The route mileage of railways located in Bombay State may be estimated at 5,062 miles. For every hundred sq. miles area, Bombay State has railway routes of about 3.3 miles compared to the all-India average of 2.9 miles.

The State has a road route mileage of 36,050 of which 18,895 are metalled roads and 17,155 are unmetalled roads.

As it is, Bombay State accounts for 2.3 billion units or over a third of the electrical energy generated in the country of about 6 billion units at the end of the First Five-Year Plan. The supply of electrical energy in the State at the end of the Second Five-Year Plan will be considerably augmented by the Koyna Project, the Trombay extensions, the Koyna-Sholapur transmissions, the Vidarbha Grid Schemes, the North and South Gujarat Grid Schemes as well as by the Saurashtra Electricity Board's schemes.

When completed the schemes will add 30 per cent, to the present supply, and the State will still have the highest power resources of all the States in the country.

Of the 5,140 banking offices in the country opened according to the importance of business done, 1,200 or nearly one fourth are in Bombay State and considering the paid up capital and reserves and corresponding deposits, it may be estimated that these do over one-third of the country's banking business.

Insurance statistics are not available State-wise, but considering the transactions of one of the old major insurance companies, doing business throughout India, it may be stated that nearly 40 per cent of the insurance business of the country is being done in Bombay State.

It may be estimated that the national income of Bombay State, as a part of the national income of India as a whole would be round about Rs. 2,000 crores or 20 per cent. with a population share of 13.5 per cent of the all-India total.

Banks and their offices in this State account for 35 per cent of their resources in India as a whole and 40 per cent. of the insurance business of the country is being transacted in this State.

The establishments registered under the Factories Act in this State employ about 10 lakh workers or nearly 40 per cent of the workers in the country.

A balance-sheet of the gain and loss through the reorganization of 1st Nov. 1956 would go somewhat like this:

In the case of the following industries there has been a substantial addition to the productive capacity: salt, vanaspati, cement, cotton textiles and sugar.

Bombay has lost the Bagalkot Cement Company. But this is more than compensated by the addition of the Saurashtra cement companies.

With the addition of Saurashtra and Vidarbha textile mills, there will be 179 composite cotton mills in Bombay State out of the total of 291 in the country as a whole. These mills will produce 3,468 million yards or about 70 per cent of the mill cloth produced in the country.

Vidarbha and Saurashtra will also substantially add to the raw cotton production which will increase to 21.4 lakh bales or two-thirds of that produced in the country as a whole.

At present 10 per cent. of the sugar produced in India is produced in Bombay State.

With the addition of cement, gypsum, manganese ore, bauxite and china clay Bombay will have a more diversified and variegated industrial outlook.

The Government has established a mineral department at Nagpur for the growth and development of the minerals.

It will be possible to develop the manganese ore industry in the State which accounts for about a third of the manganese ore production of the country. Most of the manganese ore produced at present, about 4 lakh tons, is exported in its raw form.

For the first time in its history, Bombay State will also be a producer of coal, though the all-India importance is negligible.

It is quite possible that oil may be struck in northern Gujarat, Saurashtra and Kutch and explorations and experiments in this direction are being conducted.

The State produces about 40 per cent. of the groundnut of the country as a whole and it is possible that industries producing edible oil as well as Vanaspati can develop more than they have done hitherto.

### PRODUCTIVE CAPACITY

The table below gives the rated productive capacity of the more important industries in Bombay State at the end of 1955-56

1. Bicycles No. (thousands)	100
2. Electric Transformers No. Kva (thousands)	264
3. Electric Motors H.P. (thousands)	124
4. Electric Fans (thousands)	66
5. G.L.S. Bulbs (Million)	5.4
6. Dry Battery Cells (Million)	52
7. Radio Receivers (000s)	84
8. Sulphuric Acid (000 tons)	58
9. Salt (lakh maunds)	529
10. Sugar (000 tons of cane crushed per day)	13.5
11. Vanaspati (thousand tons)	166
12. Bl-suits (thousand tons)	10.6
13. Confectionery (thousand tons)	12
14. Soda Ash (000 tons)	77
15. Improved Ag. Implements (Steel and Iron) (000s)	4.5
16. Power Driven Ag. Pumps (000s)	35
17. Diesel Engines (000s)	12.7
18. Phosphate Fertilisers (000 tons)	70
19. Dye stuff (Million lbs.)	6.0
20. Starch (000 tons)	47
21. Plastic Moulding Power (tons)	1,182
22. Paints and Varnishes (000 tons)	20
23. Soap Organised factories only (000 tons)	91
24. Vegetable Tanning (000 tons)	131
25. Chrome tanning (000 tons)	80
26. Paper and Paper Board excluding news prints (000 tons)	12
27. Cement (000 tons)	792
28. Glass (000 tons)	51
29. Refinery - Crude Petroleum (Million tons)	3.2
30. Cotton Textiles	
(a) Spindles (No. 000)	7,000
(b) Looms (No. 000)	143
(c) Mills Composite (No.)	174
31. Spindling	22
32. Cloth (Million yards)	3,468
Yarn (Million lbs.)	807

**1. AREA AND POPULATION**

Below we give statistical tables on a number of subjects relating to Bombay State.

	Bombay State	ADMINISTRATIVE DIVISIONS					
		Rajkot	Ahmedabad	Bombay	Poona	Aurangabad	Nagpur

## ROAD TRANSPORT

Passenger road transport is partially nationalized in Saurashtra, Vidarbha and Marathawada and almost wholly in Kutch and the residuary Bombay State. Goods transport is not nationalized in any area.

All the nationalized transport services in the whole of the present Bombay State have now come under the Bombay State Transport Corporation.

The position relating to nationalization in the different areas is as follows:

In Saurashtra something like two-thirds of the routes have so far been nationalised.

In the Marathawada districts of Aurangabad, Bhil, Nanded, Osmanabad and Parbhani the principal routes are run by the nationalized bus service.

In the Vidarbha area a small unit of nationalised services at Nagpur operates some of the routes in the districts of Nagpur, Wardha, Yeotmal, Chanda, Amaravati and Bhandara.

In Kutch and Saurashtra, there were State Transport Corporations constituted under the Road Transport Corporations Act 1950 (LXIV of 1950).

In Vidarbha the management was in the hands of a Committee of Administration, and in Marathawada the undertaking is run departmentally.

The capital invested is as under (by the State Government and the Government of India in Vidarbha, Saurashtra and Kutch).—

State Government ..	Rs. 89.74 lakhs
Government of India ..	Rs. 36.26 lakhs
<b>Total</b>	<b>126.00 lakhs</b>

In the Marathawada unit there is no Central Government capital share, the entire capital being held by the State Government.

The following information in relation to the totality of these four nationalized transport undertakings is available:

No. of routes as on 1-3-57 :	330 rural 10 city
Route mileage as on 1-3-57:	11,246
Total Gross mileage operated :	153,06,094
No. of passenger vehicles owned ..	628

No. of goods vehicles owned as on 1-3-57 : ..

Nationalised city services :  
In Nagpur, Aurangabad, Nanded and Rajkot.

Municipalised city bus services : in Porbandar, Bhavnagar, Chuda and Limdi.

Total No. of passengers carried by all units during 1956 : .. 2,51,46,766

Gross revenue for the units during the year 1956-57 : Rs. 181.48 lakhs

Total revenue expenses for the year 1956-57 : Rs. 149.00 lakhs (approx.)

No. of persons employed : 3,508

Rate per passenger mile after nationalisation :

Minimum 5 pies and maximum 7.5 for Vidarbha plus surcharge of anna one for a rupee or fraction thereof and annas two over a rupee or fraction thereof

10.28 pies for Marathawada ;

0 pies for Saurashtra.

12 pies lower class, 18 pies upper class for Kutch.

Cost of staff per bus mile : 49.6 pies

Expenses per bus mile : 190.5 pies average

No. of main and sub-workshops, for repairs and overhaul .. 8 sub-workshops.

Comfortable and regular buses and well-equipped bus stations at important towns have been provided. Also way-side stands at traffic centres in the country-side have been provided. At the bus stations canteens and drinking water arrangements are always made.

## STATE TRANSPORT CORPORATION

Figures given below are for 1955-56 and relate to the former Bombay State.

Passenger road transport is nationalised, but not goods transport.

State Transport operates in all the districts of the State, the total number of routes being 2,127. Nationalisation of passenger road transport was completed in March 1956.

Name of the transport authority : Bombay State Road Transport Corporation.

The Corporation is constituted under provisions of the Road Transport Corporation Act, 1950.

Capital invested in the Corporation by the State Government and the Government of India : Rs. 933.88 lakhs and Rs. 403.63 lakhs respectively as on 31st March, 1956.

Route mileage 53,318 as on 31st March, 1956.

Total bus miles operated during 1955-56 70,912,116.

Number of passenger vehicles owned by the authority : 3,162 as on 31st March, 1956.

Number of goods vehicles : 845 (as on 31st March, 1956)

Number of nationalised city bus services : Five (Baroda, Kolhapur, Surat, Hubli\* and Belgaum\*).

Number of municipalised city bus services : Four (Bombay, Poona, Ahmedabad and Sholapur).

Total number of passengers carried in 1955-56 by the Road Transport Corporation : 169,291,853.

Total expenses of the Corporation for 1955-56 : Rs. 10,56,62,542.

Total revenue for 1955-56 : Rs. 10,82,85,828.

Extra amenities provided for passengers : Luxurious and comfortable buses and well-equipped bus stations at important places.

Booking offices .. 149

Bus stands .. 112

Sheds .. 154

Canteens .. 146

Lavatories .. 13

Water arrangements .. 121

Waiting rooms .. 102

Rate per passenger mile after nationalisation : Nine pies. No difference between pre and post nationalisation rates per mile.

Cost of staff per bus mile : 65.2 pies

Expenses per bus mile : 272.2 pies

Number of persons employed : 24,345.

Number of main and sub-workshops for repair and overhaul : One Central Workshop, 16 divisional workshops, 2 regional workshops and 146 depot workshops.

The Central workshop is at Dapoli in Poona. The Regional Workshops at Ahmedabad and Hubli (now in Mysore).

Total number of depots : 122.

Total number of garages : 24.

Bus Stations including bus stands 217.

\* Now in Mysore.

## IRRIGATION

Name of Project.	District/Area Benefited.	Date begun.	Date for completion.	Total Cost. Rs. in lakhs.	Development Expenditure, Five Years 1951-56. Rs. in lakhs.	Area to be irrigated on completion in '000 acres.
Gangapur .. .. .	Nasik	1940	1957	396	234	45
Mahl right bank canal .. .	Kaira	1948	1957	425	401	150
Banand tank .. .	North Satara	1940	1953	30.19	10	3.7
Lower Tapi valley (Stage 1) ..	Surat	1940	1955-56	1,216*	1,151	652.

\* Estimates under examination.

The Bombay State has about the highest percentage of sown area to cultivable area. It is traversed by major rivers like Sahayadri, Mahi, Narmada, Tapi, Godavari, Krishna and Ghataprabha. Yet the proportion of area irrigated by Government irrigation works-tanks and canals to cultivable area before 1947 was only 2% as against 30% to 50% in States like Madras, the Uttar Pradesh and the Punjab.

After the completion of the Nira Right Bank Canal in 1920, no important irrigation work worth mentioning was taken up in this State till 1947. After the advent of Independence and with a view to making the country self-sufficient in regard to food grains, irrigation has been given priority. Before the First Five Year Plan began the total area under irrigation was 10.5 lakh acres.

During the First Five Year Plan period a provision of Rs. 2,257 lakhs was made for the construction of the following six major irrigation schemes to irrigate an area of 12,71,400 acres after full development.

Kakrapur Weir and Canal Project, Mahi Right Bank (aerial Stage I), Ghataprabha Left Bank Canal Project, Gangapur Dam Project, Ranand Tank, and Kolchi Weir Project.

An expenditure to the extent of Rs. 1,333.89 lakhs was incurred on the six projects upto end of March 1955 and a provision of Rs. 481.78 lakhs was made for the projects during the year 1955-56. An additional area of 94,800 acres will have been irrigated by the end of 1955-56.

The Mahi Right Bank Canal Project (Kakra) forms the first stage of the Narm Valley Development. It consists of a weir at Manakbori and a canal 44 miles long to take off from the right bank. The project was originally envisaged with a canal capacity of 2,000 cusecs at a cost of 4.25 crores. The work was started in 1948. The scope of the scheme has subsequently been revised and the canal is now designed for a monsoon supply of 7,000 cusecs.

Work is in progress and the Project will be completed during the Second Plan period. The project will benefit Kaira Dist.

The Kakrapur Project (Surat) consists of a weir at Kakrapur and two canals on either side to irrigate an area of 562,000 acres. It forms part of a more comprehensive project for the development of the Lower Tapi Valley. The project is estimated to cost Rs. 626 lakhs and is under revision. The work on it is making good progress and will be completed during the Second Plan.

The Gangapur Project (Nasik) comprises a dam on the Godavari river at Gangapur, 8 miles from Nasik, to impound 5,500 m.cft of water, and remodel the existing Godavari right and left bank canals and a new canal to take off directly from the dam, known as 'Nasik I, B' Canal. The project will bring under irrigation an area of 4,500 acres in Nasik and Ahmednagar Districts. The work on the dam proper is completed and that on the canal is at an advanced stage of completion. The project is estimated to cost Rs. 395 lakhs.

Ranand tank (Satara North) is situated in Manjivadi of North Satara District and is estimated to cost Rs. 30.18 lakhs. There are two canals. The project will bring under irrigation an area of 3,550 acres after completion. The tank proper is complete. The two canals are also complete.

Besides this, the Meshwa Canal Project in Kaira District and the Radhanagari Hydro-Electric Scheme (Irrigation part) in Kolhapur District were also taken up outside the Plan and have been practically completed.

The Meshwa Project is estimated to cost Rs. 53 lakhs and would irrigate an area of 18,000 acres and has been completed. Irrigation started thereon in June 1950.

The Radhanagari Project is estimated at Rs. 166.25 lakhs and will irrigate an area of 32,000 acres. First stage of Gangapur has been almost completed, and water is being utilised since 1956.

Work on Ghataprabha proceeded according to plan and the project was completed according to schedule.

The rest of the works are all nearing completion.

In addition to the above six major irrigation works, schemes giving quick production of food crops had to be put through. The Government of India came forward with loan assistance for the programmes. The programmes are :-

a) Special loan Programme Rs. 1 crores.

b) Scarcity programme Rs. 1-11 crores.

c) Minor Programme of Irrigation Rs. 30 lakhs

d) " " Rs. 40 lakhs

A programme of much greater importance was one of Rs. 1.87 crores later revised to Rs. 10.5 crores.

Some of the important irrigation works taken up under this programme now under construction are :-

Name	Estimated cost, Rs. lakhs	Dist.
Ghod Dam Project	485	Poona and Nagar.
Extension of Krishna Canals	82	South Satara.
Mosam Bandhara.	57	Nasik
Budhiyal Tank	65	Sholapur
Karad Tank	65	Panch Mahals
Patadungri Tank	53	Panch Mahals
Moti Fatewadi Canal	45	Ahmedabad

The works taken up in the medium and minor irrigation programmes will irrigate an area of 682,000 acres after full development (214,000 acres by end of March 1956 and additional area of 468,000 acres after full development).

A total expenditure of Rs. 480 lakhs was incurred by March 1955 and the approximate expenditure during 1955-56 was Rs. 321.57 lakhs.

A North Gujarat Tube Well Scheme which envisages the construction of 400 tube wells in the scarcity districts of Ahmedabad, Mehsana and Panch Mahals Districts at a cost of Rs. 25 lakhs has been taken up. An expenditure of Rs. 95.71 lakhs was incurred till the end of March 1955 and a provision of Rs. 64 lakhs was made for it during 1955-56. So far more than 295 tube wells have been drilled. An area of 80,000 acres will be brought under irrigation by this scheme - 40,000 acres are expected to be brought under irrigation by the end of 1955-56 and another 40,000 acres after it is completed.

Thus an additional area of 361,300 acres will have been brought under irrigation by the end of 1955-56 over and above 1,050,000 acres irrigable during 1950-51. On the completion of the schemes under the First Five Year Plan period, an additional area of 1,531,740 acres will be brought under irrigation, after full development, 1,722,000 acres.

In the Second Five Year Plan, the following provisions have been made:-

		Rs. in crores
Major	(a) Spill-over.	10
	(b) New.	44.5
Medium	(a) Spill-over.	6
	(b) New.	11.00
Minor & Tube-wells	(a) Spill over.	2
	(b) (i) New Minor.	1.5
	(ii) New Tube Wells.	1.5

In all 17 new major and medium irrigation works including the Ukai Dam Project, a multipurpose scheme, have been provided for in the Second Five Year Plan which when completed

will bring an additional area of 3,903,100 (seasonal) acres of land under irrigation. These projects are as follows :-

	Dist.
Vir Dam Project.	Sholapur and North Satara.
Khadakwasla Project.	Poona.
Mula Project.	Ahmednagar.
Girna Project.	East Khandesh.
Girna Project.	East Khandesh and West Khandesh.
Mahi (Kadana Reservoir).	Kaira and Panch Mahals.
Narmada Project.	Baroda and Broach.
Banas River valley Project (Dantivale).	Banas Kantha and Mehsana.
Saraswati River Scheme.	Mehsana.
Hatmati Reservoirs.	Sabar Kantha.
Shetrunji.	Anand.
Shamlaji.	Kaira and Sabar Kantha.
Gangapur Storage Stage II.	Nasik and Ahmednagar.
Varna Project.	Kolhapur and South Satara.
Kurnur Tank.	Sholapur.
Ukai Dam Project.	Surat and Broach.

In the tube-wells programme of Rs. 1.5 crores in the Second Plan 310 new tube wells are expected during the Plan period, bringing an area of 66,000 acres under irrigation.

Notes on some projects under execution are given below :

The Ukai project is intended to provide a storage to the Kakrapur Canal system and also provide electric power to South Gujarat and eastern Maharashtra.

Gangapur Stage I project is nearing completion. Up to the end of March 1956 an expenditure of Rs. 286.45 was incurred. The total estimated cost is Rs. 395 lakhs.

Work on the remodelling of the existing Godavari Canal and on the dam on the river is in an advanced stage of completion.

Work on the Mahi project has been speeded up. Up to the end of March 1956 an expenditure of Rs. 440 lakhs was incurred on it.

Parts of the Kakrapur Canal are already open to irrigation. The expenditure incurred upto the end of March 1956 was Rs. 540 crores.

The Ghod Weir scheme was taken up as a medium irrigation project. The total estimated cost of the project which includes the construction of a dam and a left bank canal is about Rs. 485 lakhs. Up to the end of March 1956 an expenditure of Rs. 47.5 lakhs was incurred on the dam and Rs. 56.22 lakhs on the Canal.

Among the rest the following should be mentioned : Kadana and Vir dam projects, Goma project, Gangapur Stage II, Mula.

Preliminary work is in progress on the following : Narbada, Banas Valley, Hatmati, Saraswati, Shamlaji, Varna, Kurnur, Khadakwasla.

In the Saurashtra area works under progress are : Machu Stage I; Aji, Bhogavo Stage I, Rangola, Brahmari, Sassi Dam, Meji, Hiran, Ravai, Macchindri, Munjisar and Ozar Stage II (Rs. 62 lakhs for 1957-58).

Provision for the following is made in the 1957-58 budget : Shetrunji, Bhadar, Bhogavo Stage II, Limbdi-Bhogavo, Sakroli, Tulzar, Ghele, Rojki and Demi (Rs. 132 lakhs).

In the Kutch area works under progress are : Rudramata, Gajod, Sanandro, Kalia and Kanavil. Up to the end of March 1956 an expenditure of Rs. 51.6 lakhs was incurred.

Preliminary work has been started on Suval, Nironi, Gaganisar.

In the Marathwada area works under progress are: Dhaku, Zin, Shivana Amtint, Poorna Amtint, Bendsura, Kamli, Talwar Khana-pur and Naldurg.

The most important of the projects is the Purna project estimated to cost about Rs. 5.5 crores. Very little progress has so far been made on it, and only Rs. 11.2 lakhs was spent during 1956.

Others provided for in the Second Plan are: Chandni, Therina, Manad, Khadkali and Harni.

In Vidarbha work on the scheme for improvement to the Navegaon project is in progress. Up to the end of March 1956 the expenditure was of the order of Rs. 5-10 lakhs.

There are two major projects included in the Second Plan: Bor river to cost Rs. 160 lakhs and the Nalganga project estimated to cost Rs. 123 lakhs.

## ELECTRIC POWER DEVELOPMENT

For major particulars about electric power development in Bombay State see under the relevant table in this article.

The greatest hydro-electric undertakings in the State are the three schemes developed and brought into operation by Tata Sons, Ltd., and continued under their management until 1929, when they were transferred to the management of the Tata Hydro-Electric Agencies, Ltd., in which Messrs. Tata Sons retain a majority interest. These undertakings are:—

- The Tata Hydro-Electric Power Supply Company, Ltd. Supply started in 1915.
- The Andhra Valley Power Supply Company, Ltd. Supply started in 1922.
- The Tata Power Company, Ltd. Supply started in 1927.

The three Hydro-Electric Companies are interconnected with the 64 MW Chola Steam Station of the Central Railway and the State Electricity Board's 54 MW Steam Station also at Chola under the same roof as the Railways and operated by them; together they are operated as a Hydro-Thermal system under the co-ordinated control of the Hydro Companies.

The three Hydro Companies have constructed a modern Steam Thermal Station of 100 MW capacity at Trombay which is also interconnected to the system.

This station which consists at present of two 62,500 kW units was opened on 15th Dec. 1956. A third unit of the same capacity is being planned. (For details see below.)

During the year 1955-56, the system demand was 333.3 MW and the highest demand met was 341 MW on a staggered day which is equivalent to 356 MW on a full load day against a firm capacity of 332 MW or installed capacity of 384 MW.

The sales by Tatas during the year was 1,305 million units and the purchase of Thermal Energy to supplement Hydro during the year was 322 million units.

**Khopoli.**—The hydraulic works of the Tata Hydro-Electric Power Supply Company are situated near Lonavla at the top of the Bhor Ghat. The monsoon rainfall is stored in three lakes, namely Lonavla, Walwan and Shiravta, from which it is conveyed in open masonry canals to the Forebay at Khandala and thence through steel pipes to the Power House at Khopoli at the foot of the Ghats, where the head at turbine nozzles is 1,726 feet or approximately 750 lb. per sq. inch. The capacity of the Power Station at Khopoli is 70,000 kW.

This scheme was formally opened by the Governor of Bombay on the 8th of February 1915.

**Bhilvuri.**—Investigations in 1917-18 led to the discovery of a site on the Andhra River just to the north of the Tata Hydro-Electric Supply Company's lakes, where additional power could be developed.

These investigations resulted in the formation of the Andhra Valley Power Supply Co. and the construction of the schemes, the principal features of which consist of a reservoir formed by a dam about 190 feet high, across the Andhra River and a tunnel 8,700 feet long driven through solid trap rock to the scarp of the Ghats, from which the water is taken in steel pipes 4,800 feet long to the turbines in the generating station at Bhilvuri. The head of water at turbine nozzles is 1,743 feet or approximately 750 lb. per sq. inch.

The electrical energy is transmitted to Bombay over a transmission line 57.5 miles long for augmenting the supply from Khopoli.

The present capacity of this station is 72,000 kW.

**Bhira.**—The Tata Power Company's scheme on the Nila-Mula River to the south-east of Bombay was investigated and developed along lines similar to the Andhra Valley scheme and has an installed capacity of 132,000 kW.

The power is transmitted to Bombay over a transmission line 76 miles long and is used to augment the supply of the two earlier companies to mills, factories and railways.

A brief description of the Trombay station would also be in order here.

The Trombay Thermal Power Station, the most modern of its kind in India, is situated on a 132-acre land on the south shore of Trombay Island, about seven miles north-east of Bombay. The station consists, at present, of two 62,500 kW units, and the layout permits expansion to an ultimate of four such units. A third unit of the same capacity is planned.

The plant is of semi-outdoor type, designed on the unit system basis with one boiler and one turbine per unit. The radiant type, water tube boilers at Trombay are designed to burn refinery waste gas, oil, and low-grade coal, and each of them is capable of generating steam at a rate of 600,000 lbs. hr at 1,325 psig and 955° F. The steam from the boiler will be delivered at 1,250 psig and 950° F to a 22 stage, twin cylinder, impulse turbine, which exhausts the steam into a single shell two pass condenser at 2½" Hg absolute. The steam in the condenser is cooled by means of sea water pumped from Bombay harbour through a 4,006 ft long 72" diameter steel pipe which projects approximately 2,000 ft. into the sea from the low water line. The condensed steam will be fed back to boiler at 410° F after passing through 5 feed-water heaters.

Each turbine drives a hydrogen cooled 13.8 KV, 50,000/62,500 KVA generator, which is connected to the transmission grid through a 80,000 KVA, 13.8/100 KV transformer.

The station was opened on 15th Dec. 1956.

The Tata Hydro-Electric System, comprising the Tata Hydro-Electric Power Supply Company, the Andhra Valley Power Supply Company and the Tata Power Company, is operated as an integrated electric power system serving an area in the State of Bombay of more than 1,000 square miles.

It is the largest power system in the country having a fixed capital expenditure in excess of Rs. 18 crores and an annual output representing more than one-fifth of the total electricity production.

Electric service is rendered to the textile mills and other industries of Bombay and the suburban areas, to the railways for electric traction, to local authorities, and, in bulk for retail distribution, to the electrical undertakings supplying Greater Bombay, Poona and ten other localities within the area.

The transmission network of the system consists of 576 circuit miles of 100,000-volt lines and the distribution network of 131 circuit miles of 22,000-volt overhead as well as 117 miles of 22,000-volt and 126 miles of 6,600-volt underground cables.

Substantial additions to the transmission and distribution network are expected to be made during the next few years.

The interconnected transmission lines of the Railway add another 272 circuit miles to form the combined Tata Hydro-Railway Grid.

Due to the change in the character of the system from one of pure hydro to a hydro-thermal and the increasing purchases of thermal energy to meet the growth, it became necessary to levy a thermal surcharge of 15 per cent on 1-4-54 which was revised effective from 1-1-56 to 24½ per cent to meet the cost of thermal energy. This resulted in increasing the overall charge from 0.42 As. before levy of any thermal surcharge to 0.525 As. per KWH. Still, it is lower than the average price at the beginning of the Second World War and compares favourably with that in any large commercial centre in the world.

The available power continues to be distributed to the consumers by a staggering of the holidays of the various industries. Besides, a small quantity of power is also being drawn from the operation of the Power Pool viz. an arrangement whereby private diesel generator sets with consumers are used to supplement the system requirements.

The full capacity of the Chola Plant of the State Electricity Board has already been brought into use and has been used up. The first set of Trombay went into operation in Dec. 1956 and the second set was expected to go into production six months later. All this would add to the system 100 MW.

The firm capacity of the entire system will then be 417 MW.

Indications are that this is not adequate and will be used up as it becomes available. Therefore, a study is in hand for adding additional capacity to the system.

## ELECTRICITY BOARD SCHEMES

The Government of Bombay set up the Bombay Electricity Board on 6th November 1954. Prior to the formation of this Board, the Government had an Electricity Grid Department, as a forerunner of the Board. The Grid Schemes were then transferred to the Board.

In the middle of February 1957, the Board was reconstituted when it absorbed the Electricity Boards of Saurashtra and Madhya Pradesh and also took over the electrical undertakings in Marathwad and Kutch.

Members of the Board: M. H. Hasham Premji (Chairman), P. C. Hansotia, G. V. Bedekar, I.C.S., J. K. Modi, P. H. Bhutta.

Total installed capacity: 125,000 kW.  
Total production: about 370 million units.  
Total Sale: 308 million units.  
Total number of towns and villages supplied with electric power: 310.

The names of the more outstanding projects with the installed capacity of each:—

North Gujarat Electric Grid Scheme	22,500 kW.
South Gujarat Electric Grid Scheme	22,500 kW.
Kolhapur-R.H.E. Scheme	6,000 kW.
Bhatpur Hydro Electric Scheme	1,000 kW.
Khaperkheda Thermal Scheme	30,000 kW.
Ballarshah Power House	22,500 kW.
Shahpur Grid Scheme	6,000 kW.
Rajkot Diesel station	2,000 kW.

The capital assets of the Board stood at about Rs. 13.35 crores on 31st March 1956.\*

\* For State existing before the proposed reorganization in Nov. 1956.

Some particulars about the Board\* pertaining to the period April 1955 to March 1956 are given below:

Estimated costs of schemes: Rs. 2,136.13 lakhs; Expenditure incurred during the period: Rs. 112.80 lakhs.

Interest charges: Rs. 58.03 lakhs; Depreciation charges: Rs. 31.29 lakhs; Net deficit: Rs. 16.66 lakhs.

Total load connected as in March 1956: 128.01 thousand kW; Maximum demand: 93.89 thousand kW; No. of consumers: 28,186.

No. of units produced: 471.72 millions; No. of units sold: 428.17 millions; Gross revenue earned: Rs. 259.73 lakhs.

Installed Capacity: Steam: 76,860 kW; Hydro: 5,860 kW; Oil: 7,962 kW.

The total number of towns and villages provided with electric power was 151. Of these, the number of villages, with a population of below 5,000 was 90, of those between 5,000 and 10,000 was 27, of those between 10,000 and 20,000 was 23, of those between 20,000 and 50,000 was 6, and between 50,000 and 100,000 was two.

Estimates of capital expenditure for 1956-57: Rs. 402.83 lakhs.

Estimates of revenue receipts and expenditure for 1956-57: Receipts: Rs. 308.42 lakhs; Working Expenses: Rs. 231.71 lakhs; Interest charges: Rs. 62.32 lakhs; Depreciation: Rs. 38.06 lakhs; Net deficit: Rs. 23.66 lakhs.

#### North Gujarat Scheme

Under this scheme power is being purchased in bulk from the power station of the Ahmedabad Electricity Company at Sabarmati, which has an installed capacity of 127.5 kW, and distributed to various load centres in the North Gujarat area.

Capacity to the extent of 22,500 kW is assigned to the Bombay Electricity Board.

The first stage of the scheme has been completed. It comprises about 70 miles of 66/110 kV line, 14 miles of 33 kV and 50 miles of 11 kV transmission lines and about 480 miles of distribution lines, a receiving station at Sabarmati and 66/11 kV step-down transformer stations at Baroda, Nadiad, Anand, Barejadi, and Petlad and 33/11 kV sub-stations at Kalol, Umreth together with 11 kV/400-230 Volts sub-stations in various towns and villages.

The supply under this scheme was commenced on February 15, 1951 and the licensees or the industries as the case may be at Baroda, Nadiad, Anand, Kalol, Petlad, Barejadi, Vallabh Vidyanagar and Dakore-Umreth now receive power under the scheme. Besides this, 61 villages have also been electrified so far. The total number of villages to be electrified under the 1st stage development of the scheme is 67.

The system demand established upto the end of 1956 was 18,900 kW and the number of consumers served 5,419.

The area within the economic reach of the scheme is about 2,400 sq. miles.

During the Second Five Year Plan extensions to the North Gujarat Scheme costing about Rs. 172.74 lakhs have been planned. The main features are:

Extension of Gaothan area of villages (Rs. 23.48 lakhs); Extensions to Dehgaoon and electric tube wells (Rs. 27.84 lakhs); Electrification of Kalol-Vijapur Zone (Rs. 68.43 lakhs); Extensions to Jambusar and other villages (Rs. 34.99 lakhs); Extensions to major Sub-stations to cater for additional loads (Rs. 37.81 lakhs); Extension to Karjan (Rs. 8.15 lakhs).

In addition to the above an agreement was reached with the Saurashtra Electricity Board (now merged into the Bombay Board, Feb. 1957), for giving power supply to the Surendra Nagar area from Barejadi sub-station, costing approximately Rs. 85 lakhs.

The funds earmarked by the Bombay Government for the North Gujarat schemes are 64 lakhs, the balance will therefore be met from the internal resources of the Board; as a result of the extension to the South Gujarat Scheme, loads in Baroda and the surrounding area can be met from the Utran power station of the Board under the South Gujarat Scheme.

#### South Gujarat Scheme

This scheme consists at present of a steam power station at Utran near Surat, with three turbo-alternator sets of 7,500 kW each for supply of power in areas from Surat to Bulsar.

Supply under this scheme was commenced on November 20, 1952 and power is at present being given to Surat, Navsari, Billimora, and also to Bulsar, Kander and Kathor users.

The system demand upto end of March 1956 was 15,000 kW.

An area of 900 sq. miles is within the economic reach of this scheme.

The Bulsar Taluka Electrification scheme, which was working under an agreement for the purchase of power from the Bulsar licensee has now been connected to the South Gujarat Scheme. Like-wise the power station at Gandevi has been closed down after making arrangements for interconnection with the main scheme.

During the Second Five Year Plan major extensions have been planned. They have also been approved by the Planning Commission, by which the installed capacity of the Utran power station would be augmented by three sets of 15,000 kW each. This will meet all additional loads expected to come on the system during the next five years and will also make possible supply to the Broach and Baroda loads from the South Gujarat Scheme, thus enabling corresponding blocks of power from the A. E. Company's power house at Sabarmati to be distributed in the area north of Ahmedabad.

The Government allotment for the scheme stands at Rs. 400 lakhs but a revised estimate shows that the scheme might cost Rs. 350.37 lakhs.

#### Nursery Schemes

A list of towns covered under the Nursery Scheme together with their progress upto about March 1956 is given below:—

District	Towns covered	Remarks
Surat (Rs. 4.97 lakhs)	Ten villages in Bulsar Taluka.	Supply has already commenced; power in bulk was purchased from Bulsar licensee. These villages are now being supplied from the South Gujarat Grid Scheme.
Ahmedabad .. ..	Dhanduka.	Scheme was postponed due to financial stringency. The Central Government are giving a loan. Installation of diesel sets is in progress.
East Khandesh (Rs. 14 40 lakhs).	Dharangaon, Erandol and Parola.	Supply from the diesel power station (400 kW) has commenced.
Sholapur .. ..	Akluj.	Scheme was postponed due to financial stringency. The Central Government are giving a loan. Installation of diesel sets is being planned.
Poona .. ..	Lonavla-Talegaon area	Power will be purchased from Tatas.
Satara (North) (Rs. 11.34 lakhs)	21 villages in Satara Taluka.	The scheme was to be completed during 1956. Power in bulk is purchased from Satara licensee. Supply has already commenced.
Satara (South) (Rs. 4 57 lakhs).	Islampur-Peth.	Supply from the diesel power station (150 kW) has commenced.
Belgaum (Rs. 18 27 lakhs)†	Hukeri, Gokak, Chikoli, Konnur and Sankeshwar.	Supply from the diesel power station (400 kW at Hukeri) has already commenced.
Ratnagiri (Rs. 23 16 lakhs)	1) Ratnagiri. 2) Vengurla. 3) Chiplun. 4) Malwan.	The supply from all the four diesel power stations (400 kW) each has already commenced. Arrangements have been made to instal two 200 kW sets each at Ratnagiri and Vengurla to meet a growing demand. A 200 kW set at Ratnagiri has been commissioned.

None of the schemes mentioned above can at present supply any large industrial load, but with the new Surat Steam Station it will be possible to supply power for industrial use under the Bulsar Taluka Electrification Scheme.

\* **Bhatgar Hydro-Electric Project.**—A demand of about 10,000 kW can be met from this source, provided the power station is linked up either with Koyna when developed or the Tata system at Poona.

At present Bhatgar Power House has an installed capacity of 1,060 kW. Power from this station is transmitted to Rajewadi, Shirwal, Nira, Narsapur, Lonand and Phaltan.

**Bhandardara-Randha Electric Scheme.**—The existing Wilson dam across the Pravara River in Ahmednagar District lets down water in varying quantities in the Pravara Canal System. About 3½ miles down stream at Randha the river has a natural fall of 140 feet. Power is proposed to be generated at the foot of the Wilson dam and at Randha.

The scheme provides for the installation of two 7,500 kW sets at Bhandardara and two of 6,000 kW at Randha. Advantage is proposed to be taken of the nearness of Central Railway transmission lines at Igatpuri which form a part of Bombay-Poona Inter-connected System. In times of low output, one of the 18,000 kW sets at Chola will be brought into service.

Power will be supplied to Naski, East and West Khandesh and Ahmednagar Districts where the demand is estimated to be 17,000 kW.

The capital cost of the scheme is estimated to be of the order of Rs. 700 lakhs.

**Narbada River Project.**—The Central Water Power, Irrigation and Navigation Commission are investigating the possibilities of power development by impounding the waters of the Narbada River in Gujarat. It is reported that at one of the Dam sites at Limbdi, 200,000 kW continuous power can be generated. This power when available will be utilised in Gujarat in place of the present thermal power.

\* For State existing before the proposed reorganization in Nov. 1956.

† Now in Mysore.

**Tapti (Tapti) Project.**—Under this project, which was initially intended to be an irrigation scheme only, it is now proposed to also develop hydel power with initial installed capacity of 24,000 kW the ultimate capacity being 216,000 kW. The work is being carried out by the Central Water and Power Commission on behalf of the Bombay Government. The Tapti Hydel power when available will supply the power requirements of the South and the North Gujarat Electric Grid Schemes.

At present only the irrigation part of the project is being proceeded with because of financial stringency. Total cost: Rs. 8 crores.

It should be added here as a result of drastic cuts the allotment for survey and investigation of Bhandara, Narbada, Tapi, and Mahi projects was reduced from Rs. one crore to Rs. five lakhs. The survey is operated by the Bombay Government.

**Radhanagari.**—The Radhanagari scheme is a multi-purpose project for irrigation, power generation and water supply and comprises construction of a dam, about 140 feet high above the deepest foundation across the Bhogavati River, about 32 miles from Kolhapur, and a power station with an installed capacity of 4,800 kW at Radhanagari in Kolhapur District.

The R.H.E. Scheme is expected to cost about Rs. 245.78 lakhs.

Hydro-Electric supply was commenced from August 1952.

This is operated in conjunction with: The Emergency Irrigation Diesel Power Station (1,350 kW) for supplying power for irrigation and industries at Kolhapur.

Conversion of D.C. to A.C. in the area taken over from the Kolhapur licensee has been completed.

The estimated cost of the two together is about Rs. 35.62 lakhs.

The interconnected system, besides supplying power to Kolhapur City which is partly served by Government and partly by the Kolhapur Electric Supply, supplies power to the agricultural pumps along Bhogavati and Panchaganga rivers and to the licensees of Kolhapur Ichalkaranji, Jaysingpur, Wadgaon and Hupli.

In the Second Plan period extensions of the scheme towards Satali and Mahaj have been planned and are expected though the line which is to operate at 33 kV is operated at 11 kV as transformers were not received from abroad. About eight villages in this area are electrified.

**Chola Steam Station.**—In order to relieve the acute power shortage existing in the Bombay-Poona area since 1949, it was decided, in consultation with the Railway Board, to extend the Railway's power station at Chola by an additional installed capacity of 54,000 kW (3 units of 18,000 kW each).

The scheme cost about Rs. 4 crores and is operated as a part of the Tata-Central Railway Interconnected system.

This has been in operation since 1954. To ensure full supply to the Bombay-Poona area Tata have set up a thermal station at Trombay. Later the Koyna project will contribute its supply of electric power.

**Koyna Project.**—The first stage of development of the revised project as at present approved by Government now comprising storage of 38,045 m.c.ft. of water, behind a dam of 204.5 feet height above the river bed at Jalkawadi, sufficient to produce 240,000 kW of power.

The estimated cost of the dam, tunnel, necessary generating plant and transmission and transformation equipment for the first stage development is expected to be approximately Rs. 42 crores.

The foundation stone of this scheme was laid on January 16, 1954.

Supply of power is expected to start in 1961.

The dam is under construction, under the auspices of the Koyna Control Board.

**The Koyna-Sholapur Transmission Scheme** is based on the purchase of power from the Koyna Hydro-Electric Station for distributing in the area extending upto Sholapur on the eastern side and localities around Karad, Miraj and Sangli. It will also be interconnected with the Radhanagari and the Bhatar Hydro-Electric Schemes.

This scheme is likely to cost about Rs. 450 lakhs out of which, funds to the extent of Rs. 3 lakhs will be made available by the Bombay Electricity Board.

The scheme forms part of the Second Five Year Plan Projects under the Bombay Electricity Board.

Initial supply of power from this Scheme is expected to be commenced six working seasons after the funds are allotted for the commencement of the work.

The capacity and cost of other power houses are given below:

Chhota-Udepur (300 kW; Rs. 5.01 lakhs); Rajpipla (410 kW; Rs. 3.70 lakhs); Himatnagar (160 kW; Rs. 2.63 lakhs); Radhanpur (60 kW; Rs. 97,920); Dharampur (215 kW; Rs. 1.66 lakhs); Mansa (16 kW; Rs. 31,695); Santrampur (56 kW; Rs. 54,755); Devgad-Baria (300 kW; Rs. 1.27 lakhs); Bansda (80 kW; Rs. 1.14 lakhs); Jauliya (93 kW; Rs. 52,239); Jawahar (38 kW; Rs. 41,496); Wai (80 kW).

For the Second Five Year Plan schemes the Bombay Electricity Board proposed to spend about Rs. 1,440 lakhs on the various new and continuing schemes outlined above, although the Government allocation for the purpose stands at Rs. 895 lakhs. The balance is proposed to be met from the internal resources of the Board especially the depreciation fund reserves.

The addition to the generating capacity as a result of implementation of the Second Five Year Plan schemes will be 45,800 kW. The load demand that will be met will be of the order of 160,000 kW, saleable units to the consumers will increase to 436 million by 1960-61 in addition to the electrification of 161 villages.

#### MERGED AREAS

As a result of the re-organization of States the Jog-Karnatak scheme was transferred to the Mysore Government and the Vidarbha area of the Madhya Pradesh Electricity Board, the Saurashtra Electricity Board and Marathwada and Kutch areas brought under re-organized Bombay Electricity Board.

#### Vidarbha Region

**The Kharakheda Scheme:** This consists of a thermal generating station at Kharakheda, situated 18 miles by road from Nagpur, with 3 turbo alternator sets of 10,000 kW each.

Power generated here is transmitted to Amaravati a distance of 120 miles from Kharakheda. From Amaravati another line, 29 miles long, enters to the loads in Achalpur area. Akola and Khangaon areas in Akola District are supplied over 112 miles of 66 KV line from Amaravati. The 66 KV lines are tapped at Wardha, Pulgaon, and Murtizapur to feed the loads in these areas. 33 KV and 11 KV distribution lines totalling 280 miles are laid to supply the loads at Chandur, Dhamangaon, Akot, Yeotmal, Darwa, Digra, Pusad, Karanja, Daryapur and Basim from the sub-stations.

From the Kharakheda power station a 66 KV line also takes off towards the north to supply power to Mansar, Tumsar and Gondia in Bhandara District; the Balaghat and Katangi area in Madhya Pradesh are also fed from Kharakheda over this line. The supply of power also extends over a 66 KV line to Saoner, Sausar, Chhindwara, Barkul and as far as Parnara in Madhya Pradesh.

From the main 66 KV sub-station at Nagpur, all the important taluka towns and commercial centres are fed by means of 33 KV and 11 KV distribution lines, totalling about 200 miles in length.

**The Ballarshah Thermal Station** is the other central power station situated in the Southern Grid area. This comprises 3 turbo alternator sets of 7,500 kW each and is interconnected with the Kharakheda system over 66 KV transmission system at Wardha. The double circuit line of length 89 miles between Wardha and Ballarshah also supplies power to the Hinganghat and Warora areas in the Wardha and Chanda Districts respectively.

The maximum demand of this interconnected Kharakheda-Ballarshah system viz., the Southern Grid, has gone to about 30,000 kW and the anticipated load in 1960 is about 53,000 kW.

The capital expenditure spent on the various schemes in the Vidarbha areas which will be passed on to the Bombay State Electricity Board is approx. Rs. 1029.39 lakhs.

#### Saurashtra Electricity Board

**Shahpur Station:** This project consists of two turbo-sets of 3,000 kW each at Shahpur, on the bank of the river Ozat in the district of Sorath. The power generated at this station is stepped up to 33,000 volts for distribution to important places in the areas of Junagadh, Dhoraji, Upleta, Manavadar, Keshod, Mangrol, Veraval and Kodinar. The area of supply practically covers the whole of Sorath and a part of Madhya Saurashtra.

Three 33 KV lines going to Upleta, Manavadar and Veraval form the back-bone of the grid system based on this station.

The estimated cost of the scheme is about Rs. 153.66 lakhs.

**Bhavnagar Power House:** Bhavnagar Power House with an installed capacity of 2,000 kW belonged to a private company viz. Godhia Electricity Co. Ltd. The State took over this power house in 1952, and the Board which became its owner in 1954 augmented its capacity immediately by adding one more generating unit of 2,000 kW. The power generated at Bhavnagar is stepped up to 33,000 KV for supplying to Sihor, Vartej and Soudagdh. The estimated cost of this scheme is about Rs. 34.04 lakhs.

**Power Houses at Rajkot, Gondal, Dhrangadhra, Porbandar and Palitana:** The expansion in the above areas was necessary mostly to regularise, and to make available, dependable power to the community, which was mainly dependent upon the surplus power available from the industrial concern in those places.

#### Marathawada

**Marathawada Region:** In this region there are only two important schemes, at present, one at Aurangabad and the other at Nanded.

At Aurangabad a diesel generating station with an installed capacity of 787 kW serves 1,890 consumers whose total connected load amounts to 1,708.6 kW. This system consists of 19.5 miles of 3.3 KV transmission lines and a distribution net work of 23.5 miles.

At Nanded, power purchased from the local Gomanishahi mills in bulk by the Hyderabad Electricity Department is distributed to 1,487 consumers, with a connected load of 1,378.2 kW. The system consists of 8.25 miles of 6.6 KV lines and a distribution net work of 15.6 miles of L.T. lines.

#### Power Projects of Kutch

Kutch has about 964 villages and 10 towns, out of which Bhuj is the largest. At the beginning of the First Plan, Kutch had a total installed capacity of 615 kW (all diesel generation) and the total demand on these power stations was about 275 kW.

Out of a total of Rs. 110 lakhs allotted during the First Plan Rs. 40 lakhs was spent for the following projects:

i) Taking over of the electrical undertakings at Mandvi and Bhuj.

ii) Construction of a new power house at Bhuj and conversion of D.C. to A.C. in this town.

A provision of Rs. 174 lakhs has been made in the Second Plan which includes the spill over of Rs. 70 lakhs from the First Plan.

## HOUSING

During the last five years (1951-56) the Government has constructed through different agencies more than 60,000 houses for various categories of the population.

They include 31,000 houses for displaced persons, 10,000 for industrial workers, 4,000 for the low-income group and 13,000 under the co-operative housing scheme.

A far-reaching step was the establishment of a statutory Board, called the Bombay Housing Board, which was entrusted with the work of preparation of housing schemes and their execution from out of the funds made available by the Government. While the Board was particularly interested in large industrial areas like Bombay, Ahmedabad, and Sholapur, which were suffering from an acute "house starvation", it was also concerned with construction in other urban areas such as Poona, Jalgaon, etc.

Besides housing for industrial workers the Board also constructed houses for other low-income group people. Another feature of the Board's activity was the construction of townships required for housing the large number of displaced persons.

These were at various places like Ahmedabad, Baroda, Surat, Bombay, Mulund, Thana, Ulhasnagar (near Kalyan), Pimpri (near Poona), Kolhapur, etc.

Thus while, before the first Five-Year Plan prior to the year 1951-52, the Board constructed 5,240 tenements, during the period of the Plan it put up 10,000 tenements.

In addition to the programmes of direct construction of houses undertaken by the Government for the low-income group a scheme for construction through co-operative housing societies was put into operation. This enabled middle class people to acquire land at cheap rates and served as an inducement to them to invest in building their own houses by co-operative effort. By the end of the first Plan period, 13,356 tenements had been constructed by co-operative housing societies.

Under the old assistance scheme of granting loans to co-operative housing societies at the nominal rate of interest of 3 per cent., Rs. 119 lakhs have been advanced by the Government in the State.

Now the Government has established a financing body called the Bombay Co-operative Housing Finance Society Ltd., to advance loans to co-operative housing societies. The Co-operative Housing Finance Society has a share capital of one crore of rupees, 50 per cent of which is provided by the State.

Then the Low-Income Group Housing Scheme sanctioned by the Government of India, which provides for the grant of financial assistance by way of loans to persons whose income does not exceed Rs. 500 per month, was introduced.

Loans are advanced to individuals, co-operative housing societies, local bodies and educational and public health institutions. Loans of the order of Rs. 1,92,82,965 have been advanced so far under the scheme for the construction of 4,296 houses and development of house sites.

Under the above scheme it is proposed to construct two types of tenements namely, "A" type of three-room tenements costing Rs. 12,000 per tenement including land and services, and "B" type of four-room tenements costing Rs. 15,000 per tenement including land and services.

In the Second Five-Year Plan of Bombay State a provision of Rs. 18,17,21,000 has been made for housing.

A provision of Rs. 4 crores has been made for assistance to local bodies for their slum clearance schemes. As the smaller local bodies do not have adequate personnel for preparing plans it is proposed to help them by getting the plans prepared through Government Departments.

The Government of India has recently formulated a scheme known as the Slum Clearance Scheme, under which that Government would grant loans to cover 50 per cent. of the cost and a sub-sidy of 25 per cent on condition that the State Government provides an equal subsidy of 25 per cent. The Bombay Government has decided to participate in the scheme, and projects for Bombay, Ahmedabad and Poona are under consideration.

The bulk of the rural housing programme is taken up under the Community Development Projects and National Extension Service schemes.

During the first Plan period, 5,009 houses were built.

The Government is following a policy of granting loans for building purposes on payment of assessed market values. In villages if the area and value of an individual house site do not exceed two guntas and Rs. 200 respectively, the land is granted to agriculturists, agricultural labourers, etc., without auction. Lands are granted free of occupancy price to individual members and co-operative housing societies of Backward Classes.

The Legislative measures adopted by the Government include the Bombay Building (Control on Erection) Act, 1948, and the Bombay Rent, Hotels and Lodging House Rates Control Act, 1947.

### BOMBAY HOUSING BOARD

The achievement of the Bombay Housing Board is given below in a tabular form. The position is as it existed on 30th Nov. 1956.

No.	Scheme.	Tenements completed.	Under construction.	Total.	Total expdtr. (Rs. in lakhs)
1.	(A) Industrial Housing Old Industrial Housing Scheme ..	4,219	—	4,219	255.71
2.	Subsidised Industrial Housing Scheme ..	10,302	6,738	17,040	414.09
3.	(B) Low Income Group Housing. New construction of buildings ..	2,075	—	2,075	120.86
4.	Reconditioned hutments ..	1,575	—	1,575	39.81
5.	(C) Rehabilitation Housing Housing for D.P.s. ..	23,394	3,381	26,775	450.62
6.	(D) Schemes on behalf of Private bodies Burmah-Shell Oil Refineries Ltd.	500	—	500	36.47
7.	Juhu-Vile Parle Development Scheme works of Development only in the area ..	—	—	—	72.48
		42,065	10,119	52,184	1,399.04

During the second Plan it is proposed to construct 16,623 tenements (old State) at an estimated cost of Rs. 6.58 crores.

### LABOUR AND SOCIAL WELFARE DEPARTMENT

Particulars about Low Income Group Housing Schemes carried out under the auspices of the Labour and Social Welfare Department are given below.

No. of tenements completed upto Jan. 1957 ..	784
No. of tenements under construction ..	2,066
Total expenditure on the Scheme .. Rs.	1,70,60,150

Loan is given to various categories of persons and institutions such as individuals, Co-operative Housing Societies, Local Bodies like Municipalities, Panchayats, Charitable Institutions, etc.

No rent is charged in the case of individuals as they have taken loans for their own residence. In the case of Local Bodies, they may fix the rents in accordance with the cost of construction, floor area, etc.

The scheme is intended to relieve the housing shortage in the case of persons whose total annual income does not exceed Rs. 6,000. The loan is granted upto 70 per cent. of the estimated cost of construction of a tenement subject to the maximum limit of Rs. 8,000 at rates varying from 5 to 5½ per cent. per annum. It is repayable by half yearly or annual equated instalments within a period of 10, 20 or 30 years. The person repaying the loan instalments regularly gets rebate of ½ per cent.

For the purpose of individuals who are not in a position to obtain house building sites and construct houses with loans themselves, the Bombay Housing Board has been given a loan to construct houses and sell these houses on a hire-purchase basis.

The details of construction of tenements, shops and school buildings for Displaced Persons are given as under :—

Item.	Completed.	Construction.
Residential tenements in Displaced Persons Colonies ..	31,273	4,029
Shops ..	1,647	75
School buildings ..	15	—

Every Collector of a District in the residuary State area is competent to grant loans for that area. For Vidarbha the Secretary, Vidarbha Housing Board, Nagpur, is competent to grant loans.

### SAURASHTRA HOUSING BOARD

At the end of 1955, 700 tenements were completed under the industrial housing scheme. The target for the second Plan is a total of 3,374 tenements.

The tenements are one-roomed, with a total floor space (including bath, W.C.) of 288 sq. feet. Each tenement costs about Rs. 2,700. The Government of India has fixed the standard rent at Rs. 10 per month. The rent actually charged is less. It is Rs. 8 at Rajkot, Jamnagar, Surendranagar and Mahuva, while it is only Rs. 6 at Porbandar.

The District-wise distribution of the 700 tenements completed is as follows :

Gohilwad 200, Halar 200, Madhya Saurashtra 200, Sorath 40 and Zalawad 60.

During the year 1955-56 the construction of 1,000 tenements was undertaken by the Board under the Subsidised Industrial Housing Scheme.

A sum of Rs 2,95,754 was debited for the construction of these tenements upto 31st March, 1956

The estimated cost of the construction of these tenements is Rs 27,00,000. Hence the remaining amount will be spent over these tenements in 1956-57. It is proposed to build a further 1,075 tenements for industrial workers in the second Plan.

With a view to providing fully developed plots to Co-operative Societies and individual applicants for the construction of houses on No Profit No Loss basis, it is proposed to develop 30 acres of land for each of the five years of the second Five-Year Plan from 1956-57 to 1960-61 at an estimated cost of Rs. 17,50,000. A sum of Rs 3,45,000 for the development of 30 acres of land during 1956-57 is already sanctioned by the Government of India, and that amount has been allotted to the Board.

A sum of Rs 3,45,000 has been provided in the budget estimate for 1957-58 for the development of 30 acres of land at Jamnagar.

### VIDARBHA HOUSING BOARD

Details about subsidised industrial housing schemes and low-income group housing schemes executed by the Vidarbha Housing Board are given below.

Under the industrial housing scheme plans for about 4,350 one-roomed tenements were drawn up during the First Plan period under the Government of India's original as well as the modified schemes of 1949 and 1952. Of these 4,350 tenements, 1,700 were completed.

The area provided by a tenement is roughly 220 sq feet. The standard cost of building it is about Rs. 2,700 inclusive of cost of land. The rent charged is Rs. 10 per month.

Details regarding the town-wise distribution of the tenements built are as follows:

Fifty tenements were built by the Vidarbha Mills at Achalpur. These were completed on May 1st, 1955. They were built under the Government of India's original scheme of 1949.

Under the Government of India's modified scheme of 1952, 450 tenements were built in Nagpur, 100 at Purgan and 100 at Hinganghat.

A third scheme was set on foot to construct 1,000 tenements at Nagpur and 200 at Akola. While the 1,000 tenements at Nagpur have been completed, work on the 200 tenements at Akola has not started.

A fourth scheme has been drawn up for the construction of 2,000 tenements in Nagpur, 200 in Akola, 100 in Purgan and 200 in Achalpur. But work is still in the preparatory stage.

Under the Low Income Group Housing Scheme, a 30 year loan is advanced to the State Government for disbursement to persons whose income does not exceed Rs. 6,000 a year or to Housing Co-operative Societies consisting of such persons. The loan assistance is limited to a figure not exceeding 80 per cent of the actual estimated cost of the house, inclusive of land, subject to a maximum of Rs. 8,000 per house. In the case of local bodies the loan assistance is limited to a figure not exceeding 80 per cent of the actual cost of the house, including land subject to a maximum of Rs. 2,800 per house. The remaining 20 per cent of the cost will have to be found from the builders' own resources.

The accommodation to be provided in each house built under the scheme, should not be less than 380 sq ft of floor area, and normally not more than 1,200 sq ft. The Housing Board was asked by the old Madhya Pradesh Government to implement the Scheme.

The financial and physical target figures prescribed for the First Five-Year Plan period for the Vidarbha region are as below:

	Financial Assistance (in lakhs)	Physical Target Houses.
1. Houses to be constructed by Statutory Bodies, or Co-operative Societies .. .. .	63 07	789
2. Houses to be constructed by Local authorities for their staff .. .. .	26 17	837
3. Houses to be constructed by individuals .. .. .	20 00	162
		<b>TOTAL 1,788</b>
4. Development of building sites .. .. .	21 00	125 acres.
	<b>130 24</b>	

Against the total sum of Rs 130 24 lakhs required, a loan of Rs 92 584 lakhs was obtained from the Government of India. Out of this, a sum of Rs. 92,54,700 was disbursed up to end of January 1957.

The progress achieved to the end of December 1956 is as follows:

Period.	Qrs built by Co-op. Societies	Qrs built by Local Bodies.	Qrs built by Individuals.	TOTAL
1956-57 (i.e. to end of Dec 1956)	316	73	99	488
In progress .. .. .	473	704	63	—

The tenements built under this scheme are being allotted on hire-purchase basis or on outright sale.

### EMPLOYEES' STATE INSURANCE CORPORATION

The following particulars show the position as on 30th Nov. 1956 in relation to the Bombay region (that is, the old Bombay State, Saurashtra and Kutch):

Total number of employees: 722,391.

The following particulars show the position as on 31st Oct. 1956 in relation to Greater Bombay:

Total number of insured workers: 511,300.

Total number of panel doctors: 954 (146 ayurvedic, 5 unani, rest allopathic).

Total number of general beds sanctioned: 500.

Total T. B. beds: 100.

Number of diagnostic centres: 6; Number of ambulances: 6.

Number of laboratory tests: 1,35,255; Number of persons screened: 30,804; Number of persons X-rayed: 27,405; Number of approved chemists: 104; Number of costly drugs: 103.

The following particulars show the position as on 31st Jan. 1956 in relation to Vidarbha:

In the eight Districts here the scheme has so far been implemented in three towns: Nagpur, Akola and Hinganghat. (The last in Wardha District.)

The number of employees covered: 35,000.

Diagnostic and special treatment are provided in the Mayo Hospital and the Medical College Hospital, Nagpur.

## BOMBAY STATE FINANCIAL CORPORATION

The Bombay State Financial Corporation was set up by a notification of the Government of Bombay dated 30th November 1953 in exercise of the powers conferred by the State Financial Corporation Act, 1951.

The Corporation started functioning on 1st December 1953.

With effect from Nov. 1, 1956 the Bombay and Maharashtra State Financial Corporations were amalgamated and the new Corporation is called the Bombay State Financial Corporation, with head-quarters in Bombay and a branch office in Rajkot.

The main office is at the United India Building, Sir Phirozshah Mehta Road, Bombay.

The branch office is at Vijay Kunj, Jagnath Road, Rajkot.

The main object of the Corporation is to provide financial assistance to medium and small-scale industrial concerns in the State for purposes of purchase of land, plant and machinery and other assets for renovation and expansion of existing units and for the development of new ones. The Corporation also advances loans for working capital against the security of fixed assets.

The Corporation has demarcated its sphere of activities from that of the Industrial Finance Corporation of India and other bodies working for the same object.

Industrial concerns which are eligible for financial accommodation from the Corporation are those engaged in or to be engaged in the manufacture, preservation or processing of goods, or engaged in mining or in the generation or distribution of electricity, or other forms of power.

The Government of Bombay has fixed the authorised capital of the Bombay State Financial Corporation at Rs. 4 crores divided into 400,000 fully paid-up shares of Rs. 100 each of which 200,000 fully paid-up shares of the total value of Rs. 2 crores were issued and subscribed.

The shares of the Bombay State Financial Corporation are guaranteed by the State Government as to the repayment of the principal. Payment of annual dividend at the minimum rate of 3½ per cent. per annum is also guaranteed by the State Government.

The dividend payable on shares of the Corporation is limited to a maximum of 5 per cent. per annum.

Rate of interest for loans and advances or subscribing to debentures—6 per cent.

The period of loan is decided on merit but will not generally exceed ten or twelve years.

The amount of loan is advanced to the extent of 50 per cent. of the net value of the fixed assets, consisting of land, building, plant, machinery, but such advance will in no case exceed Rs. 10 lakhs.

The loans should be guaranteed by the proprietors, partners, directors, or managing agents as the case may be in their personal capacity, the guarantee being joint and several.

The Corporation received (inclusive of Rajkot branch) 340 applications till 31st Dec. 1956 and the total amount of loan applied for, exceeded Rs. 6,77,00,000. The Board of Directors of the Corporation sanctioned loans of the aggregate amount of Rs. 2,51,00,000 till that date.

Facts and figures for the year ending March 31, 1957 :

97 applications were received out of which 80 were considered and 17 remained pending. Of the 97 applications for a total financial accommodation of Rs. 3.01 crores, 36 applications for an aggregate amount of Rs. 1.39 crores were carried forward from the previous year. Sanction was accorded to 37 applications for an aggregate sum of Rs. 72.47 lakhs, while 12 applications for a total of Rs. 34.67 lakhs were rejected.

Net profit : Rs. 7.38 lakhs ; Balance available for dividend : Rs. 3.59 lakhs ; Subvention from Government necessary to make up guaranteed dividend : Rs. 3.41 lakhs.

## GREATER BOMBAY

On 1st Feb. 1957 Greater Bombay was enlarged by the addition of 34 villages of the Thana District having an area of about 80 sq. miles and a population of about 2 lakhs.

The area of Greater Bombay now would be about 174 sq. miles and the population over 30 lakhs.

The areas added include Malad, Kandivli, Mulund, Goregaon and Dahisar.

The new northern boundary would run from north of Dahisar village in the west, in the centre between the mile stones 21 and 22 on the Agra Road, and in the east north of Mulund Municipality.

The municipal area of Greater Bombay described above is also the area covered by Bombay City and the Bombay Suburban District from the point of view of revenue division.

The area of Bombay City is 25 sq. miles and the population 2,329,020 (1951 census). The area of the Bombay Suburban District would now be about 150 sq. miles and the population about 7 lakhs (1951 census).

The Collector for Bombay City is also the Collector for the Bombay Suburban District. Bombay City Collectorate is directly under the Government and is governed in accordance with the provisions of the Bombay City Land Revenue Act of 1876.

The Bombay Suburban District has besides the Collector one Deputy Collector and two Mamlatdars one for each of the Talukas Andheri (also called South Salsette) with headquarters in Andheri, and Borivli with headquarters in Borivli.

In the process of amalgamation with Bombay City, the old Municipal Boroughs of Bandra (established in 1876), Kurla (estb. 1877), Parle-Andheri (estd. 1931), Juhu (estd. 1921) Ghatkopar-Kirol (estd. 1916) Malad, Kandivli and Mulund have ceased to exist.

### AGRICULTURE

In Bombay Island proper though about 8 sq. miles of unbuilt and undeveloped land is available there is practically no agriculture. Vegetables, flowers and fruit are grown in private gardens and Wadis but on a very negligible scale. In the newly merged areas and the adjoining suburbs, however, extensive paddy cultivation is carried on. Vegetables and fruit are also grown especially during the monsoon. The produce is largely marketed in Bombay.

### COMMERCE AND INDUSTRY

Commercially and industrially Bombay is the second, if not the first City in India. It is the principal centre of the cotton textile industry (61 cotton mills with 65,000 looms). Its share in looms and spindles is about 33½ per cent of the total in the country. There are 170 textile factories including silk, woollen and hosiery; 400 engineering undertakings; 110 establishments manufacturing articles of food, drink and tobacco; 110 establishments producing chemicals, etc.; 50 hides and skins processing concerns, and 150 factories of a miscellaneous character.

After Calcutta, Bombay is the biggest financial centre in India. The Stock Exchange, Bullion Exchange and Cotton Exchange regulate trading in stocks and shares of a wide circle of industrial undertakings. The Reserve Bank of India, the central banking and currency authority has its headquarters in Bombay. About 33 Scheduled Banks operate in Bombay. Of these six have their headquarters here. There are over 15 foreign Exchange Banks. Of these seven have their principal offices located in

Bombay. The head office of the Life Insurance Corporation of India is also located in Bombay.

Being the best natural harbour in India, the trade carried through Bombay is about 46 per cent of the total trade of India. The principal items of import are bricks, cement, sand, etc.; China clay; coal; cotton; glassware; grain; hardware; iron and steel; kerosene; fuel oil; motor cars and lorries; machinery; boilers and railway materials; oilman stores; oils; vegetables, etc.; paper; piece goods; petrol; sugar; tea; timber; twist and yarn; Government and naval and military stores.

The main exports are coal; cotton; flour; groundnuts; hemp; hides and skins; kerosene and fuel oils; manganese ore; myrobalans; oil cake; piece-goods; seeds; spices; sugar; wool packages; twist and yarn, Government and naval and military stores.

The total returns to the Central Government from Greater Bombay in customs revenue is about 46 per cent of the total revenue from the seaborne trade of India. The income-tax return to the Central Government from Greater Bombay is 30 per cent of the total income from the country. The Corporation Tax amounts to 20 per cent of the total income from this source.

### COMMUNICATIONS

From the communications point of view Bombay holds a unique position. There are numerous air routes connecting Bombay with the rest of the country, and it is also directly linked with foreign countries aerially. The head offices of two chief railway systems, the Central and Western Railways are in Bombay which is rail linked with Calcutta, Delhi, Nagpur and Madras. It is the second biggest port and the chief sea communications centre of India. Greater Bombay's transport requirements are met by the local services of the two railways, Central and Western, besides the tram and bus services of the municipalised Bombay Electric Supply and Transport Undertaking.

### 1951 CENSUS

*Note:* After the census were taken Greater Bombay was enlarged and a population of about 500,000 was added to it. The census given below do not include particulars about these 500,000 persons. But the census would indicate in a rough way the chief census characteristics of the population of the area.

The number of each religious group in Greater Bombay is given below. The first figure shows the number of males, the second figure the number of females.

Hindus (1,291,004; 748,240); Sikhs (8,617; 5,367); Jains (47,110; 33,000); Buddhists (1,049; 448); Zoroastrians (34,924; 33,736) ♀  
Muslms (268,902; 143,361); Christians (117,560; 88,639); Jews (9,247; 6,838); Non-tribals (846; 379).

### NON-INDIAN NATIONALS

The number of non-Indian nationals in Greater Bombay is given below. The first figure shows the number of males, and the second figure the number of females:

Portuguese (7,398; 4,361); British (2,624; 2,222); Pakistani (1,388; 289); Iranian (1,101; 525); Nepalese (792; 78); Chinese (964; 396); American (320; 174); Afghan (199; 43); Arabian (184; 72); African (43; 35); Iurmese (43; 48); German (70; 48); Swiss (70; 65); Ceylonese (105; 30); French (60; 40); Danish (88; 23); Russian (70; 20); Greek (24; 18); Swedish (31; 15); Israelites (43; 32); Italian (33; 28); Spanish (51; 4); Norwegians (55; 11); Australians (32; 14); Elre (23; 31); Iraqi (34; 20).

For the rest the figure is less than 50 for each group.

### AGE AND LITERACY

A ten per cent sample survey by age group showed the following position. The first figure in the brackets shows the number of males, and the second figure the number of females:

Number surveyed (171,940; 103,996); Literates (93,634; 38,847) Illiterates (78,286; 65,149).

Age group 5—9: Literates (5,141; 4,445); Illiterates (7,531; 8,191).

Age group 10—14: Literates (9,007; 6,747); Illiterates (8,833; 3,976).

Age group 15-24: Literates (27,566; 24,400); Illiterates (54,008; 76,571).

Age group 25-34: Literates (40,846; 13,707); Illiterates (51,492; 73,357).

Age group 35-44: Literates (14,527; 4,253); Illiterates (11,530; 7,249).

Age group 45-54: Literates (7,758; 2,106); Illiterates (5,095; 4,682).

Age group 55-64: Literates (3,170; 1,070); Illiterates (2,099; 2,531).

Age group 65-74: Literates (904; 460); Illiterates (167; 924).

Age group 75 and over: Literates (295; 152); Illiterates (143; 406).

### OCCUPATION GROUPS

The main occupation groups in Greater Bombay are as follows. The first figure in the brackets shows the number of males and the second figure the number of females:

#### All Industries and Services

Employers (48,933; 1,614); Employees (879,268; 71,134); Independent workers (215,248; 21,251).

#### Fishing

Employers (480; 22); Employees (1,694; 125); Independent workers (2,808; 761).

#### Salt, Saltpetre, Saline substances

Employers (11; 0); Employees (988; 18); Independent workers (10; 2).

#### Foodstuffs, Textiles, Leather

Employers (4,567; 154); Employees (256,374; 19,558); Independent workers (21,900; 2,407).

#### Tobacco

Employers (91; 13); Employees (3,151; 1,045); Independent workers (1,719; 1,119).

#### Textiles

Employers (711; 37); Employees (206,713; 16,405); Independent workers (1,485; 157).

#### Wearing Apparel

Employers (1,832; 62); Employees (12,368; 314); Independent workers (10,413; 887).

#### Other Textiles

Employers (139; 4); Employees (11,732; 944); Independent workers (511; 89).

#### Leather and its products

Employers (336; 1); Employees (5,415; 178); Independent workers (4,704; 76).

#### Manufacture of Metals and Chemicals

Employers (2,039; 38); Employees (75,532; 1,964); Independent workers (6,049; 227).

#### Manufacture of Iron and Steel

Employers (131; 5); Employees (6,605; 132); Independent workers (195; 9).

#### Transport equipment

Employers (236; 7); Employees (22,282; 190); Independent workers (660; 6).

#### Electrical Machinery

Employers (175; 0); Employees (4,725; 104); Independent workers (598; 18).

#### Machinery including Engineering

Employers (431; 5); Employees (14,019; 259); Independent workers (1,534; 18).

#### Medical Preparations

Employers (59; 2); Employees (2,014; 185); Independent workers (67; 83).

#### Clay products

Employers (53; 1); Employees (1,443; 437); Independent workers (206; 12).

#### Rubber products

Employers (50; 0); Employees (2,100; 91); Independent workers (75; 2).

#### Wood and wood products

Employers (399; 10); Employees (16,693; 145); Independent workers (7,266; 303).

#### Printing and Allied Industries

Employers (609; 16); Employees (15,853; 172); Independent workers (653; 15).

#### Buildings

Employers (747; 7); Employees (10,004; 1,559); Independent workers (9,443; 296).

#### Roads, Bridges

Employers (6; 0); Employees (356; 53); Independent workers (34; 0).

#### Electric Power and Gas Supply

Employers (12; 0); Employees (2,821; 32); Independent workers (209; 1).

#### Sanitary Works

Employers (28; 1); Employees (8,854; 2,157); Independent workers (471; 100).

#### Commerce

Employers (28,342; 727); Employees (129,336; 4,744); Independent workers (91,453; 6,979).

#### Retail trade in foodstuffs

Employers (6,923; 239); Employees (20,469; 781); Independent workers (33,080; 4,595).

#### Retail trade in fuels

Employers (1,108; 31); Employees (8,389; 227); Independent workers (1,515; 115).

#### Retail in textile and leather

Employers (3,809; 63); Employees (8,643; 128); Independent workers (8,795; 158).

#### Wholesale trade in foodstuffs

Employers (710; 49); Employees (1,341; 170); Independent workers (1,724; 105).

#### Real estate

Employers (70; 4); Employees (2,059; 21); Independent workers (270; 15).

#### Insurance

Employers (163; 4); Employees (5,964; 148); Independent workers (642; 39).

#### Money lending, banking

Employers (1,058; 25); Employees (11,007; 350); Independent workers (5,244; 164).

#### Transport, storage, communications

Employers (1,374; 63); Employees (95,386; 2,491); Independent workers (15,795; 270).

Below we give the totals of some other categories. The first figure shows the number of males and the second the number of females:

Transport by road (33,982; 592); Transport by water (36,962; 601); Transport by air (2,534; 91); Railway transport (24,089; 424); Storage and warehousing (2,835; 417); Postal services (5,965; 216); Telegraph services (1,783; 77); Telephone services (1,657; 315); Wireless services (161; 3); Health, education and public administration (74,389; 12,170); Medical and health services (9,407; 4,466); Educational Services and Research (10,316; 4,334); Police (11,108; 209); Employees of municipalities and local bodies (13,597; 1,281); Employees of State Governments (14,832; 1,337); Employees of Union Govt. (14,715; 511); Employees of non-Indian Governments (172; 26); Services not elsewhere specified (226,880; 34,177); Domestic services (65,784; 21,091); Barbers and beauty shops (9,836; 104); Laundries and laundry services (13,871; 444); Hotels, restaurants, eating houses (46,725; 1,790); Recreation services (13,777; 1,270); Legal and business services (14,000; 1,143); Arts, letters, journalism (3,232; 137); Religious, charitable and welfare services (5,776; 312).

### AGE GROUPS

In a 10 per cent sample survey the numbers in the different age groups were as follows:

	Males	Females
0	3,232	3,278
1-4	10,828	10,688
5-14	25,512	23,359
15-24	41,959	23,402
25-34	43,422	19,417
35-44	26,057	11,504
45-54	13,753	6,788
55-64	5,268	3,601
65-74	1,461	1,384
75 and over	438	558

Total number of households: 568,862.

22,695 households were examined in a sample survey. The number of persons living in them was 107,282—66,590 males and 40,752 were females.

Out of these households the number of small households (3 members and less) was 9,110, and the number of persons living in them was 18,518; of medium households (4 to 6 members) 8,238, and the number of persons 39,699; of large households (7 to 9 members) 3,656, and the number of persons 28,454; of very large households (10 and above) 1,691, and the number of persons 20,611.

## THE GREATER BOMBAY CORPORATION

The municipal area of Greater Bombay is now divided into 15 administrative wards. These are A, B, C, D, E, F, G, H, K, L, M, N, P, R, and T.

For election purposes the municipal area of Greater Bombay is divided into 44 electoral wards—and are numbered 1 to 44.

From a demarcation point of view one or more electoral wards would go to make one administrative wards.

Total no. of seats : 131.

The administrative ward, the electoral ward, the area covered by the electoral ward, and the number of seats allotted to it are given below :

The municipal government of Greater Bombay vests in the Municipal Corporation, composed of 131 representatives elected on adult franchise.

The Corporation has four statutory committees, the Standing Committee, the Improvements Committee, the Education Committee and the Bombay Electric Supply and Transport Committee.

The executive power in regard to general municipal administration vests in the Municipal Commissioner. The administration of the B.E.S.T. Undertaking, however, vests in the General Manager, B.E.S.T.

The Corporation is required to meet at least once a month. In actual practice it meets twice a week and oftener if necessary. Meetings of the Corporation are presided over by the Mayor who also convenes the meetings. The Mayor's term of office is one year and he is elected at the first meeting in April.

The Standing Committee consists of 17 members, 16 of whom are elected by the Corporation. The Chairman of the Education Committee serves as an additional member. Half the members retire at the end of each year. The Chairman is elected by the members of the Committee at the first meeting in April every year. The main functions of the Committee are to sanction contracts, to scrutinize the budget and establishment schedule, frame service regulations, sanction investment of funds, prescribe the form of keeping accounts and conduct their scrutiny. The Committee meets once every week usually on Wednesdays.

The Improvements Committee consists of 16 Councillors, all of whom are elected by the Corporation. The Chairman is elected for a term of one year, while half the Councillors retire at the end of each year. The Committee is charged with all improvement and development schemes, slum clearance, poorer classes accommodation and purchase and sale of land which does not exceed Rs. 50,000. The Committee usually meets once a fortnight on Tuesdays.

The Bombay Electric Supply and Transport Committee consists of nine members, one of whom is the Chairman of the Standing Committee (ex-Officio), while the remaining members are appointed by the Corporation from among persons who (may or may not be members of the Corporation) have experience of administration, transport or electric supply, or of engineering, industrial, commercial, financial or labour matters. The Chairman is appointed by the members for a period of one year, while half the members retire every second year. The Committee usually meets every Friday; and the Chairman and members are paid a fee for attending the meetings. The Committee exercises a general control over the electric supply and transport undertakings of the Corporation.

The Education Committee consists of 16 members of whom 12 are Councillors and 4 non-Councillors of whom two have to be women. The Chairman of the Committee is elected for a period of one year, while half the members retire at the end of each year. The Committee usually meets on the first Friday of every month. The main function of the Committee is to administer the Primary Education Act or any other law for that purpose for the time being in force.

Besides the Statutory Committees mentioned above there are four Special Committees appointed by the Corporation. These are: 1. the Works Committee, 2. the Medical Relief and Public Health Committee, 3. Markets and Gardens Committee, and 4. Law, Revenue and General Purposes Committee. Each Committee consists of 24 Councillors appointed by the Corporation after each general election. There are a Chairman and a Deputy Chairman for each Committee who are elected by the members and who hold office for one year. All questions that are due to go before the Corporation must first be considered by the appropriate Special Committee which then makes its recommendations to the Corporation.

Then there are a number of *ad hoc* Consultative Committees appointed from year to year, to which the Corporation can refer any matter for consideration and report.

The four most important executives of the Corporation are the Municipal Commissioner, the General Manager of the Undertaking, the Municipal Secretary and the Municipal Chief Auditor.

The Municipal Commissioner is at the head of the Executive. He is usually a senior member of the Indian Civil Service and is appointed by the Government for a renewable period of three years. He can be removed by the Corporation by a five-eighths vote. If however Government desire to revert him to their service the consent of the Corporation is necessary. He attends meetings of the Corporation and Committees but does not vote. He is assisted by three Deputy Municipal Commissioners.

The General Manager of the Undertaking is in the same position to the Electric Supply and Transport Undertaking as the Municipal Commissioner is to the Corporation as a whole. He is appointed by the Corporation subject to the approval of the Provincial Government for a renewable period of not more than five years at a time. He can be removed by the votes of not less than half the number of Councillors. He attends the meetings of the B.E.S.T. Committee and takes part in the discussions but does not vote.

The Municipal Secretary is in charge of all the secretarial work pertaining to the Corporation and its Committees. He is independent of the Commissioner and is directly under the Standing Committee.

The Municipal Chief Auditor is also independent of the Commissioner and is directly under the Standing Committee.

Primary education is free and compulsory in the Lower Primary standards of Municipal Schools all over Greater Bombay. It is the special responsibility of the Corporation.

There were on March 31, 1956, 529 Municipal Schools and Classes conducted by the Education Committee and 293 Aided Schools to which the Corporation makes grants or gives recognition. The total number of pupils in all Primary Schools on March 31, 1956 was 2,82,787 out of whom 2,12,605 were in Municipal Schools and 70,182 in Aided Schools. The Corporation grant to the Education Committee was Rs. 1,27,24,000. Of this Government contributed Rs. 30,59,000.

The Municipality maintains the Victoria and Albert Museum at Victoria Gardens and a number of free reading rooms and libraries (3 libraries in each ward, one for women and two for men).

As for medical relief the Municipality conducts one large fever hospital (Arthur Road), and three large general hospitals (K.E.M., Nair and Slon) and three hospitals for tuberculosis patients. Then there are 85 free dispensaries, five maternity homes, 15 ante-natal clinics, 21 family planning clinics and one venereal diseases clinic.

### WATER SUPPLY

The water supply of the City is drawn from three lakes : Tansa, Vihar and Tulsi. The Tansa Lake can supply more than 100 million gallons per day and is the main source of water supply. It is situated about 66 miles north-east of Bombay. The Vihar Lake can supply 20 million gallons a day exclusively to the north-east part of the City and also partly to Chembur and Kurla. It is situated about 18 miles north of Bombay. The Tulsi Lake which is to the north-west of Vihar Lake supplies about 4 million gallons a day to H, K and L Wards.

Under Section 140 of the Bombay Municipal Corporation Act the Corporation can levy water tax on buildings, lands and premises in the City. The tax is fixed as a certain percentage of the rateable value of the building, land or premises. The present rate is 3½ per cent. Under Section 169 the water supplied can also be charged on meter measurement and at the rates prescribed from time to time by the Standing Committee. Water tax is the first charge on a property under Section 141, and can be recovered from the owner by distress (Sections 203, 204) and is also recoverable from tenants by authorizing them to make payments from their rents (Section 209). The supply of water to any premises can be cut off in default of payment of water tax or any sum due for water or hire of meter or expenses of work done (Section 270 (1) (a)). Copies of Water Charges Rules can be had from the office of the Hydraulic Engineer on payment of a sum of annas 3 per copy.

The amalgamated areas of the former Bombay Suburban District are divided into five wards for purposes of water supply H, K, L, M and N, with two Assistant Engineers in charge, one looking after H and K Wards and the other after L, M and N. The supply is throughout metered.

The obligatory duty of the Corporation to supply an adequate quantity of water relates to the provision of supply only up to the boundary of the premises, as distinguished from the distribution of water within the premises. Any premises can be served by means of one communication pipe only, the size of which depends upon the quantity of water needed in the premises. The owner can have separate connections to each floor provided he pays the cost of all the connections but one.

If the Municipal Commissioner finds that any premises are not provided with an adequate supply of pure water he has the power under Section 271(2) to compel the person who pays the property tax to obtain an adequate supply from a Municipal Water Works and carry out all such works as is necessary for a proper distribution of the water.

No one except a licensed plumber can undertake work on water-pipes and fittings and no person can allow any such work to be done by anyone except a licensed plumber.

For purposes of distribution Bombay is divided into 3 parts, called A Division, B Division and C Division. Broadly speaking, the A Division consists of the areas of Clerk Road, Hornby Vellard up to Jacob Circle, Lamington Road, part of Grant Road, Kika Street, Abdul Rehman Street and Carnac Road up to the Victoria Dock in the north, and on the west coast along Back Bay, Walkeshwar, Nepean Sea Road and Warden Road up to Clerk Road Junction- this Division is served by the Malabar Hill Reservoir.

Division B consists of the localities of Kalachowki Road, Reay Road, Coal Bunder in the north, on the eastern coast up to Carnac Road, Abdul Rehman Street, Kika Road, Falkland Road and part of Grant Road up to Lamington Road in the south. In the west Lamington Road and Arthur Road and finally some areas of Dongri and Mandvi and Mazagon. The whole of this Division is supplied from the Bhandarwada Hill Reservoir. The C Division, that is the north of the Island is served directly from the Trunk mains as they enter the City.

The quantity of water given through the Malabar Hill Reservoir is 41 million gallons a day, through the Bhandarwada Reservoir 22 and the quantity given directly 78 million gallons.

Total water supplied per day : 144 mln. gallons after completion of the first phase of Vaitarna-Tansa Scheme. When the scheme is completed the total supply is expected to be 220 million gallons a day.

The Tansa supply is chlorinated at the Chlorination Plants of Powai and Ghatkopar, while the Vihar supply is sterilized at Powai.

There is regular bacteriological and chemical analysis of water carried out by the Municipal Analyst.

### PUBLIC HEALTH DEPARTMENT

The Public Health activities are carried on under the direct control and supervision of the Executive Health Officer. The Department is divided into several branches such as environmental sanitation, food sanitation, vital statistics, prevention and control of communicable diseases, maternity and child hygiene, medical relief and health propaganda.

Environmental sanitation comprises inspection and supervision of premises, provision of public sanitary conveniences, sanitary control over factories, licensable trades, overcrowding.

The veterinary staff inspects the stables in the city and are also in charge of the bullock hospital and segregation sheds in Mahalaxmi.

For purposes of sanitation, registration and vital statistics the city is divided into five divisions, each division being under the charge of an Assistant Health Officer who is directly responsible to the Executive Health Officer.

For the hygienic control of the milk trade there are Milk Inspectors and Sub-Inspectors.

For pest control there is a Malaria and Insecticide Branch.

The vaccination staff includes a Superintendent, a Head Vaccinator, a number of Vaccinators including a Lady Vaccinator. There are 38 permanent public vaccination stations 3 of which work daily at : 1. The Central Vaccine Depot, Parel, 2. The Sanitary Institute Building, Dhobi Talao, 3. Arthur Road Hospital. The remaining centres work on one day every week by rotation for about 2½ hours. Besides, 4 additional temporary centres work one day every week for 2½ hours.

Hygiene includes maternity and child welfare, family planning and school health.

There are five Maternity Homes, each in charge of a Lady Medical Officer. Twenty Health visitors do the follow-up work and domiciliary care under the direction of the Lady Medical Officer. A small maternity unit is conducted at Dharavi. Expectant mothers are encouraged to attend ante-natal clinics, of which there are 15 in number. The five Maternity Homes are at Cadell Road, Victoria Road, Bellasis Road, Khetwadi and Imamwada Road. And the child welfare clinics are conducted (besides the Maternity Homes) at Fergusson Road Dispensary, Dadar Main Road Dispensary, Labour Welfare Centre at Arthur Road, Chawls, Ambewadi Dispensary at Parel Tank Road, District Dispensary at Souter Street, Tardeo Flats Dispensary, District Dispensary at Charni Road, District Dispensary at Panjrapole, Paltan Road Stables Dispensary, District Office at Kolha Mohalla.

There are Family Planning Clinics at 264, Charni Road; Bai Gulbal Choksey Dispensary at Dr. D'Silva Road, Dadar; Bellasis Road Maternity Home; Victoria Road Maternity Home; Imamwada Maternity Home; Cadell Road Maternity Home; and Khetwadi Maternity Home.

School Health Work is limited to Municipal Schools only and is under a Medical Officer. Children found to have defects are taken for treatment in school buses to the school clinic at K.E.M. Hospital. Dental care is given at the Dental Clinic at the Bai Yamunabai L. Nair Hospital.

The Public Health Laboratory which is under the charge of a Municipal Analyst conducts routine and special examinations of water, sewage, food, urine, blood and sputa of patients at Municipal Institutions.

The Conservancy Branch, under the City Engineer, is in the charge of a Head Supervisor who has an Assistant. Under them are Supervisors, Senior Overseers, Junior Overseers, Depot attendants, etc. The Veterinary staff is under a Senior Veterinary Inspector, who has a number of Junior Inspectors and qualified veterinary surgeons.

Conservancy includes cleansing of streets, etc., removal and disposal of refuse, destruction of rats and dogs, veterinary service, removal of carcasses, disinfection, ambulance and so on.

Medical Relief is given at the following general hospitals : K.E.M., Nair, Shon Municipal Hospital, H.P.T.B. and Arthur Road, at Municipal Free dispensaries and one Eye Dispensary and Hospital.

There are dispensaries at 55, Rajwadar Street, Colaba; 803, Frere Road, Fort; 259, Sandhurst Road, Dongri; 212(1) Panjrapole Street, Bhuleshwar; 284, Charni Road, Girgaum; 15-17, Khetwadi First Lane; 1, Souter Street, Byculla; 143, Foras Road; Bai Gaurabai Dispensary, Kamathipura 8th Lane; Bai Gulbal Choksey Dispensary, D'Silva Road, Dadar; B.D.D. Chawl, No. 45, Worli; 213C, Delisle Road; 245(H) and (J), Dharavi Road; New Parbadevi Road and Cadell Road Junction; Mulji Bhuvan, Sewri New Road; New Chawl, Ambewadi, Parel Tank Road; 160-160-A, New Delisle Road; Tardao Flats, Mahalaxmi; Connaught Road, Byculla; Chembur Dispensary, Chembur; King George V Infirmary, Haines Road, Mahalaxmi; Paltan Road; Zandu Ayurvedic, Gokhale Road (South), Dadar; Dadar Main Road, Municipal Chawl No. 1.

The Eye Dispensary is in Bai Lingubal Building in Kamathipura where an eye hospital is also located.

### The Bombay Civic Journal

To stimulate civic awareness and promote closer contact with the public, the Corporation has been running an illustrated monthly journal called 'The Bombay Civic Journal' from March 1954. It deals with the activities and problems not only of the Bombay Municipality, but also of other local bodies all over the country and seeks to foster 'an objective discussion of civic issues and the larger questions relating to local self-government from the national angle.'

Editor, U. G. Rao; Advertisement and Circulation Manager, R. S. Shanbhag.

Another new development is the starting of a Public Relations Department from February 1956 to attend to complaints from the public and do publicity. The old Propaganda Section of the Public Health Department and the Ward Officers' section are merged in it.

**SOME FACTS (1956-57)**

Area of the City .. .. .	26.189 sq. miles
Population .. .. .	2,320,020
Density of Population .. .. .	130 per acre

**INCOME :—**

General Tax at 17 per cent } and Fire Tax at 4 per cent }	Rs. 4,17,83,811
Water Tax at 3½ per cent including other receipts from Water Works	2,21,65,757
Halalkhore Tax at 3 per cent including receipts from special service	76,08,069
Total Income (including revenue from other sources)	10,08,45,382
Rates charged for water connections by measurement	From As. 0 to Rs 2-6-0 per 1,000 gallons according to the use of the properties.

**EXPENDITURE :—**

Primary Education (including suburbs)	Rs. 1,86,52,000
Medical Relief and Education	1,12,53,254
Water Works— Maintenance, etc.	Rs. 45,22,584
Debt Charges	1,08,88,776
Debt Charges (excluding Water Works)	2,13,01,300
Total expenditure	11,48,57,725

**LOANS :—**

Debts outstanding	30,32,73,000
Redemption or Sinking Fund in hand or invested	4,77,30,000

**(1955-56)****TAXES :—**

Incidence of taxation per head	Rs. 35-13-0
Total rateable value	25,20,81,126
Properties registered in the Assessment Book	51,627
Rateable value per head of population	108-5-11
Number of vehicles and animals taxed	44,241
Demand in respect of Urban Immoveable Property tax levied by Govt., collected by Municipality	1,05,53,417
Amount collected including previous arrears	1,09,35,708

**BIRTHS AND DEATHS :—**

Total Number of live births registered during the year 1955-56	66,575
Birth rate per thousand living	28-6
Total Number of deaths during the year	28,108
Death rate per thousand population	12-1

**OTHER ITEMS**

No. of hospitals (Govt. Mun. Private) : 14.
No. of municipal dispensaries : 35.
Municipal Primary Schools : 529.
No. of Children in Primary Schools : 282,787.
No. of teachers : 5,783.
No. of High Schools : 250 (approx.).
No. of Colleges : 24.
No. of Students in Colleges : 30,000 (approx.).
No. of Electric Supply consumers : nearly 200,000.
No. of Motor Vehicles : 11,000 (approx.).
Police Force : 12,000 (approx.).
Road mileage : over 450.
No. of Fire Brigade Stations : 12.
No. of Fire Engines : 30.
No. of Markets (municipal and private) : 60.

**SOME FACTS (SUBURBS)\*****(1956-57)**

Area of the Suburbs .. .. .	67.81 sq. miles.
Population (as per 1951 Census) .. .. .	510,250
Density of Population .. .. .	11.75 per acre

**INCOME :—**

General Tax at different rates varying from 8½ per cent to 17 per cent and Fire Tax 4 per cent }	Rs. 61.72 lakhs.
Water Tax by measurement (including other receipts from Water Works)	41.78 lakhs.
Halalkhore Tax at 3 per cent and receipts from special service	8.20 lakhs.
Rate charged for water supplied by measurement	From As. 12 to Rs. 2-0-0 per 1000 gallons according to the use of property.

Total Income (including revenue from other sources)	Rs. 165.86 lakhs.
--	-------------------

**EXPENDITURE :—**

Medical Relief .. .. .	7.29 lakhs.
Water Works— Maintenance, etc.	Rs. 30.21 lakhs.
Debt Charges .. .. .	5.81 lakhs.
Total Expenditure	Rs. 180.98 lakhs.

**LOANS :—**

Debt outstanding at the close of 1955-56	Rs. 221.41 lakhs.
Redemption and Sinking Funds in hand or in- vested	27.97 lakhs

**(1955-56)****TAXES :—**

Incidence of taxation per head	25-2-5
Total Rateable value	407.22 lakhs.
Properties registered in the Assessment Book	40,810
Rateable value per head of population	97.45
No. of vehicles and animals taxed	4,380 (Exclusive of those taxed under Public conveyance Acts.)

Demand in respect of Urban Immoveable Property tax levied by Government, collected by Municipality	Rs. 29.03 lakhs.
Amount Collected	14.59 lakhs.

**BIRTHS AND DEATHS :—**

Total number of live births registered during the year	20,335
Birth rate per thousand living	30.9
Total number of deaths during the year	5,932
Death rate per thousand population	11.6

**MUNICIPAL BUDGET (1957-58)**

Here are some of the more important items of the municipal budget for 1957-58 as presented to the Corporation by the Chairman of the Standing Committee with minor modifications :

	Lakhs
Income .. .. .	Rs. 1,032.13
Expenditure .. .. .	1,061.03
Deficit .. .. .	31.90

**Capital Account**

The total amount provided is Rs. 503.98 lakhs. Out of this Rs. 385.38 lakhs are for works in progress and Rs. 87.60 lakhs for new works. Among the major items for which funds have been provided are Vaitarna-cum-Tansa Scheme Rs. 117.94 lakhs, enlarging of Tansa water main, master plan for distribution of water in City, improving water mains, remodelling distribution system, etc. Rs. 114.77 lakhs, acquisition of land for extension of B.Y.L. Nair Charitable Hospital and T.N.M. College Rs. 30.38 lakhs, and installation of purification plant at Love Grove Rs. 13.94 lakhs.

**B.E.S.T. BUDGET**

The budget estimates of the Bombay Electric Supply and Transport Undertaking, for 1957-58, as finally adopted by the Bombay Municipal Corporation, show a net surplus of more than Rs. 69.37 lakhs.

The income of the Undertaking, including the opening balance of one lakh of rupees is placed at Rs. 987.69 lakhs. The expenditure is estimated at Rs. 917.32 lakhs.

The table below shows an outline of the budget :—	Lakhs
Estimated opening balance .. .. .	Rs. 1.00

**ESTIMATED INCOME :—**

Electric Supply .. .. .	897.69
Tramways .. .. .	116.88
Buses .. .. .	472.11
Total .. .. .	987.69

**ESTIMATED EXPENDITURE :—**

Electric Supply .. .. .	820.57
Tramways .. .. .	104.39
Buses .. .. .	428.84
Total .. .. .	917.32
Surplus including opening balance of Rs. 1 lakh	70.37

This surplus will be disbursed as follows : Transfer to the municipal funds, as required by the Bombay Municipal Corporation Act, Rs. 40.00 lakhs ; transfers to other various funds, Rs. 29.37 lakhs. This leaves a closing balance of Rs. 1.00 lakh.

The foregoing figures show that the electric supply section is estimated to yield a surplus of Rs. 68.43 lakhs and the working of the buses is anticipated to result in a surplus of Rs. 49.09 lakhs. The tramways section is expected to show a loss of Rs. 47.40 lakhs.

Provision is made in the 1957-58 budget for the purchase of 150 new buses. At the end of 1957-58 the fleet would consist of 825 buses according to the current programme.

**EXTENDED AREAS' BUDGET†**

The main budget figures for 1957-58 for the extended areas comprised of the former municipalities of Malad, Kandivli, Borivli and Mulund, and the former village panchayats of Goregaon and Dahisar :

Income : Rs. 32.9 lakhs
Expenditure : Rs. 24.91 lakhs.
Some allotments are :

Water supply Rs. 8.42 lakhs ; Rs. 4.50 lakhs for hospital at Mulund and maternity homes at Goregaon and Borivli ; Roads, Rs. 2.4 lakhs ; Village amenities Rs. one lakh.

\* Exclusive of areas merged in Feb. 1957.

† Areas amalgamated in Feb. 1957.

*SECRETARY*.—R. P. Aiyer.

\* In the case of some associations, besides the title and the address a short note is added about their aims, etc. This is generally done where the aims, activities, organization are not immediately obvious from the title. Also, when an association appears for the first time in our book a note is generally added. The addition of a note is not necessarily an indication of the relative importance of the association, that is, in relation to others.

Two points should be kept in mind: office-bearers may change; addresses given may sometimes be in the nature of a reference.

**HAPPY HOME & SCHOOL FOR THE BLIND**

B. D. D. Chawl 52, 3rd Floor, Worli.

This charitable residential institution for blind boys between 6 and 20 and fully secular, is the only one of its kind to provide for street blind and delinquents. It was started in 1925. It aims at giving educational and vocational training to blind juvenile boys. Music both instrumental and vocal as well as cane-work, weaving, net-work, sewing, knitting, dramatics, physical culture, scouting etc., are taught, with a view to making them self-supporting. It gives general education in Marathi and Gujarati upto the 7th standard. Hindi and a little bit of English are also taught. Special attention is paid to developing the character of inmates and turn them into useful citizens thus saving them from becoming beggars.

There are 56 inmates with room for 60, funds permitting.

**THEATRE UNIT**

89, Bhulabhai Desai Road, Bombay 26.

The Unit's main objective is to provide training in all branches of the theatre. It runs a fully equipped and adequately staffed School of Dramatic Arts (See under Educational Institutions) whose Principal, Mr. E. Alkazi, is recognised as Drama Instructor by the Government of India.

The Unit produces, in the professional spirit, plays calculated to enhance theatre in the eyes of the public, concentrating on the classics of Western and Eastern drama. It hopes to set a standard in Indian language productions, with all the resources of modern stage technique. It has a Hindi section.

The Unit builds its own sets and makes costumes for its productions. To stimulate interest in theatre, literature and the visual arts, it publishes the *Theatre Unit Bulletin* (Annual Subscription, Rs. 3.)

**Director.**—E. Alkazi.

### THEOSOPHY COMPANY (INDIA) PRIVATE LIMITED

### ZOROASTRIAN PHYSICAL CULTURE AND HEALTH LEAGUE

Central Bank Building (Dean Lane Entrance), Bombay 1.

# EDUCATIONAL INSTITUTIONS IN GREATER BOMBAY\*

## UNIVERSITY OF BOMBAY

Incorporated under Act XXII of 1857 (subsequently amended by Act VII of 1904, and reconstituted by the Bombay University Act IV of 1928 and Act XXXI of 1963).

The Senate meets ordinarily once a year in June on a date fixed, and at other times when convened, by the Vice-Chancellor. A meeting of the Senate can be convened on the requisition of at least twenty Fellows to the Vice-Chancellor. Twenty members of the Senate form a quorum; and all questions are decided by a majority of the votes of the members present, the Chairman, when the numbers are equal, having a second or casting vote. There are seven Faculties, viz. Arts, Science, Technology, Law, Medicine, Commerce and Dentistry. Each Faculty elects its own Dean. The Annual Convocation for conferring degrees is held on the third Tuesday in August.

The Executive Government of the University is vested in the Syndicate. The Vice-Chancellor is the Chairman of the Syndicate.

### CHANCELLOR

Sri Prakasa, B.A., LL.B. (Cantab.), Bar-at-Law, Governor of Bombay.

### VICE-CHANCELLOR

T. M. Advani, M.A., LL.B.

Bar-at-Law.

#### ELECTED BY THE ACADEMIC COUNCIL TO THE SYNDICATE

Prof. P. R. Awati, B.A. (Bom. & Cantab.), D.I.C., F.N.I.

\* In the case of some institutions, besides the title and address a short note is added about their curriculum, etc. This is generally done where the objects, curriculum, organization are not immediately obvious from the title. A note is also added when an institution appears in our book for the first time. The addition of a note is not necessarily an indication of the institution's relative importance, that is, in relation to others.

## II. FELLOWS—ORDINARY (ELECTED).

### ELECTED BY THE HEADMASTERS

A. S. Sthalekar, M.Sc.; Y. M. Trilokekar, M.A.

### ELECTED BY REGISTERED GRADUATES IN ARTS

M. V. Dondé, B.A.; S. J. Sillam, B.A., LL.B., M.L.A.; Professor V. D. Rao, M.A., Ph.D., LL.B.; P. M. Kavadia, M.A., LL.B.; K. S. Amin, B.A., LL.B.

### By REGISTERED GRADUATES IN SCIENCE

K. R. Gunjikar, M.A., B.Sc.; Professor P. M. Barve, M.Sc.; Dr. B. N. Desai, B.A., LL.B., M.Sc. (Bom.), Ph.D., D.Sc. (Edin.), F.R.S.E.; Dr. V. Y. Jawande, M.Sc., Ph.D.; A. N. Namjoshi, M.Sc.

### By REGISTERED GRADUATES IN TECHNOLOGY

N. V. Modak, C.I.E., B.E., A.M.I.E.E., M.I.E.; H. S. Batilvala, B.E.; M. N. Gogate, B.Sc., B.Sc. (Tech.)

### By REGISTERED GRADUATES IN MEDICINE

Dr. B. B. Yodh, M.B.B.S., M.R.C.P., D.T.M. & H.; Dr. C. S. Patel, M.B.B.S., L.R.C.P., M.R.C.S., F.R.C.S.; Dr. R. V. Sathe, M.D., M.R.C.P.

## BOMBAY CITY SOCIAL EDUCATION COMMITTEE Bombay.

The Committee imparts Social Education including instruction in community and individual health, hygiene, literacy both in theory and practice.

The Committee is carrying on the campaign in accordance with the Ten-Year Plan supplemented by "The New Approach to the Ten-Year Plan" prepared with a view to liquidating illiteracy within ten years, at an aggregate cost of Rs. 55,00,000. The Committee's jurisdiction has been extended since 1950 to the whole of Greater Bombay. The Committee has a special scheme of educating workers in mills and factories also.

**Activities :—**The Committee runs 2,000 literacy centres per year in Marathi, Gujarati, Hindi, Urdu, Kannada, Telugu; and 600 post-literacy centres; arranges cultural programmes every week; cinema programmes every day; circulates library boxes; arranges science and other exhibitions for the enlightenment of the illiterate masses, arranges cleanliness squads, etc. It has also established 14 Community Radio Centres in the labour areas. It has organised a Matru Vikas Kendra for women and a special Research Department for Social Education.

**Finances :—**The annual expenditure is about Rs. 3,50,000. The Government of Bombay pays 50 per cent of the annual expenditure and the Bombay Municipality contributes about 20 per cent. Amongst others, Sir Dorabjee Tata, Sir Ratan Tata Trusts and N. M. Wadia Charities make regular yearly contributions. A special annual feature is the Social Education Week celebration to collect funds and to propagate social education.

**Achievements :—**In the last 17 years, the Committee has educated in literacy and general knowledge in Marathi, Hindi, Urdu, Gujarati and Telugu languages more than 350,000 adults of whom 68,900 were women at a total cost of Rs. 35,37,800. Adults are provided with all educational facilities free.

## THE BRITISH COUNCIL

**REGIONAL OFFICE AND LIBRARY :—**French Bank Bldg., Hornji Street, Fort.

The British Council is a body under Charter to Her Majesty the Queen and is the principal agent in Britain for the development of cultural relations with foreign and Commonwealth countries. It works in some sixty countries, in addition to extensive activities in the United Kingdom itself.

Its main functions are the conveying of a knowledge of Britain to other countries. This it does by encouraging intercourse and the exchange of ideas between technical, professional, and educational groups in Britain, and similar groups in countries abroad. It fosters a knowledge of the English language and co-operates with overseas universities, schools and societies to promote English studies and assist in English language teaching. It grants over 200 scholarships every year to allow students to visit Britain and undertake courses of study. Six such scholarships are awarded in India each year. The welfare of students from the Colonies is its special responsibility. It has welfare and other institutions for foreign students in the larger towns of Britain. In addition, it invites selected individual visitors to Britain as its guests, and gives, wherever possible, help and advice in the arrangement of professional programmes to visitors from overseas who go to Britain of their own accord. It is the administering body for Fellowships awarded by United Nations' specialised agencies for study in Britain.

In literature, music, drama, the fine arts, pure science, engineering, medicine and agriculture, it provides manifestations abroad, sending lectures, exhibitions and other works. The Bombay Library open to members only, contains 15,000 books on a variety of subjects as well as a large collection of periodicals.

*Headquarters :—*65, Davies Street, London W. 1.

*Headquarters in India :—*New Delhi.

Other Regional Offices in Calcutta and Madras.

In furtherance of the above objects, a *Vidyarthigriha* was started, at Bombay in 1915.

## TATA INSTITUTE OF FUNDAMENTAL RESEARCH

Apollo Pier Road, Bombay 1.

The Tata Institute of Fundamental Research was established jointly by the Government of Bombay and the Trustees of the Sir Dorabji Tata Trust in June 1945. The object of this all-India Institute is fundamental research in Physics, Mathematics and allied sciences. The Institute is permanently recognised by the University of Bombay as a constituent recognised institution for post-graduate research in physics and mathematics.

Though, at its inception, the Government of India was not directly concerned with the Institute, it has provided grants since 1948. In view of the increasing financial assistance given by the Government of India, which latterly contributed over 90% of the Institute's budget, a tripartite agreement was entered into between the Government of India, the Government of Bombay and the Sir Dorabji Tata Trust, and came into force on April 1, 1956. This agreement, under which the Government of India recognises the Institute as the National Centre for advanced study and fundamental research in nuclear science and mathematics, provides for its administration by a council consisting of representatives of the 3 parties, the Government of India having a major voice.

Till the Atomic Energy Establishment of the Department of Atomic Energy was created, the Department recognised the Institute as the centre for all large-scale projects in nuclear research and entrusted to it important research projects in which it was interested. With the creation of the Atomic Energy Establishment such projects have been taken over by the Establishment, however, pending the construction of its own laboratories at Trombay, facilities are being provided at the Institute to divisions of the Engineering and Physics Groups of the Establishment.

### COUNCIL

J. R. D. Tata (*Chairman*); S. Ratnam; V. T. Dehejia, I.C.S.; Professor R. Choksi, M.A.; Dr. H. J. Bhabha, D.Sc., F.R.S., F.R.S.

### STAFF

#### Academic

Dr. H. J. Bhabha, D.Sc., F.R.S., F.R.S., *Director and Professor of Theoretical Physics*; Professor K. Chandrasekharan, Ph.D., *Professor of Mathematics*; Professor D. D. Kosambi, *Professor of Mathematics*; Professor B. Peters, Ph.D., *Professor of Experimental Physics*; Dr. D. V. Phadke, Ph.D., *Associate Prof. of Experimental Physics*; Dr. S. S. Dharwadkar, Ph.D., *Reader in Experimental Physics*; A. B. Sahkar, *Reader in Experimental Physics*; Dr. B. V. Thosar, Ph.D., *Reader in Experimental Physics*; Dr. M. G. K. Menon, Ph.D., *Reader in Experimental Physics*; Dr. K. G. Ramanathan, Ph.D., *Reader in Mathematics*.

#### Administrative

E. C. Allardice, I.C.S. (Retd.), *Deputy Director (Administration)*; N. R. Puthran (*Registrar and Secretary to the Council*).

## TATA INSTITUTE OF SOCIAL SCIENCES

Chembur, Bombay 38.

*Board of Trustees*.—Lady Ratan Tata; Dr. John Matthai (*Chairman*); J. R. D. Tata; Sir H. P. Mody; A. D. Shroff; N. H. Tata; Professor R. Choksi (*Managing Trustee*).

*Governing Board*.—Dr. John Matthai (*Chairman*); N. H. Tata; D. R. D. Tata; Professor R. Choksi; K. G. Saykhan; Sobh Raj; A. D. Gorwala; L. Sawhney; Prof. A. R. Wadia; L. S. Kudchedkar; J. J. Panakal (*Offg. Secy.*).

The Tata Institute of Social Sciences was founded in June, 1936—then known as Sir Dorabji Tata Graduate School of Social Work—by the Trustees of the Sir Dorabji Tata Trust. Admission to the Institute is open only to graduates of recognised universities. The Institute offers a two years' training in professional social work on

the successful completion of which a Diploma in Social Service Administration is awarded. The Courses of specialisation include Labour Welfare and Industrial Relations, Family and Child Welfare, Medical and Psychiatric Social Work, Community Organisation and Development, Criminology, Juvenile Delinquency and Correctional Administration, Social Research, Rural Welfare and Tribal Welfare.

The Institute also offers one-year programmes of training in Applied Psychology and Social Research, and six months' programmes of training in (1) Criminology, juvenile delinquency and correctional administration, (2) Institutional care, (3) Organisation of Community Welfare Centres and (4) Rural welfare.

In addition to the training programmes, the Institute maintains a Department of Research which promotes research in social problems. Under the auspices of the Department of Publications *The Indian Journal of Social Work* is published every quarter and edited by the Director of the Institute.

Among other activities of the Institute are the Child Guidance Clinic and the special school for bedridden hospitalised children located in the Jeebai Wadia Hospital for Children, Parel, Bombay, and a community welfare centre in Worli, Bombay. Psychological and Group Work Laboratories are also being equipped to provide facilities for practical work.

The Social Education Organizers' Training Centre is under the management of the Institute.

*Director*.—Professor A. R. Wadia, M.P.

*Registrar*.—L. S. Kudchedkar, M.A.

*Offg. Registrar*.—J. J. Panakal, M.A., Dip. S.S.A.

## UNIVERSITIES INFORMATION BUREAU

University of Bombay, Fort, Bombay 1.

**ELECTRICAL INSTRUMENTS AND APPLIANCES**

ELLIOTT BROTHERS (LONDON) LTD., Century Works, Lewisham, London, S.E. 13. Electrical Measuring Instruments and Telegraph Apparatus. Sole Agents: Siemens Brothers & Co., Ltd., 249, Dr. Dadabhai Naoroji Road, P.O. Box No. 1062, Fort, Bombay.

**ELECTRICAL PLANT**

Asea Electric Limited, Walthamstow, London E. 17. Manufacturers of Transformers and on-load tap changers. Representatives: Asea Electric India Private Limited, Yaffa Building, Goa Street, Ballard Estate.

Asea, Vasteras, Sweden. Manufacturers of all types of electrical machinery and apparatus for power purposes. Representatives: Asea Electric India Private Limited, Yaffi Building, Goa Street, Ballard Estate.

**BROWN, BOVERI & CO., LTD.,** Baden (Switzerland). Steam Turbine and Electrical Machinery Apparatus of every description. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

Bruce Peebles & Co. Ltd., Edinburgh. Electrical Machinery, Transformers, etc. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

### ELECTRICAL & RADIO TEST INSTRUMENTS

Automatic Coil Winder & Electrical Equipment Co. Ltd., London S.W.1, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Sangamo Weston Ltd., Middlesex, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRICAL RESISTANCE ALLOYS, NICHROME, ETC.

British Driver-Harris Co. Ltd., Manchester 15, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Driver-Harris Company Harrison, New Jersey, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRICAL SWITCHES AND FUSES

Arrow Electric Switches Ltd., Hanger Lane, Ealing, England. London, W. 5. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRICAL SWITCHGEAR

**BROOKHIRST SWITCHGEAR LTD.,** Northgate Works, Chester, England. (Electric Motor Control Gear and Auxiliaries). Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

**CANTIE SWITCHES LIMITED,** Port Causeway, New Ferry, Birkenhead, England. Manual Switchgear. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

Contractor Switchgear Ltd., Wolverhampton, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

**IGRANIC ELECTRIC CO., LTD.,** Export Department, Victoria Station House, Victoria Road, London, S.W.1. (Electric Motor Control Gear and Auxiliaries). Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

M. & C. Switchgear Ltd., Glasgow. Electrical Switchgear. Agents: Guest, Keen, Williams Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

Yorkshire Switchgear & Engineering Co. Limited, Meanwood, Leeds 6, England. Manufacturers of Metalclad H. V. Switchgear. Representatives: Asea Electric India Private Limited, Yaffi Building, Goa Street, Ballard Estate.

### ELECTRICAL WIRES & CABLES

Manufactures De Cables Electriques Eupen, Belgium. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRODES

Cooper & Turner Ltd., Vulcan Works, Vulcan Road, Sheffield, England. Sole Agents: Datson, Raviraj & Co., 43, Tamarind Lane, Fort, Bombay. Phone: 39333.

Murex Welding Processes Ltd., Waltham Cross, Herts. Agents: Guest, Keen, Williams Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

**UNION CARBIDE & CARBON CORPORATION,** New York 17, N.Y. (U.S.A.). Acheson Graphite and National Carbon Electrodes for Electrothermic & Electrolytic applications, Carbon Lining Blocks, Bricks, Paste, etc., Chemically inert "Karbate" (Impervious Carbon and Graphite) Products. Representatives in India: Voltas Limited, Ballard Estate, Bombay 1.

Weldcraft Ltd., 26, Purley Way, Croydon, England. Manufacturers of "Bronze-craft" Low Temperature Welding Rods. Sole Agents: Datson Raviraj & Co., 43, Tamarind Lane, Fort.

Welding Supplies Ltd., England. Electrodes & Welding Plants, Magnetic Crack Detectors, and Gas Cutting Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

### ELECTRONIC AIDS FOR AVIATION

Maryland Electronic Mfg. Co., Maryland, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRONIC APPARATUS FOR RESEARCH & INDUSTRY

Allen B. Du Mont Laboratories, Inc. International Division, 515, Madison Avenue, New York, 22 N.Y., U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Boonton Radio Corp., Boonton, New Jersey, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Southern Instruments Ltd., Surrey, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Sperry Gyroscope Co. Ltd. Brentford, Middlesex, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Sperry Gyroscope Co., Great Neck, New York, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRONIC APPARATUS & RADIO BROADCASTING & COMMUNICATION EQUIPMENT

Westinghouse Trading Co. (Asia) Ltd., 40 Wall Street, New York, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTRONIC EQUIPMENT AND INSTRUMENTS

Brush Electronics Co., Cleveland 14, Ohio, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

Electronic Instruments Ltd., Surrey, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

General Radio Company, Cambridge 39, Mass., U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### ELECTROPLATING & POLISHING EQUIPMENTS

R. Cruickshank Ltd., Camden St., Birmingham 1. Agents: Hardcastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Bombay 1.

W. Canning & Co., Ltd., Birmingham, England. Agents and Chief Distributors: S. Mitra & Co., 187, Dr. Dadabhoi Naoroji Road, Bombay 1. Grams: "Mudeshi."

### ENGINEERING

Aerex Ltd., 46, Rutland Park, Sheffield. Mine Ventilating Fans. Agents: Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Fort, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Ashworth & Parker, Ltd., Bury, Lancs. High Speed Steam Engines and Accessories. Sole Representatives: W. H. Brady & Co., Ltd., Veer Nariman Road, Fort.

Beck & Co. (Meters) Ltd., etc. Agents: Hardcastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

British Pitometer Co., Ltd., London. Agents: Glenfield & Kennedy, Ltd., 198, Janshedji Tata Road, Fort, Bombay 1.

Charles Thomas & Co., Ltd., Wainwright Street, Aston, Birmingham, 6, England. Agents: Soho House, Lohar Street, Bombay.

Christiansen & Nielsen, Copenhagen, Denmark. Patented R.C.C. Arch Bridges with inclined hangers. Sole Agents in India: Gannon India Private Ltd., Hamilton House, Ballard Estate.

Craven Bros. Crane Division, Ltd., Loughborough. Breakdown and Railway Cranes. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort.

Glenfield & Kennedy, Ltd., Kilmarnock. Agents: Glenfield & Kennedy, Ltd., 198, Janshedji Tata Road, Fort, Bombay 1.

Henricot Steel Foundry, 5, Lawrence Pountney Hill, Cannon Street, London, E. C. 4. Steel Castings. Agents: Hardcastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Hick Hargreaves & Co., Ltd., Steam Engines and Turbo Generators. Representatives: W. H. Brady & Co., Ltd., Veer Nariman Road, Fort.

**British Lead Mills Ltd., England** Mfrs. of lead. Sole Agents in India: Alsales Ltd., 9, Wallace Street, Bombay 1

## LEATHER & SKINS

**John Oimeroed & Sons Ltd., England.** Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort.

**Thomas Evans & Sons Ltd., Sawston, Cambridge.** Agents: Soho House, Lohar Street, Bombay 2.

## LEATHER CLOTHS

**Robert Pickles Ltd., Portsmouth Mill, Portsmouth, Near Tadmorian.** Agents: Soho House, Lohar Street, Bombay 2.

## LEATHER GOODS MANUFACTURERS

**Bridge of Weir Leather Co., Ltd., Bridge of Weir, Near Glasgow. "Warm-Sit"** Leather for Upholstery. Agents: **Hardcastle, Waud & Co., Private Ltd., Allee Buildings, Dr. Dadabhai Naoroji Road, Fort.**

**Greenwich Leathercloth Co. Ltd., St. Mary Gray, Kent.** Manufacturers of Leathercloth & Plastic Sheetings. Sole Agents: W. A. Beardsell & Co. Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

**Houghton, E. F., & Co., Philadelphia.** Agents: **Hardcastle, Waud & Co., Private Ltd., Allee Buildings, Dr. Dadabhai Naoroji Road, Fort.**

## LIFE SAVING EQUIPMENT

**R. F. D. Company Ltd., Cotteshall Lane, Godalming, Surrey, England.** Agents: E. W. Stevens & Co. Private Ltd., 4, Ballard Road, Bombay 1.

**Scherer's Pistol Rocket Apparatus Ltd., 51, Coleman Street, London E. C. 2.** Agents: E. W. Stevens & Co. Private Ltd., 4, Ballard Road, Bombay 1.

## LIFTS (ELECTRIC)

**Murray & Scott, London.** Electric Passenger and Goods Lifts. Agents: John Fleming & Co. Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

## LIFTS, ELEVATORS, ETC.

**Christopher & Sons Ltd., J. London (Holsta & Winches).** Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

**Rowland Prids & Co. Ltd., England.** Pulley Blocks, Mechanical & Hydraulic Lifting & Traversing Jacks & Other Equipment. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.**

## LINOLEUM

**Tayside Floorcloth Co., Ltd., Newburgh, Fife, Scotland.** Sole Agents: **Healty & Gresham, Ltd., 9, Forbes Street.**

## LITHOGRAPHERS

**Waterlow & Sons Ltd., 26/27, Gt. Winchester Street, London, E.C. 2.** Protective Cheque Specialists, Bank Notes, Bond and Stamp Engravers. Agents: Gillanders Arbuthnot & Co., Ltd., 16, Queen's Road Estate, Bombay 1.

## LOCOMOTIVE EQUIPMENT

**Associated Locomotive Equipment Ltd., London.** Agents: **Guest, Keen, Williams Ltd., Winkfield House, Spott Road, Ballard Estate, Bombay 1.**

**Superheater Co., Ltd., 53, Hay Market, London, S.W.1.** Sole Agents for India, Burma and Ceylon: **J. Stone & Co. (India) Private Ltd., Yall Building, Goa Street, Ballard Estate.**

**WM. GRIFFITH & SONS LIMITED, Saville Street East, Sheffield, 4 (England).** Laminated Springs. Representatives: **James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.**

## LOCOMOTIVES

**Daye Paxman & Co., Ltd., Standard Iron Works, Colchester.** Diesel Engines for Rail Traction in Locomotives and Railcars. Sole Concessionaires: **Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.**

**NORTH BRITISH LOCOMOTIVE CO. LTD., 110, Flemington Street, Springburn, Glasgow, N. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.**

Ruston & Hornsby Ltd., Lincoln. Narrow & Metre Gauge Diesel Locomotives and Broad Gauge Shunting Diesel Locomotives. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

### LUBRICATING OILS AND GREASES

Acheson, Colloids Ltd., London. "Colloidal Graphite Products", "Olldag", "Aquadag", etc. Agents: Hardcastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Edgar Vaughan & Co., Ltd., Birmingham. Agents: Hardcastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Germ Lubricants Ltd., Copthall Avenue, London, and at Salford, Manchester. (Lubricating Oils and Greases). Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

Gull Oil (India) Private Ltd., Selling Agents: Killick Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

Houghton, E. F., & Co., Philadelphia. Agents: Hardcastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Ocean Oil Co. (1942) Ltd., Marine Engine Oils. Agents: Hardcastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Penn Export Petroleum Division, New York, U.S.A. Petrolatums, Technical and Mineral Oils, Lubricants. Representatives: T. Byramji & Co., Central Bank Buildings, Fort.

Tecalemit Limited, Brentford, U.K. Agents: Tecalemit (India) Ltd., 9, Forbes Street, Fort, Bombay.

### MACHINE TOOLS

A. A. Jones & Shipman Ltd., England. Universal & Semi-Universal Grinding Machines, Surface Grinders, Cutters & Tool Grinders, Medium Duty Vertical Pillar Drilling Machines, Small Tools. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Adcock & Shipley Ltd., England. Universal, Vertical and Horizontal Milling Machines and Attachments. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Armstrong Whitworth (Metal Industries) Ltd., England. Rolls for Rolling Mills and Tube Mills. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Bette & Company, Germany. Pillar Drilling Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

B. M. W. Maschinenfabrik, Germany. Single Spindle Automatics, Gear Deburring Machines, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

B. S. A. Tools Ltd., England. Single & Multi-Spindle Automatic Screw Machines, Centrifugal Grinding Machines, Chucking Machines and Multi-Tool Lathes, etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Bretts Patent Lifter Co., Foleshill Works, Coventry, England. Sole Agents: Healy & Gresham, 9, Forbes Street, Fort.

C. & E. Fein, Germany. Portable Electric Tools. Agents in India: Armstrong Smith Ltd., Gresham Assurance House, Sir Phiroozshah Mehta Road, Fort.

Churchill-Redman Ltd., Parkinson Lane, Halifax. Sole Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Cincinnati Milling Machines, Cincinnati, Ohio, U.S.A. Sole Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Cincinnati Milling Machines Ltd., Woodlands Farm Road, Tyburn, Birmingham, England. Sole Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Coventry Gauge & Tool Co. Ltd., England. Machine Tools: Jig Boring Machines, Tap Grinding Machines, Thread Grinders, Gear Grinders, Cylindrical Grinders, Broach Sharpening Machines, Tread Milling Machines, etc. *Measuring Instruments*: Floating Carriage Diameter Measuring Machines, "Micro-Maug" Internal Micrometers, Taper Measuring Machines, Pitch Measuring Machines, etc. *Gauges*: Gap Gauges, Caliper Gauges, Slip Gauges, etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Craven Bros (Manchester) Ltd., England. Railway Wheel Lathes, Axle Journal Re-turning & Grinding Machines, and all types of Railway Machine Tools. Heavy Duty S.S. & S. C. Lathes, Gear Cutting Machines, Horizontal Boring Machines, etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

D. Mitchell & Co. Ltd., England. General Purpose High Speed S.S. & S.C. Lathes. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

E. Asbeck-Genelsberg, Germany. Agents: Chandulal Mehta & Co. (Private) Ltd., 15, New Queen's Road, Bombay 4.

E. H. Jones (M.T.) Ltd., England. British Built "Kearney & Trecker" MILWAU-KEE Milling Machines, Vertical and Horizontal and Universal, Duplex, Simplex Die Making Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Emil Sachs, Germany. Thicknessing Planner, Heavy Duty Smooth Planing, Jointing and Moulding Machines, Upright Chain Mortising machines, tenoning & Slotting Machines and other wood working machinery. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

F. J. Edwards Ltd., England. Complete range of Sheet Metal Working Machinery. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Fell, W. A., Ltd., Windermere, England. Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Finlay Engineering Co., England. Hydraulic Cold Benders, Press Units, Rail & Grinder Presses, Hand Operated Press, Plate Section Presses, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Fischer, Karl Eugen, Germany. Press Brakes & Guillotine Shears. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Frederick Town & Sons Ltd., Halifax, England. Radial Drilling Machines, Vertical Drilling Machines, etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Graham & Normanton Ltd., England. "GRANOR" High Speed S.S. & S.C. Lathes & Shaping Machines. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

GV Nibbler & Company, Sweden. Nibblers, Cutting and Framing Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Hans-Blei, Germany. Metal Spraying and Sand Blasting Equipment. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Hilgers Maschinenfabrik, Germany. Cold Tube Bending Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Jungner, Svenska Ackumulator Aktiebolaget, Sweden. Universal Tool & Cutter Grinder Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Kearney & Trecker Corp., U.S.A. "Milwaukee" Milling Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Keighley Grinders (M.T.) Ltd. (Newall Group Sales Ltd.), England. Universal Grinders, Precision Cylindrical Grinders and Internal Production Grinders. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Kitchen & Wade Ltd., Halifax, England. Drilling Machines. Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Mahmedle & Co., G.m.b.H., Germany. Wire Drawing Plant, Wire Nail Making Machines, Nut Presses, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Murad Developments Ltd., England. High Speed Capstan Lathes, Double Ended 'Dustless' Grinders (the only Grinder in the world with built-in Dust Inhibitors). Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

National Acme Co., U.S.A. Multi-Spindle Bar Automatics. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Newall Engineering Co. Ltd. (Newall Group Sales Ltd.), England. Jig Boring Machines, Angular Head Grinding Machines, Thread Grinding Machines, Cylindrical Grinding Machines, Internal Grinding Machines & Production Lapping Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Optical Measuring Tools Ltd. (Newall Group Sales Ltd.), England. Projectors, Optical Rotary Table, Optical Rotary Projection Table, Optical Rotary Inclinable Table, Toolmaker's Microscope, Thread Template Microscope, Vertical & Horizontal Ointimeters. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.

Ormerod Shapers Ltd., Hebden Bridge, Yorks, England. Sole Agents: Healy & Gresham Ltd., 9 Forbes Street, Fort.

**Petzling & Hartmann Maschinenfabrik, Germany.** Bandsaws. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.**

**Pickles, John & Son (Engineers), Ltd.,** Hedden Bridge, England. Sole Agents: **Healty & Gresham Ltd., 9, Forbes Street, Fort.**

**Planers (Huddersfield) Ltd., England** Planing Machines. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Press Tools Ltd., England.** Jigs, Fixtures, Press Tools and Gauges, Dies. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1**

**Rushworth & Co., England.** Bar Cropping Machines, Punching & Shearing Machines, Guillotine Shearing Machines, Plate Bending & Straightening Rolls, Press Brakes. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Russell S. & Sons Ltd., England.** Hydraulic & Mechanical Cold Sawing Machines, Swing Beam Hot Sawing Machines & Saw Sharpening Machines. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Samuel Denison & Son Ltd., England.** Compression & Transverse Machine, Wire Twist & Tensile Testing Machines, Universal Machines, Fabric Testing Machines, Creep Testing Machines, Chain Testing Machines, etc. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Standall Engineering Ltd., England.** Forging Hammers, Air Compressor Plants. Agents: **Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay.** Phone: 261494 (3 lines). Grams: "BALMER."

**Stenners of Tiverton Ltd., England.** Log Band Mills, Band Rack Saws, Band Resaws, Saw Doctoring Equipment, etc. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Sykes, W. E. Ltd., Manor Works, Staines, Middlesex, England.** Hobbing and Gear Cutting Machine Agents: **Healty & Gresham Ltd., 9, Forbes Street, Fort.**

**Thos. Firth & John Brown Ltd., Sheffield, England.** Forged Steel Rolls for Rolling Mills. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Tollitt Gauges, Ltd., England.** Precision Thread and Plain Gauges. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.**

**Truform Gauge Co. Ltd., England.** Gauges, Jigs & Fixtures, Profile Ground Punches & Dies, Straight Edges, etc. Agents: **Armstrong Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.**

**Turbine Gears Ltd., England.** Gears and Gear Units. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Weingarten, Germany.** Plate Bending and Rounding Machines. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.**

**Weiler, Germany.** Precision and Watch Making Lathes and Equipment. Agents: **Armstrong Smith Private Limited, Gresham Assurance House, Sir Phiroozshah Mehta Road, Post Box No. 185, Bombay 1.**

## MACHINERY (BAG FILLING)

**Sack Fillers Ltd., London.** Sole Agents: **Killick Nixon & Co. Private Ltd., Killick House, Home Street, Fort.**

## MACHINERY (ELEC. & MECH.)

**Christy & Norris Ltd., Chelmsford.** Disintegrators, Hammer Mills, Screening Plant. Sole Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort.**

**Clayton Manufacturing Co., El-Monte, California, U.S.A.** Agents: **Chandulal Mehta & Co. (Private) Ltd., 15, New Queen's Road, Bombay 4.**

**Cleming Machine Corporation, Chicago 38, Illinois, U.S.A.** (Mechanical and Hydraulic Power presses & Press Brakes). Sole Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort.**

**Colerette Ltd., London.** Manufacturers of Colloidal Mixers and Colloidal Grouting. Sole Agents in India: **Gannon India Private Ltd., Hamilton House, Ballard Estate.**

**Electric Construction Co. Ltd., 9, Kingsway, London.** Electric Motors and Generators. Agents: **Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay.** Phone: 261494 (3 lines). Grams: "BALMER."

**Fluidrive Engineering Co. Ltd., Isleworth (Middlesex, England)** Hydraulic Couplings. Sole Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.**

**Gehr Stork & Co. N.V. Hengelo, Holland.** Sales Distributors: **Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1**

**LISTER & CO., LTD. (R. A.), Dursley, Glos., England.** Petrol and Diesel Engines, Pumping, Generating Sets, Cream Separators and Dairy Equipment. Importers: **Volta Limited, Ballard Estate, Bombay 1.**

**Power Plant Co., Ltd., England.** Agents: **Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay.** Phone: 261494 (3 lines). Grams: "BALMER."

**SIEMENS-SCHUKERTWERKE, A.G. SIEMENS-HALSKE, A.G. of Western Germany.** Manufacturers of all types of Electrical Equipment, Steam & Hydro-Power Plants, Telephone & Telecommunication Equipment, Electrical precision machinery, Cables and Instruments, Electricity Meters, Water Meters and other Electric Equipment. Sole Representatives in India: **Siemens Engineering & Manufacturing Co. of India Private Limited, 81 83, Veer Nariman Road, Bombay 1.**

**Stroj Export, Praha, Czechoslovakia.** Agents for Western & Central India: **India Metal Agencies, Post Box No. 1068, Bombay 1.**

**Stream-line Filters Ltd., London, England.** Filters for reclaiming used Engine Lubricating Oil, Transformer Oil. Filters. Sole Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort.**

**SULZER BROTHERS LTD., Winterthur, Switzerland.** Diesel Engines, Pumps. Sole Importers: **Volta Limited, Ballard Estate, Bombay 1.**

**Weston, Shipley & Weston Ltd., Leicester.** "Kut-Out" Machines for Pipe Cutting. Agents: **Richardson & Cruddas Ltd., Byeulla.**

## MACHINERY MANUFACTURERS

**C. H. & E. Manufacturing Co., 3840, North Palmer Street, Milwaukee 12, Wis. (U.S.A.).** Sole Agents in India: **Excellent Engineering Co., Botawala Building, Elphinstone Circle, Fort.**

**Cement Gun Co., Ltd., London.** Agents: **John Fleming & Co., Private Ltd., Bastion Road, Fort, Bombay 1.** Phone: 261153.

**E. R. & F. Turner Ltd., England.** Complete Flour Milling Plant and Machinery. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Reckermann Frasmachene (Germany).** Sole Agents for India: **Excellent Engineering Co., Botawala Building, Horniman Circle, Fort, Bombay.**

**Startevant Engineering Co., Ltd., England.** Crushing, Grinding, Screening, Separating and Mixing Machinery including Laboratory Machinery. Contact: **Ratanl Morarji Private Limited, Prospect Chambers, 317/21, Dadabhai Naoroji Road, P.B. No. 1270, Bombay 1.**

**Wallace & Tiernan Ltd., London, England.** Chlorination Plants. Sole Distributors: **William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.**

**Worthington-Simpson Limited, Newark-on-Trent.** Sole Agents: **William Jacks & Co. Ltd. Depot: Bharat House, Apollo Street. Head Office: Hamilton House, Ballard Estate, Bombay.**

## MACHINERY PRESSURE GAUGES

**Eagle & Wrights (Gauges) Ltd., 87, Carver Street, Birmingham 1, England.** Sole Agents for Bombay State: **R. K. Shupmji & Co., Prospect Chambers, 319, Dr D. Naoroji Road, Fort, P.B. No. 1065, Bombay 1.**

## MACHINERY (TEXTILE)

**Armstrong Cork Co., Ltd., Kingsbury, London, N.W. 9.** Agents: **Roberts, McLean & Co. Ltd., Ilaco House, Sir Phiroozshah Mehta Road.**

**Atwood Division Universal Winding Co., Hartford, U.S.A.** Silk Machinery. Sole Representatives: **W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.**

**Cook & Co., Manchester, Ltd., Spinning and Doubling Travellers, Card Vacuum Stripping Plants, Spinning Specialties.** Sole Representatives: **W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.**

**Daniel Foxwell & Sons, Ltd., Cheddle, Manchester.** Cloth Rolling, Folding, Measuring and Lapping Machinery. Sole Concessionaires: **Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.**

**Dronsfield Bros., Ltd., Oldham.** Card Mounting and Grinding Machinery, Roller Covers Plant. Representatives: **W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort.**

**Dronsfield Bros. Ltd., Oldham.** Card Grinding Equipment, Emery, Mill Roller Covering Machinery. Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort.**

**ELLERWERKE MASCHINENFABRIK, Hamburg 33, Germany.** Mfrs. of Hydro Extractors. Sole Importers: **Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Medows Street, Bombay 1.**

**Ernest Scragg & Sons Ltd., Sunderland Street Works, Macclesfield (England).** (Machines for Winding, Doubling, Spinning, Throwing and Reeling Silk, Rayon and Nylon). Sole Concessionaires: **Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort.**

**Gebroeder Winkl, Zurich, Switzerland.** Manufacturers of "KNITAX" Hand Knitting Machine. Agents: **Alfex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay 1.**

**Hindie Son & Co., Ltd., Blackburn.** Electric Baling Presses. Sole Concessionaires: **Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.**

**Goodbrand & Co., Ltd., Stalybridge.** Yarn & Cloth Testing Machines. Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Grob & Co. Ltd., Horgen, Switzerland.** Wire and Flat Steel Heads. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**H. Brinton Company, Philadelphia, U. S. A.** Automatic Knitting Machinery. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort.

**Hodges, P. & Co., Ltd., Nottingham.** High Speed Braiding and Twisting Machinery. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**John T. Hardaker Ltd., Bradford.** Jacquards and Jacquard Sundries. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Joseph Stubbs & Co. Ltd., England.** Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort.

**Longclose Engineering Co. Ltd., Leeds.** Cheese, Cone & Beam Dyeing Plants. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Mather & Platt Ltd., Manchester.** Dyeing, Bleaching, Printing and Finishing Machinery. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

**Mount Engineering (Sales) Company, Oldham, England.** Makers of Improved Mechanical Warp Stop Motions, Pirm Stripping Machines and Hydraulic Beam Trucks, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort.

**OERLIKON MACHINE TOOL WORKS, Zurich 50 Oerlikon, Switzerland.** Mfrs. of Roller bearing inserts and Jockey pulleys. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

**Power House Components Ltd., Nottingham.** Manufacturers of "WAYNE" patent Self-Winding Electric Cable Reels and Fuel Economy Specialities. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

**Pilrose Co., Ltd., England.** Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort.

**REINERS & FURST, M. Gladbach, Germany.** Mfrs. of Spinning Rings, Ring Travellers & Automatic Winders Knotters. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

**REHYDTER MASCHINEN & SPINDEL-FABRIK, Rheydtter (Rhld), Germany.** Mfrs. of Spinning Fly Frame Parts & Ball Bearing Tops Rollers of every description. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

**RIETER & CO., LTD. (J. J.), Winterthur, (Switzerland).** Cotton Spinning Machinery. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**Rotameter Mfg. Co. Ltd., Crydon, Surrey.** Manufacturers of Flow Meters for all Gases and Liquids. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

**Ruti Machinery Works, Ruti (Zeh), Switzerland.** Warping, Beaming and Sizing Machinery, Cotton & Silk Looms. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**Ryden Mill Stores Ltd., England.** Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort.

**S. Dodd & Sons Ltd., England.** Manufacturers of Hopper Blenders. Conversions of Single Process Blow Room. Suppliers of Meiner's Thread Illuminators. Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay.

**S. Dodd & Sons Ltd., Oldham, England.** Makers of Conversion Equipments, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay.

**Schwelter Ltd., Horgen, Switzerland.** Automatic Pirm Winders and all Winding Machines. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**Staubbli Bros. & Co., Horgen, Switzerland.** Dobbies. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**Stone-Wallwork Ltd., London, S.W.1, England.** Suppliers of Ting Tuf Mark 1 Tufting Machine for making Rugs, Carpets, Mats, etc. Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay 1.

**T. W. Riley & Co., Ltd., Rochdale.** Cloth Raising Machines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Thos. Holt Ltd., Rochdale.** High Speed & Automatic Winding & Warming Machines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Vollenwelder, Sam., Horgen, Switzerland.** Shearing Machines. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

**Wm. Ryder Ltd., Bolton, England.** Makers of Flyers, Spindles, Collars and Fluted Rollers, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

**Wright Hargreaves Engineering Co., Ltd., Blackburn.** Vacuum Card Stripping Equipment. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Zellweger Ltd., Uster, Switzerland.** Warp Tying Machines. Importers: Voltas Limited, Ballard Estate, Bombay 1.

## MAINTENANCE EQUIPMENT (ELEC. & MECH.)

**Marthdale Electric Co. Limited, London and Cleveland, Ohio, U.S.A.** Electrical and Mechanical Maintenance Equipment, Comminstones and Blowers. Representatives: Asca Electric India, Private Limited, Vaff Building, Goa Street, Ballard Estate.

## MARINE AND SCIENTIFIC INSTRUMENTS

**JULIUS PINTSCH WEST K. G., Frankfurt Main, Germany.** Manufacturers of Light Buoys, Light Beacons, Maritime Signal and Lighting Equipment, Sea Marking Devices, Electric Acoustical Plants. Agents: Gaytee & Co., Jambhoomi Chambers, Fort Street, Bombay. Phone: 32449. Grams: "IMPENG."

## MEASURING INSTRUMENTS

**H. W. Wallace & Co. Ltd., England.** Hardness Meters, Dead Load Hardness Testers, Abrasion Testers, Rapid Plastimeters, Compression Set Apparatus, Flexton Testing Machines, Laboratory Ovens. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

**Hilger & Watts Ltd., England.** Measuring Equipment of all types including Projectors, Enlargers, Optical Gauging & Inspection Equipment etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

**L. M. Ericssons Matinstrument Aktiebolaget, Stockholm, Sweden.** Manufacturers of Electricity Meters. Representatives: Asca Electric India, Private Limited, Vaff Building, Goa Street, Ballard Estate.

**Radiometer, Copenhagen, Denmark.** Agents: Hindeo, 27, New Queen's Road, Bombay 4.

**Taylor's of London Ltd., London, England.** Water Meters, Waste & Cocks Fittings. Agents: John Fleming & Co. Private Ltd., Baiton Road, Fort, Bombay 1. Phone: 261153.

**Thomas Ashworth & Co. Ltd., England.** "Speedy" Moisture Testers Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

## MEASURING & RECORDING INSTRUMENTS

**Esterline Angus Co., Inc. Indiana, U.S.A.** Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

## MECHANICAL EQUIPMENT

**J. Collis & Sons, Ltd., London.** Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

**Tel-dex Products Ltd., Essex, England.** Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

## METAL DOORS AND WINDOWS

**Gibbons James, Ltd., St. John's Works, Wolverhampton, England.** Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

## METAL MANUFACTURERS

**IMPERIAL CHEMICAL INDUSTRIES LTD., Metals Division, England.** (Non-ferrous Metals and Alloys.) Selling Agents: I.C.I. (India) Private Ltd., Post Box No. 310, Bombay 1.

**Mond Nickel Co. Ltd., The, London.** Nickel. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

## MICROPHONES AND PICKUPS

**American Microphone Co. Division of Elgin Pneumatic Inc., 900 Bellanca Avenue, Los Angeles 45, England.** Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

## MILL & GIN STORE SUPPLIERS

**Bennet Heyde J. & Co., Manchester.** Tappers and Divvys Packings. Agents: J. D. Jones & Co. (Bombay), Private Ltd., Rustom Building, Veer Nariman Road, Fort.

**Frankland Bros., Blackburn.** Loom Pickers and Shutties. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Haydock & Drake Ltd., Blackburn.** Healds and Reeds. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**John Atkinson & Son (Sowerby Bridge) Ltd., England.** Agents: Alex Private Ltd., 147, Mahatma Gandhi Road, Fort.

**Joseph Sykes Brothers, Huddersfield.** Card Clothing. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Kenyon & Son, Ltd. (James) Bury, Lancs.**  
Textile Clothing and Filter Cloth. Sole  
Importers: Voltas Limited, Ballard  
Estate, Bombay 1.

Doors Mfrs., Smethwick, Birmingham.  
Agents: Balmer Lawrie & Co., Ltd., 5,  
Graham Road, Ballard Estate, Bombay.  
Phone: 261494 (3 lines). Grams: "BAL-  
MER."

**Richard Hill Ltd.,** England. Mfrs. of  
"MAXWELD" brand Steel fabric for  
Concrete reinforcement. Sole Agents in  
India: Alsas Ltd., 9, Wallace Street,  
Bombay 1.

**Williams & Williams Ltd.,** Chester. Makers  
of Steel Windows & Doors. Agents:  
Richardson & Cruddas, Ltd., Byculla.

### STEEL WOOL

**Stewols & Co.,** King Edward Road, Sewri,  
Bombay. Agents: Killik Nixon & Co.,  
Private Ltd., Killik House, Home  
Street, Fort.

### STONEBREAKERS & GRANULATORS

**Baxter W. H. Ltd.,** Leeds. Knapping Motion  
Stonebreakers and Granulators. Sole  
Agents: Marshall, Sons & Co. (India)  
Ltd., Marshall's Building, Ballard Road,  
Bombay 1.

**Edgar Allen & Co., Ltd.,** Sheffield. Makers  
of High Speed Steels, Heavy C. S. Castings  
and Metal Working Tools. Agents:  
Richardson & Cruddas Ltd., Byculla.

### STUD WELDING EQUIPMENT

**Crompton Parkinson Ltd.,** London. Agents:  
Guest, Keen, Williams, Ltd., Wakefield  
House, Sprott Road, Ballard Estate,  
Bombay 1.

### SUFLEX SLEEVINGS

**SUFLEX LTD.,** 35, Baker Street, London  
W.1. Suflex Sleavings. Representa-  
tives: Latham Abercrombie & Co.,  
Private Ltd., Forbes Building, Home  
Street, Fort.

### SUGAR MACHINERY

**A. F. Craig & Co. Ltd.,** England. Complete  
Sugar Plant. Sole Distributors: William  
Jacks & Co. Ltd., Hamilton House,  
Graham Road, Ballard Estate.

**Associated Engineering Manufacturers of**  
Australia Pty Ltd., Bowen Street, Mary-  
borough, Queensland, Australia. Sugar  
Machinery. Sole Concessionaires: Greaves  
Cotton & Co., Ltd., 1, Forbes Street, Fort,  
Bombay.

**FAWCETT, PRESTON & CO., LIMITED,**  
Bromborough, Cheshire, England.  
Representatives: James Finlay & Co.  
Limited, P.O. Box No. 73, Bombay 1.

### SURGICAL GOODS AND INSTRUMENTS

**Herts Pharmaceuticals Ltd.,** Surgical Dress-  
ings. Sole Agents: J. L. Morrison, Son  
& Jones (India) Private Ltd., Contractor  
Building, Nicol Road, Ballard Estate,  
Bombay 1.

**I. C. I. LTD.,** Plastics Division, England.  
(Surgical Nylon Sutures, etc.) Selling  
Agents: I. C. I. (India) Private Ltd.,  
Post Box No. 310, Bombay 1.

**Sterling Rubber Co., Ltd.,** Canada. Agents:  
Ahmed A. Fazelbhai (Private) Ltd.,  
Liberty Building, 41, Marine Lines,  
Bombay 1.

ings 'Elastoplast', 'Gynsone', etc. Sole  
Agents: J. L. Morrison, Son & Jones (India)  
Private Ltd., Contractor Building, Nicol  
Road, Ballard Estate, Bombay 1.

**Thos. Glover and Son, Ltd.,** "Vetlog"  
Kneecaps, Anklets, etc. Sole Agents:  
J. L. Morrison, Son & Jones (India) Private  
Ltd., Contractor Building, Nicol Road,  
Ballard Estate, Bombay 1.

### SURVEYING INSTRUMENTS

**COOKE TROUGHTON & SIMMS LTD.,**  
York, England. For Toolroom Micros-  
copes, Colour Projectors, Optical and  
Horizontal Comparators, Engineers'  
Block Levels, Gauges, Surveyor's  
Levels, Theodolites, Techeometers,  
etc. Agents: Pioneer Equipment Co.  
Private Ltd., 139, Meadows Street,  
P. O. Box 1909, Bombay 1. (Phone: 251882).  
Also at 1, Mangoe Lane, Calcutta 1. (Phone: 231611) and 193,  
Mount Road, Madras 2. Grams: "PIOMETAL".

### "TAPE RECORDERS"

**Simon Sound Service, Ltd.,** London W 1,  
England. Sales Distributors: Eastern  
Electric & Engineering Co. 127, Mahatma  
Gandhi Road, Bombay 1.

### TELEGRAPH & RADIO COMMU- NICATION EQUIPMENT

**Great Northern Telegraph Works.** Division  
of the Great Northern Telegraph Co.,  
Ltd., Copenhagen S V, Denmark. Sales  
Distributors: Eastern Electric & Engineer-  
ing Co., 127, Mahatma Gandhi Road,  
Bombay 1.

### TELEPHONE EQUIPMENT

**Telephone Manufacturing Co., Ltd.,** Hartell  
Road, West Dulwich, London. Agents:  
Hindco, 27, New Queen's Road, Bombay 4.

### "TELEPHONE, TELEGRAPH AND CARRIER COMMUNICATION APPARATUS"

**Auteco Mediterranean S.A.T.A.P.** Milan,  
Italy. Sales Distributors: Eastern Electric  
& Engineering Co., 127, Mahatma Gandhi  
Road, Bombay 1.

**Automatic Electric International Corp.,**  
Chicago 7, Illinois, U.S.A. Sales Distri-  
butors: Eastern Electric & Engineering  
Co., 127, Mahatma Gandhi Road,  
Bombay 1.

**Automatique Electrique S.A.** Antwerp,  
Belgium. Sales Distributors: Eastern  
Electric & Engineering Co., 127, Mahatma  
Gandhi Road, Bombay 1.

**Lenkurt Electric Co.,** Calif., U.S.A. Sales  
Distributors: Eastern Electric & Engineer-  
ing Co. 127, Mahatma Gandhi Road,  
Bombay 1.

### TESTING MACHINES (PHYSICAL)

**COATS MACHINE TOOL CO., U.K.,** for  
Shorff Scleroscopes, Hardness Testers  
etc. Sole Agents: Pioneer Equipment  
Co., Private Ltd., 139, Meadows Street,  
P. O. Box 1909, Bombay 1. (Phone: 251882).  
Also at 1, Mangoe Lane, Calcutta 1. (Phone: 231611) and 193,  
Mount Road, Madras 2. Grams: "PIOMETAL."

**HARRY W. DIETERT INC.,** Detroit,  
U.S.A., Manufacturers of Sand Testing  
Equipment. Sole Agents: Pioneer  
Equipment Co., Private Ltd., 139,  
Meadows Street, P. O. Box 1909,  
Bombay 1. (Phone: 251882). Also at 1,  
Mangoe Lane, Calcutta 1. (Phone: 231611).  
and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

**SOLUS SCHALL LTD., U.K.,** for Ultra-  
sonic Flaw Detectors and other Non-  
destructive Testing Equipment. Sole  
Agents: Pioneer Equipment Co.,  
Private Ltd., 139, Meadows Street, P. O.  
Box 1909, Bombay 1. (Phone: 251882).  
Also at 1, Mangoe Lane, Calcutta 1.

**Charles Thomas & Co. Ltd., Wainwright Street, Astar, Birmingham 6.** Agents: 7 Soho House, Lohar Street, Bombay 2.

**English Steel Corporation Ltd., Sheffield.** Engineers' Small tools, files, Hack saw Blades, etc. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

**Hack Saw Ltd., England.** "Aven" Hack saw Blades, Frames and Metal Cutting Band Saws. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

**Ideal Machine Tools & Eng. Co. Ltd., England.** Precision Tools. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

**Job Wheway & Son Ltd., England.** Electrically Welded Steel Chains, Shackles. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

**Nuckey Scott & Co. Ltd., England.** "Warrior" Brand Taps & Dies. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Peter Stubs Ltd., England. Files, Gravers, Scrapers, Tool Holder Bits, Tool Steels. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Turton Bros. & Matthews Ltd., Sheffield. Agents: Guest, Keen, Williams Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

**VEERKOOPKANTOOR VANDER HEEM**  
N. V., Maanweg 256, The Hague, Holland. Electric Drills. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

### TOOL STEEL

**WALTER SPENCER & CO., LTD.**  
Sheffield, England. Manufacturers of Highspeed Steel, Alloy Tool Steel, Carbon Tool Steel, etc., etc. Milling Cutters, Twist Drills, Reamers, Slitting Saws, Files, Carbide Tipped Tools, Lathe Tools, etc. Agents: Gaytee & Co., Jannabhoomi Chambers, Fort, Bombay. Phone: 32449. Grams: "IMPENG."

### TRACTION GEARS AND UNITS

Wiseman, Alfred & Co. Ltd., Glover Street, Birmingham 9. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

### TRACTORS & PLOUGHS

International Harvester Export Co., Chicago, U.S.A. Agricultural Machinery and Implements, McCormick-Deering Tractors, (Agricultural and Industrial). Sole Importers: Voltas Limited, Chinchpokli Road, Bombay 12.

John Fowler & Co. (Leeds) Ltd., Leeds. Diesel Crawler Tractors from 40 BHP to 150 BHP. Sole Agents: Marshall, Sons & Co. (India) Ltd, Marshall's Building, Ballard Road, Bombay 1.

Marshall, Sons & Co. Ltd., Gainsborough. Diesel Tractors (Wheel Types). Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Oliver International, S.A., Illinois, U.S.A. Oliver Tractors and Agricultural Implements. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

### TRAIN LIGHTING BATTERIES & ACCUMULATORS

Pritchett & Gold & E. P. S. Co. Ltd. Manufacturers of Accumulators of all types. Head Office: 50, Grosvenor Gardens, Victoria, London. Sole Agents: Heatly & Gresham Ltd., P. O. Box No. 225, Bombay. Telephones: 27021, 27022. General Manager for India: Niren N. Ghose, J.P., D.F.H. (Lond.), A.M.I.E.E.

### TRANSFORMERS

**BRYCE ELECTRIC CONSTRUCTION CO., LTD.**, Kelvin Works, Backbridge, Wallington, Surrey, England. Representatives: James Finlay & Co., Ltd., P.O. Box No. 73, Bombay 1.

Gresham Transformers Ltd., Hanworth. Transformers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Hitachi Ltd., Tokyo, Japan. Transformers. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Yorkshire Electric Transformer Co., Ltd., Dewsbury. Transformers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Zenith Electric Co. Ltd., London, N.W. 2, England. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### TRAVELLING REQUISITES

Fibre Case Co. Ltd., 36/8, Peckham Road, London, S.E. 5. Agents: Soho House, Lohar Street, Bombay 2.

### TUBE WELL DRILLING AND BORING EQUIPMENT

English Drilling Equipment Co., Ltd., London. Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

### TYGAN FLYSCREENING

Fothergill & Harvey Ltd., Manchester. Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

### TYGLAS INSULATION

Fothergill & Harvey Ltd., Manchester. Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

### TYPEWRITERS, CALCULATORS, ADDING MACHINES & TELEPRINTERS

Ing. C. Olivetti & C. S.P.A., Ivrea, Italy. Typewriters, Calculators, Adding & Listing Machines. Representatives: Latham Abercrombie & Co. Private Ltd., Forbes Building, Home Street, Fort.

Olivetti Telescriventi, Via Viotto 9, Torino, Italy. Teleprinters. Representatives: Latham Abercrombie & Co. Private Ltd., Forbes Building, Home Street, Fort.

Pallard Ltd., Yverdon (Switzerland). Hermes Typewriters. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

Serlo S. P. A. Macchine per Scrivere e da Calcolo, Via Mellerio 1, Milano, Italy. Everest 10 Key Calculating Machines. Representatives: Latham Abercrombie & Co. Private Ltd., Forbes Building, Home Street, Fort.

### UPHOLSTERY

**I. C. I. LTD.**, Leather cloth Division, England. "REXINE" & "VYNIDE" Leather cloth. Selling Agents: I. C. I. (India) Private Ltd., Imperial Chemical House, Ballard Estate, Bombay 1.

### VACUUM BRAKE EQUIPMENT

Vacuum Brake Co., Ltd., 137, Abby House, Victoria Street, London, S.W. 1. Locomotive and Rolling Stock Fittings. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

### VACUUM CLEANERS & FLOOR MAINTENANCE MACHINES

Breuer Electric Mfr. Co., Chicago 6, Illinois, U.S.A. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road, Bombay 1.

### VALVES (WATERWORKS)

Ham Baker & Co. Ltd., England. Valves, Penstocks Fittings, etc. Agents: John Fleming & Co., Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

J. Blakeborough & Son, Ltd., Brighouse. Makers of Valves all types, and other Waterworks Appliances. Agents: Richardson & Cruddas Ltd., Byoula.

### VEE ROPE MFRS.

Fenner, J. H. & Co., Ltd., Margfiet, Hull, England. V-Belts and V-Belt Drives. Agents: Greaves, Cotton & Crompton Parkinson Private Ltd., 1, Forbes Street, Fort.

### VENETIAN BLINDS

B. S. Mohindar & Co., 451, Gowalla Tank Road, Bombay. Agents: Killick Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

### VENTILATORS

Greenwood & Airvac Ventilating Co., Ltd., Kingsway, London. Manufacturers of Airvac Ventilators and Railway Carriage Ventilating Fittings. Agents: J. D. Jones & Co. (Bombay) Private Ltd., Rustom Building, Veer Nariman Road, Fort.

Robertson, Thain Ltd., Mersey Iron Works, Ellesmere Port, Wirral, Cheshire. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

### VETERINARY SPECIALITIES

Bob Martin (Export) Ltd., "Condition Tablets and Dog Remedies." Sole Agents: J. L. Morrison, Son & Jones (India) Private Ltd., Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

### VIBRATORY SCREENS

Niagara Screens (Great Britain) Ltd., Middlesex. Sole Agents: Killick Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

### WATER FILTRATION

**CANDY FILTER CO., LTD.**, London. Manufacturers of all types of Water Purification and treatment Plant. Agents: Candy Filters (India) Private Ltd., Forbes Bldg., Home Street, Fort, Bombay.

Metafiltration Co., Ltd., Hounslow, Middlesex. Metafilters for Laboratory and Industrial use. Agents: Roberts McLean & Co., Ilaco House, Sir Phirozshah Mehta Road.

Permutit Co., Ltd., London. Manufacturers of Base Exchange and Soda Lime Water Softeners, Water Purification Plant. Agents: J. Stone & Co (India) Private Ltd., Yaffi Building, Goa Street, Ballard Estate.

### WATER METERS

**AQUAMETRO LTD.**, Basle, Switzerland. Meters for Water and other Liquids. Sole Importers: Voltas Limited, Ballard Estate, Bombay 1.

British Pitometer Co., Ltd., London. Venturi Meters and Recorders. Agents: Glenfield & Kennedy, Ltd., 198, Janshedji Tata Road, Fort, Bombay 1.

C. G. E., Lloge, Belgium. Agents: India Metal Agencies, P. Box No. 1966, Bombay 1.

Cleveland Meters Ltd., Yorkshire. Makers of Water Meters. Agents: Richardson & Cruddas Ltd., Byoula.

**CONTIMETER, COMPAGNIE CONTINENTALE D'APAREILS, De Mesure, Bruxelles, Belgium.** Manufacturers of Water Meters, Gas Meters and Geysers. Agents: Gaytee & Co., Jannabhoomi Chambers, Fort Street, Bombay 1. Phone: 32449. Grams: "IMPENG."

Glenfield & Kennedy, Ltd., Kilmarnock. Inferential and Positive. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

L. S. Kahn & Son Inc., New York, U.S.A. Agents: Hindco, 27, New Queen's Road, Bombay 4.

Taylor of London Ltd., London, England. Water Meters, Waste & Cocks Fittings. Agents: John Fleming & Co. Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

## WATER PURIFICATION & SCALE PREVENTING DEVICES

Eupo Limited, Antwerp, Belgium. Water Purification Plants, Electro Magnetic Devices for anti-Calcareous treatment of Water, Sugar-cane Juice, etc. Contact: Ratansi Morariji Private Limited, Prospect Chamber, 317/21, Dr. Dadabhoi Naoroji Road, P.B. No. 1270, Bombay 1.

## WATER TREATMENT CHEMICALS

ALBRIGHT & WILSON LTD., London, (Calgen). Selling Agents: I. C. I. (India) Private Ltd., P.B. No. 310, Bombay 1.

I.C.I. LTD., "ALFLOC" Water Treatment Service, England. ("ALFLOC" Water Treatment Chemicals). Selling Agents: I. C. I. (India) Private Ltd., P.B. No. 310, Bombay 1.

## WEIGHBRIDGES

Ashworth, W. & A. Ltd., Crown Engineering Works, Staincliffe Road, Dewsbury, Yorks, England. Scales & Weighbridges. Agents: Healey & Gresham Ltd., 9, Forbes Street, Fort.

## WEIGHING MACHINES

Aktiebolaget Statmos, Eskilstuna, Sweden. Sales Distributors: Eastern Electric & Engineering Co., 127, Mahatma Gandhi Road Bombay 1.

## WELDED STEEL WIRE FABRIC

British Reinforced Concrete & Engineering Co., Ltd., Lichfield Road, Stafford, England. Sole Agents: Healey & Gresham, Ltd., 9, Forbes Street, Fort.

## WELDERS (ELECTRIC & GAS)

A. I. ELECTRIC WELDING MACHINES LTD., Rose Street, Inverness, England. Representatives: James Finlay & Co. Ltd., P.O. Box No. 73, Bombay 1.

## WELDING EQUIPMENT

AB Asca Svetsmaskiner, Stockholm, Sweden. Manufacturers of Electric Welding Equipment and Electrodes of all types. Representatives: Asca Electric India Private Limited, Yaffa Building, Goa Street, Ballard Estate.

British Twin Disc & Clarifiers Ltd., London, England. Diesel Welding Plant, Portable and Stationary. Agents: Balmer Lawrie & Co. Ltd., 6, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER."

Elektriska Sverkningsaktiebolaget "ESAB", Sweden. Magnetic Crack Detectors, Welding Plants, etc. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

F. Bode & Sons Ltd., England. Welding positioners and fixtures for welding operation. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

New Process Welders Ltd., England. All Types of Spot Welders, Seam Welders, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Welding Supplies Ltd., England. Electrodes & Welding Plants, Magnetic Crack Detectors, and Gas Cutting Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

## WINDOW & DOOR FITTINGS (TRANSPORT)

E. Hill Aldam & Co. Ltd., Britannic Works, Haslemere Avenue, London, S.W.18. Sole Agents: Healey & Gresham Ltd., 9, Forbes Street, Fort.

Williams & Williams, Ltd., Chester. Makers of Steel Window Frames. Agents: Richardson & Cruddas, Ltd., Byculla.

## WINDOWS FOR RAIL, ROAD AND MARINE TRANSPORT

Beckett Laycock & Watkinson Ltd., Acton Lane, London, N.W. 10. Sole Agents: Healey & Gresham Ltd., 9, Forbes Street, Fort.

## WINE & SPIRITS

Dranibule Liqueur Co. Ltd., 12, York Place, Edinburgh 1. Agents: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 28.

Wm. Gaymer & Co., Ltd., Attleborough-Norfolk, England. Agents: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 28.

Martell & Co., Cognac, France. Agents: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 28.

## WIRE BRUSHES

Gem Brushes (Luton) Ltd., Gem Works, Minerva Road, Park Royal Road, London, N.W. 10. Sole Agents: Datson, Raviraj & Co., 43, Tamarind Lane, Fort, Bombay. Phone: 39333.

## WIRE PRODUCTS

Firth Co. Ltd., England. Mfrs. of High Carbon Basic and Acid Steel Wires and other Steel Products. Sole Agents in India: Alsales Ltd., 9, Wallace Street, Bombay 1.

Somerset Wire Co. Ltd., Somerset. Wire for Rope and Spring Making, Pre-stressed Concrete Wire. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

## WIRE ROPE MANUFACTURERS

Allan Whyte & Co. Ltd. (Unit British Ropes Ltd.), Glasgow. Wire Ropes. Agents: Shaw Wallace & Co. Ltd., 3, Wittet Road, Ballard Estate.

HALL'S BARTON ROPE CO., LTD., 100, New Cleveland Street, Hull, England. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

JOHN SHAW LTD., Worksop, England. Manufacturers of Steel Wire Ropes. Representatives for Bombay: Eastern Trading & Engineering Co., Alice Building, 3rd Floor, 339, Dr. Dadabhoi Naoroji Road, Fort, Bombay.

Thos. Holdsworth & Sons Ltd., Drighlington, England. Sole Agents in India: Anil Private Ltd., 57 Stock Exchange, New Building, Apollo Street, Fort, Bombay 1.

Whiteross Co. Ltd., England. Wire Ropes. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Wm. Jas. Glover & Co., Ltd., Lancashire, England. Agents: Keshavnal Naraldas Jullwala, 157, Abdul Rehman Street, Bombay 3.

Wright's Ropes Ltd., Steel wire ropes of all descriptions. Sole Agents: William Jacks & Co., Ltd., Hamilton House, Graham Road, Ballard Estate.

## WIRELESS TRANSMITTERS & APPARATUS

Air Associates Inc. Electronic Equipment Division, 511, Joyce Street, Orange, New Jersey, U.S.A. Agents: Hindco, 27, New Queen's Road, Bombay 4.

Nera, P.B. 4060, Pilostredet 75c, Oslo, Norway. Agents: E. W. Stevens & Co. Private Ltd., 4, Ballard Road, Bombay 1.

Radio Corporation of America, RCA Building, 30, Rocketteller Plaza, New York 20, N.Y., U.S.A. Agents: E. W. Stevens & Co. Private Ltd., 4, Ballard Road, Bombay 1.

Robertson Radio-Elektro, P.O. Box 75, Eggersund, Norway. Agents: E. W. Stevens & Co. Private Ltd., 4, Ballard Road, Bombay 1.

Varco Manufacturing Co., Washington D.C., U.S.A. Agents: Hindco, 27, New Queen's Road, Bombay 4.

## WIRES & CABLES

Charles Hirst & Sons Ltd., England. Hardened & Tempered Steel Card Wire. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

George Clayton Ltd., England. Polished Flat Iron Reed Wire. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

John Rigby & Sons Ltd., England. Steel Wire for Springs, Planos, Stitching, Rods, Screws, Pins, Drawn Pinion Sections & Powder Metallurgy Products, Paper Clips, etc. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

## WOOD PULP

FINNISH CELLULOSE ASSOCIATION, 5 Esplanadgatan 2, Helsinki, Finland. Representatives: James Finlay & Co., Ltd., P.O. Box No. 73, Bombay 1.

## WOOD TREATMENT

Pratchitt Brothers Ltd., Denton Ironworks, Carlisle, England. (Timber Impregnating Plant). Sole Concessionaires: Greaves Cotton & Co., Ltd., 1 Forbes Street, Fort.

## WOODWORKING & FLOUR MILLING MACHINERY

Albert Fezer, Germany. Spindle Moulding Machines and Other Wood Working Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Emil Sachs, Germany. Thicknessing Planner, Heavy Duty Smooth Planing, Jointing and Moulding Machines, Upright Chain Mortising machines, tenoning & Slotting Machines and other wood working machinery. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Gebruder Canall, Germany. Woodworking Machinery & Wood Wool Manufacturing Machinery. Agent: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Mafell Maschinenfabrik, Germany. Powerful Portable and Stationary Woodworking Machines, like Saws, Routers, Jointers, Planers, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Max Striffler K. G., Germany. Complete Range of Portable Woodworking Tools. Pattern Making Machines. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Thomas Robinson & Son Ltd., Rochdale. Woodworking and Flour Milling Machinery. Sole Agents: Marshall, Sons & Co., (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

### WOODWORKING TOOLS

ELSWORTH LTD., Sheffield, England. Manufacturers of Woodworking Saws and Woodworking Tools. Agents: Gaytee & Co., Jannabhoomi Chambers, Fort Street, Bombay. Phone: 32449. Grams: "IMPENG."

Sheffield & Haleshire Hack Saw Co., Ltd., Sheffield, England. Agents: Keshavlal Naraldas Jaliwala, 157, Abdul Rehman Street, Bombay 3.

Wadkin Ltd., England. Woodworking Machinery of all types, viz., Planers, Moulders, Routers, etc. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

### WOOL AND HAIR

Hill & Sons Ltd., Sir James, Bradford. Wools Merchants & Top Makers. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

Nettl, Dyson & Co., Ltd., Bradford. Merchants: Wools, Hairs, Tops, Nolls, Wastes, etc. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

William Hunter & Co (Wool Export) Ltd., Bradford. Wool Merchants and Top Makers. Sole Agents: The Anglo-Thal Corporation Ltd., Ewart House, Bruce Street.

### WOOLLEN PIECEGOODS

Kelsall & Kemp Ltd., Rochdale. Manufacturers of woollen piecegoods. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

### WORKSHOP MACHINES

B. O. Morris Ltd., England. "Morrisflex" Flexible Shatt Equipment for Motor Garages, Workshops and for Boiler Descaling. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Berg & Schmidt, Germany. Power Driven Rail Saws, Hammer Drills, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

C & J. Fein, Germany. Heavy Duty Portable Electric Drills with Universal Motors, 440 volts A.C. Drills, Slow Speed Drills, Multispeed Drills, Right Angle Drills and Attachments, Screw Drivers, Impact Wrenches, Valve Grinders, Tappers, Tool Post & Precision Lathe Grinders, Brake Drum & Journal Grinders, Shears, Nibblers, Pipe Cutting Saws, Stone (Rock) Drilling Machines, Hammers, etc. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Lawler Ayers & Co Ltd., England. Hydraulic Head Operated Tube Bending as well as power operated Bending & Cutting

Machinery for Pipes & Bars. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Remsverk Germany, Germany. Ratchet Operated, Tangential Pipe Dies. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

Wandsbeker Werkzeug Gesellschaft, Germany "Bar-on" Range of Metal Cutting Machinery. Agents: Armstrong Smith Private Limited, Gresham Assurance House, Sir Phirozshah Mehta Road, Post Box No. 185, Bombay 1.

### WRAPPING AND PACKING MACHINES

Rose Bros. (Gainsborough) Ltd., Gainsborough, England. Wrapping & Packing Machines for all purposes, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort.

### YARN

Adolfo Viti and Fratello, Genova, Italy. Spun Silk Yarns "Parrot" brand. Sole Agents for India: Darshimul Tandon & Co., Victoria Building, Parsee Bazar Street, Fort, Bombay 1. Phone: 33995.

F. Kanematsu & Co., Ltd., Osaka, Japan. Woollen Worsted Yarns. Agents: Darshimul Tandon & Co., Victoria Building, Parsee Bazar Street, Bombay 1. Phone: 33995.

George Andrew & Sons Ltd., Manchester. Cotton & Art Silk Yarn. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

### ZIP FASTENERS

FLASH FASTENERS LTD., 186-197, Bedford Avenue, Trading Estate, Slough (Bucks), England. Sole Agents: L. R. Trading Co., Navsari Chambers, opp. Lloyds Bank, Fort.

# SIEMENS

The manufacturing programme of Siemens-Schuckertwerke includes

The work of Siemens  
extends  
to every sphere of  
electrical engineering

## POWER SUPPLY EQUIPMENT

Thermal and Hydroelectric Power Stations, Substations, Transformer and Converter Stations, Switching Stations, Control Rooms, Overhead Lines and Underground Cable Systems, Turbo sets, Steam Turbines, Generators, Transformers, Reactors, Rectifiers and Inverters, Capacitors, High voltage and Low voltage Switchgear, Relays, Automatic and Remote Control Equipment, Regulating Equipment, System and Machine Protection Equipment

## INDUSTRIAL EQUIPMENT

Electrical Equipment of Mines, Smelting Works, Rolling Mills, Chemical Works, Manufacturing and Refining Works, Special Drives, Control, Switching and Regulating Equipments for all types of Industrial Works, Electrical Equipment for Cranes, Lifts and other Hoists, Welding Sets, Medium and High frequency equipment for industrial purposes, Infrared Equipment, Ultraviolet Radiation Equipment

## ELECTRICAL EQUIPMENT FOR TRANSPORTATION

Electric Main line Railways, Tramways, Trolley Buses and Lines, Works and Mine Railways, Overhead Trolley Lines, Power Supply Equipment, Electrical Equipment for Ships, Harbours, Shipyards and Airports, including Lighting Equipment

## LIGHTING, INSTALLATION AND WIRING

Fittings for Incandescent and Fluorescent Lamps, Wiring Material, Cables and Wires, Installation of Power and Light Equipment, Electric Stage Equipment

## MOTORS AND SWITCHGEAR

Pumps and Fans, Electric Tools, Electricity Meters

## ELECTRIC DOMESTIC APPLIANCES

Small Appliances, Space Heating Equipment, Water Heaters, Vacuum Cleaners, Fans, Hand Driers, Laundry Driers, Rotary Ironers, Refrigerators

**INDIAN HUME PIPE CO., LTD.,**

**THE** are the largest Manufacturers in India of Concrete Pipes, Steel Pipes and Concrete Poles. Concrete Pipes manufactured by this Company, better known as "Hume Pipes" and "Homogeneous Pipes" are very extensively used for Water Supply, Drainage, Culverts, Irrigation, etc. They are also used as Cable Conduits, Half-round and One-third round Channels, as well as for Well Sinking, Septic Tanks, Telephone Cabins, Dust Bins, Cattle Troughs, Fencing Posts, Latrines, Policeman Cabins, Pillars, etc.

For High Pressure Mains and Distribution required for Water supply, the Company manufactures Steel Pipes lined and out-coated with Concrete, known as "Hume Steel Pipes." These too are very extensively used and are considered more economical than any other substitutes used for the purpose. During the World War II, the Company started manufacture of Welded Steel Pipes for Penstock requirements of Hydro-Electric Projects.

The R.C. Poles manufactured by this Company have very advantageously replaced the Steel Electricity Poles for both High Tension and Low Tension Transmission Lines. They are also largely used as Lamp Posts in all the big Cities.

Recently the Company has also started manufacturing the Prestressed Concrete Pipes, which can easily stand pressures upto 400 ft head.

The Company have a large network of about sixty factories spread over India, Ceylon and Pakistan. Head Office: Construction House, Ballard Estate, Bombay 1. Telephone No 26 2994. Telegraphic Address "HUMPIPE", Bombay.
